NAICS: 541620. THIS ACQUISITION IS A VOSB SET-ASIDE. The contractor shall perform a thorough and complete asbestos survey for all buildings that are part of the James J Peters VA Medical Center. The purpose of the asbestos survey and related activities is to update a previous Hospital-wide Asbestos survey completed in 2010. The original survey was completed for the buildings: 16, 100, 101, 105, 106, 107, and 110. The new survey is to build upon the benchmark set by the old survey and then add/revise/update both the drawings and the final report for each building included in the 2010 Asbestos Survey. The contractor will conduct site visits and testing for each building, and will then submit both drawings and a final report for each building. The combined package for each building will include at a minimum, abatement drawings with copies both in electronic (latest CAD & PDF) and hard copy formats, and a final written report that includes at minimum an assessment report that summarizes the results of the survey and, and provides appropriate abatement response alternatives. The report shall also include any and all documentation including lab analysis sheets, photographs, drawings, etc., which may be needed to substantiate the presence or absence, quantity, condition, and location of ACM. The report should also include detailed breakdown asbestos abatement cost estimates for each building along with recommended plan of action. An Operations & Maintenance section is to be included as well as part of the final written report. All spaces including but not limited to all rooms in all floors, utility closets, MEP rooms, penthouses, interstitial spaces, stairwells, etc. of the buildings/spaces are to be included as part of the Asbestos Survey for this project. The period of performance is 140 days from notice to proceed. RESPONSES MUST BE RECEIVED BY OR BEFORE OCTOBER 31, 2017.

F--BUREAU OF RECLAMATION, PACIFIC NORTHWEST REGION, ENVIRONMENTAL IDIQ. (SRCSGT)

SOL: 140R1018R0004

DUE: 110117

POC: Matt Steele, mastelee@usbr.gov; Chris Graves, cgraves@usbr.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/b0183190afea8b914ff1351d31d5881a>

NAICS: 541620. The purpose of this market research and sources sought notice is to gain knowledge of potential qualified large business, small business, HUBZone, 8(a), service-disabled veteran-owned, and woman-owned small business firms under NAICS code 541620, with a small business size standard of \$15M. Responses to this sources sought synopsis will be used by the government in making appropriate acquisition decisions. The Bureau of Reclamation, Pacific Northwest Region, anticipates a future IDIQ procurement to acquire environmental services to support the following types of tasks: preparation of Draft Environmental Impact Statements and associated Draft Records of Decision, Draft Environmental Assessments and associated Draft Findings of No Significant Impact, and / or Draft Biological Assessments (Draft BA), as well as tasks that are immediately pertinent or are procedural components to the production of these documents. A draft statement of work is attached to the version of this notice posted on FedConnect at <https://www.fedconnect.net/FedConnect?doc=140R1018R0004&agency=DOI> [Note: It might be necessary to copy and paste the URL into your browser for direct access]. Reclamation is interested in obtaining vendor feedback on the draft scope of work and labor categories in preparation for soliciting a Request for Proposal. The proposed contract duration will be five years. RESPONSES MUST BE RECEIVED BY OR BEFORE 3:00 PM ET ON NOVEMBER 1, 2017.

NAICS: 541330. This sources-sought synopsis is being used as a market research tool to determine the availability and adequacy of potential qualified small business sources prior to determining the method of acquisition and issuance of a solicitation for architect-engineer services. All service-disabled veteran-owned small businesses (SDVOSB), veteran-owned small businesses (VOSB), economically disadvantaged woman-owned small businesses (EDWOSB), woman-owned small businesses (WOSB), SBA-certified 8(a) and HUBZone small businesses, and all other small businesses are encouraged to respond. Information received in relation to this notice will be used to assist the

Government in developing an overall acquisition strategy, including the type and number of contracts and use of small business concerns. The Government is contemplating the award of a single fixed-price IDIQ contract. The work will occur worldwide, including Naval Facilities Engineering Command, Atlantic's (NAVFAC LANT's) Area of Responsibility, which includes the continental United States (CONUS) and areas outside the continental United States (OCONUS). OCONUS areas include the Caribbean, Europe, Africa, Western Asia, South America, Hawaii, the Far East, and Marianas. The NAICS code for this proposed procurement is 541330 (small business size standard of \$15M). If the solicitation is issued, the resulting contract will consist of a base period and four one-year options totaling five years of performance. The anticipated total work to be issued over the life of the contract via task orders shall not exceed the estimated maximum amount of \$50M. The successful contractor to any forthcoming solicitation shall provide all labor, management, supervision, tools, materials, and equipment necessary to perform the required services. The preponderance of the work under this contract shall involve the accomplishment of work in the following major categories: (1) Air Quality and Clean Air Act Compliance; (2) EPCRA Programs; (3) Radon Assessment and Testing; and (4) Lead-Based Paint and Asbestos surveys, assessment, mitigation, management, and other related activities. STATEMENTS OF CAPABILITY MUST BE RECEIVED BY OR BEFORE 2:00 PM ET ON TUESDAY, NOVEMBER 14, 2017.

HYDROGEOLOGIC MONITORING AND TESTING SERVICES IN SUPPORT OF JACKSONVILLE DISTRICT (SRCSGT)

SOL: W912EP18Z0001

DUE: 111717

POC: Susan J. Forchette, susan.j.forchette@usace.army.mil, 904-232-2158.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA17/W912EP18Z0001/listing.html>

NAICS: 541330. This sources sought announcement is issued for information and planning purposes only. The purpose of this market research and sources sought is to gain knowledge of potential qualified small business, HUBZone, 8(a), service-disabled veteran-owned (SDVOSB), and woman-owned small business (WOSB) firms capable of performing the required services under NAICS code 541330. The size standard is \$15M. The Jacksonville District of the U.S. Army Corps of Engineers (USACE) is planning work that will require Architect/Engineer (A/E) services to conduct hydrogeological testing and monitoring in confined, semi-confined, and unconfined aquifers. The hydrogeologic services will include, at a minimum, the ability to perform the following requirements: production and monitoring well construction in confined, semi-confined, and unconfined aquifers; core (lithologic) logging; well development and aquifer testing (pump test, specific capacity test, slug test); groundwater and surface water quality sampling; borehole video and geophysical logging; well instrumentation for continuous measurement of water levels; platform construction to access wells; and elevation surveys and datum references. In addition to field activities listed above, the hydrogeologic testing and monitoring services will include data collection, analysis, and technical report production. Contractors should have experience in well construction, instrumentation, and monitoring of unconfined, confined, and artesian limestone and clastic aquifers. Contractors must have at least one person holding current registration as a Professional Geologist in the state of Florida on their team. The primary purpose is to provide services for projects located within the geographic boundaries of the Jacksonville District, within the boundaries of State of Florida. There may be requests to provide services within the geographic boundaries of the other USACE Districts both within and outside the South Atlantic Division on a limited basis. The planned contract for the A/E services will be an IDIQ contract for a period of five years (a base period of one year and four one-year options), with a maximum of \$5M of capacity for the life of the contract, including options. Interested small business concerns are invited to submit a Statement of Capability that describes the company's skills, experience, and knowledge in performing the specified work. STATEMENTS OF CAPABILITY MUST BE RECEIVED BY OR BEFORE 4:00 PM ET ON NOVEMBER 17, 2017.

TRUMAN POWER PLANT LEAD BASED PAINT REMEDIATION (PRESOL)

SOL: W912DQ18B1002

POC: Richard A. Mathena, Contract Specialist, richard.a.mathena@usace.army.mil, 816-389-2041.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA41/W912DQ18B1002/listing.html>

NAICS: 562910. The U.S. Army Corps of Engineers, Kansas City District, intends to issue a solicitation for a firm-fixed-price construction contract for lead-based paint remediation at the Truman Lake Power House, located near the city of Warsaw, Missouri (Benton County). THE SOLICITATION WILL BE RELEASED ON OR ABOUT NOVEMBER 1, 2017, on FedBizOpps. The solicitation, including any amendments, shall establish the official opening and closing dates and times. Contractor shall furnish all services, permits, materials, supplies, labor, equipment, superintendence, travel, and any and all other services as required in connection with lead-based paint debris and settled dust cleaning, lead-based paint stabilization, and disposal services. The solicitation will be issued as an Invitation for Bid (IFB) which will result in the award of a single contract. The estimated magnitude of this construction project is between \$500,000 and \$1M. THIS SOLICITATION WILL BE ISSUED AS A 100% SMALL BUSINESS SET-ASIDE under NAICS code 562910, with a size standard of 750 employees.
