

Federal Business Opportunities (FedBizOpps) Update

Notices for March 3-9, 2014

This update contains summaries of procurement notices issued between March 3-9, 2014 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

B--TO PROCURE PROFICIENCY TESTING (PT) SAMPLES. (COMBINE)

SOL: 0010460994

DUE: 031314

POC: Linda Reynolds, 443-861-4743, linda.i.reynolds.civ@mail.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/73b9fc67753818cfa9c4455698f13016>

NAICS: 541380. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemental with additional information included in this notice. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. The U.S. Army Contracting Command, Aberdeen Installation Contracting Division, Aberdeen Proving Ground, MD intends to issue a Competitive quote mark Small Business quote mark award. This acquisition shall be to procure proficiency testing (PT) samples per an accredited A2LA accredited PT provider for the US Army Public Health Command (PHC). Solicitation number 0010460994 is issued as a request for proposal (RFP). The Federal Acquisition Circular FAC 2005-55. This associated North American Industrial Classification System (NAICS) code for this procurement is 541380 with a small business size standard of \$12.0 million. Request for copies of a solicitation in response to this notice will not be honored or acknowledged. A determination by the Government not to compete this proposed action based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether conducting a competitive procurement is in the best interest of the Government. The intention is to issue a single award at the discretion of the Government. Provide a price per CLIN. INTERESTED PARTIES MAY IDENTIFY THEIR CAPABILITIES BY RESPONDING TO THIS REQUIREMENT, NOT LATER THAN 08:00 A.M. EASTERN STANDARD TIME (EST) ON 13 MARCH 2014. Period of Performance: TBD following contract award. This acquisition will be made using Wide Area Work Flow (WAWF). All information submitted should support the offerors capability to provide the items required, and shall be furnished at no cost or obligation to the Government. Responses must be in writing and must provide clear and concise documentation indicating an offerors bona fide capability to provide these item(s). Verbal responses are not acceptable and will not be considered. Responses shall be submitted to Linda Reynolds via e-mail at linda.i.reynolds.civ@mail.mil. STATEMENT OF WORK FOR Procurement of Proficiency Testing (PT) Samples: This contract is to procure Proficiency Testing samples from an approved, accredited vendor for the US Army Public Health Command (USAPHC), Army Institute of Public Health (AIPH), Laboratory Sciences (LS). The vendor must meet the following qualifications and standards as required by the LS. 1. Vendor must be an A2LA accredited PT provider for all chemistry and radiochemistry fields of testing in the A2LA PT provider accreditation program. 2. Vendor must offer all PT samples, at a minimum, on a quarterly schedule to allow for laboratory to meet scheduling requirements of A2LA and NELAP. 3. Vendor must provide the option of quick turnaround make up PTs in the event of a failed PT. The quick turnaround PT study must be shipped to LS within two business days after the order is placed and results provided to LS within 2 business days after results reported to PT provider. 4. Vendor must report PT results directly to accreditation bodies and third parties as directed by LS. 5. Vendor must offer laboratory the option of reporting results back to vendor in the form of fax or web portal. [SEE THE NOTICE AT FBO.GOV FOR ADDITIONAL INFORMATION, INCLUDING ANALYTES AND METHODS.]

F--EMERGENCY AND RAPID RESPONSE SERVICES IV (ERRS) (SRCSGT)

SOL: SOL-R5-14-00004

DUE: 032014

POC: Darlene McGary, McGary.Darlene@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/MMC-10J/SOL-R5-14-00004/listing.html>

NAICS: 562910. This is a SOURCES SOUGHT NOTICE published for market research purposes. This is not an announcement for proposals and no contract will be awarded from this announcement. No reimbursement will be made for any costs associated with providing information in response to this announcement and any follow-up requests. The U.S. Environmental Protection Agency (EPA) Region 5, Chicago, IL is conducting a sources sought, for informational purposes only, to determine the availability of small disadvantaged businesses, 8(a) small businesses, woman-owned small businesses, HUBZone small businesses and service disabled veteran owned small businesses capable of meeting the requirements of the attached draft statement of work (SOW). EPA Region 5 intends to award three (3) small business contracts, with the possibility of setting aside one contract based on the results of this sources sought. This requirement is for the follow-on Emergency and Rapid Response Services (ERRS) contract in Region 5. Region 5 consists of the following states: Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin. North American Industry Classification System (NAICS) Code 562910, Environmental Remediation Services, with a Small Business Size Standard of 500 employees is applicable to this notice. The purpose of the ERRS contract is to conduct emergency responses, time-critical and non time-critical removals and remedial actions with respect to the release or threat of release of oil, hazardous and toxic wastes, petroleum products, hazardous substances, or pollutants, contaminants or fire or explosion hazards, that pose an actual or potential threat to human health or welfare, or the

environment. This effort will also include the cleanup for incidents involving weapons of mass destruction, acts of terrorism, and nuclear, biological and chemical incidents. A narrative statement is required regarding the qualifications/capabilities of how the draft SOW work will be accomplished and contractor response times addressed. The narrative statement shall not exceed a total of ten pages, single spaced, using 10 point font. Responses must include the following information: 1. Name of business with contact information (address, telephone, e-mail, and website). 2. Business size/classification to include socioeconomic designations. 3. Financial Assurance Capabilities (bonding level(s); single and aggregate bonding capacity expressed in dollars). 4. Past Performance/experience on projects of similar scope and magnitude and demonstrated experience performing multiple projects simultaneously. Describe no more than two (2) emergency response projects and three (3) time critical projects that have been completed within the past three years. Each project description shall be limited to two (2) pages in length (not part of the 10 page narrative statement). Information should include project title, location, dollar value of the contract, agency for which the work was performed with reference contact information, and a general description of work performed by the firm submitting information to demonstrate relevance to the draft SOW. Past performance experience should be clearly identified for all partners. 5. If proposing a team arrangement, describe evidence of previous successful arrangements relevant to the draft SOW. Responses should be submitted via e-mail to Darlene McGary, Contracting Officer, at mcgary.darlene@epa.gov. CAPABILITIES STATEMENTS ARE DUE NO LATER THAN THURSDAY, MARCH 20, 2014, 5:00PM CENTRAL STANDARD TIME.

FIRING RANGE CLEANING SERVICES IN NEWARK, NJ (COMBINE)

SOL: HSBP1014Q0045

DUE: 032014

POC: Gary M. Orr, Gary.Orr@dhs.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DHS/USCS/FPSB/HSBP1014Q0045/listing.html>

NAICS: 562112. CBP is soliciting for a specialist in bullet trap and shooting range cleaning on the target system apparatus. The system is comprised of mechanical and electrical components in which preventative cleaning is required to keep the apparatus as a whole functioning properly. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotes are being requested and a written solicitation will not be issued. The solicitation document and incorporated provisions and clauses are those in effect through Federal Acquisition Circular 2005-72, effective January 30, 2014. THIS REQUIREMENT IS BEING PROCURED AS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 562112. THE RFQ RESPONSE DUE DATE IS NO LATER THAN MARCH 20, 2014 AT 12:00PM NOON EASTERN TIME. Submission shall be via email to Gary.Orr@dhs.gov. It is the offeror's responsibility to read the RFQ and all related documents carefully and completely, to ensure the Government receives their submission on or before the date/time specified. Offerors are required to submit a technical quote, past performance information and a price quote to Government officials for the purposes of assuring the prospective contractor has a complete understanding of the scope of this effort and has the capability to complete all statement of work (SOW) requirements. The contract will be awarded to the lowest price technically acceptable that did not show a negative past performance. For questions regarding this requirement, please submit inquiries via email to Gary.Orr@dhs.gov. Be advised that the Government reserves the right to transmit those questions and answers of a common interest to all prospective offerors. All questions must be submitted via email by March 17, 2014 at 04:00pm Eastern Time. The period of performance for this effort comprises one base year of 12 calendar months from the date of award and four option year periods. Additional requirements and several attachments (i.e., Statement of Work, Quote form, and Wage determination 1996-0223 Rev 31) are available with the notice at FBO.gov.

NAICS: 562910. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. Solicitation Number W912EE-14-T-0016 is being issued as a request for quote (RFQ) with the intent to issue one Firm-Fixed Price Contract. The solicitation document and incorporated provision and clauses are those in effect through Federal Acquisition Circular 05-72. This solicitation is being issued under a 100% Small Business Set Aside. The NAICS code for this procurement is 562910 - Remediation Services, with a size standard of \$19 Million. This procurement is being conducted in accordance with regulations at FAR Part 12 - Acquisition of Commercial Items and FAR Part 13 - Simplified Acquisition Procedures. The U.S. Army Corps of Engineers, Vicksburg District, has a requirement for the removal of generator stator coils containing asbestos at the DeGray Power Plant Unit #1, located at the DeGray Powerhouse in the State of Arkansas. 848 Channel Rd, Arkadelphia, AR 71923. Site Visit: For the purpose of accommodating vendor requests for a site visit, an organized site visit will be held at the DeGray Powerhouse, 848 channel Road, Arkadelphia, AR, on Wednesday, 12 March 2014, beginning at 10:00 A.M., CST. This visit will consist of a tour of the project site in the accompaniment of Government personnel. Offerors may not visit the site at their own convenience for site inspection. Offerors shall provide their own transportation for the site visit. Also, during all site visits, offerors shall not solicit advice or assistance from any Government or Contractor employee pertaining to proposal preparation. All questions resulting from the site visit shall be posted to the ProjNet Website. No questions will be accepted or entertained at the site visit. For additional directions, the Point of Contact for the site visit is as follows: Dustin L. Wilson, Power Project Manager, Blakely, DeGray, and Narrows Power Plants, 501-767-2401 ext 73030. Additional Documents: Revision No. 1 to the project Scope-of-Work and a Photograph of the DeGray Generator, Unit No. 1, are posted at

https://acquisition.army.mil/asfi/synopsis_attach_viewer.cfm?psolicitationnbr=W912EE-14-T-0016&pseqnbr=439372&pnot_type=COMBINE.

Bidders/Offerors are requested to review the specification in its entirety, review the Bidder Inquiry System for answers to questions prior to submission of a new inquiry. The call center operates weekdays from 8AM to 5PM U.S. Central Time Zone (Chicago). The telephone number for the Call Center is 800-428-HELP. QUOTES ARE DUE THURSDAY, 20-MARCH-2014 NOT LATER THAN 2:00 P.M. CST, to U.S. Army Corps of Engineers, ATTN: R. Ellis Screws, 4155 East Clay Street, Vicksburg, MS 39183-3435. Proposals may be submitted electronically via email to Ellis.Screws@usace.army.mil, providing that they are complete and provide all required information. For information concerning this solicitation, contact R. Ellis Screws at (601) 631-7527 or Ellis.Screws@usace.army.mil. [SEE THE NOTICE AT FBO.GOV FOR ADDITIONAL DETAILS.]

99--BLANKET PURCHASE AGREEMENT (BPA) FOR ENVIRONMENTAL ACTIVITIES AT VARIOUS LOCATIONS AND AREAS WITHIN THE RESPONSIBILITY OF THE PACIFIC OCEAN DIVISION (SRCSGT)

SOL: W912DY-14-A-0002

DUE: 040214

POC: Jywanva Dillinger, 256-895-1151, jywanva.dillinger@usace.army.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA87/W912DY-14-A-0002/listing.html>

NAICS: 562910. The Government is seeking to identify qualified large and small business sources under 2013 North American Industry Classification System (NAICS) 562910 (Remediation Services). The small business size standard is 500 employees. This notice is for market research purposes only and IS NOT A REQUEST FOR PROPOSAL (RFP) nor does it restrict the Government as to the ultimate acquisition approach. The Government will not reimburse respondents for any costs incurred in preparation of a response to this notice. For market research purposes only, we invite responses from large and small businesses. 1. Contract Information: The Huntsville Engineering and Support Center, U.S. Army Corps of Engineers (CEHNC) will select Environmental Remediation firms for a Blanket Purchase Agreement (BPA) to assist the Honolulu District in the acquisition and execution of environmental work and the adherence to the requirements of the various states, federal, and/or local requirements. The contracts are anticipated to be awarded in fiscal year 2014 with a three year base award and one two-year option period, for a total ordering period not to exceed five years. Interested sources should respond to the questions presented within this announcement in order to facilitate the Government's market research efforts. The Government does not intend to rank submittals or provide any reply to interested firms. 2. Project Information: The firms selected for this task order shall have experience in working within the Pacific Rim and should be knowledgeable in the regions geology, hydrogeology, biology, historic preservation, and sociology. The objective of the BPA is to effectively execute the requirements of the task order; addressing the environmental laws/regulations and issues specific for this region and complete the below specific tasks. The services may also include but not be limited to furnishing labor, transportation, equipment, material, supplies and supervision to perform each task specified in individual orders. The specific tasks are outlined as follows: a. Community involvement/public relations: Have experience in performance of community involvement and public relations in the Pacific Rim and can demonstrate the capabilities needed to communicate with native populations that are specific to the areas within the Pacific Ocean Division. b. Archeological and Biological Studies. Have experience in identification, and performing and preparing subject reports for the archaeological/biological studies for specific species that are native to this area. The firms selected for this BPA should also have experience with the State Historic Preservation Office (SHPO) laws and identification of archaeological artifacts found in these areas and mitigation measures utilized for preservation of these items. c. Human Health and Ecological Risk Assessments. The firms should have experience with conducting human health and ecological and risk assessments and conducting screening of specific potential chemicals of concern in accordance with USACE and the USEPA RAGs. d. Uploading documents on USACE databases. The firms selected for this BPA shall also have specific knowledge of state, local, and territory environmental laws and requirements, familiarity with USACE's Federal Records Management Database and can upload historical documents to this database in a secure manner. e. Environmental Investigations and Planning Studies. The firms selected for this task order shall be experienced with the requirements of state, local, territory, USACE and EPA requirements for performing site assessments, site investigations and characterization, planning studies and the preparation of master plans and housing studies, AST/UST and the associated appurtenance removals, disposal requirements, asbestos removals, installation and abandonment of monitoring wells and preparing environmental permits specific for these regions, performing environmental and emergency response, and are experienced in bioremediation, innovative technology methods, green and sustainable technology and methodologies. f. Innovative technology methods, green and sustainable technology and methodology, remediation of HTRW or CON/HTRW, and disposal of HTRW and/or unsafe debris. 3. Submission Requirements: INTERESTED FIRMS SHOULD SUBMIT A DOCUMENT DESCRIBING RELEVANT DEMONSTRATED EXPERIENCE AND QUALIFICATIONS NO LATER THAN WEDNESDAY, APRIL 2, 1200 CENTRAL TIME, via email to Jywanva.Dillinger@usace.army.mil and Janice.A.Jamar@usace.army.mil. The submissions should be Times New Roman, font size 12 and should not exceed 10 one-sided, 8 quote mark X 11 quote mark pages. The submission will address all questions in the Capabilities Questionnaire and your ability to perform the services stated in the Project Information section of this sources sought. No hard copy of facsimile submissions will be accepted. Cover letters and extraneous materials (brochures, etc) will not be considered. Questions concerning submissions should be directed to Ms. Jywanva Dillinger, Contract Specialist at Jywanva.Dillinger@usace.army.mil. Personal visits for the purpose of discussing this announcement will not be scheduled. Emails or phone calls requesting personal visits will not receive a reply. [SEE THE NOTICE AT FBO.GOV FOR THE SOURCES SOUGHT CAPABILITIES QUESTIONNAIRE.]

C--IDIQ CONTRACT FOR A-E SERVICES FOR ENVIRONMENTAL INVESTIGATIONS, PERMIT APPLICATIONS AND RELATED STUDIES AT VARIOUS NAVY AND MARINE CORPS ACTIVITIES, PACIFIC BASIN (COMBINE)

SOL: N6274214R1884

DUE: 040214

POC: Jean Kuboyama, 808-471-4666, jean.kuboyama@navy.mil; Richard Keener, 808-474-6476.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DON/NAVFAC/N62742/N6274214R1884/listing.html>

NAICS: 541330. THIS PROJECT IS ADVERTISED AS A 100% SMALL BUSINESS SET-ASIDE. The North American Industry Classification System (NAICS) Code is 541330. The Small Business size standard is \$14.0 million average annual receipts over the past 3 years. Architect-Engineer Services are required for an Indefinite Delivery/Indefinite Quantity Contract for Environmental Investigations, Permit Applications and Related Studies at Various Navy and Marine Activities under the Cognizance of the Naval Facilities Engineering Command Pacific. Area of contract coverage is Pacific Basin and Indian Ocean Areas. Projects can be categorized as petroleum storage and transfer facilities projects (repair, alter and new design). These projects can include, but are not limited to: storage tanks, gasoline systems, diesel systems, jet fuel systems, heavy fuel oil systems, and fuel issue and receipt systems. The A-E firm must be able to demonstrate its qualifications for the previously mentioned engineering services, including studies, design, cost estimating, troubleshooting, etc., (with respect to the published evaluation factors) to perform the following work: (a) Investigate condition, troubleshoot operational problems, and recommend/design corrective actions related to petroleum systems; and prepare project documentation, designs and cost estimates; (b) Replace/repair deteriorated tanks and level control systems; (c) Replace/upgrade deteriorated fuel pipelines, filters, control valves, pumps, pantographs; (d) Remove tank sludge and contaminated soil; (e) Replace/upgrade fuel control systems; (f) Perform API 653 tank inspections and reports and tank cleaning for preparation of inspection; (g) Truck loading and unloading; (h) Depot storage and aircraft fuel ready issue; (i) Assessment and repair of corrosion protection systems; (j) Fuel distribution system planning; and (k) API 570 piping inspection. Evaluation and selection will be based on the most highly qualified firm upon evaluation of the selection criteria stated herein. The A-E must demonstrate his/her and each key consultant's qualifications with respect to the published selection criteria for all services. Selection criteria (1) through (6) are listed in descending order of importance. If there is a tie, criteria (6) will be used as the tie-breaker in ranking the most highly qualified firm. Specific selection criteria include: 1. Professional qualifications (e.g. education, experience, professional registrations) of key personnel (principal, project manager, civil engineer, environmental engineer, sanitary engineer, chemical engineer, geologist/hydrogeologist, soils engineer, electrical engineer, mechanical engineer, structural engineer, architect, etc.) will be evaluated to demonstrate their competence for satisfactory performance of the full range of environmental services required by this contract. More importance will be placed on the following environmental engineering fields: Potable water, Environmental restoration, Dredging and dredged material management, Sewage/wastewater and industrial waste, Storm water, and Oily waste. The professional qualifications of the prime contractor's key personnel will be weighted more heavily than that of the team subcontractors. 2. Specialized recent project experience (list 10 within the last 5 years) and technical competence of the firm will be evaluated in demonstrating compliance with federal, State, territory and local regulatory requirements; overseas final governing standards; and environmental laws and executive orders in the following environmental services: *Air source inventories, permits, and modeling, and air/ODS management plans; *Asbestos and lead based paint surveys, inspections, management plans, and abatement activities; *Dredging and dredged material management; *Drinking water and wastewater utility system security vulnerability assessments; *Environmental restoration; *Hazardous Abatement; *Hazardous waste management plans, and RCRA permits; *Hydrogeological Modeling; *Oily waste collection and treatment facilities; *Pollution Prevention (P2); *Potable Water source, treatment and distribution systems assessments; *Sewage/wastewater and industrial waste collection, treatment, and disposal systems investigations and assessments; *Solid waste utility system assessment and management plans, recycling and landfill closure plans; *Spill prevention/response planning and management; *Sludge handling and disposal systems; *Storm water (including LID) systems investigations, assessment and management, and NPDES permits; *Surveying and cadastral; *Underground storage tanks (USTs) assessment and management plans. More importance will be placed on experience in the following environmental engineering fields: Potable water, Environmental restoration, Dredging and dredged material management, Sewage/wastewater and industrial waste, Storm water, and Oily waste. More importance will be placed on experience within the Naval Facilities Engineering Command Pacific (NAVFAC Pacific) area of responsibility (AOR). The specialized recent project experience and technical competence of the prime firm will be weighted more heavily than that of the team subcontractors. 3. Past performance on contracts with Government agencies and private industry in terms of cost control, quality of work, and compliance with performance schedules. Preference will be on past performance on contracts with Government agencies. Firms should include any letters of commendation or awards. The Government is not restricted to the information provided by the firm and may use other sources to assess

past performance information such as the Past Performance Information Retrieval System (PPIRS), Architect-Engineer Contract Administration Support System (ACASS) and inquiries with past customers/clients. 4. Capability and capacity to successfully execute, perform, and complete within schedule multiple task orders totaling \$5 MIL in multiple locations simultaneously. 5. Quality control programs and processes used to ensure technical accuracy and quality in products and services (i.e., studies and reports) for both the prime and subcontractor team including laboratories and drillers. 6. Location of the prime firm and subcontractors in the general geographical area of the project; and familiarity and knowledge of the geographic regions (e.g., Hawaii, Guam, and other areas in the Pacific Ocean). More importance will be placed on experience within the NAVFAC PAC AOR. The duration of the contract will be for one (1) year from the date of an initial contract award with four (4) additional one year option periods. The total amount that may be paid under this contract (including option years) will not exceed \$20,000,000 for the entire contract term. The minimum guarantee for the entire contract term (including option years) will be satisfied by the award of the initial Task Order. The options may be exercised within the time frame specified in the resultant contract at the sole discretion of the Government subject to workload and/or satisfaction of the A-E performance under the subject contract. There will be no dollar limit per task order and no dollar limit per year. No other general notification to firms for other similar projects performed under this contract will be made. Type of contract: Firm-Fixed-Price, Indefinite Delivery/Indefinite-Quantity Contract. Estimated award timeframe is September 2014. This proposed contract is being solicited as 100% set-aside for small businesses; therefore, replies to this notice are requested from only small business concerns. All contractors are advised that registration in the DoD SAM Database may render your firm ineligible for award. For more information, check the DoD SAM Website:

<http://www.sam.gov>. The following certifications and registrations are also mandatory prior to award of a contract: Online Representations and Certifications Application (ORCA) @ <https://orca.bpn.gov/>; and Wide Area Workflow (WAWF) @ <https://wawf.eb.mil/>. This solicitation requires all interested firms to have an email address. Notifications will be via email, therefore email address must be shown on the SF330, Part 1, Block B8. Architect-Engineer Firms which meet the requirements described in this announcement are invited to submit a completed SF 330. If the SF 254/SF 255 is submitted for this solicitation, they will not be reviewed or considered. The SF 330 should be typed and one-sided. As an attachment, provide an organization chart of the proposed team showing the names and roles of all key personnel listed in Section E with the associated firm as listed in Section C. Please include your DUNS, CAGE, and TIN numbers in Section H, Block 30 of the SF 330. Provide evidence that your firm is permitted by law to practice the professions of architecture or engineering, i.e., State registration number. RESPONSES ARE DUE NO LATER THAN 2:00 P.M. HST, 2 APRIL 2014. Responses should be sent to the following address: Postal Mailing Address: Commander, Naval Facilities Engineering Command, Pacific, Attn: (Code ACQ32:JK Solicitation No. N62742-14-R-1884), 258 Makalapa Drive, Suite 100, Pearl Harbor, HI 96860-3134. The mailing address is inside a military installation; therefore, strict security measures are in force and delays should be anticipated. Personal Delivery Address: The address to deliver SF 330s via personal or courier services is 4262 Radford Drive, Building 62, Honolulu, Hawaii 96818. (Note: Building 62 is shared with the Navy Federal Credit Union.) Late responses will be handled in accordance with FAR 52.215-1. Electronic (E-mail, facsimile, etc.) submissions are not authorized. Firms responding to this notice are requested to submit three (3) copies of the SF 330 and one (1) CD electronic copy. Should there be any discrepancy between the paper and electronic versions, the paper copy shall govern. Inquiries concerning this project should include solicitation number, title, and point of contact.

U-LEAD RENOVATION, REPAIR AND PAINTING (RRP) TRAINING (COMBINE)

SOL: RFQ-IL-14-00077

DUE: 041314

POC: Geoff Krieger, Contract Specialist, Krieger.Geoffrey@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/MMC-10J/RFQ-IL-14-00077/listing.html>

NAICS: 541690. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Federal Acquisition Regulation (FAR) Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotes are being requested in response to this notice and a written solicitation will NOT be issued. This solicitation is being issued as a Request for Quote (RFQ). Submit only written quotes for RFQ-IL-14-00077. This solicitation document and incorporated provisions and clauses are those in effect through Federal Acquisition Circular 2005-72. THIS SOLICITATION IS A TOTAL SMALL BUSINESS SET-ASIDE. The associated NAICS code is 541690 with a small business size standard of \$14 Million. This RFQ Statement of Work is as follows: Conduct classes in the EPA Renovation, Repair and Painting Rule (RRP) for residential painting and renovation. Classes shall be conducted in English. Provide two (2) lead-based paint renovation training classes in the Chicago, IL, area and one (1) training session in each of the following cities: Gary, IN, East Chicago, IN, and Cincinnati, OH, for a total of five (5) classes. The contractor is responsible for all facets of the training sessions, including securing a facility, advertising, EPA approved training materials, providing certified instructor(s), and training certificate/registration, and following any and all applicable state and/or local requirements. The announcements for the training will be conducted with a preference for residents and workers in the communities in which the training is taking place, and will include the following statement: "This training is being funded by the U.S. Environmental Protection Agency, Region 5 Office in Chicago, Illinois." The trainer must submit a progress report to EPA project officer every two weeks by email, with a listing of steps accomplished, projected completion dates, and the next two week's projected tasks. The selected firm must also follow-up with the students or the local county, city, and/or community organizations after completion of the training to identify if students were able to secure any jobs with the new RRP training and certifications within one month from the date that the training was conducted. A report will be provided to EPA at the conclusion of all training on student success. The classes shall be provided free of charge for up to 25 students in each class; quotes shall include price for adding additional student slots if necessary and funds are available. The training will include, but is not limited to background information on the hazards of lead contamination; the need for lead safe work practices; site preparation; proper handling and disposal of the material; OSHA requirements; administration of paperwork; testing; and other city, state, and federal requirements. Upon successful completion of the training, trainees will receive certification under the RRP from the trainer. All training classes will be conducted within eight months after award of the contract, with the completion of the project no later than December 31, 2014. This solicitation may result in a firm fixed price purchase order pursuant to the terms and conditions below. Terms and conditions other than those stated will not be accepted. The above pricing is all inclusive. PROVISIONS: The following FAR provisions apply to this solicitation: FAR 52.212-1, Instructions to Offerors-Commercial Items; FAR 52.212-2 Evaluation -- Commercial Items (completed as follows): (a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: Lowest Price Technically Acceptable. Offerors must submit proof of certification to provide training for lead based paint remediation. Offeror must also submit up to two (2) past performance references for review. Past Performance will be rated pass/fail; offers with no past performance will be rated neutral. FAR 52.212-3, Offeror Representations and Certifications-Commercial Items (the offeror should include a completed copy of this provision with their quote). [CLAUSES: SEE THE NOTICE AT FBO.GOV FOR THE FAR CLAUSES THAT APPLY TO THIS SOLICITATION.] QUOTES MUST BE RECEIVED NO LATER THAN MARCH 14, 2014 AT 2:00 P.M. CENTRAL TIME. Electronic submission by email is the only acceptable method for submissions. All contractors must be registered in the System for Award Management database located at

<https://www.sam.gov/sam/> prior to any contract award. Please submit a proposal that is no more than 4 pages with your qualifications and past performance. Pricing shall be submitted separately from the technical proposal. For additional information, please contact the Contract Specialist, Geoff Krieger by email at Krieger.geoffrey@epa.gov.

A--NOTICE OF INTENT / SYNOPSIS (SNOTE)

SOL: SOL-DC-14-00018

POC: Joseph Hicks, hicks.joseph@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/HO/SOL-DC-14-00018/listing.html>

NAICS: 541720. The Environmental Protection Agency (EPA), Office of Water (OW), has a requirement for the analysis and reporting of the current practices utilized by the Dairy Industry to protect water quality, creation of a best practices report relying on case studies from the 2014 Dairy Sustainability Award Program and the establishment of criteria for a water quality award. The Government intends to award a sole source Purchase Order to Dairy Science Institute, Inc., in early March 2014. The period of performance for this award will consist of twelve (12) months and will not exceed the Simplified Acquisition Threshold. Performance shall commence no later than 10 days from the date of award and shall consist of the following deliverables: 1. Research and analyze practices that are currently employed or have the potential to be employed on dairy farms to protect water quality, including: a. Practices that can be included in existing FarmSmart on-farm environmental management decision support tool; b. Practices specifically applicable for small dairy producers; c. Practices that facilitate nutrient recovery and utilization from anaerobic digesters and other on-farm manure management systems; and d. Provide a report outlining information found and results of the analysis performed on practices that are currently employed on dairy farms to protect water quality. 2. Study behavioral changes and drivers for such changes to protect water quality that are associated with dairy owners and operators. a. Create a lessons learned document from The "U.S. Dairy Sustainability Awards" Program which recognizes dairy farms, businesses and collaborative partnerships for efforts that deliver outstanding benefits to business, communities and environment; b. Create case studies of the 2014 Dairy Sustainability Award Program recipients; c. Consider environmental stewardship, operational efficiency and market access among such drivers; and d. Provide a report which outlines all lessons learned and case studies of the 2014 Dairy Sustainability Award Program recipients. 3. Develop an award category for water quality and integrate into the existing Innovation Center's Dairy Sustainability Award Program, including: a. Establish criteria for the water quality award category; and b. Identify potential practices to be acknowledged and possible recipients. Market research has revealed no other service from any other single vendor with the comparable abilities to provide these requirements. Also, there were no substitutes found that could replacement the requirements as required. The North American Industry Classification System (NAICS) code for this requirement is 541720 - Research and Development in the Social Sciences and Humanities. In accordance with FAR 13.106-1(b), other than full and open competition is authorized when there is only one responsible source and no other supplies and services will satisfy agency requirements. This is a NOTICE OF INTENT; however, interested parties may submit a capability statement or quotation via e-mail to hicks.joseph@epa.gov, and shall be considered by the Agency until Wednesday, March 12th, 2014 at 12:00pm (Eastern). The written response shall include a general statement for services and deliverables as described in this announcement. Also include past performance information for relevant work. A determination by the Government to compete this proposed purchase order based upon responses to this notice is solely within the discretion of the Government. Information received will normally be considered solely for the purpose of determining whether to conduct a competitive requirement.
