

# Hazardous Waste Import-Export Final Rule Requirements and Implementation

December 12, 2016

# Agenda

- Webinar Instructions (5 minutes)
- Overview of Requirements (70 minutes)
  - Exports
  - Imports
- Health Break (10 minutes)
- Demo of EPA's Waste Import Export Tracking System (WIETS) and Central Data Exchange (CDX) (85 minutes)
- Converting to Electronic Border Process for Export Shipments (5 minutes)
- Next Steps (5 minutes)

# Export Requirements for Shipments under New Regulation (i.e., w/o Current Consent)

- Exports of hazardous waste under RCRA Parts 262, 266 and 273 under new regulation w/o consent
  - OECD requirements
  - EPA ID numbers
  - Consent numbers on manifest
  - Phase in of electronic process at the border
  - Electronic submittal of export notices using CDX and WIETS
- Exports of CRTs under Part 261
  - Phase in of electronic process at the border
  - Electronic submittal of export notices using CDX and WIETS
- Export of hazardous waste samples over 25 kg

# Where to Find Export Requirements

## 40 CFR 262.83:

- a) general export requirements
- b) notification requirements
- c) RCRA manifest instructions for export shipments
- d) international movement document requirements for export shipments
- e) the exporter's duty to return or re-export (to a third country) export shipments of waste that cannot be managed in accordance with the terms of the contract or consent and cannot be managed at an alternate facility in the country of import
- f) contract requirements
- g) annual reporting requirements
- h) exception reporting requirements
- i) recordkeeping requirements

Questions?

# Requirements for Export Shipments with Consent Issued Prior to 12/31/16

- Export shipments comply with requirements listed in Acknowledgement of Consent (AOC) letter plus two new requirements
  - Converting to electronic process at the border
  - Listing waste stream consent numbers on RCRA manifests

<https://www.epa.gov/hwgenerators/resource-conservation-and-recovery-act-rcra-requirements-previously-consented-exports>

# What is Happening to Export Notices Now

- Paper export notices submitted already are being processed; most are still being reviewed by country of import
  - EPA has reached out to the countries asking them to process consent by 12/30/16 if at all possible
- EPA is no longer accepting paper export notices, as it is impossible to receive consent prior to 12/31/16
- Any paper notice that does not receive consent by 12/31/16 will have to be resubmitted electronically using WIETS with all information required in 40 CFR 262.83(b)

Questions?

# Import Requirements for Shipments under New Regulation (i.e., w/o Current Consent)

- Imports of hazardous waste under Parts 262, 266 and 273 w/o consent
  - OECD requirements
  - EPA ID numbers
  - Consent numbers on manifest
- Import of hazardous waste samples over 25 kg

# Where to Find Import Requirements

## 40 CFR 262.84:

- a) general import requirements
- b) notification requirements when country of export does not control as hazardous waste export
- c) RCRA manifest instructions for import shipments
- d) international movement document requirements for import shipments
- e) the importer's duty to return or export (to a third country) import shipments of waste that cannot be managed in accordance with the terms of the contract or consent and cannot be managed at an alternate facility in the US
- f) contract requirements
- g) Confirmation of recovery or disposal
- h) recordkeeping requirements

Questions?

# Requirements for Import Shipments with Consent Issued Prior to 12/31/16

- Import shipments comply with requirements in force when consent documentation sent to receiving facility plus one new requirement
  - Listing waste stream consent numbers on RCRA manifests

<https://www.epa.gov/hwgenerators/resource-conservation-and-recovery-act-rcra-requirements-previously-consented-imports>

# What is Happening to Import Notices Now

- Import notices submitted by other countries are being processed
- Consent will be required for all import shipments of hazardous waste or hazardous waste samples over 25 kg that occur on or after 12/31/16
- Companies currently importing hazardous waste without consent (e.g., from maquiladora facilities in Mexico) should submit paper import notice to EPA listing all information required in 40 CFR 262.84(b) as soon as possible
- EPA will soon be testing electronic import notices in WIETS

- CDX Registration
- Using WIETS

# About WIETS and CDX

**WIETS** is the United States Environmental Protection Agency (EPA) Waste Import/Export Tracking System responsible for managing hazardous waste notice and reporting data. EPA has extended use of WIETS by hazardous waste importers and exporters to include electronic submission and signature of hazardous waste notices and annual reports. Exporters shipping hazardous waste internationally must use WIETS to electronically submit notices, and may use WIETS to electronically submit annual reports to EPA. Importers submitting notices when the country of origin does not control the shipments as hazardous waste exports will be required to use WIETS to electronically submit notices to EPA at a future date. WIETS is not used for tracking of internal domestic shipments.

**CDX** is the point of entry on the Environmental Information Exchange Network (Exchange Network) for environmental data submissions to the Agency. Its use is supported by the Cross-Media Electronic Reporting Rule (CROMERR) which provides the legal framework for electronic reporting under all of EPA's environmental regulations.

# Different Types of Users

- **Notice Preparers** – Preparers are hazardous waste industry representatives that can enter notice and report data into WIETS but do not have the legal authority to sign or submit notices and reports to EPA. Preparers must be sponsored by a US hazardous waste industry representative with legal authority to sign the notices and reports and must assign a certifier to each notice/report for signature and submission to EPA.
- **Notice Certifiers** – Certifiers are US hazardous waste industry representatives that legally sign off on the hazardous waste notice submissions. Along with being able to enter notice data, certifiers can provide electronic signatures for notices and reports and submit them to EPA.

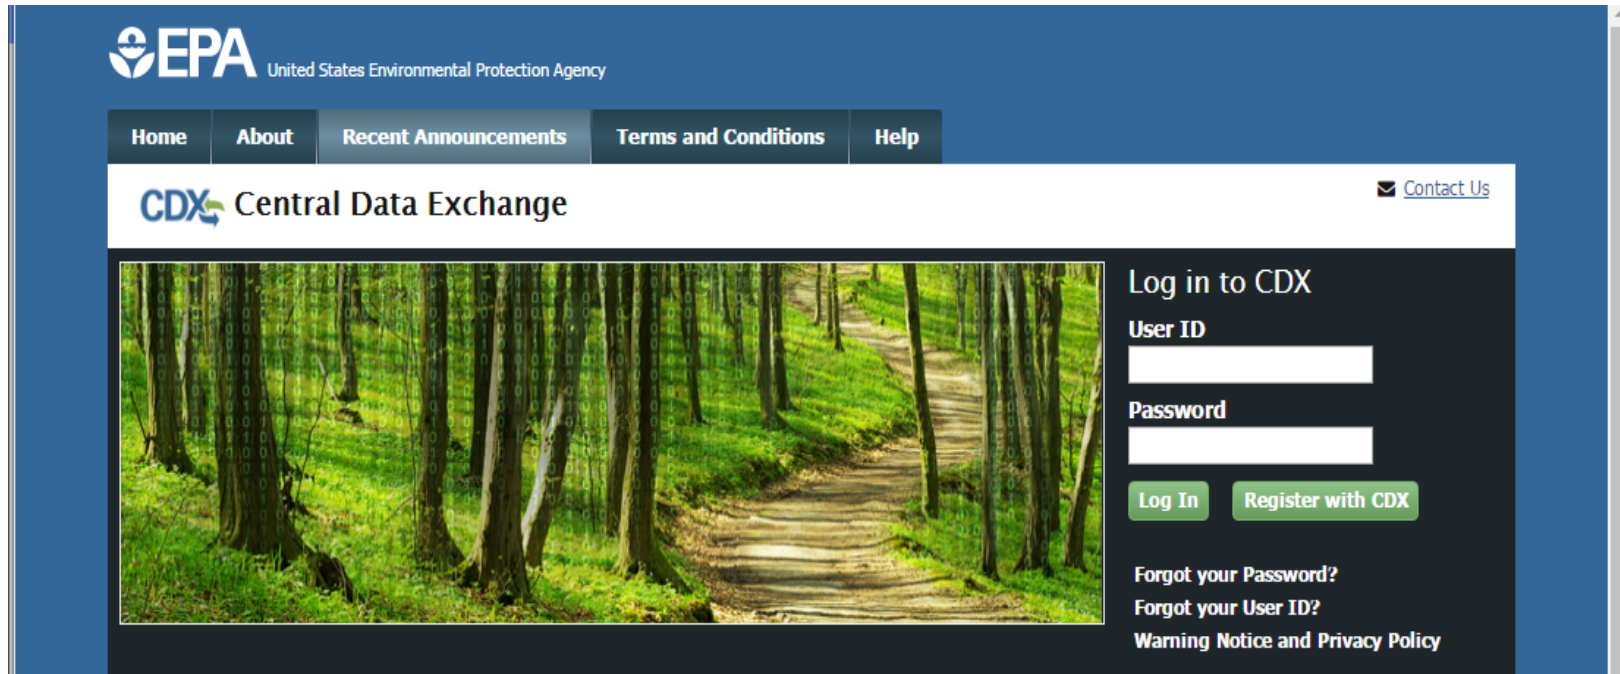

# Signing Up and CDX

Steps Include:

- Creating an account in CDX
- If you are a certifier and will be signing notices and reports, getting the account identity proofed for signing
- Setting up sponsorships between other preparers/certifiers

# CDX Program Selection

When registering, choose “WIETS” as your program service

The screenshot shows the EPA CDX Core CDX Registration interface. At the top is the EPA logo and navigation links: Home, About, Recent Announcements, Terms and Conditions, and Help. A 'Contact Us' link is also present. The main heading is 'CDX Core CDX Registration'. Below this is a progress bar with four steps: 1. Program Service (active), 2. Role Access, 3. User and Organization, and 4. Confirmation. The instructions state: 'Begin typing a program service name or related keywords to filter the list of available services (e.g., air quality system, AQS, or Clean Air Act)'. Under the heading 'Active Program Services List', there is a search input field containing 'wiets'. Below the input field, a result is displayed: 'WIETS: Waste Import/Export Tracking System'. At the bottom left, there is a green 'Cancel' button.

# CDX Role Selection

If you will be signing and submitting notices to EPA, select Certifier as your role from the dropdown list. If you will be preparing notices on behalf of another signing entity, select Preparer. If you are not sure if you are a preparer or certifier, please refer to the WIETS User Roles section above.

1. Identity Verification

2. Electronic Signature Agreement

The program you are registering for requires additional proof of identity. Your options are to use LexisNexis®, an independent 3rd-Party electronic identity proofing service or to print and submit a signed form through U.S. Postal Mail to the U.S. Environmental Protection Agency.

**Note:** By clicking [Proceed to Verification] you understand the service is voluntary and that you are validating personally identifying information including the last 4 digits of SSN against a 3rd-Party service LexisNexis®, which will return evidence of validation of your personally identifying information back to the U.S. Environmental Protection Agency. The U.S. EPA will not collect or retain sensitive, personally identifying information such as your Social Security Number (SSN); however, EPA will receive evidence of identity validation which may be used to identify you for legal purposes.

You may [sign the paper form](#) if you do not want to use the automatic verification process.

**Note:** You will receive a limited number of attempts to complete identity verification. Please review all personal information carefully prior to submitting. If you need to modify the personal information listed below, please contact the [CDX Help Desk](#).

# WIETS Notice Lifecycle

- **Draft:** While notice data is being entered into WIETS, the notice is in Draft status. Both preparers and certifiers can edit these notices. When all notice data is completed, preparers can assign a certifier to the notice for signature, and certifiers can continue to sign and submit the notice to EPA.
- **Awaiting Signature:** These notices have been assigned a certifier and are awaiting review and signature for submission to EPA. Notices in this status are still editable. Once the notice is signed and submitted to EPA, the notice becomes read-only.
- **Pending:** These notices have been signed and submitted to EPA, but no determination (consent or objection) has been made on the notices. These notices are read-only in WIETS.
- **Processed:** These notices have been signed and submitted to EPA and a determination (consent or objection) has been made on the notice. These notices are read-only in WIETS.
