

# Federal Business Opportunities (FedBizOpps) Update

Notices for February 13-19, 2017

This update contains summaries of procurement notices issued between February 13-19, 2017 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](http://www.fbo.gov).

## PUGET SOUND (SRCSGT)

**SOL:** 15-BE-054

**DUE:** 022717

**POC:** Sarah E Jachym, [sarah.jachym@dla.mil](mailto:sarah.jachym@dla.mil), 269-961-4542, Fax: 269-961-4474; Daniel Schuemann, Contracting Officer, [daniel.schuemann@dla.mil](mailto:daniel.schuemann@dla.mil), 269-961-5238, Fax: 269-961-4417.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DLA/J3/DRMS/15-BE-054/listing.html>

**NAICS:** 562211. This is a sources sought notice only. The intent of this sources sought synopsis is to identify qualified small business concerns, 8(a) small business concerns, HUBZone small business concerns, service-disabled veteran-owned small business concerns, emerging small businesses, and woman-owned small business concerns for a firm-fixed-price and indefinite-quantity contract for the removal, transportation, and disposal of waste that may contain RCRA Hazardous and Non-Hazardous components in and around Puget Sound. The duration of the contract is anticipated to be for one 30-month base period from the date of an initial contract award and will include one 30-month option. The scope of work includes all management, supervision, labor, engineering services, tools, materials, equipment, supplies, facilities, and transportation necessary to perform the required services including, but not limited to the following: Transportation, removal and disposal Blasting Booth Dust/Sandblast material that may contain RCRA Hazardous and Non-Hazardous components, and providing rental of various size storage containers including, but not limited to various size roll offs to be provided in as little as one (1) day advanced notice. The contractor shall be solely responsible for cleanup of any and all spills or leaks during the performance of this contract that occur as a result of or are contributed to by the actions of its agents, employees, or subcontractors to the satisfaction of the Government and at no cost to the Government. Contractors must use a Transportation company that is on the DLA Disposition Services Qualified Transporters list to transport all wastes and contractors must only dispose of the property on the contract at a facility that is on the approved DLA Disposition Services Qualified Disposal Facility list. During the course of the current contract for these services approximately. Any prospective bidders must demonstrate their ability to process this volume of property. CAPABILITIES STATEMENTS ARE DUE BY OR BEFORE 3:00 PM ET ON MONDAY, FEBRUARY 27, 2017. There is no solicitation available at this time. Upon review of industry response to this Sources Sought Synopsis, the Government will determine whether a further set-aside acquisition in lieu of a small business only set-aside is in the Government's best interest.

## ENVIRONMENTAL REMEDIATION SERVICES MATOC SMALL BUSINESS, VARIOUS LOCATIONS PRIMARILY ALASKA AND PACIFIC RIM (SRCSGT)

**SOL:** W911KB-17-S-ERS

**DUE:** 022817

**POC:** Kathy Kinnett, Contract Specialist, [kathy.i.kinnett@usace.army.mil](mailto:kathy.i.kinnett@usace.army.mil).

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA85/W911KB-17-S-ERS/listing.html>

**NAICS:** 562910. The U.S. Army Corps of Engineers Alaska District is conducting market research to facilitate determination of acquisition strategy. This market research is being conducted in order to identify small business firms with the capabilities to perform the following requirement: The Alaska District is contemplating a multiple-award IDIQ contract with capacity of approximately \$240M to perform Environmental Remediation Services (ERS) in support of a wide range of customers serviced by the Alaska District. Environmental remediation services work executed under the new IDIQ contracts will primarily include investigations, studies, engineering support, remedial designs, removal and remedial actions, and operations and maintenance activities for our customers. The contracts will support the Alaska District's Formerly Used Defense Sites (FUDS) program, Army and Air Force environmental programs and the environmental programs of other non-DoD customers. Task orders may be firm-fixed-price or cost reimbursement; therefore, potential contractors must possess accounting systems adequate for award of cost reimbursement work. Military customers include the Army, Air Force, Air Force Space Command, the Alaskan Command, and Army Medical Command. Other customers include agencies outside DoD, such as the U.S. Forest Service, U.S. Coast Guard, FAA, NOAA, EPA, and Bureau of Land Management. Requirements will be carried out as specified in the individual task order at locations within Alaska and also potentially within the U.S. Pacific Command area of responsibility in locations which may include Hawaii, Japan, Korea, Guam, and Diego Garcia. The applicable NAICS code is 562910, Environmental Remediation Services, and the related small business size standard is 750 employees. THIS IS A SOURCES SOUGHT FOR QUALIFIED SMALL BUSINESS PRIME CONTRACTOR FIRMS ONLY. ALL INTERESTED SMALL BUSINESS FIRMS ARE ENCOURAGED TO SUBMIT CAPABILITIES STATEMENTS NO LATER THAN 2:00 PM ALASKA STANDARD TIME ON FEBRUARY 28, 2017, by email to [kathy.i.kinnett@usace.army.mil](mailto:kathy.i.kinnett@usace.army.mil).

## CONSTRUCT GROUNDWATER PUMP & TREAT FACILITY (SRCSGT)

**SOL:** W912DW-17-X-9002

**DUE:** 022817

**POC:** Kelly Gunn, [kelly.l.gunn@usace.army.mil](mailto:kelly.l.gunn@usace.army.mil), 206-764-6575, Fax: 206-764-6817; Susan Newby, Contracting Officer, [susan.f.newby@usace.army.mil](mailto:susan.f.newby@usace.army.mil), 206-764-6754.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA67/W912DW-17-X-9002/listing.html>

**NAICS:** 237110. This notice is a sources-sought synopsis to conduct market research for developing a procurement strategy for an upcoming contract to construct a groundwater pump-and-treat (P&T) facility in Moses Lake, WA; it is not a solicitation announcement. No solicitation is currently available. After review of the responses to this notice, and if the Government still plans to proceed with the acquisition, a separate solicitation announcement will be published in FedBizOpps. Interest in this announcement is open to businesses located nationwide regardless of business size. The purpose of this notice is to gain knowledge of potentially qualified business to perform the work described and ascertain interest from small business, 8(a), small disadvantage business, woman-owned business, service-disabled veteran-owned small business, or HUBZone prime contractor business sources and their size classifications relative to NAICS code 237110. For the purposes of this procurement, a concern is considered a small business if its annual average gross revenue, taken for the last 3 fiscal years, does not exceed \$36.5M. The Seattle District is anticipating soliciting a project to construct a groundwater P&T facility that will extract groundwater contaminated with TCE, remove TCE contamination via activated carbon filtration, and then return the water into the ground using infiltration trenches. Contractor must have experience in designing, constructing, and operating a P&T facility associated with TCE-contaminated groundwater. Contractors must be familiar with hydrogeology and contaminant transport in groundwater associated with fractured basalt in Moses Lake, WA, or other similar sites. The magnitude of construction for this project is between \$5M and \$10M. Contractor must be able to bond for the entire amount of the project.

**CAPABILITIES STATEMENTS SUBMITTED IN RESPONSE TO THIS SOURCES SOUGHT MUST BE RECEIVED BY OR BEFORE 2:00 PM PT ON TUESDAY, FEBRUARY 28, 2017, by [Kelly.L.Gunn@usace.army.mil](mailto:Kelly.L.Gunn@usace.army.mil).**

**NAICS:** 541620. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. The Guam Army National Guard is seeking contractor support to provide Environmental Compliance Specialist services. THIS REQUIREMENT IS SOLICITED AS A COMPETITIVE WOMAN-OWNED SMALL BUSINESS (WOSB) SET-ASIDE with a NAICS code of 541620 and small business size of \$15M. Period of performance will be one base year and three option years. This position is responsible for managing the Environmental Performance Assessment System (EPAS), and ensuring that audits are performed, required environmental reports are submitted and information is communicated as required for the Guam Army National Guard (GUARNG). Responsibilities are performed under minimal guidance and include the following: conduct inspection visits to all GUARNG facilities; assist in the selection and programming of corrective action projects resulting from internal or external EPAS findings; assist in the coordination and administration of environmental training and maintain records of personnel trained; provide consultation and staff assistance to EPAS contractors and GUARNG personnel; compile, prepare and submit environmental reports to National Guard Bureau (NGB), and Federal and State regulatory agencies. This position is responsible for communication of environmental policies and activities to GUARNG personnel through various means including updates to the environmental website. PROPOSALS ARE DUE BY OR BEFORE 5:00 PM GUAM TIME ON WEDNESDAY, MARCH 1, 2017.

**NAICS:** 237110. This requirement is to provide two deep monitoring wells and soil and groundwater sampling during well construction for former Defense Supply Center Philadelphia (DSCP), located near 2000 Pattison Avenue Drive,

Philadelphia, PA. Once retrieved, USACE staff will collect, bottle and ship soil and groundwater samples for analysis; these are not requirements of this contracting action. The government may elect to exercise several optional tasks in addition to the work already described. The period of performance is 90 days after contract award. This contract will contain three options for additional work. The NAICS code is 237110 and the size standard is \$36.5M. THIS PROCUREMENT IS 100% SET-ASIDE FOR SMALL BUSINESS. Prospective contractors are encouraged to inspect the site where services are to be performed and to satisfy themselves regarding all general and local conditions that may affect the cost of contract performance, to the extent that the information is reasonably obtainable. OFFERS MUST BE RECEIVED BY OR BEFORE 1:00 PM ET ON MARCH 2, 2017.

**INVESTIGATION OF PCB CONTAMINATION AT ELECTRICAL SUBSTATION LOCATIONS OF CONCERN (COMBINE)**

**SOL:** A17PS00351

**DUE:** 030217

**POC:** Darren Nutter, (602) 379-6760, (602) 379-6763, [Darren.Nutter@bia.gov](mailto:Darren.Nutter@bia.gov).

**NAICS:** 541620. THIS REQUIREMENT IS AN INDIAN SMALL BUSINESS ECONOMIC ENTERPRISES SET-ASIDE. This requirement is for analytical investigation of polychlorinated biphenyl (PCB) impacts to surface soil and concrete electrical transformer pads at 20 electrical power distribution substations, owned and maintained by the Bureau of Indian Affairs San Carlos Irrigation Project (SCIP). All substations are located throughout Gila, Graham, and Maricopa Counties of south-central Arizona. Drips and other leaks of transformer oil onto concrete pads and directly onto surficial soils have been observed and documented. As each substation location is unmanned, surrounded by either a cinder block wall or chain-link fencing with barbed wire and a locked security gate, BIA understands these substations to meet the definition of "Limited Use" Properties under TSCA regulations, as SCIP personnel are on the site for only brief periods of time each month, and there is no public access to the substations. In addition, SCIP personnel have indicated that all substation sites will remain as such for the foreseeable future. Most of the locations are well away from any inhabited structure. A few locations have inhabited structures or businesses fairly close by. For substations where evidence of leakage has been documented, BIA requires that third-party field investigations be performed to delineate the nature and extent of PCB contamination in surficial soils and concrete pads located beneath and around electrical transformers and/or other equipment. The types of oil-filled equipment at each site, the volume of oil, descriptions of the observed leaks, and Site Plans showing the equipment locations and other Site features are described herein. Specifications for the number and approximate location of soil and concrete slab samples are provided for each substation for assessment of releases of PCBs. The successful Offeror (contractor) shall supply BIA WRO with professional Environmental Consulting Services and support, subcontracted as necessary, to implement and fully execute the required project planning, field investigations, analytical services, and reporting. QUOTES MUST BE RECEIVED BY OR BEFORE 7:00 PM ET ON MARCH 2, 2017. Details are available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=A17PS00351&agency=DOI> [Note: It might be necessary to copy/paste the URL into your browser for direct access to the FedConnect page]. This requirement has a base performance period of one year (03/01/2017 to 02/28/2018). The contractor shall complete the Tasks of this requirement, providing services and rendering products, within the base performance period.

**NAICS:** 237990. The U.S. Army Corps of Engineers is conducting market research to facilitate a determination of acquisition strategy. The determination of acquisition strategy for this acquisition lies solely with the government and will be based on this market research and information available to the government from other sources. The Contractor is to furnish all labor, equipment, supplies, materials, supervision, and other items/services necessary to accomplish the following: Perform pre-dredge and post-dredge surveys, maintenance dredging, and disposal of an estimated 5,100 cubic yards of contaminated dredged material at Thomas Basin in Ketchikan, Alaska. The small boat harbor consists of a basin approximately 1,100 feet long and 650 feet wide with a project depth of -10 feet mean lower low water (MLLW). The shoaled material consists of silty sand with gravel, high organic content, and contamination consisting of RCRA metals, pesticides, dioxins, diesel-range organics (DRO), and semi-volatile organic compounds (SVOCs). The contamination levels are not enough to be considered hazardous waste. The work period for in-water maintenance dredging is 1 November 2017 through 28 February 2018. Dredging shall be accomplished in a manner that keeps the harbor accessible for traffic. No Contractor staging area shall be provided; the Contractor shall make

arrangements with local interests for staging area if deemed necessary to support performance. Transportation and disposal of the contaminated dredged material at a suitable upland site shall be the responsibility of the Contractor. The Contractor shall comply with commercial and industry standards as well as all applicable federal, state, and local laws, regulations, and procedures. A firm-fixed-price (FFP), single-award contract is anticipated. This sources sought is for QUALIFIED PRIME CONTRACTORS only. The estimated contract award date is 8 August 2017. This procurement is subject to the availability of funds. The estimated magnitude of construction is between \$1,000,000 and \$5,000,000. The Davis Bacon Act shall apply. The primary NAICS code that is anticipated to be used for this requirement is 237990 (Other Heavy and Civil Engineering Construction). The size standard for this NAICS code is \$27.5M. ALL INTERESTED FIRMS ARE ENCOURAGED TO SUBMIT CAPABILITIES STATEMENTS BY OR BEFORE 2:00 PM ALASKA STANDARD TIME ON MARCH 14, 2017.

**NAICS:** 541620. The Environmental Protection Agency's Region 5 Contracting Office is issuing a Request for Proposal (RFP) for Region 6 Superfund Technical Assessment and Response Team (START) IV. The solicitation number for this acquisition is SOL-R5-15-00004. PROPOSALS ARE DUE BY OR BEFORE 2:00 PM ON MARCH 16, 2017. The primary performance of work will be conducted within Region 6 (AR, LA, NM, OK, and TX); however, contractors may need to respond to unforeseen national responses and be able to perform outside the region. The contractor must be able to maintain a 24-hour, seven days a week, year-round response capability to EPA's need within the region as well as outside the region on a backup regional, cross-regional, national, and international response. These services shall be performed in accordance with CERCLA (also known as Superfund) as amended, the National Oil and Hazardous Substances Pollution Contingency Plan, and other environmental statutes. The contractor shall provide services to support response and site assessment activities related to the release or threat of release of oil, petroleum products, hazardous substances, weapons of mass destruction or pollutants and contaminants that pose an actual or potential threat to human health and welfare, or to the environment. The solicitation will be a five-year base period. THIS SOLICITATION WILL BE A FULL AND OPEN SOLICITATION UNDER NAICS CODE 541620. Full details are available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-R5-16-00006&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access to the FedConnect page].

**THE FEDERAL AVIATION ADMINISTRATION (FAA) HAS A REQUIREMENT FOR THE ABATEMENT OF VARIOUS ASBESTOS CONTAINING MATERIALS LOCATED AT 4 DIFFERENT SITES IN AND AROUND IOWA (SRCSGT)**

**SOL:** DTFAAC-17-R-00019

**DUE:** 032417

**POC:** David Shaw, [david.shaw@faa.gov](mailto:david.shaw@faa.gov), 405-954-7896.

**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOT/FAA/MMACTR/DTFAAC-17-R-00019/listing.html>

**NAICS:** 562910. The FAA has a requirement for the abatement of various asbestos-containing materials (specified in the Statements of Work) located at 4 different sites in and around the state of Iowa. The Contractor shall provide all labor, materials (unless noted otherwise in the contract documents), and specialized equipment as necessary to perform the work described in the Statements of Work. THIS REQUIREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE. It is anticipated that a firm-fixed-price type service contract will be awarded as a result of this solicitation. All questions regarding the project/specifications/plans must be received in writing to [david.shaw@faa.gov](mailto:david.shaw@faa.gov) no later than 5:00 PM CT on March 1, 2017, to allow for responses to be provided prior to the due date for receipt of proposals. PROPOSALS MUST BE RECEIVED VIA EMAIL NO LATER THAN 5:00 PM CT ON MARCH 24, 2017, to [david.shaw@faa.gov](mailto:david.shaw@faa.gov). Offerors must also complete and return the Business Declaration Form attached to the FedBizOpps notice.

**FMC LEXINGTON - ASBESTOS ABATEMENT IV (PRESOL)****SOL:** IFBP01091700001**POC:** Jennifer L. Brouillard, Contracting Officer, [jbrouillard@bop.gov](mailto:jbrouillard@bop.gov), 301-317-3255.**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOJ/BPR/10020/IFBP01091700001/listing.html>

**NAICS:** 562910. The Federal Bureau of Prisons (FBOP) anticipates issuing solicitation IFBP01091700001 for the award of a firm-fixed-price construction contract for a project entitled Asbestos Abatement - Phase IV, at the Federal Medical Center (FMC Lexington), located in Lexington, Kentucky. FMC Lexington is a federal correctional facility located at 3301 Leestown Road, Lexington, Kentucky, 40511. The project consists of furnishing all equipment, materials, and labor for the complete construction of the work. The work consists of removing asbestos-containing material (ACM) in the form of pipe insulation and adhesive used to secure ceiling tile. See the Statement of Work/Specifications attachment (to be issued with the Solicitation at a later date) for the complete requirements of the work. The performance period for the project will be 208 calendar days from issuance of the Notice to Proceed. THE SOLICITATION WILL BE AVAILABLE APPROXIMATELY ON OR ABOUT MARCH 1, 2017, solely through FedBizOpps. The estimated magnitude of the project lies between \$250,000 and \$500,000. The NAICS code applicable to this requirement is 562910 with a corresponding small business size standard of \$20.5M. THIS IS A 100% SMALL BUSINESS SET-ASIDE. The "Sensitive /Secure package Upload" option will be selected for this procurement. All secure/locked documents uploaded, including the solicitation, will require an active FBO vendor registration to obtain access.

**NAICS:** 541620. EPA has a need for a contractor to provide sampling and analytical services for EPA consideration in the development, assessment, and revision of effluent limitation guidelines and standards that are under the Clean Water Act. This is a follow-on to current contract EP-C-12-008 with CSRA. The successful contractor shall supply all necessary labor, materials, services, equipment, and facilities in support of the efforts delineated by the Performance Work Statement (PWS). A draft PWS is attached to the sources-sought synopsis, which is available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-CI-16-00080&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access to the FedConnect page]. It is anticipated that a cost-plus-fixed-fee/level of effort contract will result from the award of this solicitation. The base period is expected to begin on June 15, 2017. The base period and each available option period will consist of 13,500 direct labor hours with each period having the potential of an additional 13,500 direct labor hours. It is anticipated that the contract will have one base period with four option periods consisting of 12 months each for a total maximum potential performance period of five years and a total maximum of 135,000 direct labor hours. The applicable NAICS code is 541620 with a size standard of \$15M. It is anticipated that the following firms will be excluded from consideration for award: \*Firms that own or operate an analytical laboratory and \*Firms that act in consulting, advisory, or legal capacities with, or for, firms trying to overturn or circumvent regulations on Part 136 Analytical Methods, effluent guidelines and wastewater. THE ANTICIPATED SOLICITATION RELEASE DATE IS MARCH 2017, and the close date shall be approximately 30 days thereafter. The solicitation will be a full and open competition. Notices of any modifications to this FBO procurement announcement, including Requests for Proposals and amendments, will be posted on FedConnect.

**NAICS:** 238910. THIS REQUIREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE. [Although labeled a presolicitation notice at FedBizOpps, this announcement does not identify the anticipated solicitation release date.] The U.S. Forest Service has a need for demolition and removal of fire-damaged structures at Camp 16, in the Angeles National Forest. Camp 16 burned during the 2009 Station Fire. Most buildings located on the site have completely or partially collapsed; potential hazardous material (including, but not limited to asbestos, lead paint, polychlorinated biphenyls (PCBs), mercury, used oil, CFCs, halons and other refrigerants)-containing components are scattered throughout the site and mixed with the charred debris. The work consists of performing demolition of the four buildings designated in the Schedule of Items and on the Site Plan. The contractor shall provide the labor, materials, equipment and supervision for survey of hazardous materials, abatement of hazardous materials, and complete demolition and debris removal at the site. The contractor shall obtain all permits required to perform the work. The contractor shall also provide characterization of the soil at the site to determine if any of the hazardous material burned in the Station Fire contaminated the soil. The soil shall be characterized to determine the lateral and vertical extent of contamination. The work also consists of completing a Hazardous Materials Inventory for the four buildings designated for demolition. The inventory shall identify hazardous materials and hazardous building components that must be removed prior to the demolition of the four buildings. A determination shall be made during the inventory process as to whether the asbestos identified is friable, non-friable or will become friable during demolition activities. The work will be contracted in TWO phases. Phase 2 may or may not be exercised, dependent on need and Government funding. Time of Performance is 180 days from Notice to Proceed. A one-day site visit will be held approximately during the period of 29 March 2017 to 05 April 2017. You MUST attend the site visit to receive additional data on the project and you MUST attend the site visit for your bid to be accepted. The Contracting Officer will NOT receive late proposals or proposals from contractors not attending the site visit. The Government Magnitude Range is between \$250,000 and \$500,000 for Phase 1 and between \$250,000 and \$500,000 for Phase 2. If your proposal is outside these ranges, please be prepared to explain why.
