F -- EMERGENCY RESPONSE BASIC ORDERING AGREEMENT (SRCSGT)

SOL: 70Z08426RDL940001

DUE: December 15, 2025

NAICS: 562910. THIS IS A SOURCES SOUGHT NOTICE FOR MARKETING RESEARCH PURPOSES ONLY. The Coast Guard Director of Operational Logistics, Office of Procurement and Contracting, LOG-9, in Norfolk, Virginia, seeks to identify qualified sources interested in providing emergency response services for the containment, cleanup, and/or mitigation of the harmful effects of oil spills and hazardous substance incidents on or in waters subject to the jurisdiction of the United States, within the areas of responsibility of all U.S. Coast Guard Districts. The primary area of coverage will encompass the entire United States and its territories, including but not limited to Puerto Rico, the Virgin Islands, Guam, the Mariana Islands, and American Samoa. RESPONSES ARE DUE BY 2:00 PM EST ON DECEMBER 15, 2025.

F -- RARITAN BAY SLAG SUPERFUND SITE OPERABLE UNIT 1 - SEAWALL SECTOR REMEDIAL ACTION (SOL)

SOL: W912DQ26RA017

DUE: January 20, 2026

NAICS: 562910. THIS IS A FULL AND OPEN COMPETITION. The U.S. Army Corps of Engineers, Kansas City District, requires a contractor to perform under a single, stand-alone contract for the Raritan Bay Slag Superfund Site Operable Unit 1 - Seawall Sector Remedial Action. Remediation will consist of the dredging/excavation and removal of source materials (i.e., pieces of slag comingled with crushed battery casing materials and associated wastes that act as sources of contamination), and contaminated soil/sediment from the areas located in the Seawall Sector. Source materials, contaminated soil/sediment, riprap/armored stone, and miscellaneous debris will be removed. The Remedial Action Objectives (RAOs) are organized into these categories: slag, battery casings, and associated wastes, which comprise the highly toxic source material principal threat waste (PTW); soil; sediment; and surface water. The award will be a single cost-plus fixed-fee contract with a five-year period of performance beginning on July 28, 2026. OFFERS ARE DUE BY 3:00 PM EST ON JANUARY 20, 2026.

Y -- Y1DA--528A6-26-611 ABATE ASBESTOS PIPE INSULATION - B76 (PRESOL)

SOL: 36C24226B0021

NAICS: 562910. WHEN THIS SOLICITATION IS RELEASED ON OR ABOUT NOVEMBER 21, 2025, IT WILL BE COMPETED AS A SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS SET-ASIDE. The U.S. Department of Veterans Affairs (VA) requires the abatement of asbestos-containing pipe insulation in Building 76 at the VA Medical Center in Bath, New York. Because the facility is fully operational, the VA may restrict work hours and require off-tour work as directed by the Contracting Officer's Representative (COR) to avoid disrupting medical center operations. The contractor will have 30 days from the Notice to Proceed to complete all work. The estimated cost range is \$25,000 to \$100,000. Information about the single scheduled site visit will be included in the solicitation and is anticipated to occur on or about December 3, 2025. There is no solicitation at this time.

F -- DSCR BUILDING 98 PAINT STRIPPING (PRESOL)

SOL: SP470326Q0009

NAICS: 562910. WHEN THIS SOLICITATION IS RELEASED, IT WILL BE COMPETED AS A TOTAL SMALL BUSINESS SET-ASIDE. The U.S. Department of Defense, Defense Logistics Agency, requires a contractor to remove lead-based paint from the ceiling of Building 98 at the Defense Supply Center in Richmond, Virginia. The paint has been peeling and chipping, falling onto occupants' desks and creating a biohazard, and larger sections have been falling throughout the warehouse, causing work stoppages. Specific requirements include removing paint without chemical strippers, ensuring all workers wear appropriate PPE, and properly collecting and disposing of lead-containing waste off site. The contractor must also demobilize, obtain a third-party clearance test confirming the area is safe, dispose of all contaminated materials (including tarps, HEPA filters, and non-reusable PPE) in accordance with EPA requirements, and provide all post-abatement test results to the Project Manager/Contracting Officer Representative. Interested contractors must be within a commutable 120-mile driving distance of the DSCR facility. The award will be made to the lowest-priced, technically acceptable (LPTA) offeror that meets the requirements stated in the Statement of Work and the solicitation. All offerors shall be normally engaged in construction and maintenance as their primary line of business and shall have at least five years of documented experience working with paint and paint-removal materials. The completion date for this work shall be no later than 90 days after the Notice to Proceed. There is no solicitation at this time.

F -- WELSBACH RA SATOC (PRESOL)

SOL: W912DQ26RA002

NAICS: 562910. WHEN THIS SOLICITATION IS RELEASED ON OR ABOUT DECEMBER 15, 2025, IT WILL BE COMPETED AS A TOTAL SMALL BUSINESS SET-ASIDE. The U.S. Army Corps of Engineers intends to issue a solicitation for a Single Award Task Order Contract (SATOC), Indefinite Delivery/Indefinite Quantity (IDIQ), to support remedial action efforts at the Welsbach/General Gas Mantle (GGM) Superfund Site in Camden County, New Jersey. The work will involve developing a streamlined response and flexible contracting vehicle for cost-effective soils remediation. Tasks may include, but are not limited to, design work, interim actions, remedial actions, short-term operation and maintenance, laboratory management, reporting, and any other activities necessary to implement the soils remedy at the Welsbach/GGM Site. This notice does not constitute a commitment by the Government to award a contract or to pay for any costs incurred in response to this notice. It should not be construed as a commitment for any purpose, and no response is requested at this time. There is no solicitation at this time.
