TRAINING OVERVIEW

Benefits of Using Partnerships to Address Abandoned Mine Lands (AMLs)
Identifying Partners
Developing and Maintaining Relationships
Defining Success/Developing Shared Goals
Celebrating Success
BENEFITS OF USING PARTNERSHIPS

Developing Watershed Partnerships
BENEFITS OF USING PARTNERSHIPS

Allow for a more holistic and comprehensive approach to cleanup and restoration

Enhance relationships between agencies, and the community
IDENTIFYING PARTNERS
IDENTIFYING PARTNERS

Who are your neighbors?
Are there any watershed groups already established?
What are the impacts, and who may be concerned?
DEVELOPING RELATIONSHIPS

Creating an environment for open communication and transparency

Develop an understanding of roles and responsibilities, including relevant authorities

Partnerships are not one size fits all, and may vary on the need for formal agreements
DEVELOPING RELATIONSHIPS CONTINUED

Developing a common understanding

Developing shared goals and timeframes
MAINTAINING RELATIONSHIPS

Providing opportunities for continued communication/collaboration

Overcoming turnover of key members
MAINTAINING RELATIONSHIPS

Dealing with difficult conversations

Resources that are available
DEFINING SUCCESS AND DEVELOPING SHARED GOALS

Developing Watershed Partnerships
DEFINING SUCCESS AND DEVELOPING SHARED GOALS

Provide time and space to talk about individual goals and what success means to the different participants

Identify common themes amongst the individual goals

Work together to determine shared goals

Determine what success means with the shared goals

Monitoring and documenting conditions needs to be a priority
DETERMINING SUCCESS AND MEETING SHARED GOALS

Determine roles and responsibilities

Keep each other updated on progress

Goals and time frames may need to be updated throughout the process
CELEBRATING SUCCESSES

Developing Watershed Partnerships
CELEBRATING SUCCESSES

Recognizing and celebrating interim milestone completion
Recognizing partners
Celebrating completing long term accomplishments
