NAICS: 562910. This announcement constitutes the only solicitation. Proposals are being requested, and a written solicitation will not be issued. THIS ACQUISITION IS SET ASIDE 100% FOR SMALL BUSINESS. The Government intends to award two firm-fixed-price Blanket Purchase Agreements (BPAs). The NAICS code is 562910, with a size standard of \$20.5M. The project consists of, but is not limited to, performing asbestos abatement in conjunction with federal, state, and Air Force regulations on Dover AFB property through the various line items, as abatement is necessary through normal renovation cycles or through emergency situations. Performance of asbestos abatement to occur in various facilities throughout Dover AFB, DE. Facilities may be occupied during the asbestos abatement activities. The cost of each line item shall include clearance sampling cleanup. The Government intends to award two BPAs for a 5-year period as a result of this solicitation. Potential vendors are required to submit proof to be licensed in the State of Delaware for the purpose of asbestos abatement with their proposal. SUBMIT PROPOSALS VIA EMAIL BY OR BEFORE 11:00 AM ET ON MARCH 15, 2017. Contractors are encouraged to offer their most advantageous/best proposal.

FY 2017 DOE OFFICE OF ENVIRONMENTAL MANAGEMENT (DOE-EM) MINORITY SERVING INSTITUTIONS PARTNERSHIP PROGRAM (MSIPP) (SRCSGT)

SOL: 2017-SRNS-MSIPP

DUE: 031717

POC: Susan H. Goodwin, Procurement Representative, susan.goodwin@srs.gov, 803-725-6072.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/d5d70c27b1e75d6ad462fda8995fed1a>

NAICS: 541711. Savannah River Nuclear Solutions (SRNS) solicits expressions of interest from Minority-Serving Institutions that provide research, design, development, engineering, test and evaluation, and educational services to assist in the accomplishment of the current and future missions of DOE's Office of Environmental Management (DOE-EM). Services shall include all areas of professional work that support defined DOE-EM research and development needs. Collaboration with partners and funding agencies, preparation of written reports, and presentations of results shall be elements of provided services. This program covers applied research and related activities in science, technology, engineering, and mathematics (STEM) that support defined EM needs in Site Restoration and Tank Waste. Activities performed in collaboration with DOE laboratories are especially encouraged. The hub national laboratory for the MSIPP is SRNL. This program is managed by SRNL, which is operated by SRNS at the Savannah River Site for DOE. Applicable NAICS codes include the following: 541711 (Biotechnology research and development laboratories or services in environmental science); 541712 (Chemical research and development laboratories or services); 541712 (Physical science research and development laboratories or services); and 541712 (Environmental research and development laboratories or services). The FedBizOpps notice contains detailed program descriptions that provide more in-depth information on STEM areas of interest to EM and identifies specific areas of research interest in each Sub-Program Priority Areas and Research Needs list. Any eligible MSI interested in submitting a proposal for financial assistance for applied research and related STEM activities on the Sub-Program Priority Areas and Research Needs listed below must respond with a Letter of Interest by email to susan.goodwin@srs.gov. LETTERS OF INTEREST MUST

BE RECEIVED BY OR BEFORE 5:00 PM ET ON MARCH 17, 2017.

NAICS: 541380. This announcement constitutes the only solicitation; Quotes are being requested and a written solicitation will not be issued. FA6703-17-Q-0002 is a Request for Quote using Simplified Acquisition Procedures under FAR 13.5, Simplified Procedures for Certain Commercial Items. Under this requirement the Contractor shall provide all labor, materials, equipment, transportation, and tools necessary to provide monthly, seasonal, and on-call environmental sampling and analytical services for Dobbins Air Reserve Base (Dobbins ARB), Georgia, as coordinated and designated through the Environmental Flight of the Mission Support Group, Base Civil Engineering Squadron (94MSG/CEV). Analytical services and collection methods shall be performed in accordance with applicable local, state, and federal regulations. Services shall include, but are not limited to sample collection, sample preservation, field sample collection records, and sample transportation, chains-of-custody, laboratory analyses, analysis reports, Quality Control reports, and consultation. THIS REQUIREMENT IS A 100% SMALL BUSINESS SET-ASIDE with a small business size standard of \$15M, NAICS code 541380 (Testing Laboratories). The government will award a base year plus four option periods resulting from this solicitation to the responsible offeror whose quote conforming to the solicitation is most advantageous to the Government. OFFERS MUST BE RECEIVED BY OR BEFORE 12:00 PM ET ON MARCH 20, 2017. Please submit all questions to warren.deeds@us.af.mil No Later Than 12 Noon ET on March 8, 2017.

NEW WORLD MINE REPOSITORY SUMP DRAINAGE FIELD CONSTRUCTION (SRCSGT)

SOL: AG-0343-S-17-0015

DUE: 032317

POC: Dale Reckley, dreckley@fs.fed.us, 406-329-3525, Fax: 406-329-3682.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USDA/FS/03R6/AG-0343-S-17-0015/listing.html>

NAICS: 237990. The purpose of this notice is to develop a list of interested and qualified small business contractors. Contractors interested in bidding on this project in the future are invited to submit a one-page synopsis of experience and qualifications to dreckley@fs.fed.us. SUBMIT THE QUALIFICATIONS SUMMARY BY MARCH 23, 2017. The Northern Region of the Forest Service anticipates awarding a contract for construction services at the New World Mine Site located in Park County (near Cook City), Montana. The expected magnitude of this project is between \$100,00 and \$250,000. The work is expected to be performed in August-September 2017. The work for this project includes three major tasks: (1) Excavate and stockpile material for the construction of the sump drain and infiltration gallery. (2) Install the sump drain and infiltration gallery. (3) Replace materials in the repository, repair disturbed liners, and regrade the repository cover and native materials. Ancillary tasks in support of these tasks include road maintenance on haul roads (blading and watering), mobilization and demobilization, preparing and implementing an Erosion Control Plan, and preparing and implementing a Health and Safety Plan. This work requires potentially handling mine waste, which may contain metals and other chemicals listed as hazardous substances under CERCLA (42 USC 9601 and 9602). The contractor and all subcontractors shall provide written documentation that all onsite personnel engaged in the work have received the OSHA 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) Training required under 29 CFR 1910.120.

NAICS: 541380. This announcement constitutes the only solicitation; proposals are being requested and a formal written solicitation will be included as part of this submission. THIS REQUIREMENT IS BEING SOLICITED AS UNRESTRICTED under NAICS code 541380 (Testing Laboratories) with a size standard of \$15M. The U.S. Army Corps of Engineers (USACE) intends to initiate a negotiated, best-value Indefinite-Delivery Contract (IDC) to acquire laboratory analytical services and related efforts in support of the USACE Philadelphia District for the chemical analysis of soils, sediments, sludges, ground waters, surface waters, oils, wastes, air, and other environmental samples. The laboratory shall maintain active and current National Environmental Laboratory Accreditation Program (NELAP) certifications for the New Jersey Department of Environmental Protection, including air certification, throughout the term of this contract in order to be awarded task orders. The laboratory shall also be certified as a DoD Environmental Laboratory Accreditation Program laboratory that is compliant with the current version of the DoD Quality Systems Manual and the specified SW-846 methods in this scope. Any laboratory currently possessing these certifications may submit a proposal. Copies of the certifications must be provided as part of the submittal. The laboratory must be also able to produce Automated Data Review and Staged Electronic Data Deliverables (EDDs) in compliance with electronic Quality Assurance Project Plans (QAPPs) as well as EDDs in the format required for the USEPA Region 2 EQUIS database system. The period of performance shall be for one year, from 1 May 2017 through 30 April 2018, and will include four option years. The estimated maximum in contract value per year is \$360,000. Total contract ceiling is \$1,800,000. RESPONSES ARE DUE BY OR BEFORE 2:00 PM ET ON MARCH 24, 2017.

USCG MULTIPLE AWARD ENVIRONMENTAL ARCHITECT ENGINEERING SERVICES IDIQ (SRCSGT)

SOL: HSCG50-17-R-ENVAE2

DUE: 032417

POC: Alex H. Wingert, alex.h.wingert@uscg.mil, 206-220-7426; Nicole Butts, Contracting Officer, rinalda.n.butts@uscg.mil.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DHS/USCG/USCGFDCCP/HSCG50-17-R-ENVAE2/listing.html>

NAICS: 541330. This notice is not a request for proposal; it merely constitutes a survey of the market to determine potential offerors that can satisfy the following requirement. This requirement is anticipated to be for \$50M to \$150M over 5-10 years and to have a small business aspect, depending on market research and responses to this notice. The size standard is \$15M under NAICS Code 541330 (Engineering Services) or 541620 (Environmental Consulting Services). The requirement is to provide professional environmental architect and engineering (A/E) services to support Coast Guard shore infrastructure, real property, and other projects. The scope of services includes support under four key Coast Guard environmental programs: Compliance, Restoration and Liabilities, Planning, and Sustainability. Coast Guard shore infrastructure, real property, and other projects cover a wide range of activities, including but not limited to construction, demolition, repair and maintenance; hazardous materials management; pollution prevention; dredging; operational activities, such as training activities, permitted activities, and response activities; and real property agreements and transfers. It is anticipated that the majority of the work would be performed at Coast Guard facilities along the coastal U.S. (ocean, Great Lakes states, and inland rivers) and U.S. territories. Interested firms should submit the spreadsheet in Excel format (attached to the FedBizOpps notice) and a capabilities/qualifications statement of no more than 4 pages in electronic format (limit 9 MB) to alex.h.wingert@uscg.mil. RESPONSES ARE DUE BY OR BEFORE 2:00 PM PT ON MARCH 24, 2017.

NAICS: 541330. This announcement constitutes a request for submission of SF 330 information. Firms will be selected for price negotiations based on demonstrated competence and qualifications for the required work. The services will consist of construction and engineering services to support the development of various projects within or assigned to the Huntington District, US Army Corps of Engineers, Great Lakes and Ohio River Division, and work for others through DOE, IIS customers, and other federal agencies, mainly for DOE, National Nuclear Security Administration, Customs and Border Protection, Veterans Administration, and other federal agencies throughout the U.S. Up to two indefinite-delivery contracts will be negotiated and awarded with a base year and four option years. The contract(s) amount will not exceed \$48M over the life of the contract and the capacity will be shared in event of multiple award. Work will be issued by negotiated firm-fixed-price task orders. Contract award is anticipated in June 2017. The NAICS code is 541330, which has a size standard of \$15M in average annual receipts. THIS ANNOUNCEMENT IS OPEN TO ALL BUSINESSES REGARDLESS OF SIZE. The work and services to be accomplished will consist of providing disciplines, on an individual task order basis, that are highly technical and have specialized experience in nuclear and environmental engineering and construction. The contract will include engineering and construction functions on multi-million-dollar facilities for design, construction, commissioning, decommissioning, demolition, and environmental remediation projects. There will be a requirement for capacity to field multiple (3 to 5) teams of 10-20 highly trained individuals in multiple disciplines to perform engineering and construction services within a 3 to 12 month performance period at multiple sites to achieve customer contractual commitments and schedule deadlines. SF 330 RESPONSES TO THIS NOTICE ARE DUE BY OR BEFORE 3:30 PM ET ON MARCH 30 2017.

RCRA ENFORCEMENT PERMITTING AND ASSISTANCE (REPA) 6 ZONE 3 (SRCSGT)

SOL: SOL-HQ-17-00007

DUE: 040417

POC: Susan Neiheisel, Neiheisel.susan@epa.gov.

NAICS: 541620. ALL INFORMATION CONCERNING THIS SOURCES SOUGHT IS POSTED ONLY ON FEDCONNECT at <https://www.fedconnect.net/FedConnect/?doc=SOL-HQ-17-00007&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access]. To help EPA determine if this potential requirement should be set aside for small business concerns, EPA is seeking capability statements from the small business community regarding their interest and capability in performing the tasks reflected in the draft Performance Work Statement. EPA seeks to determine whether any such firms possess the capability to support EPA's RCRA Enforcement, Permitting, and Assistance requirement in Region 7, 8, 9 and 10. The NAICS code is 541620 (Environmental Consulting Services) with a size standard of \$15M. EPA has a potential requirement to provide technical support services to EPA Zone 3, which comprises EPA Regions 7, 8, 9, and 10. The requirement would support EPA activities as well as EPA-coordinated efforts with states, tribes, and other federal agencies at private, state, and federal facilities, Indian Country, U.S. Territories, along U.S. international borders, and farther abroad. The activities required under this contract will support RCRA goals and other programs or related Agency initiatives. EPA estimates the potential requirement to consist of 322,859 hours in professional labor over a 5-year contract. SUBMIT CAPABILITY STATEMENTS VIA EMAIL BY OR BEFORE 3:00 PM ET ON APRIL 4, 2017.

F--TO DISPOSE OF RADIOACTIVE HAZARDOUS WASTES AT THE GWERD FACILITY (PRESOL)

SOL: RFQ-OH-17-00085

POC: Renita Tyus, Tyus.Renita@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/OH/RFQ-OH-17-00085/listing.html>

NAICS: 562112. EPA's Ground Water and Ecosystems Restoration Division has a requirement for radioactive waste removal and disposal from its facility located at the Robert S. Kerr Environmental Research Center, Ada, Oklahoma. The contractor shall provide EPA with all necessary labor and supervision necessary to load, transport, and dispose of the waste. The contractor must be appropriately licensed and/or permitted to perform the work described in the Statement of Work. The contractor must be an established and recognized provider of the same services with adequate capacity and personnel to perform the work. The contractor, its agents, employees, and all subcontractors must have a satisfactory record of performance and be in compliance in all respects with all applicable federal, state, and local rules and regulations concerning the handling, treatment, storage, and disposal of radioactive and radioactive/hazardous mixed wastes. The contractor shall also obtain and/or assist the waste generating facility in obtaining, when required by law, all permits, and other forms of documentation required in order to comply with the laws and regulations of any state, county, township, or municipal subdivision thereof or other governmental agency which may be applicable to the removal, transportation and subsequent disposal of the radioactive waste or contaminated equipment/items. In addition, the contractor shall satisfy any disposal facility access requirements, including fees, etc. This procurement will be conducted under NAICS code 562112, with a size standard of \$38.5M. THIS ACQUISITION IS A TOTAL SMALL BUSINESS SET-ASIDE. This notice is not a request for competitive quotations; it is a presolicitation announcement only. RELEASE OF THE RFQ IS ANTICIPATED ON OR ABOUT MARCH 15, 2017, through FedConnect at <https://www.fedconnect.net/FedConnect/?doc=RFQ-OH-17-00085&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access]. All questions and any other communications concerning this forthcoming procurement must be submitted through FedConnect.
