

Federal Business Opportunities (FedBizOpps) Update

Notices for July 22-28, 2019

This update contains summaries of procurement notices issued between July 22-28, 2019 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

S--36C26319Q0819 - HAZARDOUS WASTE SERVICES - STC (SRCSGT)

SOL: 36C26319Q0819

DUE: 073119

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/VABHCS568/VABHCS568/36C26319Q0819/listing.html>

NAICS: 562211. The VA Network Contracting Office 23, Black Hills, is issuing this sources sought to determine the suitability of a set-aside for a service-disabled veteran-owned small business (SDVOSB), veteran-owned small business (VOSB), or other small business for hazardous waste services for the Saint Cloud VAMC area. Contractor services are required to provide all labor, equipment, and supplies necessary to package, ship, and dispose of DEA-controlled substances (quarterly) and hazardous and non-hazardous waste (monthly) in addition to all miscellaneous services to support regulatory compliance for these materials, including labels, profile services, formulary review, regulatory consultation, waste tests and reports. Vendors who are interested in this requirement are invited to respond to this notice with a brief statement of capability. Period of performance: September 1, 2019, through August 31, 2020, with four option year renewals. Renewal of an Option Year is subject to availability of the next fiscal year funding. CAPABILITIES STATEMENTS MUST BE RECEIVED BY JULY 31, 2019.

DUE: 080619

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/VA/OrVAMC/Or675VAMC/36C24819Q1215/listing.html>

NAICS: 562910. VA Network Contracting Office 8 is conducting market research to gain knowledge of potential qualified sources with the capability to provide a Tier I - Spill Prevention Control and Countermeasures (SPCC) plan, per the requirements defined in 40 CFR Part 112, for three VA healthcare facilities located in Orlando, Florida. Two of the three sites have a valid SPCC plan in place (since 2014) which require review and revision to comply with current regulations and guidelines. One location has no SPCC plan in place and requires all the necessary services to provide an up-to-date, location-specific SPCC plan. Businesses large and small are encouraged to participate in this survey. The NAICS code is 541620, small business size standard \$15M. Interested parties are invited to provide a capability statement that addresses the organization's qualifications and ability to perform as a prime contractor for remediation services. RESPONSES MUST BE RECEIVED VIA EMAIL NO LATER THAN 11:00 AM ET ON AUGUST 6, 2019.

DIESEL FUEL TANK CLEANING AND FUEL POLISHING (COMBINE)

SOL: 1305M219QNWWN0278

DUE: 080719

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOC/NOAA/CASC/1305M219QNWWN0278/listing.html>

NAICS: 562211. THIS ACTION IS SET ASIDE 100% FOR SMALL BUSINESS under NAICS code 562211, size standard \$38.5M. The requirement is for fuel tank cleaning and fuel polishing for 23 National Weather Service Next Generation Radar (NEXRAD) generator fuel tanks at various locations for the National Weather Service Eastern Region Headquarters, Bohemia, NY. Each radar site has two aboveground, 250-gallon diesel tanks plumbed together that are located within the generator building. NWS personnel shall accompany the contractor to each site for entrance and exiting. The contractor shall supply a bottom sample prior to cleaning and a bottom sample after cleaning to the local Point of Contact on site. Cleaning shall be accomplished so that all water, sediment, non-combustible particulate matter, and microbial contamination are below levels stated in ASTM D975 (Standard Specification for Diesel Fuel Oils) while re-suspending combustible particulate matter to maintain ASTM standards for BTU value, lubricity, and cetane. The contractor shall provide all necessary additives to adjust fuel to meet ASTM D975. Period of performance: 180 days. The award will consist of a firm-fixed-price purchase order. OFFERS MUST BE RECEIVED NO LATER THAN 2:00 PM CT ON AUGUST 7, 2019.

LOW LEVEL RADIOACTIVE WASTE DISPOSAL IDIQ (COMBINE)

SOL: 1333ND19QNB610431

DUE: 081219

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOC/NIST/AcAsD/1333ND19QNB610431/listing.html>

NAICS: 562211. THIS PROCUREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE, NAICS code 562211 (Hazardous Waste Treatment and Disposal). The Government intends to award one IDIQ contract based on the initial quotes received. Period of Performance: 12-month base period with an anticipated start date of 09/15/19 (i.e., 09/15/19 - 09/14/20) and four one-year options. NIST has a requirement for processing and disposal services for low-level radioactive waste (LLRW). All LLRW is below 10 CFR 61.55 Class A limits. The contractor shall furnish the necessary personnel, material, equipment, services, and facilities to provide services for transportation, processing, and disposal of LLRW. Anywhere from one to five shipments are possible in a year; however, only two shipments typically occur each year. Performance shall be conducted at the NIST facility located in Gaithersburg, MD, and at the Contractor's processing and burial facilities. QUOTES MUST BE RECEIVED VIA EMAIL NO LATER THAN 12:00 NOON ET ON AUGUST 12, 2019.

SPRU WASTE - RFI (SRCSGT)

SOL: 89303319NEM000021

DUE: 081819

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOE/PAM/HQ/89303319NEM000021/listing.html>

NAICS: 562910. This RFI/sources sought is issued for the purpose of conducting market research. U.S. DOE's Office of Environmental Management (EM) is currently in the acquisition planning stage for processing, shipping, and disposal of radioactive waste with transuranic (TRU) constituents and commingled chemical constituents currently located at DOE's Separations Process Research Unit (SPRU). SPRU is located on the site of the Knolls Atomic Power Laboratory in Niskayuna, New York, where 24 waste containers have been characterized as TRU (or suspect TRU) waste. Some of these wastes will require management as TRU waste once the waste materials are processed (characterized, treated, segregated, and repackaged). The intent of this request for information is to identify prospective vendors that can transport the waste containers, process the waste, and dispose of the waste at DOE facilities for low-level radioactive waste OR at DOE-approved, permitted commercial disposal facilities for low-level radioactive waste. Some of the wastes may not be deemed suitable candidates for processing (or the residuals after processing will still be TRU waste). The contractor will need to provide transportation services back to SPRU or between SPRU and another DOE facility that can process or store TRU waste. DOE solicits input via capability statements and answers from interested parties with the specialized capabilities necessary to perform all or part of the requirements defined in the draft Performance Work Statement. The NAICS code for this requirement is expected to be 562910 (Environmental Remediation Services), small business size standard 750 employees. This feedback will assist DOE with identifying interested and capable sources for developing its acquisition strategy. DOE is also seeking to determine whether all or part of the requirement can be set aside for any categories of small business. The estimated period of performance is August 1, 2020, to July 31, 2021. This is a new requirement; there is no incumbent contractor. All interested parties are invited to submit a capability statement, 10 pages max. SUBMIT CAPABILITY STATEMENTS VIA EMAIL NO LATER THAN 7:30 AM ET ON AUGUST 19, 2019. [NOTE: The RFI specifies August 19; the due date given in the General Information section at FedBizOpps is August 18.]

CHEMICAL AND HAZARDOUS WASTE COLLECTION, TRANSPORTATION AND DISPOSAL SERVICES (SRCSGT)

SOL: 15DDHQ19R00000014

DUE: 082219

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/DOJ/DEA/OAM/15DDHQ19R00000014/listing.html>

NAICS: 562112. The purpose of this sources sought/market survey is to gain knowledge of potential qualified sources and to develop additional knowledge of the existing market for the required services. Multiple sources are sought to provide chemical and hazardous waste collection, transportation, and disposal services within various geographic regions of the United States. These services would support Drug Enforcement Administration (DEA) field offices and laboratories, NAICS code 562112 (Hazardous Waste Collection). The waste generated includes hazardous waste; non-hazardous waste chemicals; occasional controlled-substance contaminated waste; and medical waste (e.g., sharps, biohazard wastes). Municipal solid waste and recycling (e.g., paper, plastic, glass, etc.) are not included in the contract. Place of Performance: Within one of 17 geographic regions in the U.S. The various wastes are generated and stored at the various authorized central storage container sites, DEA, and FBI facilities (see Appendix F attached to the FedBizOpps notice). These facilities are not limited to an office environment and may include laboratories, training facilities, or airports. Contract duration is one base year and 4 option years. CAPABILITIES STATEMENTS MUST BE RECEIVED BY 9:00 AM ET ON AUGUST 22, 2019. A solicitation for this requirement is planned to be published before the end of FY2019.

MEGA UNRESTRICTED PRE-PLACED REMEDIAL ACTION CONTRACT (PRAC) - PHASE B (PRESOL)

SOL: W912DQ19R3006

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA41/W912DO19R3006/listing.html>

NAICS: 562910. WHEN THE SOLICITATION IS ISSUED, IT WILL PROVIDE FOR FULL AND OPEN COMPETITION. The forthcoming PRAC IDIQ multiple-award task-order contract (MATOC) is part of the USACE Multiple Environmental Government Acquisition (MEGA) strategy. The contract will support work assigned to the federal government. Performance will include a wide range of environmental remediation services. It is anticipated that the majority of the work will be conducted within EPA Region 2. Architect-Engineer services under FAR Subpart 36.6 will not be performed under the contract. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR AFTER AUGUST 6, 2019, for the award of one MATOC with a target of 10 awardees. The maximum value for all orders issued against the contract is \$185M. Orders may be either fixed-price or cost-reimbursement type.

\$35M INDEFINITE DELIVERY, INDEFINITE QUANTITY (IDIQ) SINGLE AWARD TASK ORDER CONTRACT (SATOC) FOR RAPID RESPONSE 5 SDVOSB (PRESOL)

SOL: W9128F-19-R-0023

WEB: FBO.gov Permalink at <https://www.fbo.gov/spg/USA/COE/DACA45/W9128F-19-R-0023/listing.html>

NAICS: 562910. WHEN THE SOLICITATION IS RELEASED ON OR ABOUT AUGUST 7, 2019, THE GOVERNMENT INTENDS TO ISSUE ONE SOLICITATION TO ONE SDVOSB FIRM FOR A \$35M IDIQ SATOC FOR RAPID RESPONSE SERVICES. Task Orders within the SATOC may be cost reimbursable or firm fixed price (FFP) contingent upon the Government's assessment of project risk. The primary NAICS code for this solicitation will be 562910 (Environmental Remediation Services), small business size standard 750 employees. The SATOC will have a 3-year base period and a 2-year option period. The contract will be for time-sensitive remediation of various hazardous waste sites within the United States and outlying areas. The contractor shall furnish and transport all plant, labor, materials and equipment necessary to perform the work required. The contract will use performance-based work statements to simplify the task order requirements while providing flexibility for the contractor to successfully complete the project at the lowest price. FedBizOpps registration will be required to access the solicitation documents. Monitor FedBizOpps for updates and amendments to this notice.
