Federal Business Opportunities (FedBizOpps) Update

Notices for June 17-23, 2019

This update contains summaries of procurement notices issued between June 17-23, 2019 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the FedBizOpps web site.

F–F107 - ASBESTOS REMOVAL AIR MONITORING SERVICES HARRY S TRUMAN MEMORIAL VETERANS HOSPITAL, COLUMBIA MO (SRCSGT)
SOL: 36C25519Q0536
DUE: 062519
NAICS: 541380. THIS ACQUISITION IS A TOTAL SMALL BUSINESS SET-ASIDE, NAICS code 541380, size standard $15M. The Bureau of Indian Affairs (BIA) is soliciting offers to procure analytical services for drinking water in compliance with the Safe Drinking Water Act. The BIA owns and operates 57 water systems that must be sampled in accordance with the schedules provided by the regulatory agencies of U.S. EPA and the Navajo Nation Environmental Protection Agency. Contractors must bid on the entire schedule by agency as listed. Laboratory must be certified by a state, under the U.S. EPA Contract Lab Program, or have proof of EPA affiliation in accordance with the EPA Performance Evaluation Test Program. It is MANDATORY to physically have the laboratory within 150-mile radius of Gallup, New Mexico. The laboratory shall perform regulated/unregulated volatile organic chemical (VOC-I) and the full semi-volatile organic chemicals (pesticides and synthetic organic compounds/PCBs), dioxin, and radiochemical analyses from source water samples collected from Bureau-operator wells. Potential period of performance is one base year and four option years. OFFERS MUST BE RECEIVED NO LATER THAN 2:00 PM MT ON JUNE 26, 2019.

COLUMBIA MO (SRCSGT)
SOL: 36C25519Q0536
DUE: 062519
NAICS: 541620. The Department of Veterans Affairs is conducting market research via the responses to this notice to gain knowledge of potential qualified service-disabled veteran-owned, veteran-owned, 8(a), HUBZone, and other small businesses interested and capable of providing the required services and as an aid to developing the VA’s acquisition approach, statement of work/statement of objectives, and performance specifications. Third-party air monitoring for asbestos abatement work is required to provide VPHI/CIH service during asbestos abatement work being conducted at the Harry S. Truman Memorial Veterans Hospital, Columbia, MO. The purpose of the VPHI/CIH work is to assure quality; resolve problems; prevent the spread of contamination beyond the regulated area; and perform final inspection and testing to determine whether the regulated area or building has been adequately decontaminated. Based on the NAICS code of 541620 (Environmental Consulting Services), size standard $15M, respondents are asked to indicate whether your company would be a Large or Small Business and have a socio-economic designation as a small business, VOSB, or SDVOSB. A total set-aside for SDVOSB firms is anticipated unless response by SDVOSB firms proves inadequate. RESPONSES ARE DUE BY JUNE 25, 2019.

FUEL AND HAZARDOUS MATERIAL SPILL CLEANUP (COMBINE)

SOL: FA930119R0005
DUE: 07/30/19

NAICS: 541620. THIS SOLICITATION IS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 541620 (Environmental Consulting Services), size standard $15M. U.S. EPA's Office of Land and Emergency Management (OLEM) is responsible for cleaning up our nation's contaminated sites while preparing and responding to environmental emergencies. This contract will provide analytical and technical support primarily for OLEM's Office of Brownfields and Land Revitalization, Office of Underground Storage Tanks, Federal Facilities Restoration and Reuse Office, and other OLEM offices. The contractor shall provide technical, analytical, and administrative services to EPA and its regional counterparts in the research, analysis, implementation, and evaluation of OLEM and other applicable programs. The contractor shall furnish all resources necessary to perform the tasks specified in the Statement of Work (SOW): (1) technical research and analytical support; (2) communications and outreach support; (3) guidance support and program evaluation; (4) training support; (5) meeting, workshop, and conference support; and (6) program implementation support. The SOW is available on FedConnect at https://www.fedconnect.net/FedConnect/?doc=68HE0S18R0006&Agency=EPA [Note: It might be necessary to copy and paste the URL into your browser for direct access]. EPA anticipates award of a fixed-rate IDIQ contract from the Department of the Air Force, Air Force Materiel Command, AFTC/PZIO - Eglin AFB, FL.

**R--TECHNOLOGY TRANSFER SUPPORT (PRESOL UPDATE)**

**SOL:** 68HERC19R0020

**NAICS:** 541620. When the solicitation is released, IT WILL BE SET-ASIDE 100% FOR SMALL BUSINESS as a single IDIQ contract with a 5-year ordering period. RELEASE OF SOLICITATION 68HERC19R0020 ON FEDCONNECT IS ANTICIPATED ON JULY 12, 2019, at [https://www.fedconnect.net/FedConnect/?docid=68HERC19R0020&agency=EPA](https://www.fedconnect.net/FedConnect/?docid=68HERC19R0020&agency=EPA) [Note: It might be necessary to copy and paste the URL into your browser for direct access]. All questions relating to the solicitation must be submitted through FedConnect. Researchers in EPA’s Office of Research and Development (ORD) work collaboratively across many scientific disciplines and in close partnership with EPA partners and stakeholders to conduct research that is transdisciplinary. Agency scientists and engineers engage experts from related scientific fields and from a diversity of other disciplines to provide the solutions needed to meet complex environmental and human health challenges.

**SPONSOR:** Department of Justice, Bureau of Prisons, Southeast Regional Office, Atlanta, GA.
Successful communication of research impacts will result in use of the research findings in policy and decision-making processes; adoption of improved processes, technologies, methods; and implementation of community interventions. The purpose of this contract is to provide support for developing and disseminating information on effective environmental technologies; developing sound information to support regulations and policy decisions; and providing technical information transfer and meeting support at EPA meetings. The contractor shall provide the support needed to create, compile, synthesize, and disseminate key technical information products and research applications. A comprehensive approach to integrating technology transfer activities in ORD is necessary to foster technology commercialization, encourage new product development, and manage technology transfer tools and concepts. This contract will be used primarily by ORD but is also available for use by all other Agency programs, provided the work falls within the scope of the contract. Monitor FedConnect for any additional updates.

EV DECOMMISSIONING IDIQ (PRESOL)

SOL: W912EE19B00016
WEB: FBO.gov Permalink at [Website Link]
NAICS: 562910. When the solicitation is released, IT WILL BE ISSUED AS A TOTAL BUSINESS SET-ASIDE under NAICS code 562910. The total value of the single-award IDIQ contract is not to exceed $19.9M over a 3-year ordering period. The National Institutes of Health Office of Research Facilities has a need for a qualified and experienced contractor to assist the Division of Environmental Protection (DEP) with environmental facility site assessments and remediation (also referred to as decommissioning). Decommissioning tasks are broken into four phases: Facility Feasibility Assessment (Phase I); Facility Site Characterization (Phase II); Remediation (Phase III); and Final Status Survey Reporting (Phase IV). The DEP primarily needs support with Phase II and Phase III. Contractors will be required to have knowledge of hazardous sources of contaminants and the contaminants themselves, including mercury, asbestos, lead/lead-based paint, petroleum products, silver, perchlorates, azides and picrates, PCBs, cadmium, ozone-depleting substances, etc. Asbestos is expected to be incidentally abated in the process of addressing research-related hazardous materials. Specific projects will be defined in each of the subsequently issued task orders and will vary in size, scope and complexity. Task Orders will be issued to correspond with the phases of environmental decommissioning. The goal is to procure an IDIQ vehicle that will streamline the effort to identify hazardous material and remediate before the renovation or demolition of an NIH space. DEP anticipates a high volume of personnel space related moves that will require this service. RELEASE OF THE RFP IS ANTICIPATED ON OR ABOUT JULY 12, 2019, with a tentative bid closing date around August 12, 2019.

ENVIRONMENTAL CONSTRUCTION AND REMEDIATION SERVICES (PRESOL)

SOL: W912DQ-19-R-3009
WEB: FBO.gov Permalink at [Website Link]
NAICS: 562910. When the solicitation is released, IT WILL BE ISSUED AS A TOTAL BUSINESS SET-ASIDE, NAICS code 562910 (Remediation Services), size standard 750 employees. The U.S. Army Corps of Engineers, Kansas City District, intends to issue an RFP for Environmental Construction and Remediation Services in support of the Welsbach/General Gas Mantle Superfund Site, located in Gloucester City and Camden, Camden County, New Jersey. The work performed under this indefinite-delivery, cost-plus-fixed-fee contract includes excavation and off-site disposal of radiological contaminated soil and waste materials as part of the Operable Unit I remediation. The contractor will be required to simultaneously manage the logistics of performing large-scale remediation with services that include preparation of work plans, on-site laboratory operations, sampling and testing of water and soil, on-site wastewater treatment plant operation and maintenance, providing security services at applicable sites, transportation and disposal of radiological materials, data management, data interpretation, project reports, engineering support and/or design, remedial actions, construction support, future project programming and scheduling support, and planning of work efforts. Remedial action activities could include but are not limited to groundwater extraction and treatment systems, design and construction of excavation support systems, excavation and backfill of contaminated soils, and site restoration. The estimated period of performance is 5 years from notice to proceed. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR ABOUT JULY 18, 2019, and proposals likely will be due on or about September 12, 2019.
