Mining Webinar Series: Eagle Mine Superfund Site Case Study

Sponsored by: U.S. EPA, Office of Superfund Remediation and Technology Innovation, Technology Innovation and Field Services Division

Live Webinar: Tuesday, January 21, 2020, 2:00 PM-3:30 PM EST (19:00-20:30 GMT)

The Eagle Mine Superfund Site near Minturn, Colorado is a prime example of successful EPA and State collaboration overseeing a Potentially Responsible Party conducting cleanup of an abandoned mining and milling complex. Listed on the National Priorities List in 1986, the Site began in 1983 when the State filed for natural resource damages against a PRP pursuant to CERCLA. This case study will present on the Site's technical background, robust remedy, complex regulatory framework and complicated enforcement history. Eagle Mine is a good example of a site nearing completion in the Superfund process; this case study will showcase considerations for a site approaching the finish line.

Items covered will include:

- Transition from an NPDES permit to a CERCLA Permit Equivalent Document
- Nexus of CERCLA and Clean Water Act
- Impacts of an unenforceable Consent Decree
- Site strategy for completion
Meet the Speakers

Jamie Miller
EPA Region 8

Jamie Miller is a Remedial Project Manager in the Superfund Division in the EPA Region 8 office in Denver, Colorado. Jamie manages the Eagle Mine Superfund Site and participates as a team member on the Colorado Smelter Superfund Site. Her work load consists solely of remediation focused on mining and smelting related contamination. Prior to joining EPA in 2015, Jamie spent 6 years working as an EPA contractor on the Superfund Technical Assessment and Response Team. She graduated from the University of Central Arkansas in 2006 with a B.S. in Environmental Science, with a focus on Planning and Administration. In her free time, Jamie enjoys running and reading historical fiction!

Kayleen joined EPA Region 8 in 2016 as Assistant Regional Counsel in the Superfund practice group of the Legal Enforcement Branch. Kayleen’s practice focuses on complex corporate succession, bankruptcy, reuse, and redevelopment in the context of CERCLA. Before EPA, she clerked for a judge on the Colorado Court of Appeals. She graduated from the Indiana University Kelley School of Business in 2012 with high distinction and from Indiana University Maurer School of Law in 2015 magna cum laude. When she is not working, you can find her rock climbing and mountain biking. She also loves training her German Shepherd Dog, Ranger.
