EMERGENCY PREPAREDNESS RESPONSE AND RECOVERY SERVICES (COMBINE)

SOL: 4AD-19-A-0002

DUE: 041919

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USPS/FP/HF/4AD-19-A-0002/listing.html>

NAICS: 541620. *** ACCESS TO THE SOLICITATION DOCUMENTS FOR THIS PROCUREMENT IS THROUGH EMPTORIS ONLY [<https://uspsprod.emptoris.com>]. Applicants must register at EMPTORIS to gain access and submit a proposal. Instructions are included in the FedBizOpps notice. ***The U.S. Postal Service is interested in awarding one or more IDIQ contracts for Emergency Preparedness Response and Recovery Services (EPRRS) for all Postal locations throughout the United States including Alaska, Hawaii, Puerto Rico, Guam, U.S. Virgin Islands, Northern Mariana Islands, and American Samoa on a national 24-hour, 7 days/week basis throughout the year. The Postal Service is more concerned with making an award at the lowest overall price than with obtaining superior technical or management features. The goal of the Postal Service comprehensive emergency management plans is to improve coordination of planning and response activities among Postal Service functional areas, to minimize duplication of planning efforts, and to establish a consistent emergency management process within the Postal Service. Therefore, the contract support services include but are not limited to planning and identification of threat agents; natural and human-made disasters; environmental releases; containment of a threat agent; decontamination of facilities, property, and equipment; transportation and disposal of contaminated materials; laboratory and/or analytical support for identifying suspected threat agents; and environmental contaminants. A pre-proposal meeting will be held online via WebEx on March 22, 2019, at 10:00 AM ET. Attendance is highly recommended. No WebEx account is needed to join the meeting. Deadline for questions is noon ET on April 5, 2019. PROPOSALS MUST BE DELIVERED THROUGH EMPTORIS NO LATER THAN 5:00 PM ET ON APRIL 19, 2019.

CHEMICAL BIOLOGICAL OPERATIONAL ANALYSIS (CBOA) (SNOTE)

SOL: W909MY19CBOAA0003

DUE: 052019

WEB: FBO.gov Permalink at <https://www.fbo.gov/notices/7ec3d6c1086afc5f740d152476be9d62>

NAICS: 5417 (Scientific Research and Development Services). The purpose of this RFI is to gain information in the form of Technology Demonstration Papers leading to Government/Industry partnering to accelerate the development of technologies that will enable the Warfighter to assess, protect and mitigate chemical and biological threats. This RFI aims to identify technologies for a scenario-based Chemical Biological Operational Analysis (CBOA) event at Camp Dawson, WV, 19-23 August 2019. The CBOA is funded by the Defense Threat Reduction Agency (DTRA) Research and Development-Chemical and Biological Warfighter Integration Division (RD-CBW) with the intent of obtaining Warfighter insight on emerging chemical and biological defense technologies, identifying potential areas for improvement, and supporting vulnerability and system limitation analysis of emerging capabilities in contested environments at an operationally relevant venue. Technology Demonstration Papers submitted for consideration must identify prototypes (Technology Readiness Levels 5-6) or a similar representation of the prototype that is ready for user assessment and addresses areas presented within the detailed RFI at FedBizOpps. The prototypes will be put in the hands of the warfighter to use while conducting realistic missions in adaptive scenarios. Selection of Respondents to participate will be based on the extent to which the technology represents a particular class or level of capability that can be provided to the warfighter. Other considerations include relevance of or adaptability to military operations/missions; relevance to current and future operational needs; breadth of application; technical maturity; available time; and integration into a common operating picture. TECHNOLOGY SUBMISSIONS MUST BE RECEIVED VIA EMAIL NO LATER THAN 5:00 PM ET ON MONDAY, MAY 20, 2019. Selected and Non-Selected Respondents will be notified in writing.

R--TECHNICAL AND ADMINISTRATIVE SUPPORT FOR U.S. EPA'S NATIONAL DRINKING WATER PROGRAM (PRESOL)

SOL: 68HEOC18R0081

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/EPA/OAM/OH/68HEOC18R0081/listing.html>

NAICS: 541611. THE ANTICIPATED SOLICITATION RELEASE DATE IS LATE MARCH 2019, ISSUED UNDER FULL AND OPEN COMPETITION PROCEDURES under NAICS code 541611, small business size standard \$15M. The U.S. EPA Office of Water, Office of Ground Water and Drinking Water (OGWDW) requires contractor support to provide technical and analytical support for the National Drinking Water Program. The contractor shall provide technical and analytical support for contaminant occurrence, cost/benefit, economic, financial, and regulatory analyses, along with characterization of potential limitations of those analyses. The contractor shall provide technical and analytical support for environmental and analytical chemistry, primary and secondary environmental data collection, statistics, engineering, hydrology, hydrogeology, public health and risk assessment, system analysis, cost and benefit assessments, database management, Geographical Information Systems (GIS), and microbiology relating to the requirements of the Safe Drinking Water Act (SDWA) Amendments. EPA will review the information for technical soundness and adherence to Agency policy. Additionally, the contractor shall provide administrative program support in areas of information management, outreach, technical writing and coordination of logistics. The proposed contract will be a single-award IDIQ contract with a 5-year ordering period with one additional year for task completion. The anticipated contract will also include an option to extend services for up to 6 months. The government is still considering which task order type(s) will be utilized, and is contemplating firm-fixed-price, cost-plus-fixed-fee, and time-and-materials task orders. A total LOE of approximately 287,500 hours is anticipated over the 5-year period of the contract. This is a follow-on requirement to current EPA contract EP-C-12-023 with The Cadmus Group LLC.
