NAICS: 541620. This Sources Sought Synopsis is issued by the U.S. Bureau of Reclamation in support of its National Wildlife Refuge complex in Klamath Basin, Siskiyou County, CA, as a means of conducting market research to identify parties interested in providing assessments for pesticides proposed for use on lease lands and their associated use patterns for agricultural crops within the lease lands, consistent with management objective. The process will involve applying toxicological and environmental fate analyses to determine potential effects of the proposed pesticide use on wildlife resources. Specific requests for proposed pesticides to be included in the lease land approved pesticide list are made by agricultural users who lease the subject lands and representatives of government and private businesses that provide technical assistance to the lease land agricultural community. The contractor will develop chemical profiles and associated products for each active ingredient requested each year, following the specific instructions from the bureau and the process outlined within the Programmatic Biological Evaluation. The results of this market research will contribute to determining the method of procurement. STATEMENTS OF INTEREST AND CAPABILITY MUST BE RECEIVED NO LATER THAN 3:00 PM ET ON JUNE 8, 2018. The NAICS code is 541620, small business size standard \$15M. Monitor FedConnect for additional information and updates at <https://www.fedconnect.net/FedConnect/?doc=140R2018Q0066&agency=DOI> [Note: It might be necessary to copy and paste the URL into your browser for direct access].

NAICS: 562910. This sources sought notice supports a market survey being conducted by the St. Louis District, Corps of Engineers to identify interested contractors within the District area for the Scope of Work described in the FedBizOpps notice. The announcement consists of two separate Statements of Work (SOWs). In the first SOW, the Contractor shall perform a broad range of construction management, quality assurance activities, and related services to satisfy fluctuating needs and conditions. Construction management services for this contract will be performed primarily within the limits of the U.S. Army Engineer District, St. Louis. In the second SOW, the QA Contractor will provide QA support, oversight of radiological, environmental, and construction services to the MVS FUSRAP Project Offices in St. Louis and the IAAAP in Middletown, IA. This project requires contractors with specialized training and experience in FUSRAP remediation oversight. The contractor should have knowledge and experience in radiological environmental laws, regulations, and technical competence. The QA at FUSRAP requires 100% inspection in order to manage cost reimbursement contracts. The radiological, environmental, and construction services support includes providing three Civil Engineering Technicians and one Clerical (Word Processor) personnel to perform oversight of FUSRAP projects in the St. Louis area and Iowa. The QA Contractor shall be a company located within a 100-mile radius of the St. Louis FUSRAP projects in order to provide management reach-back for the on-site employees. The contract period is one base year and four option years. Contract Estimated Range: Over \$10M. Any solicitation for the work described in this sources sought is subject to the availability of funds. Should funding become available, the Government will use responses to this notice as market research to develop an acquisition strategy. Any solicitation for this type of work will be made public on FedBizOpps. STATEMENTS OF INTEREST AND CAPABILITY MUST BE RECEIVED BY THE POC VIA EMAIL NO LATER THAN 12:00 PM CT ON JUNE 11, 2018. [NOTE: The text of the FedBizOpps notice says June 11 is the response date, whereas the General Information sidebar says June 15 is the response date.]

WEST DESERT TEST CENTER MISSION SUPPORT SERVICES (SRCSGT)

SOL: W91151-18-R-0007

DU: 061318

POC: Denitra I. Foy, denitra.i.foy.civ@mail.mil, 254-287-5815.

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/10c515f11aff5f7215d452a4123769bc>

NAICS: 541380. The Mission Installation Contracting Command located at Fort Hood, Texas, is issuing this sources sought synopsis as a means of conducting market research to identify parties having an interest in and the resources to support the requirement for West Desert Test Center Mission Support Services at the U.S. Army Dugway Proving Grounds (DPG), Utah. Based on the responses to this sources sought notice/market research, this requirement may be set aside for small businesses (in full or in part) or procured through full and open competition. All small business set-aside categories will be considered. The applicable NAICS code for this requirement is 541380 (Testing Laboratories), small business size standard \$15M. The West Desert Test Center (WDTC) plans, conducts, evaluates, and reports on developmental, operational tests and support Tactics, Techniques, and Procedures (TTP) development; training to assess the military value of Chemical and Biological (CB) defense systems; incendiary smoke/obscuration munitions systems; and related operational concepts. WDTC plans, conducts, evaluates, reports, and supports CB and non-CB testing efforts for DoD, other federal agencies, private industries and foreign governments (e.g., environmental assessment/impact evaluations, weapons and munitions, demilitarization, chemical energetics/homemade explosive testing, unmanned systems testing, direct and indirect fire weapons testing, hazard assessments, and technical/logistical support of operations at DPG). WDTC programs include CB detection, decontamination, and protection devices, evaluation of munitions, testing to determine chemical, biological, radiological, and nuclear contamination and decontamination survivability of various DoD materiel and equipment along with a wide range of developmental testing and applied research related to TTP. Test procedures involve energetic and non-energetic indirect fire systems, physical and environmental stress testing, human factors engineering, methodology development and implementation, accelerated climatic storage, contamination/decontamination evaluations, and performance and reliability testing of items in the field or within enclosed chambers. WDTC supports the (1) Operations Division, (2) Chemical Test Division, (3) Special Programs Division, (4) Data Management Division, (5) Test Support Division, (6) Meteorology Division, and (7) Bio Testing Division/Edgewood Chemical Biological Center. The Contractor shall provide services necessary to support and perform field, chamber, and laboratory test services in support of the areas specified. Further detail is provided in the draft Performance-based Work Statement (PWS) attached to the FedBizOpps announcement (Attachment 1). The anticipated period of performance consists of a 12-month base period plus nine 12-month option periods, with a Phase-In Period commencing January 24, 2019, followed by performance commencing March 24, 2019. Specifics regarding the number

of option periods will be provided in the solicitation. The anticipated contract type is Cost Plus Fixed Fee. Interested parties are requested to submit a capabilities statement (10 pages max). RESPONSES MUST BE RECEIVED NO LATER THAN 4:00 PM CT ON JUNE 13, 2018.

NAICS: 541380. THIS ACQUISITION IS SET ASIDE 100% FOR SMALL BUSINESS CONCERNS. The Government intends to award one firm-fixed-price small business set-aside contract for surface water and sediment sampling services in support of remedial investigation at the DSC McLouth Steel Gibraltar Plant Site, Gibraltar, Michigan, to determine the nature and extent of contaminants within site surface water and sediment. The data collected will help determine potential on-site human health and ecological risk associated with exposure to site surface water and sediment. Offerors must be registered in the SAM Database (www.sam.gov) to be eligible for contract award. The job is expected to be completed 90 days after Notice to Proceed. The award will be made to the lowest priced offer in accordance with FAR Part 12. The selected contractor must comply with all security requirements. Please ensure the requirements of FAR 52.212-3, Offeror Representation and Certifications-Commercial Items, are completed and submitted with proposal. PROPOSALS MUST BE RECEIVED NO LATER THAN 3:00 PM ET ON JUNE 15, 2018.

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/CMD/68HE0D18R0010/listing.html>

NAICS: 541715. The U.S. Environmental Protection Agency contemplates awarding approximately 17 firm-fixed-price contracts of \$100,000 each under Phase I of its Small Business Innovation Research (SBIR) Program during Fiscal Year 2018. During Phase I, contractors shall conduct feasibility-related experimental research or R&D efforts on the following agency topics: 1A: New/innovative wastewater treatment processes that reduce antibiotic resistance bacteria in wastewater; 1B: Rapid detection of PFAS in water; 1C: Pretreatment of PFAS in industrial wastewater; 1D: Sampling devices for concentrating and quantifying microplastics in water; 1E: Rehabilitation of water infrastructure; 2A: Improved measurement tools used to estimate ground level air pollution levels in vicinity of wildland fires; 2B: Vapor Intrusion Sampling; 3A: Innovative technologies that can sample, detect, analyze, remove or destroy PFAS in and from soil, sediment, water and groundwater; 4A: Water distribution and stormwater system sensors; 5A: Technologies for the reduction of chemicals in food processing; 6A: Technologies to identify harmful materials in C&D materials; 6B: Novel technologies to aid building deconstruction; 6C: Recyclable composite building materials; and 7A: Novel, safer paint and coating removal products. The Phase I awards are expected to be made by April 1, 2019. The period of performance for each Phase I contract will be six months. Upon successful completion of an EPA SBIR Phase I contract, the Phase I contractors will receive the Phase II solicitation and may submit proposals for competitive evaluation. Funding for Phase II shall be based upon the results of Phase I, the quality and soundness of the Phase II workplan, and the commercial potential of Phase II technology. RELEASE OF THE SBIR PHASE I SOLICITATION IS ANTICIPATED ON OR AROUND JUNE 13, 2018, with a likely due date of July 31, 2018. FedConnect will be the source of the solicitation, amendments, and all pertinent documents at
