NAICS: 562910. THIS REQUIREMENT IS A 100% SMALL BUSINESS SET-ASIDE under NAICS code 562910, with a business size standard of \$20.5M. This announcement constitutes the only solicitation; quotations are being requested and a written solicitation will not be issued. Responses to this announcement will result in a fixed-price requirements contract and the Government intends to make award under this announcement without discussions. The U.S. Department of Veterans Affairs, National Cemetery Administration, anticipates a contract for petroleum impacted water / petroleum impacted sediment removal & disposal services at the National Cemetery of the Alleghenies, 1158 Morgan Road, Bridgeville, PA. The contractor shall be required annually to remove and dispose of approximately 2,000 to 3,000 pounds of petroleum, petroleum impacted water, and petroleum impacted sediment from the in-ground VORTECHS System. Due to the volume of sediment, the contractor will be required to enter the system in order to remove the sediment. Removal of sediment in all three chambers is required to return the system to proper operating condition. All services shall be performed in strict accordance with manufacturer's maintenance guidelines for inspection and cleaning. Residue entering the Highland Oil/Water Separator is at a minimum with approximately 15 cubic feet (or less) of sludge accumulating annually. On an annual basis, the contractor shall be required to perform routine maintenance on the HT-1000 Separator to include complete tank cleaning, screen cleaning and the removal & disposal of petroleum, petroleum impacted water and petroleum impacted sediment. All services shall be performed in strict accordance with manufacturer's maintenance guidelines for inspection and cleaning. All petroleum, petroleum impacted water / sediments and waste materials removed from the Highland Oil/Water Separator and VORTECHS Separator System shall be transported to an offsite facility for recycling or disposal as appropriate. The period of performance is date of award through September 30, 2018, plus four one-year option periods, if exercised. RESPONSES TO THIS RFQ MUST BE RECEIVED NO LATER THAN 4:00 PM ET ON SEPTEMBER 22, 2017.

NAICS: 562910. The U.S. Army Corps of Engineers - Albuquerque District has been tasked to solicit for and award a Multiple Award Task Order Contract (MATOC) to provide Third Party Blind Validation Seeding and Advanced Geophysical Classification (AGC) Data Collection and Processing to support the South Pacific Division (SPD) and the South Western Division (SWD) and their customers. THE INTENT IS TO SOLICIT AND AWARD A TARGET OF 5 TO 7 IDIQs FROM THIS SOLICITATION FOR A BASE PERIOD OF ONE YEAR WITH FOUR ONE-YEAR OPTION PERIODS TO A POSSIBLE COMBINATION OF SMALL BUSINESSES, 8(A) SMALL BUSINESSES, AND OFFERORS ON AN UNRESTRICTED BASIS. AT LEAST THREE IDIQs WILL BE SET ASIDE FOR SMALL BUSINESS. Projects will primarily be located in the western U.S. but may also be nationwide. The contracts awarded will include performance-based, firm-fixed-price features for a wide range of environmental services at various known or suspected Military Munitions Response Sites (MRS) and Hazardous and Toxic Waste (HTW) sites. In general, the task orders awarded off of these IDIQs will be to support the USACE with AGC oversight activities on an existing, separate contract. Consequently, Contractors attached to the primary environmental remediation contract for those existing, separate contracts shall not be eligible to submit a proposal for one of these AGC seeding task orders. Furthermore, in order to be eligible to propose on one of these seeding task orders under the these planned IDIQs, the contractor, or subcontractor in charge of performing the work, MUST be accredited in accordance with the Digital Advanced Geophysical Classification Accreditation Program (DAGCAP). DAGCAP accreditation and AGC requirements shall be in compliance with the OSD Policy Memo dated 11 April 2016 and the Formerly Used Defense Site AGC Policy Memo dated 6 January 2017. A company awarded one of the targeted MATOC IDIQs can still be in the process of acquiring accreditation, but cannot perform and AGC seeding work before being accredited. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR ABOUT NOVEMBER 1, 2017, and the estimated proposal due date will be on or about December 1, 2017. The official synopsis citing the solicitation number will be issued on FedBizOpps.
