SAN PEDRO BFCUST THERMAL REMEDIATION (MOD)

SOL: SPE603-18-R-5X09

DUE: 120518

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DLA/J3/DESC/SPE603-18-R-5X09/listing.html>

NAICS: 562910. This Request for Information (RFI) is issued to solicit feedback from industry to address the future remediation requirement for bulk field-constructed underground storage tanks (BFCUSTs) 1, 4, 5, 7, 11, 12, and 15 at DFSP San Pedro. Specifically, the Government would like industry feedback on a proposed Draft Performance Work Statement (PWS, attached to the FedBizOpps notice) related to performing a quality, cost-effective solution. Interested parties are encouraged to submit responses to the 3 questions posed in the RFI, a capabilities statement, point(s) of contact, and any comments or questions regarding this requirement. An Industry Day teleconference is scheduled for December 11, 2018, and respondents are invited to provide any topics they would like to discuss during the teleconference BEFORE December 5, 2018. Each BFCUST, surrounding treatment area, and contaminated plume zone is defined as a Site. In situ thermal remediation (ISTR) was selected for the seven BFCUSTs as follows: (1) electro-thermally enhanced multi-phase extraction (ET-MPE) for BFCUSTs 1, 5, 7, 11, and 12; and (2) steam-enhanced thermal extraction (SETE) at BFCUSTs 4 and 15. The Draft PWS describes only the currently contemplated possible scope of services and may vary from the work scope in the final PWS. RESPONSES TO THIS RFI MUST BE RECEIVED NO LATER THAN 1:00 PM ET ON DECEMBER 5, 2018.

FT. BELVOIR SATOC (SRCSGT)

SOL: PANNAD-19-P-0813

DUE: 120718

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA31/PANNAD-19-P-0813/listing.html>

NAICS: 541620. The USACE Baltimore District is issuing this sources sought synopsis as a means of conducting market

research to identify parties having an interest in and the resources to support the requirement for the Fort Belvoir Environmental Task Order Contract. The intention is to procure these services on a competitive basis. Based on the responses to this sources sought/market research notice, this requirement may be set-aside for small businesses (in full or in part) or procured through full and open competition. All small business set-aside categories will be considered. The applicable NAICS code for this requirement is 541620 (Environmental Consulting Services), small business size standard \$15M. At this time the Baltimore District requests capability statements only from any small business, certified 8(a), certified HUBZone, economically disadvantaged woman-owned small business, and service-disabled veteran-owned business. The Government contemplates awarding one \$45M single-award task-order contract (SATOC) for a period of performance of one base year and four one-year options. The contract type is anticipated to be firm fixed price. Ft. Belvoir has identified a requirement for an Environmental Services Task Order Contract to support the mission of its Environmental and Natural Resources Division (ENRD), and has requested that the Baltimore District procure a contract for ENRD use only. The requirements encompass many types of environmental services in the general areas of environmental restoration, environmental compliance and natural resource conservation, and NEPA actions at Ft. Belvoir. The Contractor shall be able to provide a full range of environmental compliance, environmental restoration, environmental conservation activities, and pollution prevention services. Interested parties are requested to submit a brief capabilities statement (10 pages max) in one .pdf file. CAPABILITIES STATEMENTS MUST BE RECEIVED NO LATER THAN 2 PM ET ON DECEMBER 7, 2018.

R--AIR MONITOR DEAD LEGS REMOVAL (COMBINE)

SOL: 36C24219Q0110

DUE: 121918

WEB: FBO.gov Permalink at

<https://www.fbo.gov/spg/VA/VAWNYHCS528/VAWNYHCS528/36C24219Q0110/listing.html>

NAICS: 541620. THIS REQUIREMENT IS SET-ASIDE FOR SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB) CONCERNS. The successful offeror will be required to provide testing facilities, materials, equipment, transportation, and qualified competent personnel (Project Monitors, industrial hygienist technicians, and laboratory personnel) to perform quality assurance air monitoring and testing for asbestos-containing materials (ACM) during asbestos abatement activities for the following locations. (1) Building 5: Located in the basement/crawl space at the Batavia Veterans Hospital in Batavia, New York. This will be a complete traditional abatement for the pipes, plus removal of approximately 6 inches of soil in the crawl space. The basement/crawl space is approximately 6,700 square feet and it is anticipated that the abatement and soil removal from Building 5 will take 2 months during normal business hours. The 2nd and 3rd Floor abatement work shall be traditional glove bag abatement and shall be conducted during normal business hours, Monday through Friday. The abatement contractor will isolate this building into four quadrants and work in one quadrant at a time. The remaining three quadrants will be occupied by Veterans and Patients 24 hours per day. (2) Building 1 ground floor through the 4th floor will be a glove bag abatement where the contractor will have approximately 3,000 linear feet of asbestos piping insulation to be removed at 250 separate points. Phases 1 and 2 shall be conducted over weekends only (set up on Friday and work through Sunday). It is anticipated that the contractor will have 4 crews for this work. Phase 3 will be conducted during normal business hours, Monday through Friday. Phase 4 shall be conducted over long weekends similar to Phase 1 and 2. Phase 5 shall be conducted during normal business hours, Monday through Friday. Phase 1 for the 3rd floor to be conducted during normal business hours, Monday through Friday. Phases 1, 2, and 3 for the 2nd Floor shall be conducted during normal business hours Monday through Friday. Phases 1, 2, and 3 for the 3rd Floor shall be conducted during normal business hours, Monday through Friday. Project monitoring services will be conducted at both building 1 and building 5 on 222 Richmond Avenue, Batavia, NY 14020 during asbestos abatement activities. All services shall be performed in accordance with the latest Code Rule 56 standards for asbestos abatement monitoring and testing. Project monitor shall possess current certification by the state of New York and/or EPA which complies with the requirements for project monitoring and includes asbestos sampling. Proof of current certification shall be presented prior to contract award and performance of IH services. Testing Laboratories shall have and maintain a current accreditation with the American Industrial Hygiene Association (AIHA) and/or New York State Department of Health Environmental Laboratory Approval Program (NYS DOH ELAP). Proof of certification must be submitted to the VA contracting officer prior to contract performance. The total projected duration for these monitoring services is 270 days from the Notice to Proceed. OFFERS MUST BE RECEIVED NO LATER THAN DECEMBER 19, 2018.
