

EPA Hazardous Waste Exports – Transitioning to Electronic Filing at the Border May 8, 2017

RCRA Export Border Process Transition

- **Mandatory Transition** – As of 12/31/16, hazardous waste export requirements includes a mandatory transition from paper to electronic at the border for individual shipments in 40 CFR 262.83(a)(6).

Old paper process

Attach paper documentation of consent (e.g., Acknowledgement of Consent letter or movement document) to the RCRA manifest, or to shipping papers if waste is exempted (e.g. SLABs and universal waste);

Provide transporter with additional copy of RCRA manifest and instruct transporter via mail, email or fax to deliver that copy to the U.S. Customs official at the point the hazardous waste leaves the United States.

New electronic process

Submit Electronic Export Information (EEI) for each shipment to the Automated Export System (AES*) in accordance with 15 CFR 30.4(b), and include EPA-specific information along with the other information required under 15 CFR 30.6.

EPA's Acknowledgement of Consent letter is the equivalent of an export license defined in 15 CFR 30.1, so exporters are required to submit Electronic Export Information (EEI) for each export shipment per 15 CFR 30.2(a)(iv)(F) regardless of shipment value or destination country.

*AES is run by U.S. Customs and Border Protection

Transition Status

| | October-16 | November-16 | December-16 | January-17 | February-17 | March-17 |
|----------------|------------|-------------|-------------|------------|-------------|----------|
| Export Filings | 1,908 | 1,803 | 1,731 | 1,901 | 1,757 | 1,809 |
| % expected | 46% | 43% | 42% | 46% | 42% | 44% |

↑ Pilot ended, transition period began. – 12/31/2016

- During the transition period, exporters can
 - (1) solely follow the paper process
 - (2) solely follow the electronic process
 - (3) test file in AES per the electronic process while instructing the transporter to follow the paper process.
- So far, no significant jump in filings. Do not wait, File Now!
- When the transition period ends, no later than 12/31/17, U.S. exporters MUST follow the electronic process.

***BEFORE you file – Test!
Make sure you can pass the automatic
checks in AES***

What to file....

- **EPA License Required Indicator** - If 'Y', information below is required.
- **EPA Consent Number** - Consent number, including waste stream number, from the Acknowledgement of Consent Letter is mandatory.
 - For example: if your consent number for waste stream one is 007071/12E/13.001, you would remove special characters and provide 007071E13001.
- **RCRA Hazardous Waste Manifest Tracking Number** - EPA RCRA Hazardous Waste Manifest Number (OMB Form # 8700-22) associated with the export is conditionally required if waste is required to be RCRA manifested (not CBP manifested) within the United States.
 - For example: 000024109FLE.
- **EPA Net Quantity Unit of Measure** - Conditionally required if neither CL1 nor CL2 quantity are the unit of measure indicated for the AOC. KG are required if waste is solid, L is required if waste is liquid or sludge.
- **EPA Net Quantity** - Quantity of the export for Unit of Measure provided. Conditionally required if neither CL1 nor CL2 quantity are the unit of measure indicated for the AOC.
 - For example: 000000100.

Roles of Key Parties

Exporter

- Know what you need to file
- Be able to provide all required information (electronically) to Broker/Filer

Software Vendor

- Understand CBP and EPA AESTIR Information
- Program to meet AESTIR Standards
- Complete testing in CERT environment

Broker/Filer

- Test internal systems for correct PGA Line data
- Test in CERT environment
