

Federal Business Opportunities (FedBizOpps) Update

Notices for October 1-7, 2018

This update contains summaries of procurement notices issued between October 1-7, 2018 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

F--HAZARDOUS WASTE DISPOSAL SERVICES (SRCSGT)

SOL: 36C25919Q0009

DUE: 101218

POC: Francisco Velazquez, Contract Specialist, 303-712-5723, francisco.velazquez-salazar@va.gov.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/VARMCCC/VARMCCC/36C25919Q0009/listing.html>

NAICS: 562211. The Department of Veterans Affairs NCO 19, Rocky Mountain Acquisition Center (RMAC), is seeking information and sources to remove, package, ship, and dispose of hazardous, universal, and non-hazardous chemical and pharmaceutical wastes at the Rocky Mountain Regional VA Medical Center at 1700 N Wheeling Street, Aurora CO 80045. The contractor shall be fully responsible for compliance with all VA, local, state, and federal environmental/occupational safety laws, rules, and regulations. The NAICS code is 562211 (Hazardous Waste Treatment and Disposal), small business size standard \$38.5M. Firms responding should indicate whether they are, or are not, a small business, a socially and economically disadvantaged business, veteran-owned small business/service-disabled veteran-owned small business, or a woman-owned business. The Government reserves the right to consider a small business set-aside based upon responses to this notice. Firms interested in this opportunity and capable of fulfilling the requirement for hazardous waste services are invited to submit a brief capabilities statement. RESPONSES MUST BE RECEIVED NO LATER THAN 4:00 PM MT ON OCTOBER 12, 2018.

B--GEOPROBE TESTING FOR THE CANANDAIGUA VAMC (COMBINE)

SOL: 36C24219Q0011

DUE: 101818

POC: Janine Childs, Contract Specialist, Janine.Childs@va.gov.

WEB: FBO.gov Permalink at

<https://www.fbo.gov/spg/VA/VAWNYHCS528/VAWNYHCS528/36C24219Q0011/listing.html>

NAICS: 541620. THIS PROCUREMENT IS BEING ISSUED AS A SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS SET-ASIDE under NAICS code 541620 (Environmental Consulting Services), size standard \$15M. The Canandaigua VAMC is a campus facility with more than 30 buildings located on over 20 acres. Building 12 is the current boiler plant, with a paved driveway/parking lot next to the above ground fuel tanks. The parking lot was sampled by the NY DEC and geoprobing of the site was requested to properly determine remediation techniques. The contractor shall be responsible for all labor, supervision, and materials required to provide 9 soil borings to the water table (10-20 feet below ground surface) with a Geoprobe. Samples shall be screened in the field with a PID. Samples with elevated readings (greater than 10 ppm) will be collected for possible lab analysis. If samples do not indicate contamination, 5 samples shall be collected and analyzed to document the clean status of the site. Samples per above shall be sent to an independent testing laboratory to be analyzed, under NY DEC CP-51: Soil Cleanup Guidance 8260/8270. Upon receipt of the analytical results, a report will be generated detailing all findings. The period of performance for this contract shall be completed within 30 days from the Notice to Proceed. A site visit is scheduled for Wednesday, October 10, 2018, at 1:00 PM. Please express intent to attend the site visit by Monday, October 8, 2018, by 4:00 PM ET to Janine.Childs@va.gov. QUOTES MUST BE RECEIVED NO LATER THAN 12:00 NOON ET ON THURSDAY, OCTOBER 18, 2018.

MULTIPLE AWARD INDEFINITE REQUIREMENTS CONTRACT (COMBINE)**SOL:** 140G0218Q0259**DUE:** 101918**POC:** Jason Harris, jharris@usgs.gov.**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOI/USGS/USGS/140G0218Q0259/listing.html>

NAICS: 541380. THIS ACQUISITION IS ISSUED FOR FULL AND OPEN COMPETITION under NAICS code 541380. This announcement constitutes a combined synopsis/solicitation for a multiple-award indefinite-quantity contract, "High purity analytical custom standard solutions for the calibration of instruments used in the analysis of various organic contaminants in the environment," in accordance with the specifications and scope of work available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=140G0218Q0259&agency=DOI> [Note: It might be necessary to copy and paste the URL into your browser for direct access]. The U.S. Geological Survey, National Water Quality Laboratory (NWQL), Organics group requires high purity analytical standards for the calibration of instruments used in the analysis of various organic contaminants in the environment. The custom standard solutions provided under this contract will be organized by Laboratory Schedule (LS). The NWQL will submit the list of needs in first month of the fiscal year (October). The list will specify components, concentration range, concentration tolerances, solvents, and the grade of any solvent used. Each solution will be ordered a minimum of twice per year. The solutions are required at the NWQL by February 15 and August 15. The period of performance consists of a base year and four one-year options. The Government intends to award a firm-fixed-price multiple-award indefinite-quantity contract resulting from this solicitation. QUOTES MUST BE RECEIVED VIA EMAIL TO THE POC NO LATER THAN 2:00 PM MT ON OCTOBER 19, 2018.

NAICS: 541620. The Washington Headquarters Services (WHS) Acquisition Directorate (AD) of the Department of Defense is performing market research to determine the availability, interest and capability of potential vendors under NAICS Code 541620 to provide Environmental Services for the WHS Facilities Services Directorate (FSD), Standards and Compliance Division. The WHS/AD anticipates establishing a contract to provide environmental support services at the Pentagon, Mark Center, and RRMC. The magnitude of services falls between \$1M and \$3M per year. To qualify for submitting capability statement in response to this Sources Sought Notice, all vendors must: (1) Be registered in SAM; (2) Possess Secret Clearance at the time of proposal submission to be maintained for the duration of contract performance; and (3) provide information on staff licenses and certifications such as Professional Engineering licenses (state and discipline), Certified Energy Manager (CEM), Leadership in Energy and Environmental Design Accredited Professional (LEED AP), and specialized training in the Incident Command System (ICS). The main activities under the environment support services include Environmental Compliance; Incident Response and Recovery Planning; Natural Resources Study/Management; Sustainability; Energy Management; and Outreach and Event Planning. SUBMIT CAPABILITIES STATEMENTS TO BOTH POCS VIA EMAIL NO LATER THAN 12:00 NOON ET ON WEDNESDAY, OCTOBER 31, 2018.

Alvarez, Contract Administrator, lorraine.alvarez@lm.doe.gov, 304-413-0355, Fax: 304-413-0544.**WEB:** FBO.gov Permalink at <https://www.fbo.gov/spg/DOE/SNJV/NNSANV/LMCP6707A/listing.html>

NAICS: 562910. Navarro Research & Engineering, the Prime Contractor to DOE's Office of Legacy Management, invites firms to submit a proposal for the Asbestos Abatement at the Piqua Decommissioned Reactor Site in Ohio. For asbestos abatement activities, the Abatement Subcontractor shall meet the Ohio Environmental Protection Agency (Ohio EPA) requirements as per OAC 3745-22, Asbestos Hazard Abatement Contractors, Specialists, & Other

Professionals. The site is currently leased to the city of Piqua and consists of two facility structures, a decommissioned Reactor Building and an Administrative Building. The 4380 square foot (sf) (square footage at main level) decommissioned Reactor Building has an above-ground containment dome that extends 68 feet high and a 44-foot below-ground portion that contains an entombed thermal reactor that was decommissioned and buried in place in 1969. There are several levels below the main level with varying square footages. The reactor is entirely below ground and entombed with 8-foot-thick concrete. There are no radiological exposures at the site, and routine surveillance is performed to ensure that the concrete and steel entombment structure continues to be protective of human health and the environment. Since the entombed material has been surrounded by concrete, it poses no risk to any personnel working or visiting the site. The decommissioned Reactor Building is currently used for the storage and maintenance of equipment. The Administrative Building consists of three stories above grade and a full basement and the floor space ranges from 5332 sf at the basement level to 355 sf at the third level for a total of 11,718 sf including stairways. Currently, about 10 people work in the Administrative Building and Reactor Building, and the city Police Department uses portions of the Administrative Building for storage. This staff and all of their equipment and materials will be removed from the site prior to abatement commencing. A MANDATORY bid tour will be held on October 16, 2018, beginning at 9:00 AM at the building located at 123 Bridge Street, Piqua, OH 45356. PROPOSALS MUST BE RECEIVED NO LATER THAN 4:30 PM ET ON NOVEMBER 7, 2018. Award is anticipated by November 30, 2018, with a Notice to Proceed anticipated on December 14, 2018. Period of performance is upon Notice to Proceed with completion on or prior to January 29, 2020.

NAICS: 541620. THIS PROCUREMENT IS UNRESTRICTED under NAICS code 541620, size standard \$15M. The U.S. Army Corps of Engineers, Philadelphia District, intends to initiate a negotiated, best-value Indefinite Delivery Contract (IDC) for Environmental and Biological Services Related to Marine and Navigable Waterways at Civil Works Activities in the Philadelphia District. The period of performance will be for one year from the date of contract award plus four one-year options in accordance with the terms and conditions of RFP Number W912BU-18-R-0044. Services and investigations covered under this contract may be conducted on various types of sites including but not limited to stream and river floodplains, disposal areas, beach areas, open water (Ocean) borrow sources, and wetlands within the Philadelphia District. The Contractor may be required under a Task Order to conduct, or participate in conducting Environmental Assessments and/or Environmental Impact Statements, Section 404 permit evaluations, Clean Air Act assessments, biological assessments of fish and wildlife, Essential Fish Habitat Evaluations, SAV (submerged aquatic vegetation) surveys, benthic video surveys, environmental restoration planning and design, cost effectiveness and incremental cost analyses, public presentations, cultural resource assessments, and benthic surveys. Cultural studies may be required. The Contractor may be required under a Task Order to conduct a cultural study; chemical sampling and analysis for environmental and/or hazardous and toxic waste purposes related to water and sediment quality; preliminary site assessments relevant to a particular project area; investigations dealing with mitigation requirements or ecosystem restoration projects; and report preparation. Some of the labor categories that may be required in this solicitation are Archaeologist, Biologist/Ecologist, Environmental Scientist, Field Technician, Fisheries Specialist, GIS Specialist, Senior Underwater Archaeologist, Laboratory Technician, Historian, Oceanographer, Water Resource Scientist, UXO Technician III, Principal Investigator (Cultural), and other technical and clerical labor categories. PROPOSALS MUST BE RECEIVED NO LATER THAN NOVEMBER 16, 2018, EITHER by 12:00 NOON ET OR by close of business ET [both times are specified in the FedBizOpps notice].
