WARNER ROBINS AFB SOURCES SOUGHT (SRCSGT)

SOL: 16-BE-158

DUE: 092316

POC: Sarah E Jachym, sarah.jachym@dla.mil, 269-961-4542, Fax: 269-961-4474.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DLA/J3/DRMS/16-BE-158/listing.html>

NAICS: 562211. This is a sources sought notice only; this synopsis is not a request for proposal. No solicitation is available at this time. The intent of this sources sought is to identify qualified small businesses classified as 8(a), HUBZONE, service-disabled veteran-owned, emerging, or woman-owned under NAICS code 562211 for a firm-fixed-price and indefinite-quantity contract for RCRA hazardous and non-hazardous waste, transportation and disposal in the Warner Robins AFB area. Upon review of industry response to this Sources Sought, the Government will determine whether a further set-aside acquisition in lieu of a small business only set-aside is in the Government's best interest. The duration of the contract is anticipated to be for one 30-month base period from the date of an initial contract award and will include two 30-month options. DLA Disposition Services is seeking eligible SMALL business firms capable of Collection of RCRA hazardous and non-hazardous waste, transportation and disposal in the Warner Robins area composing of 112 pickup locations. The scope of work includes all management, supervision, labor, engineering services, tools, materials, equipment, supplies, facilities, and transportation necessary to perform the required disposal services including but not limited to the following: polychlorinated biphenyl (PCB) transformers and capacitors; compressed gas cylinders containing oxidizer, refrigerant, corrosive, and flammable materials; lithium battery deactivation; lead acid battery recycling or disposal; magnesium battery recycling or disposal; nickel metal hydride battery recycling or disposal; high level mercury disposal; spill clean-up services; OBA canister disposal; latex and oil-based paint disposal; contaminated anti-freeze disposal; and miscellaneous waste disposal requiring specialized handling, fuels blending, and laboratory testing services. Contractors must use a transportation company that is on the DLA Disposition Services Qualified Transporters list to transport all wastes and contractors must only dispose of the property on the contract at a DLA Disposition Services qualified disposal facility. Any prospective bidders must demonstrate their ability to process an extremely high volume of property. CAPABILITIES PACKAGES MUST BE RECEIVED BY OR BEFORE 2:00 PM ET ON FRIDAY, SEPTEMBER 23, 2016.

M--LOW-LEVEL WASTE DISPOSAL SERVICES (2018) (SRCSGT)

SOL: DE-SOL-0010429

DUE: 093016

POC: Ian R. Rexroad, ian.rexroad@emcbc.doe.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOE/PAM/HO/DE-SOL-0010429/listing.html>

NAICS: 562211. DOE's Environmental Management Consolidated Business Center (EMCBC) is seeking information regarding the ability and availability of qualified contractors to provide for permanent disposal of either one or more of the following waste types: Class A, B, and C Low-Level Waste (LLW) and Mixed Low-Level Waste (MLLW); 11e.(2) byproduct material, technologically enhanced, naturally occurring radioactive material (TENORM); and sealed sources, as defined by the Atomic Energy Act, RCRA, TSCA, and their implementing regulations. Disposal is to be performed in accordance with the referenced laws and regulations in a permitted and licensed facility. DOE requests qualified, interested parties to demonstrate that they have, or can timely acquire, the capability and required authorizations, licenses, permits, facilities, personnel, and equipment to accomplish the acceptance, transportation, storage, repackaging, and treatment of DOE wastes. This includes development and maintenance of treatment plans,

coordination and notification of regulators, and disposition of all residual, byproduct, and secondary wastes. The anticipated number of contracts, types of contracts, periods of performance, amount of funding, and small business participation opportunities for the follow-on acquisitions are yet to be determined. LLW & MLLW Disposal Services are currently performed under two separate IDIQ contracts, both of which expire in April 2018. DOE is also seeking to determine whether or not the full requirement can be set aside for small businesses, 8(a) small businesses, small disadvantaged businesses, economically disadvantaged woman-owned small businesses, woman-owned small businesses, HUBZone small businesses, veteran-owned small businesses, or service-disabled veteran-owned small businesses. Small businesses that have the capability to perform all or part of the requirements are welcome to demonstrate their capabilities. The NAICS code for this requirement is anticipated to be 562211, Hazardous Waste Treatment and Disposal, and the small business size standard is \$38.5M. Interested parties are invited to submit a capabilities statement of no more than 5 pages. ALL CAPABILITIES STATEMENTS MUST BE RECEIVED VIA EMAIL BY OR BEFORE 4:00 PM ET ON SEPTEMBER 30, 2016.

99--ENVIRONMENTAL REMEDIATION SERVICES (SRCSGT)

SOL: N6247316R2418

DUE: 101016

POC: Elia Ram, Contract Specialist, (619) 532-2195; Claudia Ramirez, Contracting Officer, (619) 532-4150.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DON/NAVFAC/N68711A6A/N6247316R2418/listing.html>

NAICS: 562910. This notice is a sources sought announcement for a potential Multiple Award Remediation Contract (MARAC) for environmental remediation services. This sources sought is conducted as market research to ascertain the interest and availability of potentially qualified sources with indication of business size classification, including 8(a), HUBZone, Small Disadvantaged Business, Veteran-Owned Small Business, Service-Disabled Veteran-Owned Small Business, and Small Business under NAICS code 562910. The applicable size standard is no more than 750 employees. Naval Facilities Engineering Command (NAVFAC) Southwest is seeking potentially qualified sources with current relevant qualifications, experience, personnel, and capability to perform, under contract, all management, labor, travel, transportation, equipment, material, and supervision necessary for environmental remediation services at various locations in Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Guam. The majority of the work is expected to be performed in California. The sites will consist of those ranked on the Superfund NPL as well as non-NPL sites regulated under CERCLA, RCRA, UST, MMRP, and state environmental regulatory programs, as well as other sites that might require remedial actions. Requirements will focus primarily on environmental restoration projects but could involve other environmental work, such as environmental compliance projects. The services required may include but are not limited to the following: performing remedial actions, removal actions, remedial design, operation and maintenance at environmentally contaminated sites; performing pilot and treatability studies; and conducting other related activities associated with returning sites to safe and acceptable levels according to the remedial action objectives. Work will comply with applicable federal, state and local regulatory requirements, in addition to NAVFAC environmental work instructions regarding processes and procedures including but not limited to sampling and analysis plan production and approval, laboratory selection, administrative record maintenance, and data management. Work is anticipated to be accomplished under Task Orders written against an IDIQ contract. The actual amount of work to be performed and the time of such performance will be determined by the Contracting Officer or his/her properly authorized representative, who will issue written Task Orders to the Contractor. Award of Task Orders will be on a cost-plus-award-fee basis. The proposed contract will be for a one-year base period, and four one-year option periods. The estimated aggregate value of all contracts awarded is approximately \$240 million. SUBMITTALS MUST BE RECEIVED VIA EMAIL BEFORE 2:00 PM PT ON OCTOBER 10, 2016.

F--ECONOMIC ANALYSES AND CONTROL STRATEGY DEVELOPMENT FOR AIR POLLUTION CONTROL REGULATIONS (PRESOL)

SOL: SOL-NC-16-00010

POC: Natalia Fisher-Jackson, fisher-jackson.natalia@epa.gov.

WEB: FBO.gov Permalink at

NAICS: 541620. The U.S. Environmental Protection Agency, Research Triangle Park, NC 27711, Research Triangle Park Procurement Operations is conducting a FULL AND OPEN COMPETITIVE PROCUREMENT for Economic Analyses and Control Strategy Development for Air Pollution Control Regulations. The effort includes the development of methods and analyses in support of regulatory and policy development, or proposed congressional legislation. These may include National Ambient Air Quality Standards (NAAQS), New Source Performance Standards (NSPS), standards for air toxics, National Emissions Standards for Hazardous Air Pollutants (NESHAP), Volatile Organic Compound (VOC) rules, New Source Review (NSR), Regional Haze, Federal Operating Permit and Implementation Plan Rules, components of reports to Congress, components of reports produced under Section 812 of the CAA, and other regulatory standards to control air pollution (e.g., mobile source programs, regional body policy actions, actions to reduce interstate transport

emissions, climate change policies, and cross media programs). EPA anticipates the award of a cost-plus-fixed-fee, level-of-effort term (work assignment contract) with a 60-month performance period consisting of a 12-month base period and four 12-month options. The estimated level of effort is approximately 10,000 base hours plus about 20,000 optional hours for the base period and each of the four option periods. The applicable NAICS code is 541620, Environmental Consulting Services, with a size standard of \$15M average annual receipts for the past 3 years. This requirement is a follow on to contract number EP-W-11-029. THE SOLICITATION IS EXPECTED TO BE ISSUED ABOUT 30 DAYS FROM THIS PUBLICATION OF THIS ANNOUNCEMENT. The proposal will be due approximately 30 days after the issuance of the solicitation. The synopsis, amendments, and other information related to this procurement as well as any subsequent procurement notifications will be posted on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-NC-16-00010&agency=EPA> [Note: It might be necessary to copy and paste the URL into your browser for direct access.]. Submit any questions or inquiries related to this notice via email ONLY to Natalia Fisher-Jackson at fisher-jackson.natalia@epa.gov.
