

Federal Business Opportunities (FedBizOpps) Update

Notices for June 5-11, 2017

This update contains summaries of procurement notices issued between June 5-11, 2017 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

SOURCES SOUGHT FOR LEAD ABATEMENT SERVICES FOR TWO (2) MUNITIONS RANGES LOCATED WITHIN A U.S. GOVERNMENT MILITARY INSTALLATION. (SRCSGT)

SOL: W911QX-17-T-0186

DUE: 061417

POC: Christine Chase, Contract Specialist, christine.m.chase10.civ@mail.mil, 301-394-4012.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/1c292a914437d31c5d85d85e592344cf>

NAICS: 562910. The purpose of this Sources Sought Notice is to gain knowledge of interest, capabilities, and qualifications of various members of industry, to include Small Business, Section 8(a), HUBZone, Service-Disabled Veteran-Owned Small Business (SDVOSB), Woman-Owned Small Business (WOSB), and Economically Disadvantaged Woman-Owned Small Business (EDWOSB). The Government must ensure there is adequate competition among the potential pool of responsible contractors. The Contractor shall provide lead abatement services for two indoor firing facilities, Ranges R16 and R17, at the Aerodynamics Experimental Facility (AEF), Area B328, Aberdeen Proving Ground (APG), Maryland. The contractor shall decontaminate all floor and center rail surfaces to the extent that post-cleanup wet-wiping of the decontaminated surfaces by use of a clean, white towel produces no visible lead, contaminants, or stains on the towel. In the instance that the facility fails the wet-wipe test, the Contractor shall be responsible for completely re-cleaning the facility until the facility has been decontaminated to the Government's specified requirements. Government personnel will verify whether minimum requirements have been met by conducting a wet-wipe check of three random surfaces, minimum, in each range once the abatement has been completed. The estimated Period of Performance is one to two weeks. CAPABILITIES STATEMENTS MUST BE RECEIVED NO LATER THAN 11:59 PM ET ON JUNE 14, 2017.

BEALE AFB WTP SLUDGE REMOVAL AND SOIL REPAIR (SRCSGT)

SOL: BealeSludge17

DUE: 061417

POC: Keely Webb, Contracting Officer, keely.webb@us.af.mil, 530-634-2472.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USAF/ACC/9CONS/BealeSludge17/listing.html>

NAICS: 562910. This is a Sources Sought notice issued only for purposes of market research. The purpose of this synopsis is to notify the industry of a possible forthcoming contract action and to gain knowledge of potentially qualified sources and their size classifications (small business, large business, woman-owned, etc.). There is no solicitation at this time. The 9th Contracting Squadron, Beale AFB, California, is seeking information about qualified sources who can provide sludge removal and soil repair, in accordance with the DRAFT Performance Work Statement. The contractor shall evaluate soil samples to estimate how much soil that was contaminated by sludge released during tank cleaning needs to be removed to contain the contamination. The contractor shall excavate all soil that is visibly contaminated and remove 3" below the sludge to ensure no further contamination remains. It shall remain the responsibility of the contractor to properly collect, containerize, label, transport, and stockpile the contaminated soil per certified lab and 9CES recommendations. Excavated contaminated soil shall be characterized and disposed of in an appropriate landfill. Interested parties are invited to submit a one-paragraph notice of capability to provide the required service(s) and to complete and return the questionnaire attached to the FedBizOpps notice. SUBMISSIONS MUST BE RECEIVED BY OR BEFORE 1:00 PM PT ON WEDNESDAY, JUNE 14, 2017.

NAICS: 541380. This project is intended to perform sample analysis of environmental hazards found in Department of Veterans Affairs San Diego Healthcare System, located at 3350 La Jolla Village Dr., San Diego, CA 92161. Contractor shall provide all necessary labor, transportation, equipment, materials, personal protective equipment, supervision, other items and non-personal services required to provide the sample analysis described in the Statement of Work. Contractor shall perform work that is primarily asbestos-related in nature, but may also include lead, mold, construction dust, and other potential environmental and/or occupational hazards. The Contractor shall have the capability to provide emergency service on an as-need basis. The Emergency services shall be considered as analysis of samples with 24 hours on a 24-hours basis, weekend, and legal holidays included. The period of performance shall be for an interim period (date of award, September 30, 2017). The government will award a firm-fixed-price contract. RESPONSES TO THIS SOURCES SOUGHT NOTICE MUST BE RECEIVED BY JUNE 14, 2017.

NAICS: 562910. THIS ACQUISITION IS A TOTAL SMALL BUSINESS SET-ASIDE. The work is to survey existing Multi Purpose building and Steelhead (shop) building soils, construction materials, finishes, and equipment to identify asbestos and lead prior to maintenance and repairs. The contractor shall provide all labor, tools, equipment, materials, and supervision to perform comprehensive asbestos and lead-based paint (LBP) survey at USCG Station PORT ARANSAS, Texas. The work includes review and update of an existing Asbestos and LBP report completed in Year 2000 and furnishing all labor, tools, equipment and materials for interior and exterior building surveys at the U.S. Coast Guard Station PORT Aransas. The Contractor must be licensed consultant registered in the State of Texas and Certified Asbestos Inspector or Assessor and OSHA-EPA Certified Lead Based paint Inspector or Assessor. Quality Assurance and Chain of Custody protocols must be followed. Documentation shall be fully supported in the final report. Asbestos shall be analyzed /identified by polarized light microscopy (PLM). The final documentation shall capture the existing report completed in year 2000 in one document. For the LBP survey, XRF testing may be used as a screening level test for the presence of lead in painted surfaces. When the XRF readings produce negative results, additional laboratory testing of paint chips will be necessary to determine the presence of low levels of lead in the paint. Prepare and submit three written reports and one disk with electronic media in pdf format: two written reports with electronic media to USCG Contracting Officer in Miami, Florida, and one written report to the engineer in Mississippi. RESPONSES MUST BE RECEIVED NO LATER THAN 11:59 PM ET ON JUNE 21, 2017.

NAICS: 562910. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued. THIS ACQUISITION IS BEING SOLICITED AS A TOTAL SMALL BUSINESS SET-ASIDE,

NAICS code 562910 (Environmental Remediation Services), with a small business size standard of 750 employees. Only one award will be made as a result of this combined synopsis/solicitation. The 105th Airlift Wing is seeking a complete turn-key solution for an industrial wastewater filtration system to meet all requirements outlined in the Statement of Work. The contractor would be responsible for providing a short-term rental filtration system for a period of 60 days that is capable of removing all PFOA/PFOS from the industrial waste lagoons to a non-detectable level. The filtered water would then be tested and, based on satisfactory results, an option to purchase the filtration system would be considered. The 105th Airlift Wing will consider a carbon adsorption vessel type filtration system or a similar system that uses alternative methods capable of achieving PFOA/PFOS remediation to a non-detectable level. The contract will be awarded based on the lowest price that meets or exceeds the requirements outlined in the Statement of Work. All offerors shall include product literature with their quote that demonstrates the product's capabilities to ensure an effective evaluation can be made. QUOTES ARE DUE NO LATER THAN 2:00 PM ET ON JUNE 22, 2017.

NAICS: 562910. This Sources Sought Synopsis is a market survey being conducted by the St. Louis District, Corps of Engineers to identify small business contractors with experience with various aspects of environmental services. Responses should include a brief capability statement of no more than three pages indicating the experience and capability of a variety of environmental tasks to include, but not limited to analysis of data derived from environmental studies; hazardous, toxic, and radioactive waste (HTRW) assessments and remediation; industrial hygiene and health physics studies; environmental assessments; confined space entry; emergency response; R&D report writing; special study projects; remote instrumentation; and other related environmental work. The environmental remediation construction efforts will include but not be limited to remedial design, remedial action, and remedial excavations of contaminated material at predetermined depths; HTRW manifesting; utility relocation; water management; engineering support; and construction support. The anticipated work would be within the geographic boundaries of the Mississippi Valley Division, and EPA Regions 5 and 7; however, projects could be located anywhere that the Corps of Engineers performs environmental work. The Government invites interested firms to provide an electronic copy of their capability and experience. RESPONSES MUST BE RECEIVED NO LATER THAN 4:00 PM CT ON JULY 5, 2017.

NAICS: 541330. THIS PROPOSED CONTRACT IS BEING SOLICITED AS AN 8(A) CERTIFIED SMALL BUSINESS SET-ASIDE PROCUREMENT, NAICS code 541330, with a Small Business size standard of \$15M. All information needed for interested parties to submit a Standard Form 330, Architect Engineer Qualifications, is contained in the information provided at https://www.neco.navy.mil/biz_ops/840-v5static.aspx?hkey=170491590. There is no separate RFP. This procurement will result in two IDIQ contracts for Architect-Engineer (AE) services for hazardous material and waste management environmental compliance support within the NAVFAC Southeast geographic Area of Responsibility (Alabama, Florida, Georgia, Louisiana, Mississippi, Texas, South Carolina, Tennessee, Guantanamo Bay Cuba, Andros Island Bahamas, and Puerto Rico). The IDIQ contracts will be for a base period of one year and four one-year option periods (if exercised). The total fee for each contract shall not exceed \$10M. Estimated start date is June 2018. The services required may include, but are not limited to, evaluation of waste stream samples and preparation of waste profiles; interpretation of laboratory data; preparation of environmental compliance plans for HW, SW, and P2 programs; hazardous waste database and operation record support; EPCRA Toxic Release Inventory and Tier 2 inventory reporting; RCRA and other compliance training; site surveys; document reviews; preparation of studies providing specific strategies and recommendations; soil, water, sediment, and gaseous sampling, analysis, and monitoring (including all statistical evaluations thereof); soil gas surveys; monitoring well installations/testing; aerial and/or on-site photography; groundwater modeling and geophysical contamination migration; risk assessments and air modeling; designs for environmental closure actions, removal actions, and restorations; Post Construction Award Services (PCAS) for RCRA and CERCLA environmental restoration; and range sustainment. Interested firms shall demonstrate their capability to perform work as required under this contract using Standard Form 330 (SF330). SF330 PACKAGES ARE DUE NO LATER THAN 2:00 PM ET ON JULY 12, 2017.
