**8A SINGLE AWARD TASK ORDER FOR ENVIRONMENTAL ACTIVITIES AT VARIOUS LOCATIONS AND AREAS WITHIN THE RESPONSIBILITY OF THE PACIFIC RIM DISTRICT FOR HONOLULU (SRCSGT)**

**SOL:** W912DY-15-R-0240

**DUE:** 100915

**POC:** Kimberly Robinson, Contract Specialist, [Kimberly.M.Robinson@usace.army.mil](mailto:Kimberly.M.Robinson@usace.army.mil), 256-895-1151.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA87/W912DY-15-R-0240/listing.html>

**NAICS:** 562910. The Government is seeking to identify qualified 8(a) business sources under NAICS code 562910 (Remediation Services). The small business size standard is 500 employees. This notice is for market research purposes only and IS NOT A REQUEST FOR PROPOSAL, nor does it restrict the Government as to the ultimate acquisition approach. For market research purposes only, responses are invited solely from 8(a) business concerns. The Huntsville Engineering and Support Center, U.S. Army Corps of Engineers will select Environmental Remediation firms for a Single Award Task Order (SATOC) to assist the Honolulu District in the acquisition and execution of environmental work and the adherence to the requirements of the various states, federal, and/or local requirements. The contracts are anticipated to be awarded in fiscal year 2016 with a with a one-year base award and four one-year option periods, for a total ordering period not to exceed five years. To facilitate the Government's market research efforts, interested sources should respond to the questions presented within the announcement at FedBizOpps. The firm selected for this task order shall have experience in working within the Pacific Rim and should be knowledgeable in the regions geology, hydrogeology, biology, historic preservation, and sociology. The objective of the SATOC is to effectively execute the requirements of the task order by addressing the environmental laws/regulations and issues specific for this region and completing specific tasks in the following areas: Community involvement/public relations; Archeological and Biological Studies; Human Health and Ecological Risk Assessments; and Environmental Investigations and Planning Studies. Services may also include but are not limited to furnishing labor, transportation, equipment, material, supplies and supervision to perform each task specified in individual orders. INTERESTED FIRMS SHOULD SUBMIT A CAPABILITY STATEMENT DESCRIBING RELEVANT DEMONSTRATED EXPERIENCE AND QUALIFICATIONS NO LATER THAN 12:00 CT ON FRIDAY, OCTOBER 9, 2015, via email to [Kimberly.M.Robinson@usace.army.mil](mailto:Kimberly.M.Robinson@usace.army.mil) and [Janice.A.Jamar@usace.army.mil](mailto:Janice.A.Jamar@usace.army.mil) [NOTE: Another response time of 11:59 PM ET is stated in the General Information column in the FedBizOpps notice.]

**F--SAVANNAH RIVER SITE LIQUID WASTE (SRCSGT)**

**SOL:** DE-SOL-0008913

**DU:** 102115

**POC:** Aaron W. Deckard, [SRSLiquidWaste@emcbc.doe.gov](mailto:SRSLiquidWaste@emcbc.doe.gov).

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOE/PAM/HQ/DE-SOL-0008913/listing.html>

**NAICS:** 562910. This is a request for information (RFI) ONLY. No solicitation is available. The U.S. Department of Energy is currently in the acquisition planning stage for liquid waste services at the Savannah River Site (SRS), a 310 square mile (198,344 acres) site that is located in the sand-hills region of South Carolina. SRS encompasses parts of Aiken, Barnwell, and Allendale counties and is bordered on the west by the Savannah River and Georgia. Savannah River Remediation, LLC, is the incumbent contractor, and its contract currently expires during June 2017. The purpose of this Request for Information is to solicit input via capability statements from interested parties with the specialized capabilities necessary to meet the requirements of the major Elements of Scope for the liquid waste project at SRS. Additional information is posted on FedConnect at

<https://www.fedconnect.net/FedConnect/?doc=DE-SOL-0008913&agency=DOE>. This market research will assist DOE with identifying interested and capable sources and developing its acquisition strategy. Key market research goals include identifying and minimizing barriers to competition, evaluating small business capabilities, identifying risks, identifying potential requirements definition and contract alternatives, and identifying appropriate terms and conditions. An Industry Day will be announced and held in the near future. DOE's EMCBC has created a procurement website where additional information is provided at <https://www.emcbc.doe.gov/SEB/SRSLiquidWaste/>. The anticipated type of contract(s), period of performance, amount of funding, and small business participation opportunities are yet to be determined. Due to the preliminary stage of this planning activity, no Performance Work Statement is available at this time. CAPABILITY STATEMENTS AND QUESTIONS MUST BE SUBMITTED NO LATER THAN 11:59 PM ET, OCTOBER 21, 2015, to [SRSLiquidWaste@emcbc.doe.gov](mailto:SRSLiquidWaste@emcbc.doe.gov).

**NAICS:** 562112. NAVSUP Fleet Logistics Center Norfolk intends to issue a Request for Proposal (RFP) N00189-15-R-0102, for the acquisition of Hazardous Waste Collection services, under NAICS 562112 to support the Navy Munitions Command, 160 Main Road, Yorktown, VA 23691-5111. This requirement will result in a noncompetitive award to J. L. Shepherd and Associates Inc., 1010 Arroyo Street, San Fernando CA 91340 under the authority of 41 U.S.C. 1901, and FAR 6.302(b)(1). The anticipated contract will be a firm-fixed-price Purchase Order with a period of performance of September 30, 2015, to January 28, 2016. The Navy Munitions Command is requesting disposal/removal services for various types of gamma calibrators. There are nine calibrators, models TS-1216 (A, B, C). The TS-1216 series gamma calibrators were built by J.L. Shepherd and Associates Inc. J.L. Shepherd and Associates is the original Equipment Manufacturer (OEM), and maintains proprietary rights to the units. The contractor shall take possession of the calibrators. The vendor shall extract mercury and depleted uranium (DU) from each unit. The extracted mercury and DU shall be shipped back to the Navy Munitions Command for final recycling in accordance with Navy regulation; the radioactive housings will be retained by the contractor for disposal/recycling in accordance with Nuclear Regulatory Commission regulations.
