

Federal Business Opportunities (FedBizOpps) Update

Notices for January 4-10, 2016

This update contains summaries of procurement notices issued between January 4-10, 2016 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

CONTAMINATION MAPPING (SRCSGT)

SOL: RFICBTCM

DUE: 012016

POC: Dr. Charles A. Bass, charles.a.bass10.civ@mail.mil ; Brian D. Nuckols, brian.d.nuckols.civ@mail.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/ODA/DTRA/DTRA01/RFICBTCM/listing.html>

NAICS: 541712. This Sources Sought notice is solely for the purpose of gathering information and does not constitute a solicitation or the issuance thereof. Defense requires an ability to reduce or eliminate CBRN contamination of equipment, including vehicles, aircraft, maritime vessels, fixed sites (e.g., ports, airfields, roads, C2 nodes), and other major end items and supplies, in order to mitigate the spread of contamination, minimize exposure, reduce hazardous waste, allow personnel to reduce MOPP levels, and return equipment and fixed sites to operational capability. An approach for accelerating this process and reducing overall logistical demand for decontamination is to rapidly identify areas of surface contamination (contamination indication) to segregate equipment for processing; focus cleaning efforts on contaminated areas; and assure completeness of contamination (decon assurance). Previous efforts have developed decon assurance solutions that provide a colorimetric indication of the areas of chemical warfare agent contamination. The Defense Threat Reduction Agency (DTRA) seeks information on technologies to automate and accelerate the decon assurance colorimetric indication process and catalog digital location information for later retrieval. Specifically, respondents are asked to outline their technology/ capability for developing optical systems that automate the contamination indication/ decon assurance processes to: (1) Work in conjunction with a contamination indication/ decon assurance spray to use visible and/or hyperspectral imaging to find contaminated areas on complex 3-dimensional surfaces and digitally map the contamination for later reference and retrieval. (2) Scan an armored vehicle in less than 10 minutes. (3) Detect and map all residual above-threshold skin-contact hazards of chemical warfare agents, such as HD, GD and VX. (4) Exclude false readings from background and other environmental contaminants. Respondents should provide capability statement (5-page limit) to address the information needs described above along with a rough order of magnitude cost estimate. Submit the information via email to charles.a.bass10.civ@mail.mil with a cc: to brian.d.nuckols.civ@mail.mil. Hard copy submissions will not be accepted. RESPONSES ARE DUE BY 2:00 PM ET ON JANUARY 20, 2016.

SATOC FOR REMEDIATION OF FORMERLY UTILIZED SITES REMEDIAL ACTION PROJECT AT THE FORMER DUPONT CHAMBERS WORKS SITE, DEEPWATER, NEW JERSEY (SRCSGT)

SOL: W912BU-16-FUSRAP-DuPont-SATOC

DUE: 012116

POC: Michelle L. Johnson, Michelle.L.Johnson@usace.army.mil, 215-656-6774.

WEB: FBO.gov Permalink at

<https://www.fbo.gov/spg/USA/COE/DACA61/W912BU-16-FUSRAP-DuPont-SATOC/listing.html>

NAICS: 562910. The U.S. Army Corps of Engineers (USACE) Philadelphia District is conducting market research to facilitate a determination of acquisition strategy for this procurement, specifically to determine the interest of contractors (particularly small business concerns) that have the capability to perform a complex Formerly Utilized Sites Remedial Action Program (FUSRAP) project at the DuPont Chambers Works (DuPont) site. Responses to this sources sought announcement will be used by the Government to make appropriate acquisition decisions. The USACE is addressing residual radioactive contamination in specific areas of the DuPont Chambers Works FUSRAP Site. Constituents of concern are uranium, thorium, and radium; specifically uranium-234, -235, and -238; thorium-230, and radium-226. The remedial action recommended in the Proposed Plan and selected in the Record of Decision, signed September 12, 2013, addresses only these FUSRAP-eligible constituents of concern and does not address other hazardous contaminants that might be present at the site. The NAICS Code for this acquisition is 562910, Environmental Remediation Services, with a small business size standard of 500 employees. The duration of this contract is a base year with four option years. The Government anticipates issuing a Single Award Task Order Contract (SATOC) with a total contract value not to exceed \$75M or 5 years. Task Order awards under this contract may be either cost reimbursable or firm fixed price. Prior experience with FUSRAP projects of similar magnitude and scope is desired, and specific requirements in this area are spelled out in the FedBizOpps notice. Capability statements (7 pages max) are due by or before 12:00 PM ET on January 21, 2016, via email to Michelle.L.Johnson@usace.army.mil.

MK 50 LITHIUM BOILER PICKUP, TRANSPORTATION, AND DISPOSAL-HAZMAT (COMBINE)

SOL: N00253-16-T-0033

DUE: 020516

POC: Anita Moosmiller, Contract Specialist, anita.moosmiller@navy.mil, 360-315-8501.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DON/NAVSEA/N00253/N00253-16-T-0033/listing.html>

NAICS: 562211. Naval Undersea Warfare Center, Division Keyport is issuing a combined synopsis/solicitation for one-time pick-up, transportation, and disposal of 21 MK-50 Lithium Boilers from Bangor Naval Submarine Base, WA, in support of Naval Undersea Warfare Center Division, Keyport. Boilers contain hazardous material, and no detonation or treatment will be conducted on site. The resultant contract is anticipated to be awarded as a firm-fixed price (FFP) contract. The applicable NAICS code for this requirement is 562211 with a small business standard of \$38.5M. This procurement will be solicited in accordance with FAR Subpart 13.5, and will utilize FULL AND OPEN COMPETITION. Offers will be evaluated on the basis of the lowest price, technically acceptable, past performance acceptable offer. In order to be considered awardable, an offer must be rated "acceptable" in every non-price factor. Offers shall be FOB Destination. OFFERS ARE DUE BY OR BEFORE 2:00 PM PT ON FEBRUARY 5, 2016.

R--QUALITY ASSURANCE FOR TECHNICAL SUPPORT (QATS) CONTRACT (PRESOL)

SOL: SOL-HQ-14-00018

POC: Ross Miller, miller.ross@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/HQ/SOL-HQ-14-00018/listing.html>

NAICS: 541620. THE RELEASE OF THE QUALITY ASSURANCE FOR TECHNICAL SUPPORT (QATS) SOLICITATION IS PLANNED FOR THE WEEK OF JANUARY 11, 2016. The purpose of the procurement is to provide technical support that assures the development of environmental data of sufficient quality to meet the technical and analytical needs of Superfund and EPA's Office of Superfund Remediation and Technology Innovation. The contract will provide QATS in the following task areas: Task I. Performance Evaluation Materials, for accurate analyte identification and quantitation. Task II. Electronic Media and Data Package Review, for contract compliance and technical acceptability. Task III. On-site Audits, for inspecting facilities and equipment and for compliance with technical contract requirements. Task IV. Methods and Guidelines Evaluation, to assure the use of effective, up-to-date procedures. Task V. Logistical and

Administrative Support, for maintaining overall laboratory and facility-related operations, including quality control, progress reports, database development, document archiving, training, and other support. See preliminary details in previously posted files on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-HO-14-00018&agency=EPA>

AE DESIGN SEDIMENT CLEANUP IN HOWARD'S BAY (PRESOL)

SOL: W911XK-16-R-0001

POC: Bruce M. Walrad, bruce.m.walrad@usace.army.mil, 313-226-2134.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA35/W911XK-16-R-0001/listing.html>

NAICS: 541330. The U.S. Army Corps of Engineers, Detroit District, intends to negotiate a sole-source contract for environmental engineering services with ARCADIS U.S., Inc. This intended action was noticed and approved in accordance with the Federal Acquisition Regulation and 41 USC 3304. The Scope of Work involves field investigation, sampling, contaminant modeling, and the development of construction documents for use in a future excavation and remediation contract for Howard's Bay, Superior, Wisconsin, which will be noticed and procured separately from this action. The estimated cost of this action is between \$250,000 and \$500,000. This project is not set aside for small business; however, a small business subcontracting plan shall be required with a strategy for involvement of small business enterprises in the performance of the contract. The Government intends to issue a firm-fixed-price contract. The proposal from ARCADIS will be solicited in mid-January 2016 and will be due in mid-February 2016. Award is intended in late February 2016. The contract performance period will be approximately 6 months. This is a sole-source procurement, and the solicitation for this contract will not be publicized.
