

Federal Business Opportunities (FedBizOpps) Update

Notices for May 8-14, 2017

This update contains summaries of procurement notices issued between May 8-14, 2017 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

Z--ASBESTOS FLOORING ABATEMENT AND VCT TILE REMOVAL AT THE MEMPHIS VA MEDICAL CENTER (SRCSGT)

SOL: VA24917N0719

DUE: 051717

POC: Matthew Cox, Contract Specialist, Matthew.Cox@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/NaVAMC/VAMCCO80220/VA24917N0719/listing.html>

NAICS: 562910. The purpose of this market research is to determine availability of interested and capable contractors for nationwide competition. One contract may be awarded, provided the contractors prove to be highly qualified, meet the responsibility factors in FAR 9.104, are able to provide the needed services, and award can be made at a price that is fair and reasonable to the Government. Requirements will be defined in the scope of work. The VA, specifically Veterans Integrated Service Network (VISN) 9, is seeking information concerning the availability of capable contractors with the ability to perform Construction Services for asbestos flooring mastic abatement and VCT tile removal at the Memphis VA Medical Center, in accordance with the statement of work. The abatement will cover approximately 800 square feet of flooring, mastic glue, and ACM VCT tiles in six offices, with potentially two layers of flooring and mastic in the offices. The anticipated contract will have a period of performance of 30 calendar days. Work shall start no later than 10 calendar days from the issuance of the Notice to Proceed. Contract award is estimated to be June 2017. This procurement will be conducted under NAICS code 562910, Remediation Services. The Small Business Size Standard is \$20.5M gross annual revenue. RESPONSES ARE DUE BY OR BEFORE 2:00 PM CT ON MAY 17, 2017.

NAICS: 562910. The information received from this market research is for planning purposes only. This RFI is strictly market research in accordance with FAR Part 10. The NAICS codes contemplated for this acquisition are 562910 Remediation Services; 236220 Commercial and Institutional Building Construction; and/or 238310 Drywall and Insulation Contractors. Current industry capabilities, to include small business, must be confirmed, and all eligible small businesses are encouraged to respond. Contractors are invited to provide (1) a Letter of Interest and (2) a Capability Statement. The objective is to provide an estimate for the removal of two walls totaling approximately 20 feet in length. The adhesive used to affix wainscoting to the walls contains asbestos. After removal, the adjoining walls, affected floors, and ceiling would then be restored to match the surrounding offices surfaces. A site will be held at 10:00 AM on May 17, 2017. SUBMIT RESPONSES AND COMMENTS VIA EMAIL BY 4:30 PM CT ON FRIDAY, MAY 19, 2017.

NAICS: 541620 / 541712 / 541330 / 541990 / 562910, and other codes. The purpose of this announcement is to invite interested parties to the Federal Executive Board's San Francisco Acquisition Interagency Council (SF-AIC) Industry Day. This Industry Day will facilitate open dialogue between various federal government agencies, industry partners, and prospective businesses interested in government acquisitions. The Industry Day will be held June 21, 2017, at Ronald V. Dellums Federal Building and Courthouse, located at 1301 Clay Street, Oakland, CA. The meeting is planned to begin at 8:30 AM and finish by 2:00 PM. Government objectives are to encourage competition and ensure synergy between federal agencies and industry representatives through open discussions. Representatives from SBA, GSA, EPA, U.S. Forest Service, VA, NASA Ames, USDA, U.S. Corps of Engineers, and FDA will be present. There is no cost to attend, but space is limited, and only 2 representatives per company may attend. Advance registration is required; no walk-ins will be permitted. Attendance is on a first-come, first-served basis. Although registration is anticipated to close on June 5, 2017, registration may close early if maximum capacity for the event has been reached. Register at <https://goo.gl/forms/r713tmph6k6aPQDH3> no later than June 5, 2017.

NAICS: 562910. The Environmental Compliance and Operations 2 (ECO2) effort is anticipated to provide multi-media environmental compliance services, environmental restoration services, general operational support, and sustainability services/programs for the White Sands Test Facility (WSTF). NASA's Johnson Space Center (JSC) WSTF will conduct a presolicitation conference and WSTF site tour for ECO2 on Tuesday, June 13, 2017, at the Ramada Palms 201 E. University Avenue in Las Cruces, New Mexico. The Government will also provide one-on-one meeting opportunities in individual 30-minute time blocks, which will be scheduled on Wednesday, June 14, 2017, and Thursday, June 15, 2017, from 8:00 AM to 5:00 PM MT. Please be advised meetings will be scheduled on a first-come-first-served registration basis until all available time slots have been filled. The one-on-one meetings are intended to be question and answer sessions in which neither side will be making a formal presentation; recording devices (photo, video, audio-recording, etc.) are prohibited. All questions shall be submitted in writing for a formal response. The total number of conference and/or one-on-one meeting attendees is strictly limited to 4 persons per company. Attendance for the WSTF site tour is limited to 2 representatives per company. Any company may request a one-on-one meeting, regardless of whether they are interested in proposing as a prime contractor or subcontractor. RESERVATION REQUESTS MUST BE RECEIVED NO LATER THAN 12:00 PM MT ON TUESDAY, JUNE 6, 2017. The due date for registration will not be extended. Following the presolicitation conference, a revised list of interested parties and official answers to questions will be posted to FedBizOpps and to <https://procurement.isc.nasa.gov/eco2/>.

REMEDIAL ACTION, A-E SERVICES, AND REGIONAL OVERSIGHT CONTRACTS CLASS JOFOC (SNOTE)

SOL: SOL-HQ-17-00010

POC: Margie Weathers, weathers.margie@epa.gov.

NAICS: 562910. The purpose of this notice is to post the EPA Remedial Action, A-E Services, and Regional Oversight Contracts Class Justification for Other than Full and Open Competition (JOFOC), per the publicizing requirements in FAR Part 5.203(d). This JOFOC covers the following Regional Oversight Contracts for Regions 1 and 2, the Remedial Action Contract for Region 4, and the Architect-Engineering Services contracts for Region 7: **EP-BPA-11-W-0003, Region 1; **EP-S2-12-02, Region 2; **EP-S4-09-02, Region 4; **EP-S7-05-05, Region 7; and **EP-S7-05-06, Region 7. The contracts are extended for a base period of one year with one 1-year option and two 6-month option periods for a possible maximum 3-year period of performance. The purpose of these extensions is to allow EPA time to implement its new Remedial Acquisition Framework (RAF) initiative. For further details regarding the RAF suite of procurements, please reference the following solicitation numbers on FedConnect: SOL-HQ-14-00022 (DES); SOL-HQ-14-00023 (RES); and SOL-R1-14-00003 (ESO). The JOFOC is posted on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-HQ-17-00010&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access].

F--PARKVIEW WELL OU1 - OPERATION AND MAINTENANCE OF GROUNDWATER TREATMENT SYSTEM SERVICE CONTRACT (PRESOL)

SOL: SOL-R7-17-00009

POC: Leeanna Balsley, Contracting Officer, Balsley.Leeanna@epa.gov.

NAICS: 562910. The purpose of this presolicitation notice is to let industry know that the U.S. Environmental Protection Agency intends to release a solicitation. THIS REQUIREMENT WILL BE ADVERTISED AS A WOMAN-OWNED SMALL BUSINESS (WOSB) SET-ASIDE. EPA anticipates issuing a fixed-price contract consisting of a one-year base period and four 1-year option periods. Estimated dollar value for this procurement, with options exercised, is between \$1M and \$2M. RELEASE OF THE SOLICITATION/RFP IS ANTICIPATED WITHIN THE NEXT MONTH. FAR Part 15 is the procurement method utilized for this acquisition. This work is for the long-term remedial action (LTRA) of the groundwater treatment system (GWTS) for the Parkview Well Superfund Site Operable Unit 1 (OU 1), which is located in the southwestern portion of the city of Grand Island in Hall County, Nebraska. The Groundwater Treatment Plant (GWTP) is housed in a 60-foot by 45-foot building. The scope of the GWTS includes the GWTP, four extraction wells, and all associated system components and structures both at and below the surface. The contractor shall be required to comply with all applicable federal, state, and local laws and regulations. The LTRA will be conducted pursuant to CERCLA, as amended by SARA, and the National Contingency Plan. These details are available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=SOL-R7-17-00009&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access].

NAICS: 541380. THIS PROPOSED PROCUREMENT IS 100% SET-ASIDE FOR SMALL BUSINESS CONCERNS. The Officer in Charge requires all labor, management, supervision, tools, materials, equipment, incidental engineering, and transportation necessary to collect samples and perform laboratory tests for asbestos, lead, toxic characteristic leaching procedure (TCLP), and polychlorinated biphenyls (PCBs), with safety as a priority and quality work as the final product. This work will be performed in the Hampton Roads, VA, region at various Naval facilities, including the Norfolk Naval Ship Yard, Portsmouth; Little Creek Naval Amphibious Base, Norfolk; Sewells Point Naval Station and Chambers Field, Norfolk; Oceana Site Naval Air Station, Fleet Training Center Damn Neck, and Fentress Airfield, Virginia Beach; Peninsula Site Naval Weapons Station, Yorktown, and Cheatham Annex, Williamsburg. Also included are various locations within a 50-mile radius of the above. The work identified is to be provided by a combination IDIQ-type of contract. The solicitation and resulting contract award will be a performance-based service acquisition. Offers shall be submitted for the performance of work for a period of one year; however, the initial term of the contract may be for a period of less than one year. The Government has the option to extend the term of the contract services for additional periods of 1 to 12 months. The total contract term, including the exercise of any options, shall not exceed 60 months. The proposed procurement will be issued as a NAVFAC Mid-Atlantic Electronic Facilities Support Contract with online ordering capability using DOD EMALL for the Indefinite Quantity Exhibit Line Item Numbers (ELINs). Acceptance of Government Purchase Credit Cards is required along with the purchase of DOD EMALL Encrypted software. The NAICS code is 541380; the size standard is \$15M. The RFP will be made available in electronic format only on the Navy Electronic Commence Online (NECO) website. RELEASE OF THE RFP ON NECO IS ANTICIPATED ON OR ABOUT JUNE 2, 2017. The estimated proposal due date shall be at least 30 days after the RFP is posted. Submit technical inquiries in writing to Malita Smith (malita.smith@navy.mil) no less than 10 days prior to the RFP due date.

R--ANALYTICAL CHEMISTRY LABORATORY SERVICES SUPPORTING UNREGULATED CONTAMINANT MONITORING (PRESOL)

SOL: SOL-CI-17-00004

POC: Donna Reinhart, reinhart.donna@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/OH/SOL-CI-17-00004/listing.html>

NAICS: 541380. The U.S. EPA's Office of Water, Office of Ground Water and Drinking Water, Technical Support Center requires contractor support for analytical laboratory services in conjunction with implementation of the fourth Unregulated Contaminant Monitoring Rule (UCMR 4). Once every five years, EPA issue a new list of no more than 30 unregulated contaminants to be monitored by public water systems (PWSs). The UCMR requires PWSs to collect occurrence data for contaminants that may be present in drinking water but are not yet subject to EPA's drinking water standards set under the SDWA. This rule benefits public health by providing EPA and other interested parties with scientifically valid data on the national occurrence of selected contaminants in drinking water. This dataset is one of the primary sources of information on occurrence, levels of exposure, and population exposure the Agency uses to develop regulatory decisions for contaminants in the public drinking water supply. The SDWA requires that EPA (1) have direct implementation responsibilities (with state assistance through Partnership Agreements); (2) enter the monitoring data into the Agency's publicly available National Contaminant Occurrence Database; and (3) ensure that PWSs serving a population larger than 10,000 people, as well as a nationally representative sample of PWSs serving 10,000 or fewer people, are required to monitor. EPA must also vary the frequency and schedule for monitoring based on the number of persons served, the source of supply, and the contaminants likely to be found. UCMR 4, which was published on December 20, 2016 (81 FR 92666), identifies analytical methods to support PWS monitoring (between 2018 and 2020) for a total of 30 chemical contaminants and indicators, consisting of nine cyanotoxins and one cyanotoxin group; two metals; eight pesticides, plus one pesticide manufacturing by-product; three brominated haloacetic acid disinfection by-product groups along with source water monitoring of indicators (total organic carbon and bromide); three alcohols; and three semivolatile organic chemicals. Laboratories must successfully complete the UCMR 4 Laboratory Approval Program prior to analyzing UCMR 4 samples. Tasks anticipated under this procurement will include support in the following areas: 1) Conducting laboratory analyses; 2) Providing logistical support; 3) Reporting results; and 4) Preparing monthly reports. To ensure sufficient laboratory capacity, it is anticipated that this requirement will be met through a multiple-award IDIQ-type services contracts. The government intends to award up to five contracts from this solicitation. The contracts will be fixed rate for each Method Analysis. The anticipated contract(s) will have an ordering period of five years. Specific task orders will be competed among the laboratories awarded these contracts. These task orders will specify one or more tasks to be completed using one or more analytical methods. In response to a written task order, the successful offeror(s) shall be responsible for all activities relating to sample receipt, conducting the analyses, and reporting results in support of the UCMR 4. This is a follow-on requirement of the current EPA contracts EP-C-13-001, -002, -003, and -004. To apply, interested parties must register for the UCMR 4 Laboratory Approval Program and submit acceptable method applications for all the methods identified for the UCMR 4 contaminants before close of the solicitation. THE ANTICIPATED SOLICITATION RELEASE DATE IS LATE MAY OR EARLY JUNE 2017, with a close date approximately 30 days thereafter. EPA HAS SET ASIDE PART (25%) OF THIS ACTION FOR SMALL BUSINESSES. See FedConnect for more details and updates to this procurement at <https://www.fedconnect.net/FedConnect/?doc=SOL-CI-17-00004&agency=EPA> [Note: It might be necessary to copy/paste the URL into your browser for direct access].
