

Welcome to the CLU-IN Internet Seminar

TABEZ - Free E-Tool to Facilitate Writing of EPA Assessment and Cleanup Grants

Sponsored by: U.S. EPA Region 5

Delivered: September 8, 2010, 2:00 PM - 3:30 PM, EDT (18:00-19:30 GMT)

Instructors:

Sabine E. Martin, Kansas State University, Center for Hazardous Substance Research (smartin1@ksu.edu)

Deborah Orr, U.S. EPA Region 5 (orr.deborah@epa.gov)

Moderator:

Jean Balent, U.S. EPA, Technology Innovation and Field Services Division (balent.jean@epa.gov)

Visit the Clean Up Information Network online at www.cluin.org

1

Housekeeping

- Please mute your phone lines, Do NOT put this call on hold
 - press *6 to mute #6 to unmute your lines at anytime
- Q&A
- Turn off any pop-up blockers
- Move through slides using # links on left or buttons

- This event is being recorded
- Archives accessed for free <http://clu.in.org/live/archive/>

2

Although I'm sure that some of you have these rules memorized from previous CLU-IN events, let's run through them quickly for our new participants.

Please mute your phone lines during the seminar to minimize disruption and background noise. If you do not have a mute button, press *6 to mute #6 to unmute your lines at anytime. Also, please do NOT put this call on hold as this may bring delightful, but unwanted background music over the lines and interrupt the seminar.

You should note that throughout the seminar, we will ask for your feedback. You do not need to wait for Q&A breaks to ask questions or provide comments. To submit comments/questions and report technical problems, please use the ? Icon at the top of your screen. You can move forward/backward in the slides by using the single arrow buttons (left moves back 1 slide, right moves advances 1 slide). The double arrowed buttons will take you to 1st and last slides respectively. You may also advance to any slide using the numbered links that appear on the left side of your screen. The button with a house icon will take you back to main seminar page which displays our agenda, speaker information, links to the slides and additional resources. Lastly, the button with a computer disc can be used to download and save today's presentation materials.

With that, please move to slide 3.

Deborah Orr, Brownfields Coordinator
Region 5
TAB EZ Webinar

Introduction
September 2010

TAB EZ

(www.tabez.org)

Sabine E. Martin, Ph.D., P.G.

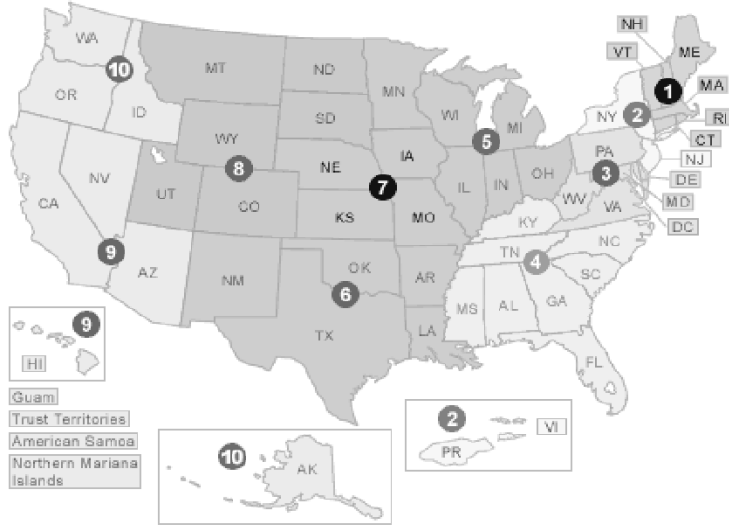

**Center for Hazardous Substance Research
Kansas State University
September 2010**

Technical Assistance to Brownfield (TAB) Communities

- A national program
- Funded by EPA
headquarters via grants to 4
different entities
- **Free** to communities
- K-State assists communities
in EPA Regions 5 and 7

EPA Regions

TAB Assistance to Communities

- **Tailored to specific community needs**
- **Typically coordinated through the city, tribal or non-profit brownfields project manager**
- **May include:**
 - Help identifying funding sources for revitalization projects
 - Review of EPA and other grant applications
 - Help finding a consulting firm
 - Review of project plans, technical reports
 - Assistance with community outreach/involvement
 - Educational workshops and redevelopment visioning
 - Other assistance, as needed and agreed upon
- **Communities accepted on a 'first come' basis**
- **Depends on staff/funding availability**

Special Projects

Web - based software: TAB EZ

www.tabez.org

The screenshot shows the home page of the TAB EZ website. At the top left is the TAB EZ logo, which includes a tree icon and the text "TAB EZ". To the right of the logo are links for "Login", "Register", and "Contact Us / Feedback". Below the logo is a navigation bar with links for "HOME", "GRANT APPLICATIONS", "RESOURCES", "SEARCH", and "HELP". The main content area is titled "Home" and contains a "Welcome to TAB EZ" message. The message explains that TAB EZ is a grant writing tool for EPA brownfields grant proposals, currently focusing on assessment and cleanup grants. It lists what the tool can do (provide a framework and reduce writing time) and what it cannot do (write specific requests). It also includes a registration notice and a deadline for FY2011 grant proposals. At the bottom of the page, there are two buttons: "GRANT APPLICATIONS HOME" and "TAB EZ TUTORIAL".

HOME GRANT APPLICATIONS RESOURCES SEARCH HELP

Home
Home
Welcome to TAB EZ

Technical Assistance to Brownfields communities (TAB) easy brownfields grant application (EZ) software program

TAB EZ is a grant writing tool to be used for preparation of EPA brownfields grant proposals. Currently, TAB EZ only addresses assessment and cleanup grants; RLF grant proposal outlines may be added at a later date.

What TAB EZ can do:
TAB EZ provides a framework for your proposal and provides strategies and links to reduce time in writing the proposal.

What TAB EZ can not do:
TAB EZ can not write a specific and compelling request for Brown-field grant funding for you. It's your proposal and you need to incorporate your ideas and approaches!

Using this tool is not a substitute for reading the grant guidelines!

While we put a lot of information from the guidelines into TAB EZ, there is also information we did not include. Please read the guidelines at the EPA brownfields web page. Also, a copy of the guidelines can be found in TAB EZ under "Resources".

Register prior to use
While the use of TAB EZ is free, you must be a registered user to prepare a grant application via TAB EZ. Please register by clicking on "Register" in the upper right hand corner of the TAB EZ window.

TAB EZ was updated to be consistent with the FY2011 brownfields grant guidelines.
!!!The deadline to submit your FY2011 grant proposal is October 15, 2010!!!

GRANT APPLICATIONS HOME TAB EZ TUTORIAL

TAB EZ

Free, online tool
developed to
simplify the EPA
Brownfields grant
application process

Background

- **Prototype developed by Purdue University with EPA TAB funding (Midwest Hazardous Substance Research Center)**
- **Center for Hazardous Substance Research at Kansas State University developed latest version, released on September 4, 2008**

WHY TAB EZ?

- **Levels playing field for small/ rural communities, disadvantaged cities and towns and not-for-profits**
- **Tool is time and place independent: flexibility critical to community resources that are stretched to capacity**
- **Integrates brownfield education with support for all stakeholders**

What TAB EZ CAN and Can NOT do

TAB EZ can:

- provide a framework for the Community's proposal
- provides strategies and links to reduce time in writing the proposal

TAB EZ cannot:

- write a specific and compelling proposal for you
It's your proposal!

**TAB EZ is NOT a substitute
for reading the grant
guidelines!!!**

Features and Benefits to Users

- **User friendly and can be accessed anytime at the user's own pace**
- **Integrates Brownfield education with online support: definitions, regulatory citations and pertinent federal/state web links**
- **Helpful Hints for every criteria to be addressed**

About

Home > About

Kansas State University (KSU)

Kansas State University provides subject matter expertise, application development and content to the TAB EZ application. KSU is a comprehensive research land-grant institution first serving students and the people of Kansas, and also the nation and the world. Since its founding in 1863, the University has evolved into a modern institution of higher education, committed to quality programs and responsive to a rapidly changing world and the aspirations of an increasingly diverse society. The Center for Hazardous Substance Research (CHSR) at KSU operates the Technical Assistance to Brownfields communities (TAB) program for EPA regions 5 and 7 with grant funding from the United States Environmental Protection Agency (EPA).

CABEM Technologies

CABEM provides the software development, application development and creative design expertise for TAB EZ. CABEM technologies designs, builds, provides and integrates IT solutions tailored to the needs of each customer with specialization in workflow automation, real time enterprise and custom software systems. Initially founded to help small to medium size businesses, today CABEM is providing solutions to progressive companies of all sizes, academic institutions and the military.

United States Environmental Protection Agency (EPA)

Funding for TAB EZ is provided by EPA through a grant to the KSU CHSR.

GRANT APPLICATIONS HOME

TAB EZ TUTORIAL

Source: EPA/903/r-11-001, Terms of Use: 11/20/2010

The screenshot shows a web browser window displaying the TAB EZ website. The browser's address bar shows the URL: <http://www.tabez.org/resourcematerial/TAB%20EZ%20Tutorial%20FY10.p>. The browser interface includes a search bar, navigation buttons, and a toolbar with a zoom level of 58.9%.

The main content area of the browser displays the TAB EZ website. At the top, the TAB EZ logo is visible, followed by the text "TUTORIAL – USE TAB EZ TO WRITE A BROWNFIELDS GRANT PROPOSAL". Below this, there is a "HOME" section. The website content includes a "Welcome to TAB EZ" message, a "Grant Applications" section, and a "TAB EZ Tutorial" section. A prominent message states: "!!!!THE DUE DATE FOR PROPOSALS IS NOVEMBER 14, 2008!!!!".

Annotations with arrows point to various elements on the website:

- An arrow points to the "Register" link in the top right corner, with the text: "Register to use the proposal writing tools under Grant Applications".
- An arrow points to the "Home" link in the top navigation bar, with the text: "Navigate to other pages using the top toolbar".
- An arrow points to the "Quick Links" section, with the text: "Use Quick Links to see specific TAB EZ content".
- An arrow points to the "GRANT APPLICATIONS HOME" icon, with the text: "Click an icon to open Grant Applications Home or the TAB EZ tutorial".
- Another arrow points to the "TAB EZ TUTORIAL" icon, with the text: "Click an icon to open Grant Applications Home or the TAB EZ tutorial".

The browser's status bar at the bottom shows "Done" and "Unknown Zone".

Assessment Grants

Funds to inventory, characterize, assess, and conduct cleanup planning and community involvement related to brownfield sites.

Brownfields Law

The Small Business Liability Relief and Brownfields Revitalization Act requires the EPA to publish guidance to assist applicants in preparing proposals for grants to assess and clean up brownfield sites.

Brownfields Program

EPA funding and support provided to states, communities, tribes, and nonprofits to prevent, inventory, assess, clean up, and reuse brownfield sites.

Brownfields site

Real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of hazardous substances, pollutants, contaminants, controlled substances, petroleum or petroleum products, or is mine-scarred land. Includes all "real property," including residential, as well as commercial and industrial properties.

Cleanup Grants

Funds to carry out cleanup activities at a specific brownfield site owned by the applicant.

Construction & Demolition

An EPA initiative to recycle building materials. Resources and information available at <http://www.epa.gov/CDmaterials/recycle.htm>.

Continuing Obligations

Applicants that own contaminated land should be aware that some CERCLA liability protections require that the site owner meet certain continuing obligations. For example, grantees must comply with land-use restrictions and institutional controls, take reasonable steps with respect to the hazardous substances on the property, cooperate with, assist, and allow access to authorized representatives; and comply with CERCLA information requests and subpoenas and provide legally required notices. For more information on the obligations of owners of contaminated property, see EPA's Common Elements Reference Sheet at <http://www.epa.gov/compliance/resources/policies/cleanup/superfund/common-elem-ref.pdf>.

Cost share

A contribution of money, labor, material or services that support eligible project activities and originate from a source other than EPA.

Eminent domain

In public law, the right or power to take private property for public use.

Environmental authority

A government agency or office empowered to make decisions regarding environmental policies and protections.

Environmental buffers

Land left in its natural state or revegetated to provide a buffer between human activities and wildlife habitat.

Environmental insurance

Insurance products that allow economic risks associated with brownfields to be quantified. This makes investment decision-making easier for developers and other investors and provides lenders confidence to make loans. Environmental insurance is one tool used in a larger risk management strategy.

Environmental oversight

Usually, the U.S. EPA or the appropriate state agency provides oversight and approval of brownfields cleanup plans.

Greenspace

Areas redeveloped for uses such as parks, recreation areas, greenways, or environmental buffers.

Hazardous substance

Frequently Asked Questions

Can lost text be recovered?

No, not if you didn't save it.

How can I avoid losing the text that I typed into my grant proposal?

Save your work often by clicking on the save button at the bottom of the page. TAB EZ does not automatically save your work. Before selecting to view another page in TAB EZ, or to open a link outside of the proposal writing area, save your work.

How can I report a problem?

Please send your comments by using the Contact Us/Feedback feature. We will address all comments. Check "please contact me" if you want a reply from the TAB EZ team.

When I opened a link, the new page was outside of TAB EZ. How do I get back to TAB EZ?

Please use the back arrow of your browser to return to the previous page in TAB EZ.

Who Designed the TAB EZ Application

TAB EZ was first developed by Purdue University. The current improved version was designed by Kansas State University and Cabem Technologies, Inc.

Why Must I Register to Use TABEZ?

You may view TAB EZ content on the Home page, Resources, and Help. You may also use the Search feature to find content within TAB EZ. However, you must register to use the proposal writing feature under Grant Applications. When you register, a space is set up for you to write your proposal and collaborate with your proposal team. Other TAB EZ users cannot see your work, unless you invite specific participants.

Welcome to TAB EZ

Technical Assistance to Brownfields communities (TAB) easy brownfields grant application (EZ) software program

TAB EZ is a grant writing tool to be used for preparation of EPA brownfields grant proposals. Currently, TAB EZ only addresses assessment and cleanup grants; RLF grant proposal outlines may be added at a later date.

What TAB EZ can do:

TAB EZ provides a framework for your proposal and provides strategies and links to reduce time in writing the proposal.

What TAB EZ can not do:

TAB EZ can not write a specific and compelling request for Brownfield grant funding for you. It's your proposal and you need to incorporate your ideas and approaches!

Using this tool is not a substitute for reading the grant guidelines!

While we put a lot of information from the guidelines into TAB EZ, there is also information we did not include. Please read the guidelines at the EPA brownfields web page. Also, a copy of the guidelines can be found in TAB EZ under "Resources".

Register prior to use

While the use of TAB EZ is free, you must be a registered user to prepare a grant application via TAB EZ. Please register by clicking on "Register" in the upper right hand corner of the TAB EZ window.

TAB EZ was updated to be consistent with the FY2011 brownfields grant guidelines.

!!!The deadline to submit your FY2011 grant proposal is October 15, 2010!!!

Cleanup Grant Configuration

Home > Grant Applications > cleansite > Application Configuration

Please select the type of contamination on the site, hazardous substances, petroleum, or both. Your selection will determine which sections of the proposal outline are available for editing (adding text). Sections that are not required for the type of contamination you choose will be unavailable for editing. At any time, you may select "Application Configuration" under "In This Section" in the lefthand green sidebar to change these choices and the configuration of your proposal outline.

What type of contamination will be addressed with the grant funding?

- Hazard Substance
- Petroleum
- Both

Apply

Welcome to TAB EZ
Technical Assistance to Brownfields communities (TAB) easy brownfields grant application (EZ) software program

TAB EZ is a grant writing tool to be used for preparation of EPA brownfields grant proposals. Currently, TAB EZ only addresses assessment and cleanup grants; RLF grant proposal outlines may be added at a later date.

What TAB EZ can do:
TAB EZ provides a framework for your proposal and provides strategies and links to reduce time in writing the proposal.

What TAB EZ can not do:
TAB EZ can not write a specific and compelling request for Brownfield grant funding for you. It's your proposal and you need to incorporate your ideas and approaches!

Using this tool is not a substitute for reading the grant guidelines!

While we put a lot of information from the guidelines into TAB EZ, there is also information we did not include. Please read the guidelines at the EPA brownfields web page. Also, a copy of the guidelines can be found in TAB EZ under "Resources".

Register prior to use
While the use of TAB EZ is free, you must be a registered user to prepare a grant application via TAB EZ. Please register by clicking on "Register" in the upper right hand corner of the TAB EZ window.

**TAB EZ was updated to be consistent with the FY2011 brownfields grant guidelines.
!!!The deadline to submit your FY2011 grant proposal is October 15, 2010!!!**

Assessment Grant Configuration

Home > Grant Applications > mytown > Application Configuration

Please select the type of assessment grant proposal you wish to write, community-wide or site-specific. Also, select the type of contamination you need to address, hazardous substances, petroleum, or both. Your selections will determine which sections of the proposal outline are available for editing (adding text). Sections that are not required for the type of grant and type of contamination you choose will be unavailable for editing. At any time, you may select "Application Configuration" under "In This Section" in the lefthand green sidebar to change these choices and the configuration of your proposal outline.

You are allowed to apply for more than one assessment grant. Open the [Assessment Grant Options Summary Table](#) to view your options.

Applicants exceeding the maximum number of proposals allowable for assessment grants will be contacted by EPA, prior to review of any of the proposals, to determine which proposals the applicant will withdraw from the competition.

Quick Links:

What type of contamination will be addressed with the grant funding?

- Hazard Substance
- Petroleum
- Both

What is the scope of your proposed project?

- Community Wide
- Site Specific

Cleanup, Important Information, READ ME

Home > Grant Applications > clean1 > Cleanup, Important Information, READ ME

Narrative Proposal - General requirements

The narrative proposal includes all applicable responses to threshold criteria (see section III.C. of the guidelines) and responses to all ranking criteria (see section V.B. of the guidelines). The narrative proposal must be clear, concise, and specifically address all of the applicable threshold and ranking criteria. Responses to the criteria must include the criteria number and title (TAB EZ will do this automatically for you) but need not restate the entire text of the criteria. Proposals must provide sufficient detail to allow for an evaluation of the merits of the proposal. Factual information about your proposed project and community must be provided. Do not include discussions of broad principles that are not specific to the proposed work or project covered by your proposal.

Make sure you address all required criteria and every component of the respective criteria. If it appears at first that a criterion is not applicable to your project, take a real hard look at your project to make sure there is absolutely nothing that is relevant to this particular criterion. Example: Unless a project involves creation of a park or other greenspace features, applicants often think that the "greenspace" criterion is not applicable to their project. However, most projects have some feature that does apply to greenspace creation/preservation, even if it is "only" the preservation of greenspace because a brownfield is being revitalized, instead of building on a greenfield. If you really cannot find a link between your project and a required criterion, say so and explain why. Provide an answer to every section of the proposal outline.

Aside from providing the required information in your proposal, be sure to link that information to your project. Example: If you quote statistics, be sure to explain why and how the figures are relevant to your project.

Page Limitations, Required Font Size, Attachments:

The narrative proposal shall not exceed 18 single spaced pages. Any pages submitted over the page limit will not be evaluated by EPA. When using TAB EZ, the program will count the characters of each section you write and give you that number under "Character Count" above the text box. On the "Application Outline" screen, you will see the total count for your narrative proposal as well as the individual character count for each section. As a guideline: An 18 page narrative with font size 12 will have between 60,000 and 70,000 characters.

The narrative proposal must be typed, on letter-sized paper, with a standard font size no smaller than 12 point and 1-inch margins. In TAB EZ, the font size is set by default to 12 and you will not be able to change that while working on your section text in TAB EZ.

Only required attachments are allowed by EPA. No other attachments will be considered.

Refer to the sections indicated in the grant outline for detailed instructions on what to include in your proposal.

"Polishing" your Proposal

After you export what you wrote in TAB EZ to a WORD document, make sure you read through your entire proposal and edit where necessary. Especially, you'll need to polish your transmittal letter as TAB EZ will only make sure you provide the required information. It is up to you to write a compelling transmittal letter.

Availability of EPA to answer questions

EPA regional brownfields coordinators will be available to answer eligibility questions and any questions general in nature pertaining to your grant application throughout the competition period. When in doubt, call EPA!

Section Title: Eligible Entity

Section Instructions: Applicants must demonstrate how they are an eligible entity for a cleanup grant. Refer to the description of applicant eligibility in section III.A. Who Can Apply? For entities other than cities, counties, tribes, or states, please attach documentation of your eligibility (e.g., resolutions, statutes, etc.). **If you are a nonprofit organization, you must provide documentation, as an attachment to this proposal, indicating nonprofit status. Failure to do so may render your proposal ineligible for review.** HELPFUL HINT

Section Title: Continuing Obligations

Section: Continuing Obligations

Instructions: Describe in detail the specific appropriate care that you exercised (or if you have yet to acquire the property, that you will exercise upon acquiring the property) with respect to hazardous substances found at the site by taking reasonable steps to:

- Stop any continuing releases;
- Prevent any threatened future release; and
- Prevent or limit exposure to any previously released hazardous substance.

Please confirm your commitment to:

- Comply with all land-use restrictions and institutional controls;
- Assist and cooperate with those performing the cleanup and provide access to the property;
- Comply with all information requests and administrative subpoenas that have or may be issued in connection with the property; and
- Provide all legally required notices.

Section Title: Budget for EPA Funding and Leveraging Other Resources (10 Points)

Section Instructions: Here you will create your budget table and write your budget narrative outlining and explaining your project tasks.

Character Count: Section Not Started

Comments:

Add Comment

Instructions:

V.B.2.b.i Budget Table (5 points)

Use the budget table tool below to identify specific tasks for which EPA funding will be used. Show the costs (by budget category) associated with each task. Applicants requesting hazardous substance and petroleum funding in the same proposal must provide either two separate budget tables, or two separate line items within one budget table, that shows the planned petroleum and hazardous substance funded activities. In addition to the budget table, describe each task in detail, including the basis for the estimated cost as well as the projected outputs where possible (e.g., five tank pulls at a cost of \$13,000 per tank for a total of \$65,000). (Refer to Section I.E. of the guidelines for a definition and examples of "outputs").

Do not include tasks for activities or costs that are ineligible uses of funds under EPA's cleanup grant (e.g., land acquisition, building demolition that is not necessary to cleanup contamination at the site, building or site preparation, or administrative costs, such as indirect costs). Please refer to the Brownfields FAQ at: http://www.epa.gov/brownfields/proposal_guides/FY11_FAQs.pdf for additional examples of ineligible uses of funds. For questions not covered by the FAQ, contact your Regional Coordinator.

Reminder on additional use of grant funds described in Section I.B of the guidelines: A local government (does not include state or tribal governments) may use up to 10 percent of its grant funds for health monitoring of populations, monitoring and enforcement of institutional control(s), or other related program development and implementation activities.

Setting up your Budget Table:

Follow the instructions in the text box below and the sample budget table from the guidelines will come up. Note: You will have to scroll down to see all the instructions. Do not forget to save once you entered your data!

Importing your own Budget Table:

http://www.epa.gov/brownfields/proposal_guides/r111_faq5.pdf for additional examples of eligible uses of funds. For questions not covered by the FAQ, contact your Regional Coordinator.

Reminder on additional use of grant funds described in Section I.B of the guidelines: A local government (does not include state or tribal governments) may use up to 10 percent of its grant funds for health monitoring of populations, monitoring and enforcement of institutional control(s), or other related program development and implementation activities.

Setting up your Budget Table:

Follow the instructions in the text box below and the sample budget table from the guidelines will come up. Note: You will have to scroll down to see all the instructions. Do not forget to save once you entered your data!

Importing your own Budget Table:

Prior to importing your own table, delete the text in the text box below, then paste your own table in. Don't forget to write your narrative below your own table after importing.

Budget Narrative

Write your budget narrative describing your different tasks in detail in the text box below after you complete the budget table.

Welcome to TAB EZ
Technical Assistance to Brownfields communities (TAB) easy brownfields grant application (EZ) software program

TAB EZ is a grant writing tool to be used for preparation of EPA brownfields grant proposals. Currently, TAB EZ only addresses assessment and cleanup grants; RLF grant proposal outlines may be added at a later date.

What TAB EZ can do:
TAB EZ provides a framework for your proposal and provides strategies and links to reduce time in writing the proposal.

What TAB EZ can not do:
TAB EZ can not write a specific and compelling request for Brownfield grant funding for you. It's your proposal and you need to incorporate your ideas and approaches!

Using this tool is not a substitute for reading the grant guidelines!

While we put a lot of information from the guidelines into TAB EZ, there is also information we did not include. Please read the guidelines at the EPA brownfields web page. Also, a copy of the guidelines can be found in TAB EZ under "Resources".

Register prior to use
While the use of TAB EZ is free, you must be a registered user to prepare a grant application via TAB EZ. Please register by clicking on "Register" in the upper right hand corner of the TAB EZ window.

TAB EZ was updated to be consistent with the FY2011 brownfields grant guidelines.
!!!The deadline to submit your FY2011 grant proposal is October 15, 2010!!!

Contact Us and Feedback

Home > Contact Us and Feedback

Contact

When you contact us for assistance, we will return your call or email as soon as possible to let you know the status of your request. Concerns and questions will be addressed in the order received.

Feedback

We value your feedback. Thank you for taking the time to provide comments about your experience using TABEZ. When providing feedback please let us know what sections of TAB EZ your feedback applies to, i.e. particular sections of the assessment or cleanup grant application outline, helpful hints, resources, etc. If there are any problems with the links incorporated in TAB EZ, please let us know exactly which links do not work and where they are located within TAB EZ. The more detailed you can be, the easier and faster it will be for us to address any problems with TABEZ. In addition, if you have any suggestions for enhancements of TAB EZ, please let us know. This is the second release of TAB EZ and your suggestions and comments will be used to schedule improvements.
