 NAICS: 562211. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. THIS REQUIREMENT IS 100% SET ASIDE FOR SMALL BUSINESSES under NAICS code 562211, with a Small Business Size Standard of \$38.5M. The M43A1 Chemical Agent Detector has been phased out of the DOD supply system. The M43A1 contains a radioactive foil source, Americium-241. The contractor shall provide all the DOD supply system. The M43A1 contains a radioactive foil source, Americium-241. The contractor shall provide all labor, equipment, and materials necessary to R&R Am-241 and/or any precious metals deemed recyclable, obtained from various Government Furnished Property (GFP) CAD Cell Source Holders. This method allows for the contractor to accept receipt of the radioactive material and perform all recycling work; however, a partnership may be used with another company able to perform the receipt, R&R of the Am-241, and/or precious metals. The Air Force Radioactive Recycle and Disposal Office (AFRRAD) will remove all CAD Cell Source Holders from their respective Source Housings. The contractor shall provide an R&R facility separate from (outside) Wright Patterson AFB (WPAFB), Ohio. The contractor shall not use WPAFB facilities for this R&R program. The contractor is responsible for compliance with all current environmental laws and regulations (local, state and federal). Regulations and licenses issued by an agreement state can be used to comply with applicable, current environmental laws that implement regulations of U.S. Nuclear Regulatory Commission. The quantities of CAD Cells and the Delivery Schedule are identified in Section II in the Performance Work Statement at FedBizOpps. PROPOSALS MUST BE RECEIVED BY OR BEFORE 1:30 PM ET ON SEPTEMBER 9, 2016. SEPTEMBER 9, 2016.

PLUM ISLAND REMEDIATION SERVICES (COMBINE)

SOL: HSHQPD-16-Q-00013

DUE: 091216

POC: Kimberly O'Neill, Contract Specialist, <u>kimberly.oneill@st.dhs.gov</u>, 631-323-3346. **WEB:** FBO.gov Permalink at <u>https://www.fbo.gov/spq/DHS/OCPO/PIADC/</u> HSHQPD-16-Q-00013 /listing.html **NAICS:** 562910. THIS REQUIREMENT IS SET-ASIDE FOR SMALL BUSINESSES uner NAICS code 562910, with a small business size standard of 750 employees. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. The U.S. Department of Homeland Security (DHS) is requesting firm-fixed-price type quotations for the supply and delivery of remediation services for the Plum Island Animal Disease Center (PIADC) in New York. In accordance with 40 CFR 112, the Plum Island Animal Disease Center (PIADC) is required to maintain a Spill Prevention Control Countermeasures Plan and a Facility Response Plan (SPCC/FRP) that required to maintain a Spill Prevention Control Countermeasures Plan and a Facility Response Plan (SPCC/FRP) that identifies PIADC's procedures and resources to respond to a potential release of petroleum to land or water. A required element of the SPCC/FRP is contracting with an Oil Spill Removal Organization (OSRO) to respond to potential petroleum releases that PIADC's resources cannot manage. PIADC and the U.S. Coast Guard have identified Miller Environmental Group (MEG) as the PIADC OSRO because of their proximity and ability to respond to a spill in one hour. This petroleum remediation project includes the recovery of free-phase petroleum (fuel oils) from the subsurface and groundwater monitoring, sampling, and analysis. The overarching goal of the project is remediating subsurface LNAPL and continually evaluating site-wide LNAPL extent and groundwater conditions. The LNAPL contamination resulted from surface spills and subsurface from multiple sources including former underground that tanks, fuel lines, and surface spills and subsurface releases from multiple sources including former underground fuel tanks, fuel lines, and

appurtenances and likely occurred over several decades. THE CLOSING DATE AND TIME FOR RECEIPT OF QUOTES IS MONDAY, SEPTEMBER 12, 2016 AT 11:00 AM ET. CITE:

R--COMMUNITY & SITE SPECIFIC RISK ASSESSMENT (PRESOL)

SOL: SOL-CI-15-00041

POC: Matthew Growney, Contracting Officer, <u>growney.matthew@epa.gov</u>. **NAICS:** 541712. The solicitation will be available for download IN THE MID-SEPTEMBER THROUGH MID-OCTOBER TIMEFRAME via FedConnect at <u>https://www.fedconnect.net/FedConnect/?doc=SOL-CI-15-00041&agency=EPA</u> [Note: It might be necessary to copy and paste the URL into your browser for direct access.]. All questions relating to the EPA has a need for a contractor to provide technical support in the development and updating of provisional peer-reviewed toxicity value (PPRTV) assessments, as well as research related to prioritizing chemicals for the PPRTV program, expert consultation, and research on cross-cutting issues related to new alternative toxicity data sources and technologies. In addition, this contract will entail work associated with cumulative risk assessment, including human and non-human biota, and chemical mixtures risk assessment, supporting the advancement of the science in community-based risk assessment. The agency has determined that offerors that provide consulting and/or technical community-based risk assessment. The agency has determined that offerors that provide consulting and/or technical services to PRPs and/or their consultants, or such services related to development, marketing, or ownership of remediation technologies, processes, or computer oriented tools may present significant actual or potential conflict of interest concerns. The solicitation and resulting contract shall also place Limitations on Future Contracting, EPAAR 1552.209-74 (APR 2004). The contractor, during the life of the contract, will be ineligible to enter into a business or financial relationship with other entities to perform health/risk assessments on chemicals, substances or material that are the same as or similar to those chemicals, substances or materials with respect to which work is being performed or has been performed through Task Orders issued under this contract. Additionally, the contractor during the life of the contract agrees not to enter into contracts with entities who could be impacted (either positively or negatively) from the content of regulations, standards, criteria or policies that result from work that the contract or (or its subcontractors) is performing or has performed under this contract, without prior written authorization from the Contracting Officer. The Government anticipates award of an ID/IQ contract that will allow for the issuance of firm-fixed-price and time-and-material type task orders over an ordering period of 5 years. EPA intends to award a single contract with an ordering ceiling of \$19M. THE SOLICITATION WILL BE ISSUED ON A FULL AND OPEN COMPETITIVE BASIS. All responsible sources may submit a proposal for EPA consideration. The NAICS code is 541712, with a size standard of 500 persons. Contract award will be made in accordance with FAR part 15: Contracting by Negotiation. Negotiation.

R-LAB SUPPORT FOR TECH SUPPORT CENTER (PRESOL) SOL-: SOL-CI-16-00018

SOL: SOL-CI-16-00018 **POC:** Courtney Stallworth, <u>Stallworth.Courtney@epa.gov</u>. **NAICS:** 541380. U.S. EPA has a need for a contractor to provide analytical laboratory support for the Office of Water, Office of Ground Water and Drinking Water, technical Support Center (TSC) at the Andrew W. Breidenbach Environmental Research Center in Cincinnati, Ohio. The principal objective of the TSC is to assure that the drinking water provided to all Americans is of sufficient quality to protect the public health. The contractor shall provide all necessary labor, materials, and services in support of the efforts delineated by the Performance Work Statement (PWS). Services to be performed include the following: conduct development and testing of measurement methods to determine sensitivity, reliability, accuracy, precision and quality assurance and control: perform chemical (PWS). Services to be performed include the following: conduct development and testing of measurement methods to determine sensitivity, selectivity, reliability, accuracy, precision and quality assurance and control; perform chemical and microbiological analyses of water samples using written methods, and "state of the art" instrumentation and equipment; conduct analyte preservation studies; collect ship, and receive filled samples; conduct both limited and national microbiological and chemical occurrences surveys; design and implementation both a rigorous quality assurance and quality control program for all contractor's activities subject to the inspection of the COR; make technical presentations to visitors at the TSC laboratory; and provide statistical support in areas related to the work of the contract. THE PROCUREMENT WILL BE A FULL AND OPEN COMPETITION for a firm-fixed-price contract starting in January 2017 with a one-year Base Period and four Optional Periods of 12 months each. Approximately 15,000 LOE hours are anticipated for each contract period. The applicable NAICS code is 541380 with a size standard of \$15M. Release of the solicitation is anticipated around October 2016, with closing 30 days after. Notices of any modifications to this procurement announcement, including Requests for Proposals and amendments, will be posted on FedConnect att<u>attps://www.fedconnect.net/FedConnect/?doc=SOL-CI-16-00018&agency=EPA</u> [Note: It might be necessary to copy and paste the URL into your browser for direct access.].
