L--SOLID WASTE TECHNICAL SUPPORT (SRCSGT)

SOL: W56ZTN-14-R-0006

DUE: 012814

POC: Ron Wooley, 410-306-2744, ronald.l.wooley2.civ@mail.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/8c1a8691fa1640ddfaf1266c2b4f3354>

NAICS: 541620. SOURCES SOUGHT NOTICE: THIS IS NOT A SOLICITATION; This is not a request for either a quote or proposal, or an invitation for bid. The Government will not pay for information and materials received in response to this posting and in no way is obligated by the information received. The Aberdeen Proving Ground (APG) office of the Department of Public Works -Environmental Division (DPW-ED) at Aberdeen Proving Ground requires Solid Waste Technical Support service for Groundwater monitoring, Wastewater Treatment Plant Sludge Analysis and Reporting and sample Solid Waste to include Oil Contaminated Soil. Places of performance is Phillips Army Airfield Rubble Landfill, Westwood Rubble Landfill, and other locations specified by the office of DPW-ED. This is not a request for either a quote or proposal, or an invitation for bid. The intent of this sources sought notice is to identify potential sources to perform Solid Waste Technical Support and to obtain knowledge of potential qualified Service Disabled Veteran Owned Small Businesses, Veteran owned Small Businesses, 8(a), Hub-Zone and other Small Businesses interested in and capable of performing the work. Responses must also include capability statement that addresses the organization's qualifications and ability to perform as a contractor able to perform task described in the attached Performance Work Statement (PWS). If at least two small business concerns are determined by the Government to be capable of performing this requirement based on the evaluation of the capability packages submitted, the requirement will be solicited as a 100% set-aside for small business concerns in accordance with FAR Part 19. If capability packages are not received from at least two responsible small business concerns in accordance with FAR Part 19 by the response date or if the Government determines that no small business concerns in accordance with FAR Part 19 are capable of performing this requirement based upon an evaluation of the capability packages submitted, this requirement will be solicited under full and open competitive procedures. Only small businesses are to submit capability packages. Interested small business concerns under NAICS code (541620) with a size standard of \$14.0 Mil are encouraged to

submit their capability packages. The capability packages for this sources sought market survey are not expected to be proposals, but rather statements regarding the company's existing experience in relation to the task specified in the PWS. Small business concerns are to outline their experiences performing Solid Waste Technical Support as stated in the PWS. A Firm Fixed Price Contract is anticipated. The anticipated period of performance will be 15 February 2014 through 14 February 2015. Responses to this notice shall include the following: Name of company, physical address of company, a point of contact, a telephone number, the point of contracts email address, the company DUNS number, the company cage code, and type of small business (e.g. 8(a)). All interested parties must be registered with the System for Award Management. Please submit all question no later than 12:00 pm Wednesday, 23 January 2014. ALL QUALIFIED RESPONDENTS SEND FINAL CAPABILITY STATEMENTS AND OTHER INFORMATION NO LATER THAN MONDAY, 28 JANUARY 2014, AT 12:00 PM EST, by email to ronald.l.wooley2.civ@mail.mil.

NAICS: 562211. The U.S. Air Force requires an experienced contractor to dispose of 2100 AMERICIUM 241 CAD Cell Source Holders. The anticipated award is firm fixed price - Lowest Price Technically Acceptable (LPTA). Additional detail on the requirements can be found in the Performance Work Statement (PWS), attachment 1 to the notice at FBO.gov. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Federal Acquisition Regulation (FAR) Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotations are being requested and a written solicitation will not be issued. The solicitation number is FA8601-14-T-0070 issued as a Request for Quotations (RFQ) and is conducted as a commercial item procurement using Simplified Acquisition Procedures (FAR Part 13). This solicitation document and incorporated provisions and clauses are those in effect through Federal Acquisition Circular 2005-61, 13 September 2012. THIS ACQUISITION IS UNRESTRICTED, FULL AND OPEN COMPETITION. Any offeror capable of providing the required services as described in the PWS is eligible to submit a quotation. The associated North American Industry Classification System (NAICS) code is 562211 and the size standard is \$35.5 million. [See the notice at FBO.gov for additional text.] QUOTATIONS, REFERENCES AND COMPLETED REPRESENTATIONS AND CERTIFICATIONS, IF NOT AVAILABLE IN SAM, ARE DUE BY 11:59 PM (EASTERN TIME) ON JANUARY 30, 2014 to: Jennifer Stephens AFLCMC/PZIOB, E-mail Jennifer.Stephens.1@us.af.mil (preferred method of contact). Mailing Address: ATTN: Jennifer Stephens, AFLCMC/PZIOB, 1940 Allbrook Drive, Suite 3, Wright-Patterson AFB OH 45433. Quotations may be sent via email or postal service using the above contact information. Questions should be directed to Jennifer Stephens at Jennifer.Stephens.1@us.af.mil or 937-522-4509. Be advised that all correspondence sent via e-mail shall contain a subject line that reads "FA8601-14-T-0070 Disposal of Americium 241". Note that e-mail filters at Wright-Patterson AFB are designed to filter e-mails without subject lines or with suspicious subject lines or contents (i.e., .exe, or .zip files). Therefore, if this subject line is not included, the e-mail may not get through the e-mail filters. Also be advised that .zip or .exe files are not allowable attachments and may be deleted by the e-mail filters at Wright-Patterson AFB. If sending attachments with e-mail, ensure only .PDF, .doc, or .xls documents are sent. The e-mail filter may delete any other form of attachment.

EPA SPECIAL NOTICE ONETIME POSTING OF CHANGED BUSINESS PRACTICE FOR USE OF FEDCONNECT (SNOTE)

SOL: EPA_FEDCONNECT_USE_2014-02-01

POC: Thomas Valentino, Procurement Analyst, valentino.thomas@epa.gov, (202) 564-4522.

WEB: FBO.gov Permalink at https://www.fbo.gov/spg/EPA/OAM/HO/EPA_FEDCONNECT_USE_2014-02-01/listing.html

NAICS: 562910. Effective February 1, 2014, EPA's Office of Acquisition Management (OAM) will begin using Compusearch's FedConnect as the communications Web portal for all solicitations and contracts above the micropurchase threshold, unless an exception applies. Therefore all potential offerors must be registered in FedConnect in order to submit proposals in response to future OAM procurements. FedConnect is a Web portal that connects agencies and vendors to streamline the process of doing business with the federal government. It also provides an open channel of communication with the government that is both secure and auditable. Through FedConnect contractors will be able to receive, review, and respond to contract administration actions and documents such as correspondence, request for proposals, tasking instruments, and contract modifications. The use of FedConnect also furthers EPA's commitment to moving toward a paperless acquisition environment by reducing its carbon footprint and conducting its business in an ecologically friendly manner. There is no charge to use FedConnect. Vendors can register with FedConnect at www.fedconnect.net/FedConnect/. Please note that FedConnect is used by multiple federal agencies and therefore FedConnect assistance will be provided by Compusearch Software Systems, not EPA. More information about registration requirements can be found by downloading the FedConnect Ready, Set, Go! Guide at www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf For assistance in registering or for other FedConnect technical questions please call the FedConnect Help Desk at (800) 899-6665 or email at support@fedconnect.net. In addition, all vendors must be registered in the System for Award Management (SAM), as this facilitates registration for FedConnect. Please note that vendors MUST have their SAM profile set to "public," otherwise FedConnect will not be able to access the SAM information required to validate vendor credentials. Registration may be completed and information regarding the registration process may be obtained at <http://www.sam.gov>. There is no charge for registration in SAM.

B--MISCELLANEOUS ENVIRONMENTAL RESOURCE SERVICES SINGLE AWARD INDEFINITE DELIVERY AND INDEFINITE QUANTITY (PRESOL)

SOL: W912PL-14-R-0007

POC: Ryan Rivas, (213) 452-3310, ryan.e.rivas@usace.army.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA09/W912PL-14-R-0007/listing.html>

NAICS: 541620. This project is a Miscellaneous Environmental Resource Services Single Award Indefinite Delivery and Indefinite Quantity for Civil Works, Military and Work for Others in Southern California, Southern Nevada, Southwestern Utah, and Arizona, and All Regions Served by the Los Angeles District of the South Pacific Division of the U.S. Army Corps of Engineers. Description of Services: The Contractor shall provide or obtain professional expertise in all pertinent disciplines, research facilities, equipment, materials, and labor to provide the environmental resources services described in the scope of work contained in individual delivery orders issued by the Contracting Officer. The work to be performed under this contract is focused on development of environmental/ecosystem restoration including site design, plant propagation, implementation of site design, development of success criteria, monitoring and adaptive management. It also consists of a variety of miscellaneous environmental studies, restoration/mitigation services, and monitoring and mapping services in support of environmental restoration or mitigation and resource planning studies, operations and maintenance actions, and Civil Works, Military, and I&IS activities, including Construction and Ecosystem Restoration. These services may include provision of complete planning documents requiring plan formulation for water resources development projects; development of NEPA/CEQA documentation and support documentation such as surveys or studies including, but not limited to, physical environments, recreation, master planning, cultural resources, social systems, water quality and resources, land use, air quality, noise, transportation and utilities, aesthetic analysis, and cumulative effects; biological assessments and various permit applications; project alternatives development and evaluation; database development and GIS services; and alternative site design, site preparation, plant propagation, monitoring and adaptive management plans, and implementation and monitoring of restoration/mitigation sites. The work may also include development of mitigation, monitoring, and adaptive management plans and species-specific biological survey. Other investigation, analysis, and documentation necessary to support National Environmental Policy Act (NEPA) and other applicable laws and regulations, such as, but not limited to the Clean Water Act, the Coastal Zone Management Act, the Endangered Species Act or the California Endangered Species Act (CESA), the Clean Air Act, and the National Historic Preservation Act. The geographical areas specifically include Southern California, Southern Nevada, Southwestern Utah, Arizona and all other areas served by the South Pacific Division. Most work will be within areas served by the Los Angeles District (central and southern California, Arizona and southern Nevada). Specific Analysis and Report Services required under this contract include, but are not limited to: *Vegetation Type and Habitat Mapping. *Environmental habitat evaluation procedures such as HEP, HGM (Hydrogeomorphic Assessments), Combined Habitat Assessment Procedure (CHAP), California Regional Assessment Model (CRAM), HEAT, and other habitat assessment procedures such as Best Professional Judgment Procedures. *Investigation of site characteristics. *Development of alternative environmental restoration designs using both passive and active restoration techniques, as appropriate. *Ability to assess and develop restoration/mitigation plans

for specific sites and environmental conditions. Specific sites are to mimic the natural vegetation type patterns and conditions for long-term sustainability. Restoration plans should include the ability to illustrate knowledge and experience with a diverse array of vegetation types within the service area. Development of site-appropriate plant palettes. Seed banking and plant propagation. Site preparation to include non-native vegetation removal. Site design and implementation to include irrigation, grading, planting, mowing, and weed control to establish microhabitats. Development of success criteria, mitigation and monitoring plans for restoration and mitigation sites in accordance with established Corps criteria. *Development of implementation guidance, and best management practices, BMPs. *Development of Adaptive Management Plans for small- and large-scale restoration and mitigation sites. *Development of monitoring reports and other reports. *GIS Services including the collection, organization and creation of surveys and maps to aid in defining conditions. The products produced include maps, geodatabases, and spatial analysis as appropriate to characterize conditions. Database development and GIS Services to federal standards, to include but not limited to creation of land use and habitat maps; figures displaying project alternatives, mitigation sites and other project details; locations of sensitive species/resources; and other relevant information. *Site-specific biological resources field examinations, literature searches, studies, mapping and reporting; and species-specific biological survey by qualified, permitted personnel. THIS IS A 100% SMALL BUSINESS SET-ASIDE REQUEST FOR PROPOSAL (RFP), Best Value Trade-Off procurement. Both a technical and a price proposal will be required. The Technical Evaluation Factors for this procurement are Section M, entitled Evaluation Factors for Awards. Evaluation factors may consist of the following: Experience on Similar Contracts; Past Performance; Technical Merit Approach, Methods, and Procedures; and Corporate Management Structure. The aforementioned evaluation factors may not be all inclusive. It is the Government's intent to award based on initial offers without discussions; therefore, the offeror(s) shall provide their best technical and price proposals. Award is for Miscellaneous Environmental Resource Services and Restoration/Mitigation Services for one base year with up to two (2) additional option years of service. The North American Industry Classification System (NAICS) code 541620, Environmental Consulting Services, \$19,000,000.00 average annual gross revenue for the last three (3) fiscal years. Estimated cost range of the project is between \$1,000,000.00 and \$7,000,000.00. This Procurement will be conducted under FSC CODE: B510 (Special Studies/Analysis- Environmental Assessments). THE SOLICITATION WILL BE MADE AVAILABLE ON/OR ABOUT FEBRUARY 3, 2014. All proposals will be due on/or about March 5, 2014 at 2:00 P.M. PST. **POC:** Ryan.E.Rivas@usace.army.mil. This is to notify all potential offerors: Solicitation No. W912PL-14-R-0007 and all amendments for this acquisition will be posted on FedBizOpps (FBO) (www.fbo.gov). The government intends to issue this solicitation and all amendments through the use of the Internet (Web only). No additional media (CD-Roms, floppy disks, faxes, or paper) will be provided unless the Government determines that it is necessary.

QUALITY ASSESSMENT SUPPORT FOR CONDUCT OF AUDITS AND INSPECTIONS (PRESOL)

SOL: NIHES2013166

POC: WANDA M. HOLLIDAY, hollida1@niehs.nih.gov, 919-541-0943, Fax: 919-541-5117; Juanita A Campbell, campbellj@niehs.nih.gov, Fax: 301-451-5400.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/HHS/NIH/NIEHS/NIHES2013166/listing.html>

NAICS: 541712. This notice announces the intended release of solicitation number NIHES2013166. The National Toxicology Program (NTP; part of the National Institute for Environmental Health Sciences, NIEHS) is responsible for evaluating the toxic and carcinogenic potential of environmental agents that may pose a health hazard to citizens of the United States. The NTP accomplishes this by conducting toxicology and carcinogenicity studies on a variety of chemical, physical and biological agents as well as analyses of literature data. The National Institute of Environmental Health Sciences (NIEHS) is soliciting proposals for support for the conduct of audits of NTP reports, laboratory reports, pathology tables, and electronic information as well as site visit support for monitoring work in progress at contract toxicology laboratories. The toxicology and carcinogenesis studies and ancillary activities that will comprise the majority of the audits/inspections to be performed under the contract involve primarily the disciplines of chemistry, animal care, toxicology and pathology. The principal investigator shall be an employee of the contractor, shall be considered key personnel and shall manage all aspects of the contract. Because there is potential for conflict of interest, personnel assigned to this contract, as well as subcontractors or consultants, shall not be in any way associated with NTP testing contracts that have performed the work being audited. Audits of NTP reports and laboratory reports require access to study records that are stored at the NTP archives. Accordingly much of work done under this contract will be performed at the NTP archives. In addition, the contractor will pick up/drop off audit materials at the NTP COR's office, as well as meet with the NTP COR and other NTP staff as appropriate. Both the NTP and the NTP archives are currently located in Research Triangle Park, NC) and frequent (weekly to daily) travel to these locations will be required. Other important considerations: Electronic documents and reports are anticipated to be included in the deliverables of the resultant contract. When acquiring Electronic and Information Technology (EIT), the government is obligated to meet the accessibility standards at 36 CFR Part 1194 and Section 508 of the Rehabilitation Act of 1973. Section 508 service requirements for Information Content are applicable for this requirement and must address 36 CFR Part 1194, Subpart D, Information, Documentation and Support. Information about Section 508 is available at <http://www.section508.gov/>. Electronic report deliverables shall be Section 508 compliant according to checklists at <http://www.hhs.gov/web/508/index.html> under "Helpful Resources." In some cases, there may be accommodations for which the PO/COR will provide information annually. NOTICE TO OFFERORS: This contract is expected to consist of a one year base period with nine one-year options, as well as an option for an additional level of effort each year. It is anticipated that one cost reimbursement type award will be made with an anticipated award date of September 2014. The proposed contract will be issued using full and open competition. The North American Industry Classification System (NAICS) code for this procurement is 541712 with a corresponding size standard of 500 employees. The Government intends to make an award using the procedures for competitive negotiated acquisitions as authorized in FAR Part 15. This is NOT a solicitation. THE ESTIMATED ISSUE DATE OF THE SOLICITATION IS JANUARY 31, 2014, and proposals will be due about 30 days after the solicitation release date. The solicitation will be posted on the FedBizOpps website. Interested firms who are unable to access the solicitation via FedBizOpps may request a copy of the solicitation from Wanda Holliday at hollida1@niehs.nih.gov. Please reference the solicitation number RFP# NIHES2013166 on your written request. All questions regarding this acquisition shall be submitted in writing via email to: hollida1@niehs.nih.gov. Telephone inquiries will not be accepted.

F--MISSION SUPPORT FOR CLEAN AIR MARKETS AND RELATED ENVIRONMENTAL PROGRAMS (PRESOL)

SOL: SOL-DC-14-00004

POC: Rachel Schwartz, schwartz.rachel@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/HO/SOL-DC-14-00004/listing.html>

NAICS: 541620. The U.S. Environmental Protection Agency, Office of Air and Radiation, Office of Atmospheric Programs, Clean Air Markets Division (CAMD), intends to conduct a competitive Federal Acquisition Regulation Part 15 procurement under solicitation number SOL-DC-14-00004, Mission Support for Clean Air Markets and Related Environmental Programs. THIS PROCUREMENT WILL BE A FULL AND OPEN, MULTIPLE-AWARD, COST-PLUS-FIXED-FEE EFFORT. Awards will be made to both large and small businesses whose proposals are determined to offer the best value to the Government. Offerors can respond to each task area, but are not required to do so. Large businesses will be required to submit proposals to 5 of the task areas at a minimum. Small businesses will be required to submit proposals to 3 of the task areas at a minimum. Large businesses must submit proposals to task areas C, D, G, either task area A or B, and either task area E or F. Small businesses must submit proposals that include task area A or B or G and two other tasks. The NAICS Code for Environmental Consulting Services is 541620 and the current size standard is \$7.0 million. The Government contemplates awarding cost plus fixed fee contracts as a result of this solicitation to up to two large businesses and up to two small businesses. The anticipated period of performance will be a one-year base period with four one-year option periods. THE ANTICIPATED SOLICITATION ISSUE DATE IS ON OR ABOUT JANUARY 30, 2014, with a solicitation closing date on or about March 1, 2014. Please do not contact the contracting officer prior to the projected issue date. The solicitation will identify the deadline for submission of any questions pertaining to the solicitation requirements; any questions submitted after that deadline may or may not be responded to at the option of the Government. All responses to questions, clarifications, and/or comments deemed necessary by the Contracting Officer will be promulgated via amendment(s) to the solicitation. Offerors are advised to monitor the EPA Website and the Federal Business Opportunities Website for issuance of the solicitation and to download any amendments issued during the solicitation period. No paper copies will be furnished. Please note, on September 3, 2013 a Sources Sought/Request for Information notice was posted on the Federal Business Opportunities Website (www.fbo.gov) Background: CAMD is responsible for developing, implementing, and assessing 5 major programs within the Office of Air and Radiation. These programs include the annual NOx (nitrogen oxides), seasonal NOx, and annual SO2 (sulfur dioxide) under the Clean Air Interstate Rule (CAIR) for multi-state control of transported ozone (O3) and fine particle (PM2.5) pollution and the national Acid Rain SO2 and NOx emissions reduction programs. These programs help implement the National Ambient Air Quality Standards (NAAQS) and reduce acid deposition, toxics deposition, and regional haze. CAMD also provides regulatory and modeling support to other EPA offices for programs that affect power generation, electricity demand, structure and operation of the U.S. electric utility industry, and major source emission reduction programs. This particular procurement will help to provide technical, analytical, data systems/information technology (IT) and communications support primarily to CAMD, but may extend to related programs and offices in EPA. Scope: The purpose of this procurement is to provide support to CAMD. The work to be performed under this statement of work corresponds with the task/functional areas listed below. A. Economic, Cost Accountability, Market, and Statistical Analyses B. Environmental Assessment, Benefits Indicators, and Evaluative Analyses C. Technical and Engineering Analyses D. Regulatory Program and Guidance Development Support E. Clean Air Markets Division Business System (CAMDBS) Database Management and Applications F. Support for Emissions & Generation Resource Integrated Database (eGRID), Other CAMD Data Systems, and Applications G. Communications, Outreach, Web Applications, Design & Graphics, and Meeting Logistical Support. Additional information is posted at http://www.epa.gov/oamhpod1/admin_placement/14js011/index.htm and <https://www.fedconnect.net/>.

Q--MICROBIAL STUDY AT THE SANTA MONICA URBAN RUNOFF RECYCLING FACILITY (SNOTE)

SOL: RFQ-DC-14-00052

POC: Elaine M. Scott, Scott.Elaine@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/HO/RFQ-DC-14-00052/listing.html>

NAICS: 541380. The US Environmental Protection Agency (EPA), Office of Acquisition Resource Management (OARM), Emergency Response Service Center (ERSC) on behalf of the Office of Research and Development -Microbial Exposure Research Branch in Cincinnati, Ohio under the authority of FAR Part 13, intends to award a sole source procurement to the Loma Linda University c/o Dr. Ryan Sinclair for the purpose of providing an analysis/study in the microbial characteristics of the dry weather urban runoff coming into and out of the Santa Monica Urban Runoff Recycling Facility (SMURRF). The data retrieved from this study will allow for future regulations/standards regarding the Alternate Water Sources (AS) as there are currently no standards for such water systems. Loma Linda University has experience with membrane filtration of water samples, cultural media procedures involving membrane filters, IDEXX quantitrays procedures for coliform and enteric and operation/maintenance of autosamplers. Loma Linda University also has experience working with the Public Health system in California and possesses specific knowledge of the personnel at both the Los Angeles County Department of Public Health and the RAND/Santa Monica SMURRF facility. Loma Linda University also has the ability to use this analysis/study as a teaching mechanism for students studying microbiology. The NAICS code for this requirement is 541380. EPA knows of no other vendor capable of providing such services. If there are any vendors capable of providing these services, please submit proof of such via email to scott.elaine@epa.gov no later than January 17, 2014 -12 noon EST. No phone calls will be accepted for this requirement. Under the authority of FAR 13.106-1(iv)(b), the Contracting Officer also has the discretion not to compete this requirement.
