NAICS: 562910. THIS SOLICITATION IS SET ASIDE FOR INDIAN SMALL BUSINESS ECONOMIC ENTERPRISES. This announcement constitutes the only solicitation; a written solicitation will not be issued. The requirement is to plug and abandon 9 groundwater monitoring wells installed at the Gasoline Contamination Plume at Building 90 in Shiprock, New Mexico. The plume has been remediated and the Navajo Nation EPA has granted an NFA for the site; hence, the wells can be removed. Period of Performance: 60 days from issuance of the Notice to Proceed. Each offeror shall submit a plan consisting of a narrative explanation of their quote on-site approach to project management and coordination; and cost control measures on change orders and how they are quoted and tracked. Each offeror will be required to provide the relevant experience and knowledge of key individual(s) of the project team who will be assigned directly to the project. This factor will assess the quoted key personnel qualifications. The assessment will consider whether the quote provides an adequate number of appropriately qualified personnel to meet the technical, management and support requirements of the SOW. The SOW is available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=A17PS00088&agency=DOI> [Note: It may be necessary to copy and paste the URL into your browser for direct access.]. RESPONSES TO THE RFQ MUST BE RECEIVED BY OR BEFORE 12:00 PM MT ON WEDNESDAY, NOVEMBER 30, 2016.

NAICS: 562910. The purpose of this sources sought notice is to determine if there is interest among 8(a) companies to accomplish asbestos flooring and mastic abatement and disposal at the Memphis VA Medical Center, Memphis, TN. This requirement is for asbestos flooring mastic abatement, VCT tile removal, and disposal in all areas of the outpatient x-ray area, Room 6112, (approximately 2230 sq ft) and the five Chaplains' offices, Rooms BW 221, 222, 223, 224, 225, (approximately 700 sq ft) located at the Memphis VA Medical Center, 1030 Jefferson Ave, Memphis, TN 38104-2127. The areas may contain up to two layers of asbestos mastic and floor tiles. The Contractor shall furnish all labor, supervision, and material to remove and abate asbestos mastic, floor tiles, and cove base in Outpatient X-ray clinic and five Chaplains' Offices at the Memphis VA Medical Center, 1030 Jefferson Ave, Memphis TN, 38104-2127. Contractor must have all in-state required licenses and must apply for all applicable construction permits. The contractor will include a copy of license and certifications showing proof to accomplish abatement in the state of Tennessee with the proposal. Work shall be performed during after-hours between 5 PM and 5 AM Monday thru Friday. Work on weekends shall be scheduled with COR. Contractor shall have 45 calendar days from the effective date of the Notice to Proceed to complete all abatement work; 10 calendar days for the outpatient x-ray area; and 35 calendar days for the Chaplains' offices. Contractor will provide supervision to ensure proper procedures are used. The contractor will provide a third party EPA-Certified Licensed Building Inspector to perform a limited asbestos survey of suspect friable and Cat. II non-friable building materials. If interested in competing for the work described above, please email David Milner at david.milner@va.gov.

F--ASBESTOS ABATEMENT, EFMO (COMBINE)

SOL: P17PS00152

DUE: 120916

POC: Nicholas Murray, 402-661-1698, nicholas_m_murray@nps.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOI/NPS/APC-IS/P17PS00152/listing.html>

NAICS: 562910. THIS ACQUISITION IS SET ASIDE 100% FOR SMALL BUSINESS under NAICS code 561621. The Government has arranged an organized site visit that is tentatively scheduled for Wednesday, November 30, 2016, at 10:00 AM for both parties. The POC for the site visit is Jeremy Parker, (563) 873-3491 ext. 132 or jeremy.parker@nps.gov. Scope of Work: Perform asbestos abatement by removing a black mastic adhesive on a 800 sq. ft. portion of the ceiling of the Visitor Center Collections Room, which is a restricted space, so a park-assigned monitor will be present throughout the entire project. Remove the asbestos-containing adhesive from the ceiling by a licensed contractor. The area will need to be sealed off, and negative air pressure machines with HEPA filters will need to be used to contain and remove airborne asbestos particles. If all of the mastic cannot be removed, the contractor

must encapsulate the area with a paintable product. The product must be disposed of to a properly licensed hazardous waste facility. All necessary materials and supplies shall be provided by the offeror. SUBMIT QUOTES NO LATER THAN 3:00 PM CT ON FRIDAY, DECEMBER 9, 2016, via email to to nicholas_m_murray@nps.gov. Type of Contract: Firm Fixed Price. Delivery: 45 Days After Award.

NAICS: 562910. This solicitation will be issued pursuant to the Veterans First Public Law 109-461 as a 100% SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB) SET-ASIDE. The Department of Veterans Affairs (VA) Loma Linda Healthcare System, has a requirement to remediate damage from a sanitary sewer pipe leak at the Loma Linda Medical Center. On 9/28/2016 at ~1730 PM a sanitary sewer 90 degree elbow in the interstitial space above animal research sprung a leak. Leak was not noticed until the following morning when it presented itself by dripping from the light fixtures. At that time, maintenance personnel shut off water flow and made holes into the hard deck ceiling to allow water to drain off. EMS personnel placed buckets to catch drain off water. A firm-fixed-price award is anticipated. Contractor shall furnish services to include all tools, labor, equipment, materials, and supervision necessary to execute all tasks per the Statement of Work. Quoters must be listed in the VetBiz.gov Vendor Information Pages at www.vetbiz.gov, and currently registered in the System for Award Management, www.sam.gov. The magnitude of this VA construction project is estimated to be below \$25,000. OFFERS ARE DUE BY OR BEFORE DECEMBER 9, 2016.

C--SOURCES SOUGHT SYNOPSIS FOR COMPLIANCE REQUIREMENT (SRCSGT)

SOL: N6274217SS002

DUE: 121516

POC: Norine E. Horikawa, 808-471-4666, norine.horikawa@navy.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DON/NAVFAC/N62742/N6274217SS002/listing.html>

NAICS: 541330. This is a Sources Sought Synopsis, which constitutes market research to identify the interest and potential availability of small businesses and Section 8(a), HUBZone, woman-owned, service-disabled veteran-owned small business concerns that are capable of providing professional A-E services in support of the Department of the Navy's programs for environmental investigations and permit applications and related studies at various Navy and Marine Corps Activities in the Pacific Basin and Indian Ocean Areas. The applicable NAICS code is 541330, with a size standard of \$15M average annual receipts over three years. Engineering services are required to conduct environmental studies and safety related studies at various locations under the cognizance of the Naval Facilities Engineering Command Pacific. The services may include the preparation of analytical studies; reports; management plans; technical evaluations; permit applications; preliminary engineering designs; cost estimates and supporting documents for corrective projects; and performing monitoring, testing and inspection actions. The firm must have or be able to obtain microbiology, toxicology and chemistry laboratory services. Projects may involve technical studies, regulatory compliance, planning, design, operation and maintenance in any one or a combination of the following: (a) Air source inventories, permits, and modeling, and air/ODS management plans; (b) Asbestos and lead based paint surveys, inspections, management plans, and abatement activities; (c) Dredging and dredged material management; (d) Drinking water and wastewater utility system security vulnerability assessments; (e) Environmental restoration; (f) Hazard abatement; (g) Hazardous waste management plans, and RCRA permits; (h) Hydrogeological Modeling; (i) Oily waste collection and treatment facilities; (j) Pollution Prevention (P2); (k) Potable Water source, treatment and distribution systems assessments; (l) Radon testing, monitoring, management plans, risk communication plans, diagnostics, and mitigation; (m) Sewage/wastewater and industrial waste collection, treatment, and disposal systems investigations and assessments; (n) Solid waste utility system assessment and management plans, recycling and landfill closure plans; (o) Spill prevention/response planning and management; (p) Sludge handling and disposal systems; (q) Storm water (including LID) systems investigations, assessment and management, and NPDES permits; (r) Surveying and cadastral; (s) Underground storage tanks (USTs) assessment and management plans. The contract term is anticipated to be a 12-month base period with four 12-month option periods or \$40M, whichever occurs first. NAVFAC Pacific will use the responses to this Sources Sought synopsis to make the appropriate acquisition decision for the planned procurement. FIRMS HAVING THE CAPABILITIES TO PERFORM THE WORK ARE INVITED TO RESPOND BY 10:00 AM HAWAII TIME ON DECEMBER 15, 2016.

NAICS: 541712. The U.S. Army Corps of Engineers (USACE) - Portland District (NWP) is conducting market research for an upcoming IDIQ contract comprising a pool of 3-4 contractors, with a maximum capacity of \$6M. The IDIQ will have a base period of three years and no option periods. The type of set-aside (if any) depends upon the response to this Sources Sought announcement and associated market research. The NAICS code is 541712; the Small Business Size Standard is 1,000 Employees; and the Federal Service Code is B532 - Soil Studies. This Sources Sought is to ascertain knowledge of interest, capabilities and qualifications of Small Businesses, Small Disadvantaged Businesses, HUBZone concerns, Service-Disabled Veteran-Owned Small Businesses (SDVOSB), and all Woman-Owned SB (WOSB) categories. The Government must determine whether there is adequate competition amongst the potential pools of responsible contractors to utilize a small business and/or socio-economic program set-aside. All categories are encouraged to respond. The Sediment Evaluation Team provides all dredged material characterization and disposal site monitoring and management for the Portland District. Project Locations include the following: (a) Columbia Federal Navigation Channels (FNCs): Mouth of the Columbia River (MCR), Lower Columbia River and side channels, Willamette River; (b) Coast FNCs: Tillamook, Depoe Bay, Yaquina, Siuslaw, Umpqua, Coos Bay, Coquille, Port Orford, Rogue, Chetco; (c) Ocean Dredge Material Disposal Sites (ODMDSs): MCR, Siuslaw, Umpqua, Coos Bay, Coquille, Rogue, Chetco; and (d) CWA disposal sites: MCR, Tillamook, Depoe Bay, Umpqua, Coos Bay, Coquille, Port Orford, Rogue, Chetco. The Contractor (KTR) shall be capable of performing a wide range of dredged material evaluations and related services work. Examples are provided in the FedBizOpps notice. RESPONSES MUST BE RECEIVED BY OR BEFORE 2:00 PM PT ON FRIDAY, DECEMBER 16, 2016.

B--ANALYSIS OF WATER SAMPLES FOR SVOCs AT EPA IN NJ (PRESOL)

SOL: RFQ-OH-16-00237

POC: Kimberly Loesch, loesch.kimberly@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/OH/RFQ-OH-16-00237/listing.html>

NAICS: 541380. EPA's Urban Water Management Branch has a requirement for a laboratory to perform periodic analysis of water samples for semi-volatile organic compounds (SVOCs). The laboratory will be responsible for picking up samples from the sampling location in Edison, NJ. The purchase order will be for a base period of 1 year and three 1-year option periods. For the base period, the laboratory will analyze 75 samples over four events (batches). For each of the three option years, there will be 110 samples over six events. The laboratory is expected to pick up samples from the EPA facility within 24 hours of notification of a valid sampling event (with exception for weekend sampling events as long as samples remain in hold). The laboratory is expected to perform analysis on water samples according to EPA method 8270C and subcategory of 8270C w/SIM for lower method detection limits. The laboratory shall provide laboratory analysis reports to the EPA TOCOR. In addition to any officially formatted laboratory reports, the laboratory shall submit electronic copy of all data in an editable format. This data shall be in a format compatible with spreadsheet and statistical packages (e.g., text, dBase, Excel, Statistica). Software Application files, if delivered to the Government, shall conform to the requirements relating to accessibility as detailed to the 1998 amendments to the Rehabilitation Act, particularly but not limited to 1194.21 Software applications and operating systems. Accordingly, all other documentation shall be submitted in Microsoft Word 2007 compatible format. THIS ACQUISITION IS BEING CONDUCTED USING FULL AND OPEN COMPETITION. It will be accomplished using FAR Part 12 and FAR Part 13 procedures. EPA anticipates awarding a single fixed-price purchase order. EPA anticipates award will be made by January 13, 2017. RELEASE OF THE REQUEST FOR QUOTATION IS ANTICIPATED ON OR ABOUT DECEMBER 7, 2016, through FedConnect at <https://www.fedconnect.net/FedConnect/?doc=RFQ-OH-16-00237&agency=EPA> [Note: It may be necessary to copy and paste the URL into your browser for direct access.]
