

Federal Business Opportunities (FedBizOpps) Update

Notices for February 25-March 3, 2019

This update contains summaries of procurement notices issued between February 25-March 3, 2019 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

RFI FOR LOW-LEVEL HAZARDOUS WASTE DISPOSAL (SRCSGT)

SOL: DOI GFBO190019

DUE: 030519

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOI/USGS/USGS/DOI GFBO190019/listing.html>

NAICS: 562211. This notice is a sources sought for market research purposes only to identify interested vendors for a potential requirement by the U.S. Geological Survey (USGS) regarding the characterization, packaging, transportation, processing, and disposal of low-level radioactive waste. The low-level waste is in USGS storage facilities at Denver, CO, Menlo Park, CA, and Reston, VA. The requirement is for the routine characterization, packaging, transportation, processing, and disposal of low-level radioactive waste. All low-level radioactive waste will be submitted for removal on an "as needed" basis. Disposal must be carried out under requirements for regulated radioactive waste. The isotopic inventories, as well description of contents, are attached the version of this notice posted at FedConnect: <https://www.fedconnect.net/FedConnect/?doc=DOI GFBO190019&agency=DOI>. USGS is interested in creating a 4-year multi-year blanket purchase agreement (BPA) to remove and dispose of the Low-Level Radioactive Waste over the next 4 years. USGS is searching for vendors who can provide pricing on a "as needed" basis based on the following very rough estimate of how much waste has accumulated over the last few decades. Denver: eight 55-gallon drums - 1800 lbs; Menlo Park: four 55-gallon drums - 1000 lbs; and Reston: five 55-gallon drums - 1250 lbs (Estimated total weights of waste do not include weight of drums). The contractor shall provide brokerage of low-level radioactive waste from the USGS Facilities; provide and/or arrange all subsequent packaging, transportation, processing, and disposal services; and ensure waste burial shall be performed at an approved disposal site. The NAICS code is 562211. Vendors who believe they can responsibly meet these requirements should submit a capabilities statement (10 pages max) to the Contract Specialist via email. CAPABILITIES STATEMENTS MUST BE RECEIVED NO LATER THAN 1:00 PM ET ON TUESDAY, MARCH 5, 2019.

REQUEST FOR INFORMATION: AMMONIUM NITRATE SOLUTION (ANSOL) BY-PRODUCT DISPOSITION TECHNOLOGIES (SRCSGT)

SOL: W52P1J19ANSOL

DUE: 033119

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/ec8fee26ec636edbc88fab7b4a0c19ba>

NAICS: 562211. The Army Contracting Command - Rock Island, IL, on behalf of Joint Program Executive Office Armaments & Ammunition/Project Director Joint Services, is seeking information from industry to assist with the planning and development of a potential new requirement. This notice is a request for information (RFI) only to collect information to assist the Government in evaluating available technologies to address by reusing or recycling, treating, and/or disposing of the ANSol byproduct of explosives production in a safe, cost-effective, timely, and environmentally responsive manner. The Government anticipates that a mature technology alternative, implementable on site, can be identified to address this material. ANSol is an oxidizer whose chemical composition varies due to normal changes in production operations. The typical composition is approximately 65% ammonium nitrate, 20% amine nitrates, 12% water, and 3% nitramine explosives and their decomposition products, although the ammonium nitrate solids concentration can vary from 51-67%. The potential technology alternative must meet the following requirements: A commercial off-the-shelf (COTS) technology with the capacity to address up to 10M pounds per year of ANSol and ready for full-scale implementation by the end of FY2022 at the Holston Army Ammunition Plant. See the FedBizOpps notice for additional requirements. This RFI is NOT an RFP and is not to be construed as a commitment by the Government to issue a solicitation or ultimately award a contract. RESPONSES ARE DUE BY MARCH 31, 2019.

RFP W9128F19R0016 - \$35M RAPID RESPONSE 5 (RR5) SINGLE AWARD TASK ORDER CONTRACT (SATOC) (COMBINE)

SOL: W9128F-19-R-0016

DUE: 040119

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA45/W9128F-19-R-0016/listing.html>

NAICS: 562910. THIS SOLICITATION IS A COMPETITIVE 8(A) SET-ASIDE for an IDIQ single-award task-order contract (SATOC) for rapid response/immediate response (RR/IR), environmental remediation services (ERS) and other mission-related support services under NAICS code 562910 in support of the U.S. Army Corps of Engineers (USACE) and its customers within the United States, including Alaska, Hawaii, and U.S. outlying areas. The successful Offeror shall provide emergency, immediate, or rapid response environmental remediation services at contaminated sites within the geographic boundaries of the contracts. Time-sensitive ERS projects are initiated to maintain regulatory compliance, restore property from the effects of environmental spills or releases, mitigate unstable situations, and prevent or minimize future releases to protect human life, public health, and/or the environment. The total amount of the contract awarded under this solicitation shall not exceed \$35M. This contract will have a base performance period of three years plus one 2-year option period, or until the \$35M contract limit is reached, whichever occurs first. OFFERS MUST BE RECEIVED NO LATER THAN 2:00 PM CT ON APRIL 1, 2019. [NOTE: The time of day offers are due on April 1 is different in the FedBizOpps text than in the solicitation attachment.]

F--SOIL REMEDIATION FOR FT. VANCOUVER, WASHINGTON ST. (PRESOL)

SOL: 140P8319R0006

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOI/NPS/APC-IS/140P8319R0006/listing.html>

NAICS: 562910. THIS REQUIREMENT WILL BE A BEST-VALUE NEGOTIATED PROCUREMENT SET-ASIDE FOR ALL SMALL BUSINESS CONCERNS under NAICS code 562910 (Remediation Services), size standard 750 employees. All work will be performed under a single firm-fixed-price construction contract subject to the Wage Rate Requirements (Construction), formerly known as the Davis-Bacon Act. The project consists of remediation of targeted soil removal and restoration to safe levels for visitors and employees as directed at the Decision Unit-Northeast-1 (DU-NE-1) Site at the Ft Vancouver National Historic Site, in Vancouver, Washington. In addition, the Contractor will dispose 11 steel drums (55-gallon type) previously stockpiled with potentially lead-contaminated soil. Additional details will be provided in the Specifications and Statement of Work posted with the Request for Proposals. This is not the full solicitation; proposals are not requested at this time. The contractor will have 210 calendar days to complete the project after the Notice to Proceed is issued; on-site work will begin in June (Summer) 2019. The estimated magnitude of this construction project is between \$250,000 and \$500,000. THE RFP AND FUTURE AMENDMENTS WILL BE POSTED ON OR ABOUT MARCH 18, 2019, on FedBizOpps.
