

Federal Contract Opportunities Update

Notices for December 2-8, 2019

This update contains summaries of procurement notices issued between December 2-8, 2019 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

H--RADIOLOGICAL TESTING SERVICES (SRCSGT)

SOL: 140G0220Q0013

DUE: Dec 10, 2019

NAICS: 541380. The U.S. Geological Survey is conducting a MARKET SURVEY to determine the interest and capability of any firm eligible to compete under NAICS code 541380, small business size standard \$16.5M, for an upcoming requirement for the National Water Quality Lab, in Denver, CO, to provide radiochemical analysis of water, sediment, and other materials. Analyses are to include but not be limited to gross alpha/ gross beta (72-hr and 30-day recount) for Ra-226; Ra-228; Ra-224; isotopic uranium, plutonium, and thorium; Po-210; Am-241; and Pb-210 dating of core samples. See the notice for details of additional technical requirements. Interested firms are invited to submit a brief capabilities statement. This information will assist the Government in determining how small businesses can fit into the acquisition strategy. RESPONSES ARE DUE BY 05:00 PM ET ON DECEMBER 10, 2019.

Monitor FedConnect for updates at

<https://www.fedconnect.net/FedConnect/?doc=140G0220Q0013&agency=DOI>. A detailed Performance-Based Work Statement (PWS) and Quality Assurance Surveillance Plan (QASP) will be provided should a future solicitation be issued for this requirement.

S--HAZARDOUS WASTE CLEANUP SERVICES - 442 (SRCSGT)

SOL: 36C25920Q0091

DUE: Dec 11, 2019

NAICS: 562211. The Department of Veterans Affairs Network Contracting Office (NCO 19), Rocky Mountain Acquisition Center is seeking information and sources to provide disposal of hazardous and universal waste at the Cheyenne VA Medical Center (WY), VA Clinic Loveland (CO), and VA Fort Collins Clinic (CO). The NAICS code is 562211 (Hazardous Waste Treatment and Disposal), small business size standard \$38.5M. Firms responding should indicate whether they are, or are not, a small business, a socially and economically disadvantaged business, veteran-owned small business/service-disabled veteran-owned small business, or a woman-owned business. Government evaluation of the capability statements received will factor into whether any forthcoming solicitation will be conducted as a full and open competition or as a set-aside for any small business designation. Organizations that can provide these services and are interested in this opportunity are invited to respond with a brief statement of capability. CAPABILITIES STATEMENTS ARE DUE NO LATER THAN 4:00 PM MT ON DECEMBER 11, 2019.

FOVA - DU-NE-1 SOIL REMEDIATION (SOL-MOD)

SOL: 140P8319R0013

DUE: Dec 13, 2019

NAICS: 562910. NOTE: SET-ASIDE STATUS IS UNCLEAR. The notice states that "All eligible

responsible sources may submit a proposal which shall be considered by the National Park Service" AND that "This requirement is a best-value negotiated procurement set aside for small business concerns," The NAICS code is 562910 (Remediation Services), size standard 750 employees. Details of this procurement are available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=140P8319R0013&agency=DOI> . Amendment 0001 adds the site visit notes, questions and answers, and changes in SOW, Terms and Conditions, and CLIN. This requirement is for targeted removal of lead-contaminated soil to restore the site to safe levels for visitors and employees as directed at the Decision Unit Northeast-1 (DU-NE-1) Site at the Ft. Vancouver Historic Site, in Vancouver Washington. In addition, the contractor will dispose of 11 steel drums (55 gallon type) previously stockpiled with potentially lead-contaminated soil. See the Statement of Work for additional details. All work will be performed under a single firm-fixed-priced construction contract of a magnitude estimated between \$250,000 and \$500,000. OFFERS ARE DUE NO LATER THAN 5:00 PM PT ON DECEMBER 13, 2019.

HAZARDOUS WASTE DISPOSAL SERVICES - SAN DIEGO (COMBINE)

SOL: SP450020R0003

DUE: Jan 06, 2020

NAICS: 562211. THIS ACQUISITION IS ISSUED AS A FULL AND OPEN COMPETITION ON AN UNRESTRICTED BASIS under NAICS code 562211, small business size standard \$41.5M. Work under the San Diego HW Disposal Contract will consist of the removal, transportation, and disposal of RCRA hazardous wastes, non-RCRA wastes, state-regulated wastes, non-state regulated wastes, universal wastes, compressed gases, and PCBs located on or around military installations or within a 50-mile radius of any pick-up point listed on the contract in the State of California. The solicitation lists 25 pick-up points, including NAVFAC facilities operated by Naval Facilities Engineering Command on NAS North Island, Naval Station San Diego, Point Loma Naval Complex, MCAS Miramar, Naval Amphibious Base and Marine Corps Recruit Depot; DLA Disposition Services-operated facilities at NOLF Imperial Beach and 32nd Street Recycling Center; and NAF El Centro, B504. This contract is to be a firm-fixed-price IDIQ contract written as a performance-based contract having a 30-month base period (March 2020 to September 2022) and a 30-month option period. Some CLINs ordered under this contract require the Contractor to provide Certificates of Destruction or Disposal, e.g., certain demilitarization items and PCB-related wastes. The Contractor is cautioned to closely read all CLIN descriptions where such requirements are indicated. PROPOSALS ARE DUE BY 3:00 PM ET ON JANUARY 6, 2020.

FENCE-TO FENCE ENVIRONMENTAL COMPLIANCE CONTRACT, VARIOUS LOCATIONS IN ALASKA AND THE PACIFIC DIVISION AOR (SRCSGT MOD)

SOL: W911KB-20-R-0005

DUE: Jan 06, 2020

NAICS: 562910. DoD via the U.S. Army Corps of Engineers has reissued the request for information (sources sought) originally published July 11, 2019, for contractor services to provide environmental compliance support activities necessary to support U.S. Air Force and Air Force Civil Engineer Center environmental mission requirements. Draft documents as background are attached to the Contract Opportunities notice to enable business concerns to respond. Examples of specific services include tasks such as operating, maintaining, and optimizing pollution control; characterizing waste streams; performing environmental monitoring, sampling, and analysis; operating a hazardous waste accumulation site; inspections; and updating existing environmental plans. The majority of work will be performed at Air Force installations/facilities in Alaska; some work may be required at other locations in the USACE POD area of responsibility (Hawaii and Wake Island). THE NEW RESPONSE DATE FOR THIS MODIFIED SOURCES SOUGHT IS 2:00 PM ALASKA TIME ON JANUARY 6, 2020.

TECHNICAL EVALUATION AND MARKET ASSESSMENT SUPPORT (SOL)

SOL: 68HERC19R0023

DUE: Jan 09, 2020

NAICS: 541611. FULL AND OPEN COMPETITION, NAICS code 541611, size standard \$16.5M. Through task orders issued under the performance work statement for technical evaluation and market assessment support, contractors (up to 3 contract awards) shall provide support services for EPA's Water Efficiency Program and other water efficiency and resiliency efforts, including (1) WaterSense Technical Support, (2) WaterSense Program Support and Implementation, (3) WaterSense Marketing, Communications, and Promotional Support, and (4) Support for Water Management, Sustainability, and Resiliency Efforts. This is to be an IDIQ contract with a period of performance from the effective award date through five years for the ordering period, with an additional one year for completion of task orders issued during the ordering period. Firm-fixed-price, cost-plus-fixed-fee, and time-and-material task orders will be issued. The minimum order amount is \$50,000 and the maximum amount of orders for all contracts shall not exceed \$18M. The Performance Work Statement is available only on FedConnect, beginning on page 94 of the file "Complete RFP 68HERC19R0023" at <https://www.fedconnect.net/FedConnect/?doc=68HERC19R0023&agency=EPA>. PROPOSALS ARE DUE BY 3:00 PM ET ON JANUARY 9, 2020.

USEPA REGION 2 EMERGENCY AND RAPID RESPONSE SERVICES (ERRS) (SOL)

SOL: 68HE0219R0002

DUE: Jan 09, 2020

NAICS: 562910. THIS PROCUREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE (NAICS code 562910, size standard 750 employees) to acquire Emergency and Rapid Response Services (ERRS) for sites located in the States of New York, New Jersey, and the Territories of Puerto Rico and the U.S. Virgin Islands. The solicitation is available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=68HE0219R0002&agency=EPA>. It is the Government's intent to award performance-based IDIQ-type contracts for a maximum period of performance of 60 months. The Government reserves the right to award any number of contracts resulting from the small business set-aside solicitation. The purpose of the ERRS contract is to provide fast, responsive environmental cleanup services for release of hazardous substances/wastes/pollutants and contaminants/materials and petroleum products/oil for EPA Region 2. Environmental cleanup in response to natural and manmade disasters, terrorist activities, weapons of mass destruction, and chemical, biological, radiological, and nuclear incidents may also be required under this contract. Consistent with the EPA Clean and Greener Policy for Contaminated Sites, the contractor shall explore, evaluate, and implement green cleanup strategies and applications in the performance of the requirements of this contract to maximize sustainability, reduce energy and water usage, use renewable energy, promote carbon neutrality, minimize air emissions, including greenhouse gasses, promote industrial materials reuse and recycling, and protect and minimize adverse impacts on land and ecosystems. The contractor shall insure that cleanup personnel and equipment are available for the performance of work within 48 hours of receipt of a task order, or a longer period if so stated in the task order. OFFERS MUST BE RECEIVED NO LATER THAN 4:30 PM ET ON JANUARY 9, 2020.

EPA REQUEST FOR INFORMATION 68HERH20R0007 (SNOTE)

SOL: 68HERH20R0007

DUE: Jan 10, 2020

NAICS: NA. All details of this notice are available only on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=68HERH20R0007&agency=EPA>. EPA's Office of Acquisition Solutions (OAS) and the Office of Land and Emergency Management (OLEM) are aware that combining EPA's current and expired contract performance work statements (PWS) and statements of work (SOW) that support OLEM into one consolidated proposed draft SOW have the potential to create organizational conflicts of interest (OCI) and impacts created by limitations on future contracting (LOFC). OAS and OLEM have not made any final determinations regarding OCI and LOFC but are publicizing this request for information (RFI) as market research to identify potential OCI and LOFC issues as well as other potential problem areas created by combining requirements into one SOW because of the inherent nature of the work that has been consolidated. This RFI is being published to the entire contracting community in order to receive comments and questions not only about the requirements in the draft SOW but also to identify any Task Area or requirements within a Task Area that raises questions and concerns regarding potential OCI and LOFC where contractors believe they would have limitations on their ability or be prohibited entirely from being able to respond to any request for proposal (RFP) that included the unchanged draft SOW. Comments and questions, including those about potential COI and LOFC, must be submitted in writing only as an attachment to an email to Contracting Officer Lin Pinskey at Pinskey.lin@epa.gov. Include RFI 68HERH20R0007 in the subject line of the email. Contractors are highly encouraged to consolidate their questions and comments into one email whenever possible, but are not prohibited from submitting more than one email about the SOW. ALL QUESTIONS AND COMMENTS RELATED TO RFI 68HERH20R0007 MUST BE SUBMITTED ON OR BEFORE 5:00 PM ON JANUARY 10, 2020. The purpose of the new, multiple-award IDIQ contract is to obtain a full range of services in support of the OLEM mission and its program, regional, and field offices. OLEM's program offices include the Office of Resource Conservation and Recovery (ORCR), the Office of Superfund Remediation and

Technology Innovation (OSRTI), the Office of Emergency Management (OEM), the Office of Brownfields and Land Revitalization, the Office of Underground Storage Tanks, and the Federal Facilities Restoration and Reuse Office. This contract will primarily provide services in support of ORCR, OSRTI, and OEM. Period of performance: One year base period and four one-year options, and four six-month award terms for a maximum potential performance period of seven years.

FCI SANDSTONE ASBESTOS ABATEMENT (PRESOL)

SOL: 15B41320Q00000007

NAICS: 562910. WHEN THE FEDERAL BUREAU OF PRISONS (FBOP) RELEASES THE SOLICITATION (LIKELY SOMETIME IN DECEMBER 2019), IT WILL BE 100% SET-ASIDE FOR SMALL BUSINESS under NAICS 562910. FBOP anticipates the need for a firm-fixed-price construction contract for asbestos abatement at Federal Correctional Institute Sandstone. The purpose of the project is to remove approximately 6,100 square feet of floor tile and mastic containing asbestos from one inmate housing unit located on the institution's grounds, working in and around a correctional environment. Specifics on the work schedule will be issued in the Statement of Work. The period of performance for this forthcoming project will be 45 calendar days from issuance of the notice to proceed.

PRE-SOLICITATION NOTICE FOR THE DOE EM NATIONWIDE DEACTIVATION, DECOMMISSIONING AND REMOVAL (DD&R) PROCUREMENT (PRESOL)

SOL: 89303319REM000052

NAICS: 562910. This notice is NOT a Request for Proposals. DOE anticipates issuing the Final RFP for this procurement with 30 days of this notice. The scope of this procurement encompasses DD&R of excess, legacy facilities across the United States, as well as associated waste management and program support activities. The DOE EM Nationwide DD&R procurement will be conducted as an unrestricted, full and open competitive procurement under NAICS code 562910, Environmental Remediation Services, size standard 750 employees. Interested parties are encouraged to monitor the nationwide DD&R procurement website at <https://www.emcbc.doe.gov/SEB/nationwideddr/> for updates. The first Task Order issued under the Master IDIQ contract will be performed at Lawrence Livermore National Laboratory in Livermore, CA. Additional Task Orders may be issued for DD&R requirements at DOE or other federal agency sites across the United States as they materialize.
