**NAICS:** 541620. This sources-sought synopsis is a market research tool that will enable the Maritime Administration (MARAD) to gain knowledge of qualified small businesses and large businesses classified under NAICS code 541620 (SB size standard \$15M) that have carried out Environmental Assessment (EA) for the purpose of Nuclear Regulatory Commission (NRC)-regulated nuclear decommissioning. The information that will be gathered from responses to this sources sought synopsis will be relevant to MARAD's intent to prepare a revised/updated EA that identifies and assesses the potential environmental impacts associated with the decommissioning of MARAD's nuclear vessel, Nuclear Ship Savannah (NSS), located in Baltimore, MD. Responses to this sources sought will be used by MARAD to decide whether or not to set the solicitation for the EA aside for small business concerns and to know the number of interested and capable potential offerors. MARAD intends to award the potential EA contract in FY 2018. CAPABILITIES STATEMENTS (7 pages max) MUST BE RECEIVED BY OR BEFORE 5:00 PM ET ON TUESDAY, FEBRUARY 13, 2018.

**NAICS:** 562112. THIS PROCUREMENT IS COMPETED AS FULL AND OPEN under NAICS code 562112 (Hazardous Waste Collection). This announcement constitutes the only solicitation; quotes are being requested and a written solicitation will not be issued. The current requirement is to provide HAZMAT Cleaning/ Disposal services in accordance with the Performance Work Statement (PWS) with a 5-year term blanket purchase agreement (BPA). The requirement represents the consolidated needs of various units located at Kingsley Field Air National Guard Base (ANGB) Klamath Falls, Oregon. The requirement will be advertised as a multiple-award BPA with the objective of awarding agreements to two or more contractors. The selection resulting from this solicitation will be made on the basis of the lowest priced technically acceptable from at least two responsible quoters with acceptable or neutral past performance. The vendor shall ensure that its agents, employees, and subcontractors involved in handling and packaging the hazardous waste be trained for the level of expertise required for the proper performance of the task and, in particular, in the areas of chemical incompatibility, general first aid procedures, and spills. Handling and Personnel Protective Equipment (PPE) shall be provided by the vendor and must be appropriate to ensure safe handling of the hazardous waste. When operating within an EPA- or state-permitted DoD hazardous waste storage facility, the vendor is required to use equipment with specifications that meet the applicable permit requirements. The vendor agrees that personnel and equipment are subject to safety inspections by government personnel while on federal property. RESPONSES TO THIS RFQ MUST BE RECEIVED VIA EMAIL NO LATER THAN 12:00 PM PT ON TUESDAY, MARCH 6, 2018.

**NAICS:** 541620. This sources sought synopsis for written information constitutes market research to inform a potential future acquisition. IT IS INTENDED THAT THIS ACTION WILL BE SET ASIDE FOR SMALL BUSINESSES ONLY, NAICS code 541620 (Environmental Consulting Services), size standard \$15M. U.S. EPA's Office of Water requires technical and administrative contractor support to span across OW's Immediate Office; Office of Groundwater and Drinking Water; Office of Science and Technology; Office of Wetlands, Oceans, and Watersheds; and Office of Wastewater Management. This contract may also support the efforts of other EPA offices when activities intersect with OW Programs. Areas of technical support may include (but are not limited to) cross-cutting activities, administrative record, data collection and analysis, writing and editing, peer review, water quality models and decision support tools, and

expanded authority under the National Water Program. Areas of program management and operations support may include (but are not limited to) facilitation, mediation, strategic planning, LEAN assessment and coordination, outreach, communications, translation services, event planning and logistics, and information management. Technical areas within the PWS will require quality assurance and/or quality control to fulfill EPA systematic planning for environmental information requirements, including the Data Quality Act, quality system requirements, customized quality management plan, quality assurance project plans, and reporting quality assurance progress. It is anticipated that a multiple-award, IDIQ contract with a five-year ordering period will result from the solicitation. The total number of awards anticipated under this solicitation has not yet been determined. Submissions (a Capabilities Matrix and a Capability Statement) in response to this sources sought synopsis MUST BE SUBMITTED THROUGH FEDCONNECT at <https://www.fedconnect.net/FedConnect/?doc=68HE0C18R0026&agency=EPA> [Note: It might be necessary to copy and paste the URL into your browser for direct access]. **NAICS:** 237110. THIS REQUIREMENT WILL BE A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 237110. The U.S. Geological Survey plans to issue a Request for Quotation (RFQ #140G0318Q0034) for a project involving the drilling and installation of a groundwater monitoring well in the relatively remote area of Pigeon Canyon in Northern Arizona. The Arizona Water Science Center in Tucson is in need of a contractor experienced with the installation of groundwater monitoring wells in consolidated deposits in Northern Arizona. A single perched groundwater monitoring well is needed as part of a groundwater water-quality study that will monitor possible contributions from the former Pigeon uranium mine to elevated uranium concentrations at Pigeon Spring. The monitoring well will 1) monitor water levels in the well to obtain local information on the direction of perched groundwater flow, and 2) monitor water quality in the well to compare with water chemistry at Pigeon Spring. The depth of the well is expected to be about 550 feet. The estimated magnitude of construction project is between \$25,000 and \$100,000. THE GOVERNMENT ANTICIPATES RELEASING THE RFQ ON OR ABOUT FEBRUARY 23, 2018, with a proposal due date of March 20, 2018. The anticipated date for contract performance is flexible, to be coordinated and mutually agreed after contract award, so long as the project is completed by September 30, 2018.
