## **BUILDING 8130 HEXAVALENT CHROMIUM REMEDIATION (COMBINE)**

**SOL:** FA4661-18-R-0001

**DUE:** 110317 and 112717

**POC:** Brittany Barlow, [brittany.barlow@us.af.mil](mailto:brittany.barlow@us.af.mil), 325-696-3112; Hilary Ince, Flight Commander, [hilary.ince@us.af.mil](mailto:hilary.ince@us.af.mil), 210-652-2272.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/notices/22aa93eb705a32305145d289242347ef>

**NAICS:** 562910. THIS ACQUISITION IS SET-ASIDE FOR WOMAN-OWNED SMALL-BUSINESS (WOSB) FIRMS under NAICS code 562910. The Government intends to award a firm-fixed-price contract, magnitude between \$250,000 and \$500,000. A site visit will be held on Tuesday, November 7 at 1400 CT. Site Visit Attendees must RSVP by 1600 CT on Friday, November 3, 2017. Building 8130 was constructed in 1959 as a guided missile field maintenance shop and has experienced numerous renovations & additions since that time. In 1985, the fiberglass shop was added to the SE corner. In 1986, the composite repair shop was added to the SW corner. In 1989, the machine shop was added to the North end. Today, Building 8130 has an approximate total square footage of 20,720 s.f. This project is an environmental remediation type project that requires remediation & selective demolition. Contractor shall provide the personnel, equipment, & permit fees to perform heavy metal and asbestos remediation from the facility. All waste shall be disposed of in accordance with local, state, and federal requirements. Contractor shall assume all painted surfaces contain lead unless Contractor conducts sampling and testing that proves otherwise. For remediation of heavy metals, Contractor shall remove all hexavalent chromium, lead dust, and cadmium from the facility. All horizontal surfaces above and including the floor/walls shall be assumed to hold dust containing hexavalent chromium, lead, and cadmium and shall be removed. This includes surfaces above the offices, toilets, showers, janitor, shop spaces, exposed and concealed ductwork, shop equipment & furniture, office furniture, computers, shop supplies, shop tooling, lay-in ceilings, ceiling batt insulation, duct insulation, interior roof deck batt insulation, conduit, heater units, light fixtures, piping, etc. See Statement of Work for additional details. PROPOSALS MUST BE RECEIVED VIA EMAIL NO LATER THAN 12:00 NOON CT ON NOVEMBER 27, 2017.

**NAICS:** 541380. The Government is performing market research for a potential requirement of drinking water sample analysis. This notice is a request for information for market research purposes only. The United States Army Public Health Command at the Aberdeen Proving Ground in Aberdeen, MD, is seeking information on businesses capable of providing drinking water analysis services. It is anticipated that the Government will require a maximum of 20,000 sample analyses per year of the types and within the parameters listed on the table attached to the FedBizOpps notice. Information received from vendors may be used to determine an acquisition strategy and Contract Line Item structure. SUBMIT CAPABILITIES STATEMENTS VIA EMAIL BY OR BEFORE 11:00 AM ET ON NOVEMBER 6, 2017.

**NAICS:** 541380. Response to this synopsis is strictly voluntary and will not affect any firm or corporation's ability to submit an offer if and when a solicitation is released. No bid package or solicitation is associated with this announcement. The requested information is for market research and planning purposes only. The USACE Omaha District is seeking qualified members of all small business concerns (Small Business (SB), Small Disadvantaged Business (SDB), Service-Disabled Veteran-Owned Small Business (SDVOSB), Veteran-Owned Small Business (VOSB), Woman-Owned Small Business (WOSB), HUBZone, and Section 8(a) Participants or small business-led teaming arrangements that qualify under NAICS code 541380 (Testing Laboratories), size standard \$15M, that operate under the Environmental Laboratory Accreditation Program (ELAP) for use in the environmental restoration program. The services anticipated are for laboratory analysis of media samples collected in support of Hazardous, Toxic and Radioactive Waste (HTRW) investigations, Environmental Site Assessments, and hazardous building materials assessments. These services will be performed for Omaha District's Environmental Restoration, MILCON, and Operations Division customers. Services will include providing sample containers and preservatives, performing instrumental analysis, and data reporting. Firms interested must be capable of quick response times of packing and shipping containers out to the required site for sampling. Once the firm receives samples for analysis, the firm must be capable of a standard delivery of the data package within a maximum of 28 days from sample receipt; however, a quicker turnaround of the data package may sometimes be required within 7 days or less. The Government currently anticipates a Single-Award Task-Order Contract (SATOC) with a total capacity of \$1M to be awarded to a qualified small business concern. It is projected that any contract awarded will have a total ordering period of up to 5 years. CAPABILITIES STATEMENTS MUST BE RECEIVED NO LATER THAN 2:00 PM CT ON NOVEMBER 8, 2017.

**NAICS:** 332992. The U.S. Army Contracting Command, Rock Island, IL, on behalf of the Product Director Demilitarization, Picatinny Arsenal, NJ, and Joint Munitions Command, Rock Island, IL, is conducting market research seeking potential business sources with the capabilities to design, build, install and test demilitarization support equipment and performance improvement prototypes at U.S. Government-owned Army ammunition facilities. The contractor shall also have the capability to characterize existing and new munitions. Demil is the act of eliminating the functional capabilities and/or inherent military design features from DoD personal material. Methods and degree range from removal and destruction of critical features to total destruction by cutting, crushing, shredding, melting, burning, or other methods. Demil is required to prevent property from being used for its originally intended purpose and to prevent the release of inherent design information that could be used against the United States. See the FedBizOpps notice for specific requirements for R&D, assessment and analysis, design and development of demil processes and prototypes, system development and delivery, demilitarization technical and engineering support, and programmatic and training support. Respondents should specify if they are able to provide all of the requested capabilities or only specific areas. CAPABILITIES STATEMENTS MUST BE RECEIVED VIA EMAIL NO LATER THAN 3:00 PM CT ON NOVEMBER 30, 2017.

**NAICS:** 562910. The US Army Corps of Engineers (USACE) Little Rock District will hold the 2017 Arkansas Regional Industry Days on December 6 and 7, 2017. This two-day event will be held at the Arkansas Regional Innovation Hub located at 201 E. Broadway in North Little Rock, AR. This event will provide industry with opportunities to network with government as well as other large and small business contractors. The meeting will also provide a forum to discuss upcoming contracting opportunities and a venue at which to train contractors on important contracting topics. The 2016 Arkansas Regional Industry Days Forum provided over \$3 billion in contracting opportunities. Eight government agencies participated and over 120 contractors attended the event. Registration information is available at <https://goo.gl/forms/BzacPvFxdwwmlSJR2> REGISTRATION FOR THIS EVENT CLOSSES AT 11:59 PM ET ON NOVEMBER 30, 2017.

**NAICS:** 541715. BOTH SMALL AND LARGE BUSINESSES ARE ENCOURAGED TO RESPOND TO THIS BAA. DoD's Strategic Environmental Research and Development Program (SERDP) Office is interested in receiving pre-proposals for research in the areas of Environmental Restoration, Munitions Response, Resource Conservation and Resiliency, and Weapons Systems and Platforms technologies. This announcement declares SERDP's intent to competitively fund research and development for environmental research that addresses the Statements of Need set forth at <https://www.serdp-estcp.org/Funding-Opportunities/SERDP-Solicitations>. To be eligible for consideration, readers wishing to respond to this announcement must submit a pre-proposal in accordance with all instructions on the SERDP website. PRE-PROPOSALS MUST BE RECEIVED NO LATER THAN 2:00 PM ET ON JANUARY 4, 2018. Pre-proposals are to be submitted via the SERDP and ESTCP Management System (SEMS); no electronic mail, faxed, or hard copy proposals will be accepted. Four needs areas are identified under the topic of Environmental Restoration: (1) ERSON-19-C1 - Ecological Risk Characterization of Per- and Polyfluoroalkyl Substances in the Subsurface: Bioavailability, Bioaccumulation and Biomagnification; (2) ERSON-19-C2 - Development of Standardized Analytical and Environmental Sampling Methods for Per- and Polyfluoroalkyl Substances in the Subsurface; (3) ERSON-19-C3 - Innovative Treatment Options to Mitigate Munitions Constituent Transport on DoD Testing and Training Ranges; and (4) ERSON-19-C4 - Cost-Effective Options for Treatment of Wastes from Munitions Constituents Manufacturing. Two needs areas are identified under the topic of Munitions Response: (1) MRSON-19-C1 - Detection, Classification, and Remediation of Military Munitions Underwater; and (2) MRSON-19-C2 - Modeling Predictions of Munitions Penetration in a Variety of Soils. Awards will take the form of contracts. Submission of pre-proposals is not restricted in any way to any particular entity. It is expected that multiple awards totaling approximately \$12M will be made dependent on the quality of proposals received and availability of funds. Awardees under this BAA will be selected through a multi-stage review process. The NAICS code is 541715, with a small business size standard of 1000 employees.

**NAICS:** 541715. BUSINESSES BOTH SMALL AND LARGE ARE ENCOURAGED TO RESPOND TO THIS BROAD AGENCY ANNOUNCEMENT. DoD's Strategic Environmental Research and Development Program (SERDP) Office is interested in receiving proposals for innovative research in the area of Munitions Response as set forth in the Announcement of the SERDP Exploratory Development (SEED) program at <https://www.serdp-estcp.org/Funding-Opportunities/SERDP-Solicitations>, which describes Need number MRSEED-19-S1 for Detection, Classification, and Remediation of Military Munitions Underwater. SERDP intends to competitively fund research and development projects to establish proof of concept for innovative environmental technologies and methods in Munitions Response. These projects will be funded at a level not to exceed \$200,000 in total cost and approximately one year in duration. To be eligible for consideration, readers wishing to respond to this announcement must submit a proposal in accordance with all instructions on the SERDP website. PROPOSALS MUST BE RECEIVED NO LATER THAN 2:00 PM ET ON MARCH 6, 2018. Proposals are to be submitted via the SERDP and ESTCP Management System (SEMS); no electronic mail, faxed, or hard copy proposals will be accepted. Multiple awards may be made to address this Statement of Need. It is expected that a minimum of one award of approximately \$200,000 will result depending on availability of funds and quality of proposals submitted.

**NAICS:** 541620. THIS REQUIREMENT WILL BE SOLICITED AS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 541620, small business size standard \$15M in annual revenue. It is anticipated this requirement will result in a firm-fixed-price contract for a base year and two 1-year option periods. The Mission and Installation Contracting Command at Fort Stewart, GA, intends to issue a solicitation for annual and monthly inspections on the aboveground and underground tanks (AST and UST) on both Fort Stewart and Hunter Army Airfield (HAAF). The requirement will consist of 5 retail fuel stations at Fort Stewart and 2 retail fueling stations at HAAF. Several of the tanks above and below ground are registered with the Georgia Environmental Protection Division. The Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform monthly and annual testing of designated petroleum storage tanks and repair of said systems. RELEASE OF THE SOLICITATION IS ANTICIPATED ABOUT OR AROUND OCTOBER 26, 2017.
