

Federal Contract Opportunities Update

Notices for March 18-23, 2025

This update contains summaries of procurement notices issued between March 18-23, 2025 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

F -- EMERGENCY SPILL CLEANUP (COMBINE)

SOL: FA820125Q0009

DUE: March 27, 2025

NAICS: 562910. THIS IS A TOTAL SMALL BUSINESS SET-ASIDE. The U.S. Department of the Air Force requires an Oil Spill Removal Organization to provide Environmental Emergency Response Services, specifically the cleanup of hazardous material and hazardous waste spills (including acutely hazardous materials such as hydrazine) at Hill Air Force Base and the Utah Test and Training Range, including associated facilities, in Utah. Critical response capabilities specific to Hill AFB include but are not limited to: incidents involving fuel (there is in excess of 6 million gallons of JP-8 in bulk storage), Mercury, Hydrazine, Polychlorinated Biphenyls (PCB), Extremely Hazardous Substances (EHS), shock-sensitive items, the potential need for multiple vacuum trucks (capacity of approx. 6K gallons) and heavy equipment to include diaphragm pumps, floating skimmer, metal 25 cubic yard roll-off containers, fully equipped response vans and/or trailers, etc. The Contractor must be equipped and qualified to handle these issues/situations. The technical approach must respond to each of the following scenarios in accordance with the requirements in the SOW: 100 gallons of Jet-A fuel went down a storm drain. 1500 feet of storm drain piping needs to be flushed, and the fuel removed and disposed; and 50 gallons of fuel oil leaked into soil. 20 yards of soil needs to be excavated and placed into a roll-off. OFFERS ARE DUE BY 5:00 PM MDT ON MARCH 27, 2025.

F -- PHASE I ESA SERVICES IN VILLAGE OF KIPNUK, AK (COMBINE)

SOL: 140A0525Q0010

DUE: April 2, 2025

NAICS: 562910. THIS IS AN INDIAN SMALL BUSINESS ECONOMIC ENTERPRISE (ISBEE) SET-ASIDE SPECIFIC TO THE DEPARTMENT OF INTERIOR AND INDIAN HEALTH SERVICES. The Bureau of Indian Affairs requires a contractor to perform a Phase 1 Environmental Site Assessment (PH1 ESA) at the old school site within the Village of Kipnuk, Alaska. The objective of the project is to gather information required for site remediation. The work to be performed includes research of historical documents, site reconnaissance, identification of contamination, risk evaluation, fieldwork, analysis, and additional activities to determine the nature and extent of any contaminants present at the site. The scope of the investigation shall provide information sufficient to identify potential liability and risk associated with environmental and public health considerations concerning the property. In addition, the PH1 ESA will allow managers to plan further remediation and investigations, if required, to determine cleanup requirements and design a cleanup action in accordance with the Alaska Department of Environmental Conservation (DEC), federal and tribal laws and regulations. The Government contemplates awarding a Firm-Fixed-Price (FFP) Purchase Order with a period of performance from April 21, 2025, through June 30, 2026. OFFERS ARE DUE BY 9:00 AM PDT ON APRIL 2, 2025.

F -- EMERGENCY SPILL RESPONSE (SOL)

SOL: W9124CQA002

DUE: April 18, 2025

THIS IS A TOTAL SMALL BUSINESS SET-ASIDE. The Army Mission Installation Contracting Command seeks a contractor to perform 24-hour emergency response to spills and other environmental emergencies at Fort Jackson, South Carolina. The contractor shall provide 24-hour emergency spill response as well as tasks associated with the management of environmental regulatory programs and projects on Fort Jackson. Services include containment, cleanup, and proper disposal of materials, waste, and debris resulting from spills of hazardous materials or other regulated waste or products. The Contractor shall also provide response to other environmental program requirements such as collection of samples, removal of small underground storage tanks (USTs)/aboveground storage tanks (ASTs) and contaminated soil, site restoration and confirmation sampling, as well as provide support for a variety of other tasks associated with environmental regulatory compliance at Fort Jackson. The contract's period of performance shall be for one 12-month base period and four 12-month option periods. QUOTES ARE DUE BY 10:00 AM EDT ON APRIL 18, 2025.
