SOURCES SOUGHT NOTICE: RESEARCH SUPPORT FOR ENVIRONMENTAL EPIDEMIOLOGIC STUDIES (SRCSGT)

SOL: SOL-NC-17-00011

DUE: 012617

POC: Adrienne Wells, Contract Specialist, Wells.Adrienne@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/CMD/SOL-NC-17-00011/listing.html>

NAICS: 541711. The purpose of this sources sought notice is to conduct market research by encouraging qualified small businesses to submit capability statements that clearly demonstrate their capability, experience and qualifications relative to the draft Statement of Work (SOW). This is NOT a solicitation announcement. In accordance with FAR 52.219-14 - Limitation on Subcontracting, address the firm's capability to meet the 50% contract performance requirement. To be considered a small business, this procurement will utilize NAICS code 541711 with a size standard of 500 employees or less. This information submitted will be evaluated and used to determine whether or not this procurement will be set aside for small businesses; otherwise, this procurement will be subject to full and open competition. The U.S. EPA intends to award a contract to provide professional and technical support for EPA studies in the area of environmental epidemiology. The work shall include, but not be limited to, assisting EPA in planning, developing, designing, implementing, conducting, and reporting on studies, as well as collecting, procuring, managing, and analyzing human and/or environmental data, and may include the collection, procurement, preparation, shipping, and analyzing of human biologic specimens and environmental samples. Existing databases and data sets will be obtained and analyzed to evaluate associations between environmental measures and health effects (examples include the National Health and Nutrition Examination Survey, or NHANES; Center for Medicare and Medicaid Services records; birth and death records). Additional analytical support will include analysis of large biological data sets, e.g., genomics data, using specialized computational biology, data manipulation and mining methods, and deployment of text/literature mining approaches for literature-driven research. Field studies may also be conducted that will consist of environmental sample collection (e.g., air, water); questionnaire development and administration; and human sample collection (e.g., blood, saliva, stool) and processing. Other aspects of the contract will cover assisting EPA in conducting professional workshops and in convening expert panels to discuss pertinent environmental issues and provide feedback, prepare reports, provide peer review, and comment on scientific research. The contractor shall support the administration, management, and conduct of studies and workshops designed and executed by EPA alone or in collaboration with other organizations. The estimated level-of-effort is approximately 2,000 hours for the base and each of the four option periods plus approximately 12,000 optional hours for the base and each of the four option periods. All interested parties should review the "Human Studies Research Support for Environmental Epidemiologic Studies" Draft Statement of Work (SOW). To determine if this potential requirement may be set aside for small business concerns, the government is seeking input from the small business community regarding interest and capability in performing the tasks in the draft SOW. The Government requests demonstration of capability by interested parties through submittal of capability statements. SUBMIT CAPABILITY STATEMENTS BY 5:00 PM ET ON JANUARY 26, 2017, via email to Adrienne Wells, Contract Specialist, at Wells.Adrienne@epa.gov. No facsimile, mail, or telephonic responses will be accepted.

MONITORING WELL INSTALLATION AND SOIL AND GROUNDWATER SAMPLING (COMBINE)

SOL: W912BU-17-T-0008

DUE: 012917

POC: Helena R Dinofa, Helena.R.DiNofa@usace.army.mil, 215-656-6762, Fax: 215-656-6780.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA61/W912BU-17-T-0008/listing.html>

NAICS: 237110. This requirement is to provide two deep monitoring wells and soil and groundwater sampling for former Defense Supply Center Philadelphia (DSCP), near 2000 Pattison Avenue Drive, Philadelphia. Please see the solicitation for details. The period of performance is 90 days after contract award. This contract will contain three options for additional work. The NAICS code is 237110 and the size standard is \$36.5M. PLEASE NOTE THAT ALTHOUGH THE FBO NOTICE SAYS "THIS PROCUREMENT IS 100% SET-ASIDE FOR SMALL BUSINESS," THE SOLICITATION FORM PROPER SAYS "THIS ACQUISITION IS SET ASIDE 100% FOR ECONOMICALLY DISADVANTAGED WOMEN-OWNED SMALL BUSINESS." In December 1999, the Pennsylvania Department of Environmental Protection issued the Defense Logistics Agency (DLA) an administrative order requiring the recovery of LNAPL from the site subsurface. The order also directed DLA to enter the site into the Land Recycling Program (i.e., "Act 2" after the legislation that created the program). To attain the standards set forth in Act 2, the USACE Philadelphia District and its contractors are working to establish a clear understanding of the extent of the LNAPL plume. To calibrate the site groundwater conceptual model, two monitoring wells are needed. Soil and groundwater samples will be collected during installation of the well and analyzed for the chemical parameters specified in the solicitation. SUBMIT OFFERS VIA EMAIL BY OR BEFORE 2:00 PM ET ON JANUARY 29, 2017.

NAICS: 541330. THIS NOTICE CONSTITUTES A REQUEST FOR SUBMITTAL OF SF-330 CAPABILITIES PACKAGES; IT IS NOT A REQUEST FOR PROPOSALS. This acquisition will result in the award of one IDIQ contract for multi-discipline Architect-Engineer (AE) services in support of the Department of the Navy's Environmental Restoration Program, consisting of the Installation Restoration Program and Munitions Response Program in compliance with CERCLA and other similar programs. Required services will be performed at various Navy and Marine Corps facilities within the Naval Facilities Engineering Command (NAVFAC) Pacific Area of Responsibility, predominantly in Hawaii and Guam and potentially other locations, including Japan, Diego Garcia, and other areas in the Pacific or Indian Oceans. The firm may also, on occasion, be tasked to provide services to any NAVFAC Command, any Defense activity, or other federal agency activities in any geographic location. THIS ACQUISITION IS SOLICITED ON AN UNRESTRICTED BASIS. The Small Business size standard classification is NAICS code 541330, Engineering Services, with a small business size standard of \$15M. It is anticipated that interviews for slated firms will be conducted in Joint Base Pearl Harbor-Hickam, HI. AE firms desiring to be considered for this acquisition shall submit a completed SF-330 package. SF-330 PACKAGES MUST BE RECEIVED BY OR BEFORE 2:00 PM HAWAII STANDARD TIME ON FEBRUARY 14, 2017.

R--TECHNICAL SUPPORT FOR EPA NCEA'S ECOLOGICAL RISK ASSESSMENT PROGRAMS

SOL: SOL-CI-17-00014

POC: Matthew Growney, Contracting Officer, growney.matthew@epa.gov.

NAICS: 541712. Zero-dollar PR for re-compete of contract # EP-C-12-060, EAS APP# APP-ORD-16-00012, TBN 37567. Solicitation SOL-CI-17-00014 will be available for downloading only at FedConnect:

<https://www.fedconnect.net/FedConnect/?doc=SOL-CI-17-00014&agency=EPA> [Note: It might be necessary to copy and paste the URL into your browser for direct access.]. Questions relating to the solicitation must be submitted electronically through FedConnect, and all responses to questions will be released on FedConnect. Hard copies of the solicitation package will NOT be distributed. Electronic copies of responses will be required and must be submitted through FedConnect. The U.S. Environmental Protection Agency, Office of Research and Development's National

Center for Environmental Assessment, has a requirement to provide technical support in developing ecological risk assessment information, methods, and guidance, and in providing support for related activities and research to improve the science of ecological risk assessment. The Government anticipates award of an IDIQ contract that will allow for the issuance of firm-fixed-price (FFP) and time-and-material (T&M) type task orders over an ordering period of 5 years. EPA intends to award a single contract with an ordering ceiling of \$60M. RELEASE OF THE SOLICITATION IS EXPECTED IN THE LATE JANUARY THROUGH MID-FEBRUARY TIME FRAME, and the close date shall be approximately 30 days thereafter. THE SOLICITATION WILL BE ISSUED ON A FULL AND OPEN COMPETITIVE BASIS with no small business set-asides. All responsible sources may submit a proposal for EPA consideration. The NAICS code is 541712 (research and development in the physical, engineering, and life sciences [except biotechnology]) with a size standard of 500 persons. Contract award will be made in accordance with FAR part 15-Contracting by Negotiation. The point of contact is Matthew Growney, Contracting Officer, at growney.matthew@epa.gov.
