

# Federal Business Opportunities (FedBizOpps) Update

Notices for January 30-February 5, 2017

This update contains summaries of procurement notices issued between January 30-February 5, 2017 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

## FMC LEXINGTON - ASBESTOS ABATEMENT - PHASE IV (SRCSGT)

**SOL:** IFBP01091700001

**DUE:** 021017

**POC:** Jennifer L. Brouillard, Contract Specialist, [jbrouillard@bop.gov](mailto:jbrouillard@bop.gov), 301-317-3255.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOJ/BPR/10020/IFBP01091700001/listing.html>

**NAICS:** 562910. This notice is issued for market research purposes only. Please do not respond to this notice if you are not seriously interested or if your company does not perform the required work. The Federal Bureau of Prisons anticipates issuance of solicitation IFBP01091700001 for the award of a firm-fixed-price construction contract for a project entitled Asbestos Abatement - Phase IV, at the Federal Medical Center, located in Lexington, Kentucky. FMC Lexington is a federal correctional facility located at 3301 Leestown Road, Lexington, Kentucky 40511. The project consists of furnishing all equipment, materials, and labor for the complete construction of the work. See the Statement of Work/Specifications attachment included (to be issued with the solicitation at a later date) for the complete requirements of the work. The estimated magnitude of the project lies between \$250,000 and \$500,000. (NOTE: This range is one of 8 available ranges from FAR 36.204 and is not meant to imply that the project has necessarily been estimated/budgeted to the maximum of the selected range. It merely conveys that the estimate/budget lies somewhere within that range.) The NAICS code applicable to this requirement is 562910, with a corresponding small business size standard of \$20.5M. The FBOP is seeking small business contractors for this project. Your business size metrics information entered in your SAM registration must be less than or equal to the small business size standard specified above. Interested small business contractors are requested to respond to this notice by adding their names to the Interested Vendors List for this posting in FedBizOpps.gov (must be logged in to your vendor account). The synopsis of proposed contract action will include further instructions for responding to this opportunity.

#### **HAZARDOUS TOXIC AND RADIOACTIVE (HTRW) REMEDIATION SERVICES (PRESOL)**

**SOL:** W912P9-17-R-0012

**POC:** Danielle Gainey, Contract Specialist, [danielle.m.gainey@usace.army.mil](mailto:danielle.m.gainey@usace.army.mil), 314-331-8520.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/notices/97fc66aa10937bede5fc5c217deef074>

**NAICS:** 562910. The Government intends to award a Single-Award Task-Order Contract (SATOC) for the continued support of Hazardous, Toxic, and Radioactive Waste (HTRW) investigations and environmental remediation programs and projects managed by the St. Louis District of the U.S. Army Corps of Engineers (USACE). THE CONTRACT WILL BE AWARDED FULL AND OPEN COMPETITION utilizing the best value tradeoff process. Task Orders issued under this contract will be cost-reimbursable cost-plus-fixed-fee (CPFF). This contract will provide for interdisciplinary support for the Formerly Utilized Sites Remedial Action Program (FUSRAP) and other HTRW remediation programs managed by the U.S. Army Corps of Engineers St. Louis District. The Contractor, operating as an independent contractor and not as an agent of the Government, shall provide all necessary labor, material, and equipment to provide the requested services unless otherwise furnished by the government. The work at the FUSRAP St. Louis sites falls under CERCLA. The St. Louis FUSRAP sites contain low-level radiological and chemically contaminated material. The work includes FUSRAP sites managed by the St. Louis District located in the metropolitan St. Louis area and the Iowa Army Ammunition Plant in Burlington, Iowa, as well as within the boundaries of the Mississippi Valley Division or other sites assigned to the St. Louis District. The St. Louis metropolitan area sites are in two primary vicinities, the St. Louis Downtown Site and the St. Louis North County sites (NORCO). The NORCO sites includes the St. Louis Airport Site (SLAPS), SLAPS Vicinity Properties, including Coldwater Creek and the Hiss/Latty Avenue properties. Work may be concurrent at multiple locations within these sites. Sites range from heavily industrialized areas to open fields. The Government may, at its discretion and with concurrence of the Contractor, request the Contractor to perform work in other geographical regions in or out of the St. Louis District's boundaries. The work anticipated under this contract is primarily for, but not limited to, low level radioactive contaminated material investigation, extent of contamination surveys, environmental assessments, on-site laboratory analysis, radiological support, removal action verification, and environmental monitoring. Radiological contaminants are primarily thorium, radium, and uranium, with co-located chemical contamination such as selenium, cadmium, and arsenic. Other services requested will be in connection with performance of administrative recordkeeping and document management, data management, technical/regulatory integration, and project controls necessary for the execution of the St. Louis District FUSRAP. [NOTE: This notice does not provide an anticipated release date for the RFP.]

#### **P--REMOVAL OF 12 GAGING STATIONS FROM THE TALLAHASSEE, TAMPA, AND ORLANDO FIELD AREAS (PRESOL)**

**SOL:** G17PS00193

**POC:** Alfred Benton, [abenton@usgs.gov](mailto:abenton@usgs.gov).

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOI/USGS/USGS/G17PS00193/listing.html>

**NAICS:** 562910. The U.S. Geological Survey, Caribbean-Florida Water Science Center has a requirement to remove transite (asbestos) pipe and concrete stilling wells from the Tallahassee, Tampa, and Orlando field areas. The selected vendor will remove and dispose of the transite pipes and the concrete stilling wells in accordance with all applicable state laws. The project shall be completed within 120 days after notice to proceed is issued. There are no option periods. The magnitude of construction is \$50,000 to \$100,000. REQUEST FOR QUOTE G17PS00193 WILL BE ISSUED ON OR ABOUT FEBRUARY 27, 2017, with written quotes due on or about April 4, 2017. The anticipated award date of the contract is 05/01/2017. The awarded contractor will be required to provide a performance and payment bond. All contractors submitting proposals will be required to provide a bid bond. A site visit will be held. The date, time, and contact info for the site visit will be in the forthcoming solicitation. Contractors are strongly encouraged to attend the site visit. THIS ACQUISITION IS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 562910, with a size standard of \$20.5M.
