NAICS: 541620. THIS ACQUISITION IS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 541620 (Environmental Consulting Services), small business size standard \$15M. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. The National Oceanic and Atmospheric Administration (NOAA), Office of Marine and Aviation Operations/Marine Operations Center - Pacific requires the support to analyze underlying causes and contributing factors of spills in the vessel fleet to focus preventive effort and improve future analysis. The vendor is to create a root cause process and tools for NOAA spills and apply to spills from 2011-2017 per the statement of work attached to the FedBizOpps notice. Offers shall be submitted electronically via email to beverly.j.parker@noaa.gov. OFFERS MUST BE RECEIVED BY OR BEFORE 5:00 PM PT ON JUNE 28, 2017.

F--ASBESTOS AND LEAD SURVEY - POPLAR BLUFF (SRCSGT)

SOL: VA25517N0699

DUE: 070317

POC: Karen E Maggart, Contract Specialist, 913-946-1992, karen.maggart@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/LeVAMC/VAMCKS/VA25517N0699/listing.html>

NAICS: 541620. This RFI is issued solely for market research and planning purposes. The Department of Veterans Affairs, Network Contracting Office (NCO) 15, has a potential requirement for the preparation of an asbestos and lead survey by a Certified Industrial Hygienist (CIH) for the VA Medical Center in Poplar Bluff, Missouri 63901. The survey shall include reports and recommendations for abatement and remediation. The applicable NAICS for this requirement would be 541620 (Environmental Consulting Services), size standard of \$15M. Contractor shall perform comprehensive asbestos and lead building inspection in an effort to identify all asbestos and lead containing materials, including those within spaces that are typically considered inaccessible by the general public, which are likely to be disturbed in the course of any and all future construction and renovation activities. Contractor shall prepare and furnish a comprehensive asbestos management plan, complete with recommendations and cost estimates for any prescribed asbestos remediation response actions. The following current certifications/licenses are required: State of Missouri Asbestos Inspector license, State of Missouri Asbestos Management Planner license, State of Missouri Asbestos Air Sampling Professional license, State of Missouri License Lead Inspector license and ABIH Certified Industrial Hygienist certification. The VA is dedicated to the Veterans First Contracting Program and encourages any certified Service Disabled Veteran Owned Small Business (SDVOSB) or Veteran Owned Small Business (VOSB) capable of furnishing the required services to respond. If a sufficient number of eligible SDVOSB or VOSB firms are identified during this market research, the acquisition will be set aside for SDVOSB or VOSB participation. Submit a brief (5 pages max) capabilities statement via email to karen.maggart@va.gov. NO MARKETING MATERIALS ARE ALLOWED IN RESPONSE TO THIS RFI. CAPABILITIES STATEMENTS MUST BE RECEIVED BY OR BEFORE 4:00 PM CT ON JULY 3, 2017.

AMMUNITION DESTRUCTION/DEMILITARIZATION SERVICES (COMBINE)

SOL: HSBP1017Q0097

DUE: 070517

POC: Gary M. Orr, Gary.Orr@dhs.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DHS/USCS/FPSB/HSBP1017Q0097/listing.html>

NAICS: 562910. THIS PROCUREMENT SHALL BE A TOTAL SMALL BUSINESS SET-ASIDE. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. The associated NAICS code for this procurement is 562910, with a small business size standard of \$20.5M. The Department of Homeland Security (DHS), Customs and Border Protection (CBP), Indianapolis, IN, intends to award a Purchase Order for Ammunition Destruction/Demilitarization Services. Hundreds of thousands of rounds of various caliber ammunition are seized as part of CPB enforcement actions. These seizures take place at controlled ports of entry as well as uncontrolled areas along the border and interior of the United States and are aimed at stopping the flow of prohibited ammunition into the country and seizing ammunition for other violations of law. CBP is tasked with the storage and disposition of seized and forfeited ammunition in support of these enforcement actions. Once forfeited, orders of destruction are issued by the CBP issuing authority and the ammunition must be disposed of in a secure, safe and verifiable manner. CBP is seeking to establish a contract with a vendor capable of providing services that can

destroy/demil seized and forfeited ammunition in accordance with the scope and tasks outlined in the Statement of Work that is attached to the FedBizOpps notice. DHS Customs and Border Protection requires all contractors to complete and submit to Gary.Orr@cbp.dhs.gov the quote form attached to the FedBizOpps notice. The Period of performance shall be one base year plus four option years. QUOTES MUST BE RECEIVED BY OR BEFORE 12:00 PM ET ON JULY 5, 2017.

HAZARDOUS WASTE REMOVAL IDIQ CONTRACT FOR YOSEMITE NATIONAL PARK (COMBINE)

SOL: P17PS01730

DUE: 070517

POC: John Gannon, 415-623-2256, john_gannon@nps.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOI/NPS/APC-IS/P17PS01730/listing.html>

NAICS: 562112. THIS ACQUISITION IS SET ASIDE FOR SMALL BUSINESS CONCERNS under NAICS code 562112, with a Business Size Standard of \$38.5M. This requirement is for transportation, treatment, storage, and disposal of hazardous waste generated by Yosemite National Park in accordance with EPA regulations 40 CFR, RCRA, and Title 22 California Code of Regulations. Yosemite National Park (YNP) operations are typical of any municipality, including facility and fleet management. Due to the amount of hazardous waste generated each month, we are considered a Large Quantity Generator (LQG) and must meet additional requirements that do not apply to most other National Park Service units. The park normally generates 25-30 tons of waste annually with four to five shipments off site per year. Off-site shipments typically fluctuate between one to five tons, with variable and infrequent waste streams. Shipments are roughly on a quarterly basis from a Central Accumulation Area, with spring and winter shipments being much lighter than summer and fall. These quantities and schedule are provided for informational purposes only. Actual requirements may vary. As a LQG, YNP is limited to accumulating hazardous waste for 90 days at the Central Accumulation Area. RCRA regulations require that a generator of hazardous waste be held responsible for every point in the waste cycle in a "cradle-to-grave" process that covers generation, storage, treatment, and disposal. The overall contract purpose is to acquire the services of a hazardous waste transportation company with a long-standing positive record of managing hazardous wastes in compliance with state and federal regulations. The contractor must have the ability to handle our fluctuating and incidental waste streams, provide data managing our waste classification (profiles), and cradle-to-grave tracking to ensure compliance. The licensed hazardous waste transporter and permitted Treatment, Storage, Disposal Facility (TSDF) to be utilized need not be owned by the Contractor, however the Contractor remains solely responsible for ensuring tight control over waste removed and disposed of under this contract. The Government intends to establish one or more firm-fixed-price IDIQ contracts. The resulting contract(s) will include one base year and four option years for a Period of Performance of 08/07/2017 to 08/06/2022. QUOTATIONS MUST BE RECEIVED VIA EMAIL BY OR BEFORE 7:00 PM PT ON JULY 5, 2017.

BPA FOR ENVIRONMENTAL CONSULTING SERVICES (COMBINE)

SOL: W9128F17R0046
DUE: 071217

POC: Melissa R. Harlon, melissa.r.harlon@usace.army.mil, 402-995-2490.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA45/W9128F17R0046/listing.html>

NAICS: 541620. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. The intent of this solicitation is to establish multiple Blanket Purchase Agreements (BPAs) for Environmental Consulting Services. THIS ACQUISITION IS A 100% SMALL BUSINESS SET-ASIDE, NAICS code 541620 (Environmental Consulting Services), with a small business size standard of \$15M. The USACE Northwestern Division - Omaha is seeking to purchase professional Environmental Consulting Services within the contiguous United States, Hawaii, Alaska, and U.S. Territorial Sites of Guam and Puerto Rico. Services are for the development of environmental analysis and to support the Natural Resources, Cultural Resources, and NEPA tasks identified in the Performance Work Statement attached to the FedBizOpps notice. The Government is targeting five firms for down-selecting based on the technical capabilities. The Government will then request those down-selected firms to submit price offers based upon a price schedule. The price schedule will entail a list of personnel with correlating hourly burdened and unburdened rates, cap profit rate, cap G&A rate, and/or cap overhead rate, as applicable. Price offers shall be fair and reasonable. Price offers will be evaluated and will be negotiable. If rates cannot be agreed upon as fair and reasonable, the Government is not obligated to establish an agreement with that firm. Omaha District intends to establish multiple BPAs as a result of this combined synopsis/solicitation. The firms will form a BPA pool, and they will compete on individual Call Orders placed against the BPA. PROPOSALS MUST BE RECEIVED BY 2:00 PM CT ON JULY 12, 2017.

NAICS: 562211. THIS SOLICITATION IS A COMPETITIVE 8(a) SET ASIDE. This contract is referred to as the

Oklahoma-Arkansas Regional HW Disposal Contract. Work will consist of the removal and disposal of Government generated hazardous and non-hazardous wastes located on military installations in the states of Oklahoma, Texas, and Arkansas. This contract consists of one 30-month Base Period, followed by one 30-month Option Period. Pricing for containerized waste will largely be based upon container sizes and the assigned disposal profile, rather than pricing on a per-pound basis. The exception is bulk wastes as defined in paragraph 1.2.8.1 and containerized waste with the suffix C7. Generators are responsible for ensuring their containerized wastes turned in for disposal via this contract are in proper Department of Transportation-shippable packaging. This contract is for various military and Government activities, which may encompass multiple states. Standard removal timeframe for all sites is 30 calendar days from the date of order issuance. This contract requires the transportation and disposal of RCRA hazardous wastes, non-RCRA wastes, state-regulated wastes, non-state regulated wastes, universal wastes, compressed gas cylinders, and polychlorinated biphenyls (PCBs). Some CLINs ordered under this contract require the Contractor to provide Certificates of Destruction or Disposal (CD), e.g., for certain Demilitarization items and PCB-related wastes. The Contractor is cautioned that all tank cleaning CLINs will include the team leader, technician(s), PPE, confined space entry if applicable, and all equipment used to perform these services. The Contractor should bid accordingly. It is contemplated that this Procurement will be awarded without discussions. SUBMIT OFFERS VIA EMAIL BY OR BEFORE 4:00 PM ET ON JULY 21, 2017. [NOTE: the FedBizOpps text gives a due date of July 21, whereas the attached Performance Work Statement gives a due date of July 5.]

F--FY17 MADISON COUNTY OU-3 REMEDIAL ACTION - RESIDENTIAL SOILS (PRESOL)

SOL: SOL-R7-17-00010

POC: Scott Dandy, dandy.scott@epa.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/ReqVII/SOL-R7-17-00010/listing.html>

NAICS: 562910. This announcement is a presolicitation notice for Madison County Mines Superfund Site Remedial Action for Operable Unit 3 (OU3) Residential Properties, Madison County, Missouri. U.S. EPA Region 7 is seeking the services of an experienced firm to provide Remedial Action (RA) services for OU3 Residential Properties affected by human transport of mine waste resulting from nearly 2 1/2 centuries of mining in the Old Lead Belt located in Southeast Missouri, Madison County, and southern St. Francois County. The work to be performed under this contract consists of excavation, consolidation, disposal, and revegetation of mining wastes and contaminated soils at portions of the site. The Period of Performance for this procurement will be three years. The contractor shall be required to comply with all applicable federal, state, and local laws and regulations. Remediation will be conducted pursuant to CERCLA as amended by SARA and NCP requirements. EPA anticipates issuing an indefinite-quantity with fixed unit prices contract consisting of a one-year base period and two one-year option periods. Estimated dollar value for this procurement is between \$10M to \$20M. THIS PROCUREMENT WILL BE A TOTAL SMALL BUSINESS SET-ASIDE. RELEASE OF THE RFP IS ANTICIPATED ON OR ABOUT JUNE 30, 2017. NAICS: 238910. THIS PROCUREMENT WILL BE ISSUED AS A SMALL BUSINESS SET-ASIDE, NAICS code 238910 (Site Preparation Contractors), with a size standard of \$15M. Work consists of, but is not limited to, furnishing all labor, supervision, tools, equipment, materials, and transportation necessary for remediation of asbestos-containing material (ACM) Transite, construction debris, and contaminated soils buried in approximately 1900 cubic yards of soils located at the former Job Corp Conservation Center's sewage lagoon. An environmental consultant shall develop for approval and

implement a work plan to excavate, segregate, remove, and dispose of ACM-containing material, construction debris, and contaminated soils; and perform soil sampling for site remediation confirmation. Remaining clean soils shall be replaced on site, sewage lagoon landscaped, and saplings planted. The environmental consultant shall develop a detailed project completion report specifying the processes used and results of the remediation. The magnitude of this requirement in terms of physical characteristics and estimated price range is between \$25,000 and \$100,000. THE SOLICITATION PACKAGE WILL BE AVAILABLE ON OR ABOUT JULY 7, 2017, with quotes due on or about July 27, 2017. NAICS: 541380. THIS ACQUISITION WILL BE ISSUED AS A FULL AND OPEN RFP. The U.S. Fish & Wildlife Service (USFWS), Contracting and General Services in Falls Church, VA is seeking analytical capability to perform organic analyses; specifically, Organochlorine Pesticides, Aromatics, Aliphatics, and PCB analyses, as well as other organic analyses in soil, sediment, animal or plant tissue, and water. This solicitation will result in multiple Blanket Purchase Agreements (BPAs) to provide Technical Science - Analytical Services in support of the USFWS. The Service has the responsibility for determining the effects of environmental contaminants on organisms and their habitats. A significant part of this responsibility requires the determination of trace amounts of organic compounds in fish tissue, wildlife, invertebrates, plants, water, soil, and sediments. The performance period will be for a base of one year with four subsequent one-year options. The primary NAICS code for the procurement is 541380, with a small business size standard of \$15M. RELEASE OF THE SOLICITATION PACKAGE IS ANTICIPATED AROUND JULY 17, 2017. Proposals will be due 30 days after the solicitation is released, with an anticipated award date of November 17, 2017. Monitor FedConnect for updates at <https://www.fedconnect.net/FedConnect/?doc=F17PS00726&agency=DOI> [Note: It might be necessary to copy and paste the URL into your browser for direct access].
