

Federal Business Opportunities (FedBizOpps) Update

Notices for October 17-23, 2016

This update contains summaries of procurement notices issued between October 17-23, 2016 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

R--ASBESTOS HAZARD EMERGENCY RESPONSE ACT (AHERA) SURVEY ALEXANDRIA VA HEALTH CARE SYSTEM PINEVILLE, LA (COMBINE)

SOL: VA25617Q0029

DUE: 102616

POC: Surella Tracy, surella.tracy@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/FaVAMC564/FaVAMC564/VA25617Q0029/listing.html>

NAICS: 541620. This announcement constitutes the only solicitation; quotes are being requested and a written solicitation will not be issued. This requirement is set aside for Service-Disabled Veteran-Owned Small Business (SDVOSB) under NAICS code 541620, with a small business size standard of \$15M. To receive consideration as SDVOSB, a firm must be registered and verified in the VIP database at www.vip.vetbiz.gov. The Alexandria VA Medical Health Center located in Pineville, LA has a requirement for asbestos survey and asbestos inventory. The contractor shall provide asbestos survey and asbestos inventory of building materials, including basements, sub-basements, and roofs to complete the compliance of Asbestos Hazard Emergency Response Act (AHERA) as outlined within the Statement of Work. The government anticipates a firm-fixed-price award. The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforms to the solicitation requirements and will provide the best value to the government. Email any questions about this procurement to Surella Tracy@va.gov by 2:00 PM CT on October 24, 2016. Responses to questions will be incorporated into a written amendment posted to FedBizOpps. ALL QUOTES MUST BE RECEIVED BY OR BEFORE 2:00 PM CT ON OCTOBER 26, 2016. Award of a contract is anticipated by December 30, 2016.

SOURCES SOUGHT FOR ARCHITECT ENGINEER INDEFINITE DELIVERY/INDEFINITE QUANTITY (A/E IDIQ) ENVIRONMENTAL SERVICES CONTRACT (SRCSGT)

SOL: W912DR-16-N-HTRW

DUE: 102816

POC: Linda Evans, Contract Specialist, linda.evans@usace.army.mil, 410-962-3710.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA31/W912DR-16-N-HTRW/listing.html>

NAICS: 541330. This Sources Sought notice constitutes market research to determine the potential availability of commercial sources and services and their capabilities. Large and small businesses are encouraged to participate in this survey upon the results of which the Government may base decisions about a future procurement. The U.S. Army Corps of Engineers (USACE), Baltimore District, seeks to determine the availability and adequacy of potential sources to support acquisition of A/E services for various environmental requirements. USACE Baltimore District anticipates satisfying these requirements by potentially utilizing a variety of the following sources: 8(a), Service-Disabled Veteran-owned Small Business, HUBZone, small business, and unrestricted business. Should acquisition of these requirements follow this market research effort, it will be conducted in compliance with the Brooks Act. The applicable NAICS code for this procurement is 541330, and the size standard is \$15M. The USACE Baltimore District is seeking sources to perform Architect-Engineer (A/E) services for various environmental requirements to support USACE and its customers primarily located within the assigned mission areas of the North Atlantic Division (NAD), with incidental utilization CONUS and in Alaska, Hawaii, and Puerto Rico in support of NAD and other USACE Regions. For the purposes of planning this procurement, the Government is seeking responses from sources/vendors/companies that are capable of providing A/E environmental services as described herein. IDIQ contracts will be awarded to contractors for a 5-year period. The capacity will vary depending on the response, but the overall value will be \$160M, which will not be a shared value. The work may encompass a wide range of A/E environmental services in the general areas of environmental cleanup, compliance, planning, sustainability, and quality at various military and non-military locations. Programs supported include the following programs: DoD Environmental Restoration; Formerly Utilized Defense Sites; Operational Range Assessment; Base Realignment and Closure; Formerly Utilized Sites Remedial Action; EPA Superfund; and a variety of other military and civilian cleanup, environmental quality, and planning programs. The scope of A/E environmental services capabilities desired may include, but are not limited to, site investigations, subsurface exploration, chemical sampling, testing and analyses, hazard evaluations, National Environmental Policy Act, Environmental Impact Statements, Environmental Assessments, feasibility and other engineering studies and reports, cultural resource investigations and mitigation, wetlands determination and mitigation studies, groundwater and surface water modeling, storm water planning and modeling, fate and transport analyses, preparation of plans and specifications, natural resource planning level surveys, and field inspections. Interested firms should submit a Statement of Capability (SOC) demonstrating their experience in these areas via email to linda.evans@usace.army.mil. RESPONSES ARE DUE BY OR BEFORE 2:00 PM ET ON OCTOBER 28, 2016.

SUPERFUND NPL AND HRS TECHNICAL SUPPORT (SRCSGT)

SOL: SOL-HQ-17-00001

DUE: 110416

POC: Jose Ortiz, ortiz.jose@epa.gov.

NAICS: 541620. This is a sources sought notice for capabilities statements only; no solicitation is available at this time. The U.S. Environmental Protection Agency is conducting market research to determine if capable, qualified small businesses, including service-disabled veteran-owned, veteran-owned, woman-owned, HUBZone, 8(a), and small disadvantaged firms relevant to NAICS code 541620 (Environmental Consulting Services, size standard of \$15M) possess the capabilities to support EPA's Hazard Ranking System and National Priorities List (NPL) Technical Support requirement. Interested small business firms are invited to submit a Capabilities Statement with information that clearly demonstrates their capabilities to provide the services described in the notice posted on FedConnect. Standard company brochures will not be considered a sufficient response. The Government's evaluation of the capability statements received will factor into whether any forthcoming solicitation will be conducted as a full and open competition, or as a set-aside for small businesses, or for any particular small business designation (e.g., SDVOSB, HUBZone, 8(a), etc.). EPA is investigating whether capable small business sources are able provide the technical and analytical services to provide support to EPA's Office of Superfund Remediation and Technology Innovation in assessing and implementing NPL activities. The estimated level of effort for this requirement, in professional labor hours, is 30,000 hours per year for a 5-year contract -- 20,000 hours per year for two one-year award terms -- 10,000 hours per year optional quantities ordered in increments for each Award term of the contract (maximum potential 7-year LOE of 210,000 total hours). To help determine if this potential requirement may be set-aside for small business concerns, the government is seeking input from the small business community regarding interest and capability in performing the tasks reflected in the FedConnect notice. The Government requests demonstration of capability by interested parties through submittal of capability statements. SUBMIT ALL CAPABILITY STATEMENTS VIA FEDCONNECT BY OR BEFORE 4:00 PM ET ON NOVEMBER 4, 2016. The full details of this Sources Sought are posted only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-HQ-17-00001&agency=EPA> [Note: It may be necessary to copy and paste the URL into your browser for direct access.].

POC: America Quinones-Gonzalez, Contract Specialist, America.Quinones-Gonzalez@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/SJVAMC672/SJVAMC672/VA24816Q1833/listing.html>

NAICS: 541380. VISN 8 - Services: Underground and Aboveground (UST/AST) Storage Tanks Inspections, Testing, Preventive Maintenance and Repair(s). This is a solicitation for commercial items prepared in accordance with the format in Subpart 12.303, as supplemented with additional information included in this notice. The Network Contracting Office 8, VA Caribbean Healthcare System, San Juan, Puerto Rico is issuing a Request for Quotations/Offers for the services on the inspections, testing, preventive maintenance, and repair to UST/AST located at mentioned Facility, and Outpatient Clinics. THIS PROCUREMENT IS BEING SOLICITED AS A TOTAL SMALL BUSINESS SET ASIDE, NAICS code 541380, Testing Laboratories, with a size standard of \$15M. Veterans are encouraged to submit their quotations, and will be evaluated as established criteria on the Veterans First Contracting Program, and Public Law 109-461. The fuel storage tank system comprises aboveground storage tanks, underground storage tanks, and associated fuel supply piping system at VA Caribbean Healthcare System facilities in the San Juan Medical Center, Ponce Out-Patient Clinic, and Mayaguez Out-Patient Clinic. The fuel storage and distribution systems provide diesel, gasoline and ethanol fuel on a 24-hr/d, 7 d/wk, 365 d/yr basis for facilities operations, such as steam generation plants, government vehicle fleet fuel station, and emergency standby power. The Contractor shall provide all labor, equipment, transportation, tools, supervision, and other items and services necessary to provide inspection, cleaning, testing, calibration, maintenance and repair of USTs with auxiliary equipment and systems in VA Caribbean Healthcare System facilities. The Contractor shall provide the activities necessary to ensure 9 USTs and 24 ASTs at VACHS are in compliance with UST and AST regulations. These activities include performing the required tests, inspections, maintenance, and repairs (if needed) to insure UST/AST compliance. The VACHS USTs capacity ranges from 14,500 gal to 30,000 gal, and the ASTs capacity ranges from 225 gal to 10,000 gal. RESPONSES ARE DUE BY OR BEFORE NOVEMBER 14, 2016.

NAICS: 562211. THIS REQUIREMENT IS FULL AND OPEN. This contract requires the transportation and disposal of RCRA hazardous wastes, non-RCRA wastes, state-regulated wastes, non-state regulated wastes, universal wastes, compressed gas cylinders, and polychlorinated biphenyls (PCBs). This contract is for various military and Government activities, which may encompass multiple states. Standard removal time frame for all sites is 15 calendar days from the date of order issuance. Standard performance time frame is 30 calendar days from the date of order issuance. The Contractor agrees that, for those portions of the services provided on a Government installation, the services will be provided during normal hours of operation for the installation, which are available upon request from the COR. Pricing for containerized waste will be largely but not entirely based upon container sizes, rather than pricing on a per-pound basis. Generators are responsible for ensuring their containerized wastes sent for disposal via this contract are in Department of Transportation shippable packaging. This contract consists of one 30-month Base Period, followed by one 30-month Option Period. This contract is a firm-fixed-price IDIQ contract written as a performance-based contract, which allows the Contracting Officer to make monetary deductions and/or a negative mark on the Contractor's Past Performance when an acceptable performance level is not met. NOTE: ALTHOUGH THE RESPONSE DATE GIVEN AT FEDBIZOPPS IS 4:30 PM ET ON NOVEMBER 18, 2016, THE ATTACHED SOLICITATION SPECIFIES 3:00 PM ET ON OCTOBER 31, 2016, AS THE DUE DATE FOR RESPONSES.

NAICS: 238190. This Sources Sought is a market research tool being utilized to determine the availability of qualified small business concerns prior to issuing a Request for Proposal. This is not a solicitation for proposals and a contract will not be awarded as a result of this announcement. The Indian Health Service is conducting this market research via a sources sought notice for the abatement, demolition, removal and site restoration of 12 selected buildings. This project is located in San Carlos, Arizona. When the San Carlos Apache Tribe's New Apache Healthcare Center opened in Peridot, AZ, in 2015, it replaced the Old San Carlos Hospital, which was built in San Carlos in 1961. While several of the Old Hospital Complex's buildings have been retained for use by the Indian Health Service, 12 of the original buildings have been selected for demolition. Those 12 buildings include the Main Hospital building and an Outpatient addition, as well as 4 freestanding departmental buildings (Dental, Offices, Maintenance, and an Annex) and 6 residential properties. Because hazardous materials are present in all 12 buildings, it is necessary to abate them prior to their demolition and disposal. The tentative Scope of Work might include all supervision, labor, material and any other associated costs to demolish, remove, and dispose of the 12 subject buildings and all associated utilities,

pavement and landscaping, and complete all required site remediation and/or restoration. The estimated price range of the resultant contract is between \$250,000 and \$500,000. The NAICS code is 238190, Site Preparation Contractors, with a Small Business Size Standard of \$15M. Interested small businesses are invited to respond to this sources sought notice with a description of interest and capability. RESPONSES MUST BE RECEIVED BY OR BEFORE 1:00 PM PT ON NOVEMBER 21, 2016.

NAICS: 541620. The U.S. Environmental Protection Agency (EPA) intends to negotiate on a sole-source basis, under the authority of FAR 6.302-1 with Tetra Tech Inc. to provide support services to the EPA Office of Water (OW), Office of Wastewater Management (OWM) under the contract entitled Technical and Administrative Support for OW/OWM, EP-C-11-009, for an additional 20,334 level-of-effort labor hours to be utilized to extend the contract that expires October 31, 2016, by up to four potential months. The first extension will extend the period of performance by two months until December 31, 2016. This will be extendable by two option periods of one month each, with a maximum expiration date of February 28, 2017. EPA OW OWM requires the contractor to provide the level of effort, material, equipment, and facilities necessary to provide assistance in program development, implementation and oversight, principally, data support, collection, compilation, and analysis of data and information. The contractor shall provide recommendations for regulatory, policy, strategy, and guidance development, to include the compilation of supporting data, development of options, research and development of new permitting tools sufficient to address complex/emerging permitting issues, and recommendations for action or approval by EPA. Attendant to those responsibilities, the contractor shall provide support for NPDES permit development, to include, reviewing permit applications for consistency with federal requirements, conducting statistical analyses, and preparing draft permits and supporting documentation. In addition, the contractor shall monitor permit compliance and provide permit writers with guidance and training.
