

Federal Business Opportunities (FedBizOpps) Update

Notices for September 28-October 4, 2015

This update contains summaries of procurement notices issued between September 28-October 4, 2015 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

F--ENHANCED FLUID RECOVERY (GROUND WATER TESTING SERVICES) FOR THE VA EASTERN COLORADO HEALTH CARE SYSTEM (SRCSGT)

SOL: VA25915N0674

DUE: 100615

POC: Claudia Coria, Contract Specialist, 303-372-7067, Claudia.Coria@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/ARMCCC/ARMCCC/VA25915N0674/listing.html>

NAICS: 562910. The Department of Veterans Affairs Network Contracting Office 19, Rocky Mountain Acquisition Center is conducting market research for information and sources that are capable of performing operation, monitoring, and regulatory reporting for the Enhanced Fluid Recovery to Oil Inspection Section of the State of Colorado, Oil and Public Safety, and VA Eastern Colorado Health Care System. The contractor shall provide all necessary materials, labor, services and equipment to implement the required groundwater monitoring and reporting activities and maintain and operate the liquid petroleum hydrocarbon (LPH) removal system required with a goal of receiving a Notice of No Further Action (NFA) by the State of Colorado and Oil Inspection Section of the Department of Oil and Public Safety. The required remediation criteria for a finding of NFA include: (1) Four consecutive quarters with no free product observed in groundwater, (2) No detections of chemicals of concern (CoCs) detected in groundwater above the state-determined risk-based screening levels (RBSLs), and (3) Confirmation soil sampling with no CoCs detected above the RBSLs. The location for performance of these services is Veterans Affairs Eastern Colorado Health Care System, 1055 Clermont St, Denver, CO 80220. The information submitted shall contain the company's business size status. This is a request for information and sources only, which may or may not lead to a future solicitation; this is NOT an RFP. No solicitation exists at this time, and requests for same shall not be acknowledged. THE DEADLINE FOR CAPABILITY STATEMENTS IS 4:00 PM MOUNTAIN TIME, TUESDAY, OCTOBER 6, 2015.

F--SAVANNAH RIVER SITE LIQUID WASTE INDUSTRY DAY (SNOTE)

SOL: DE-SOL-0008913

DUE: 100815

POC: Aaron W. Deckard, Contracting Officer, 513-246-0512, aaron.deckard@emcbc.doe.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOE/PAM/HQ/DE-SOL-0008913/listing.html>

NAICS: 562910. DOE's Office of Environmental Management (EM) plans to hold an Industry Day and One-on-One sessions on October 14-15, 2015, in support of the upcoming procurement for liquid waste services at the Savannah River Site (SRS). The current liquid waste contract at SRS expires June 30, 2017, and is a major component of the overall SRS work scope and contracting structure. The goal of the Industry Day event is to inform interested parties of the process that will be followed to procure the liquid waste requirement and to provide an overview of the major Elements of Scope. The Industry Day presentations will encourage industry feedback to aid DOE in the development of the acquisition plan. Industry day presentations will be available on the procurement website by October 9, 2015. The event will be held at the Doubletree Augusta Hilton Hotel on October 14, 2015, located at 2651 Perimeter Pkwy, Augusta, GA 30909. Check-in will begin at 8:00 am ET and the meeting will begin at 9:00 am. The event is anticipated to conclude around 3:00 pm. DOE will hold one-on-one sessions to obtain constructive input from interested firms regarding the liquid waste procurement. DOE will consider all input, will not attribute the input received to any other participant, and will protect any information identified as business sensitive. DOE is not requesting and will not accept any company marketing material. Any presentation materials shall be in hard copy, as computer equipment will not be provided nor allowed. Furthermore, no recording, copying or transcription devices will be allowed during the one-on-one sessions by attendees, which will be held October 15, 2015, at the Doubletree Augusta Hilton Hotel. The sessions will be scheduled in 30-minute increments on a first-come, first-served basis. DOE posted an RFI concerning the SRS liquid waste services on September 22, 2015, to seek ideas and acquire feedback from contractors and other interested parties regarding options for innovative approaches as well as insight into contracting options to achieve the EM liquid waste goals. Responses to the RFI are due to DOE by October 21, 2015. REGISTRATION FOR THE INDUSTRY DAY AND ONE-ON-ONE SESSIONS WILL CLOSE ON OCTOBER 8, 2015. Preregistration is required and walk-ins will not be permitted. Registration is limited to five representatives from each company attending the Industry Day and one-on-one sessions; however, if the total number requested to attend exceeds the capacity of the facility for the Industry Day, it may be necessary to limit attendance of personnel from each company. DOE will reply via email with a registration confirmation. Direct registration requests SRSLiquidWaste@emcbc.doe.gov. For time-sensitive questions, contact Mr. Aaron Deckard, Contracting Officer, directly at 513-246-0512 or aaron.deckard@emcbc.doe.gov. Details concerning registration for both events are available at <https://www.emcbc.doe.gov/SEB/SRSLiquidWaste/>. DOE is also posting information on FedConnect under reference number DE-SOL-0008913.

NAICS: 562910. This announcement constitutes the only solicitation; quotations are being requested and a written solicitation will not be issued. The NAICS Code is 562910. The small business size standard is 500 employees. THIS IS A TOTAL SMALL BUSINESS SET-ASIDE. The contract will be awarded on a firm-fixed-price basis using simplified acquisition procedures in accordance with FAR Part 13.5. To be eligible for award contractors must have all the required state and federal lead abatement certifications/licenses and must submit copies of the required certifications/licenses with the proposal. For purposes of evaluation and award, past performance is considered to be significantly more important than price. The U.S. Coast Guard Surface Force Logistics Center has a requirement for cleaning and encapsulating lead dust and for abating lead-based paint and asbestos-containing material. The period of performance runs October 12 to October 25, 2015. RESPONSES ARE DUE BY OR BEFORE 8:00 AM PT, OCTOBER 8, 2015.

POC: James H Vercoe, 602-795-4399, james.vercoe@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/PhVAMC/HMC/VA25815N0789/listing.html>

NAICS: 562910. The Department of Veterans Affairs is conducting market research to determine the availability of interested and qualified VETERAN-OWNED SMALL BUSINESS (VOSB)/SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB) prime remediation and abatement contractors ONLY to perform the following scope of work that involves patching, repairing, abating asbestos and lead paint and painting the existing building 107/108 exterior walls of stucco, concrete, trim, and building accessories, such as louvers, railings, chimneys, and other mechanical appurtenances, connected to the exterior surfaces. The work is to be performed at Northern Arizona VA Health Care System, 500 Hwy 89 N. facility in Prescott, Arizona 86313. Work to be performed will be within the NAICS code 562910, Remediation Services, with a small business size standard of \$20.5 million. This project will require specialized trade construction requirements of this project of 25% labor costs of this project in accordance with VAAR 852.219-10 Percentage of Self-Performed Work your firm can commit to accomplishing construction with in-house (not subcontracted) labor to meet the work requirements of this project. The facility consists of numerous buildings spread out over an active urban campus setting where the contractor shall furnish labor and materials and perform work for re-coating exterior wall surfaces of Building 107, including abatement and disposal of hazardous materials, and other work as required by drawings and specifications. Preparation and painting of the exterior surfaces will use an appropriate paint medium and color to complement the existing architectural style and the historic character of the NAVAHCS campus, which is a Historic District on the National Historic Register. The project magnitude for a future construction project on this campus as a result of this completed master plan effort would be between in the VAAR 836.204(g) construction magnitude range of \$1M to \$2M. Contractors are required to be licensed or certified for asbestos abatement, hazardous waste remediation, and lead abatement in the state in which they are headquartered and must also be currently valid and registered in Vetbiz system at <https://www.vip.vetbiz.gov/> and the System for Award Management (SAM) at <https://www.sam.gov/index.html>. This request for information is issued for planning purposes only and will not be released outside the agency. Responses to this notice will assist the Government in identifying potential sources and determining if a set-aside of the solicitation is appropriate. SUBMISSIONS MUST BE RECEIVED NO LATER THAN 4:30 PM ARIZONA TIME ON OCTOBER 8, 2015, BY EMAIL ONLY to James.Vercove@VA.GOV.

STUDENT SERVICE CONTRACTOR TO SUPPORT POS DIRECTOR (COMBINE)

SOL: RFQ-DC-15-00295

DUE: 103015

POC: Tia Gatling, gatling.tia@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/HO/RFQ-DC-15-00295/listing.html>

NAICS: 541712. This is a combined synopsis/solicitation for a Bachelor's Degree-level student to work full time for the U.S. Environmental Protection Agency in Las Vegas, Nevada. Review the seven attachments (RFQ and Attachments 1-6) to the FedBizOpps notice for the complete description and requirements of this job. RESPONSES ARE DUE BY OR BEFORE 5:00 PM ET ON FRIDAY, OCTOBER 30, 2015, to Tia Gatling at gatling.tia@epa.gov. EPA's National Exposure

Research Laboratory, Office of Research and Development, Environmental Sciences Division (ESD), located in Las Vegas NV, is a scientific organization responsible for carrying out EPA's mission to protect human health and the environment by developing and applying innovations in exposure science. The Program Operations Staff (POS) is responsible for managing, providing guidance for, and providing oversight of ESD business operations. Student Contractors will assist the POS Director with the analytical and administrative duties required to fulfill its obligations to ESD, including administration, management, communication of ESD research programs, and special assignments and projects. The student will perform duties, as requested, according to specifications and instructions provided by the mentor. Where appropriate, the student will maintain careful and accurate records and will be responsible for ensuring proper document control and retention in accordance with EPA Policies and federal records requirements. All other data produced under this order will be the property of the Environmental Protection Agency. The student contractor will be well-versed, and adhere to, proper quality assurance procedures. As needed, the student contractor may be expected to participate in various conferences, trainings, and seminars. Student contractors awarded a contract will have to undergo a background investigation, a check of FBI fingerprint files, and a suitability determination by EPA. The primary duty location is the EPA facility located in Las Vegas at 944 E. Harmon Avenue. The work will be performed in an office setting and is not expected to involve exposure to hazardous elements. The initial contract will be for 12 months, not to exceed 1700 hours, with an option to extend the period of performance for up to two option periods. Each option period will be for 12 months, not to exceed 1700 hours. The Government anticipates that the student contractor will work up to 40 hours per week with the majority of the work being conducted Monday through Friday of each week. The rate of compensation includes the cost of self-employment taxes for Social Security and Medicare.

NIST HAZARDOUS WASTE MANAGEMENT SUPPORT SERVICES (SRCSGT)

SOL: NB151020-15-01552

DUE: 110215

POC: Grace H. Garrity, Contracting Officer, grace.garrity@nist.gov, 301-975-2345.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOC/NIST/AcAsD/NB151020-15-01552/listing.html>

NAICS: 562112. The National Institute of Standards & Technology (NIST) is conducting market research to evaluate the availability and interest of contractors that are capable of providing Hazardous Waste Management support services in accordance with the draft Statement of Work (SOW, attached to the FedBizOpps notice). NIST requires an IDIQ contract for support from a contractor with demonstrated experience in providing services of similar size, scope, and complexity to the subject draft requirements. This announcement is neither an RFP nor an RFQ and does not commit the Government to award a contract now or in the future. The information contained in this notice is DRAFT only, and as such, is subject to change prior to issuance of a solicitation. No solicitation is available at this time. The purpose of this notice is to (1) identify organizations with the requisite qualifications to meet the requirements of the item stated herein, and (2) solicit candid feedback from industry regarding the draft SOW as part of a comprehensive review to ensure the final solicitation includes the most appropriate and current methods of meeting NIST's needs while maximizing taxpayer dollars. After results of this market research are obtained and analyzed, NIST may conduct a competitive procurement and subsequently award a contract. If at least two qualified small businesses are identified during this market research stage, this acquisition may be solicited as a small business set-aside. NIST is seeking responses from all responsible sources, including large and small businesses (SB, SDB, WOSB, HUBZone, SDVOSB and VOSB). This requirement is assigned a NAICS code of 562112. Interested business organizations that believe they are capable of meeting the requirements should submit electronic copies of their capability statement (10-page limit). Any proprietary information should be so marked. THE CONTRACTING OFFICER SHOULD RECEIVE THE CAPABILITY STATEMENT NO LATER THAN 9:00 AM ET ON NOVEMBER 2, 2014, via email or postal mail.

Y--PRESOLICITATION SITE VISIT, IRON MASK ABANDONED MINE SITE LOCATED NEAR THE TOWN OF TOWNSEND, MONTANA (SNOTE)

SOL: W9128F16S0001

POC: Patricia Overgaard, 402-995-2062, pat.m.overgaard@usace.army.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA45/W9128F16S0001/listing.html>

NAICS: 237990. The Government intends to hold a presolicitation (nonmandatory) site visit on October 15, 2015, at 10:00 am MDT in Townsend, Montana, at the U.S. Forest Service Office, 415 South Front Street. The site visit is to make potential contractors aware of the proposed reclamation at the Iron Mask abandoned mine site on BLM land about 10 miles northwest of Townsend. The meeting will start with a general description of the project, followed by a site tour of the Iron Mask area construction locations, potential staging areas, anticipated haul routes, and repository location. Vehicles with four-wheel drive are recommended for the site tour. The purpose of this meeting is to make contractors aware of an upcoming opportunity for reclamation work and to view the site before there is significant snow cover. The Government expects to issue one contract to complete the following work: (1) Construct a mine waste repository; (2) Generate cover material from the footprint of the repository; (3) Excavate, haul, and place mine waste in the repository; (4) Import topsoil, road mix, and oversized construction materials; (5) Backfill, re-contour, reclaim, and revegetate the excavated mine waste areas; (6) Construct a vegetative cover soil cap over consolidated mine wastes located at the repository; and (7) Perform miscellaneous activities, such as road improvements, development of a trailhead, and installation of several stream crossings and culverts. Contractors interested in attending the site visit or who need additional information or have questions may contact Mr. Chris Fassero, U.S. Army Corps of Engineers, Omaha District, 402-995-2679 christopher.a.fassero@usace.army.mil.

SOL: W912P9-16-R-0002

POC: Treniece S. Stith, treniece.s.stith@usace.army.mil, 314-331-8520; Scott B Amos, Procurement Analyst, Scott.B.Amos@usace.army.mil, 314-331-8515, Fax: 314 331-8746.

WEB: <https://www.fbo.gov/notices/4f32e5e5d9a13c7b7553bdf070c943b2>

NAICS: 562910. This announcement supersedes the presolicitation notice posted to FedBizOpps on September 23, 2015, at <https://www.fbo.gov/notices/ec0fb3a7938ca55dfabed1c7e2538798> under solicitation number W912P9-15-R-0713. The new solicitation number for the future procurement is W912P9-16-R-0002. The contract will provide for Hazardous, Toxic and Radioactive Waste (HTRW) remediation activities managed by the U.S. Army Corps of Engineers St. Louis District. The contract for the environmental response actions, associated investigation, design and removal activities will include service and construction activities mandated by the Formerly Utilized Sites Remedial Action Program (FUSRAP). The work at the FUSRAP St. Louis sites falls under CERCLA. The St. Louis FUSRAP sites contain low-level radiological and chemically contaminated material. The St. Louis sites are located in the metropolitan St. Louis area in two primary vicinities, the St. Louis Downtown Site (SLDS) and the St. Louis North County sites

(NORCO). The NORCO sites includes the St. Louis Airport Site (SLAPS), SLAPS Vicinity Properties (SLAPS VPs), and the Hiss/Latty Avenue Properties (HISS/Latty). Work may be concurrent at multiple locations within these sites. Sites range from heavily industrialized areas to open fields. Contaminated accessible soil remaining for excavation and offsite disposal currently is estimated at 182,700 cubic yards. THIS PROCUREMENT WILL BE A TOTAL SMALL BUSINESS SET-ASIDE. [NOTE: The announcement does not give an anticipated date for posting the RFP.]

ASBESTOS ABATEMENT (PRESOL)

SOL: R15PS01609

POC: Michael Moffett, 208-378-5103, mmoffett@usbr.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/e3727d154666f346127bedae388cb69a>

NAICS: 562910. The Bureau of Reclamation, Pacific Northwest Region, Upper Snake Field Office, has a need for construction services for asbestos abatement for a decommissioned outdoor restroom near the Palisades Dam. The dam is located on the Snake River, about 11 miles west of the Idaho-Wyoming border, and 45 miles southeast of Idaho Falls, Idaho, in Bonneville County. The principal components of work consist of providing all labor, supplies, materials, tools, and equipment to remove and dispose of the asbestos-containing materials located within and on the restroom structure, to include vinyl flooring (~340 square feet), drywall and texture (~400 square feet), and roofing tar and tar sealer (~450 square feet). The NAICS code associated with this project is 562910, and the small business size standard is \$20.5 million in gross annual receipts averaged over the previous three 1-year accounting periods. The order of magnitude for this project is between \$25,000 and \$100,000. THIS PROCUREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE. DOI is electing to post the details of the solicitation on FedConnect rather than on FedBizOpps. THE RFP WILL BE ISSUED ON OR ABOUT OCTOBER 6, 2015, on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=R15PS01609&agency=DOI>.

R--LOS ALAMOS LEGACY CLEANUP COMPLETION PROJECT (LCCP) (MOD)

SOL: DE-SOL-0008109

POC: Kimberly Tate, Contracting Officer, 513-246-0102; Travis Marshall, Contract Specialist, 513-246-0103; Lenny Flagg, Contract Specialist, 513-744-0979; Submit questions to LANLPostFY16@emcbc.doe.gov.

NAICS: 562910. The Acquisition Planning phase for the Los Alamos LCCP post-FY 2016 Contract has been completed. DOE's Environmental Management Consolidated Business Center intends to solicit by means of FULL AND OPEN COMPETITION for a company with the specialized capabilities necessary to successfully perform all of the elements of scope for the upcoming Environmental Management (EM) procurement for the longer-term legacy cleanup requirements at Los Alamos National Laboratory (LANL). This competitive procurement represents the second phase of DOE's effort to transition the legacy cleanup activities at LANL from the National Nuclear Security Administration (NNSA) to EM oversight and management. On September 23, 2015, EM awarded a sole-source bridge contract to Los Alamos National Security LLC (LANS) of Los Alamos, NM, for the completion of short-term legacy cleanup activities at LANL while this competitive procurement is conducted. The Bridge Contract includes legacy cleanup scope previously performed by LANS under the NNSA-managed LANL Management and Operating Contract. The competitive solicitation for the post-FY 2016 legacy cleanup activities is anticipated to include requirements for a significant portion of the work to be accomplished by small businesses and will be a hybrid-type contract with cost-reimbursable and firm-fixed-price components within a period of performance of five years. The services to be provided under the solicitation will include a continuation of the major areas of scope identified in the bridge contract, which mainly include solid waste stabilization and disposition; soil and water remediation; and deactivation and decommissioning of defense nuclear facilities. The announcement is posted on FedConnect under reference number DE-SOL-0008109. The EM-Los Alamos Bridge Contract will be posted to <https://www.emcbc.doe.gov/About/PrimeContracts>.
