

Federal Contract Opportunities Update

Notices for February 24-March 1, 2026

This update contains summaries of procurement notices issued between February 24-March 1, 2026 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

F --GROUNDWATER SAMPLING OF MONITOR WELLS, GRAND TETON (COMBINE)

SOL: 140P1426Q0031

DUE: March 12, 2026

NAICS: 541620. THIS IS A TOTAL SMALL BUSINESS SET-ASIDE. The National Park Service requires a contractor to perform groundwater monitoring in Grand Teton National Park (GRTE) and John D. Rockefeller Jr. Memorial Parkway (JODR) for the purpose of meeting Wyoming Department of Environmental Quality (WY DEQ) requirements. Sampling is required in the spring and fall, depending on the specific requirements for each well. The contractor shall ensure that all testing parameters are tested and recorded for each well according to the specified standards. The contractor shall complete the State of Wyoming Class V (5E4) Package Plant Treatment (Ground Monitoring) reporting form for Class Injection Wells, also known as GEMS (Graduated Environmental Management System) reports. If the GEMS database remains offline (as it has been since 2021), documentation shall be submitted to the WY DEQ using the Water Quality Division Document Uploads Form. The contractor shall include with their quote a proposed methodology, a quality control/quality assurance plan, documentation of past experience performing similar work, and unit costs for sampling and/or analysis of any additional wells. This will be a lump-sum contract; therefore, the contractor's travel and all other project-related expenses will not be reimbursed, although an RV site may be made available. The objective of this work is to ensure that Section I requirements of all WY DEQ permits for the GRTE and JODR wastewater systems are met; permits are available on the WY DEQ website and from the Contracting Officer at Grand Teton National Park Headquarters. OFFERS ARE DUE BY 1:00 PM MDT ON MARCH 12, 2026.

F -- SOURCES SOUGHT NOTICE - FISCAL YEAR (FY) 2026 FLORIDA CENTRAL OPTIMIZED REMEDIATION CONTRACT (ORC) (SRCSGT)

SOL: W9127826RA055

DUE: April 6, 2026

NAICS: 562910. THIS IS A SOURCES SOUGHT NOTICE FOR MARKETING RESEARCH PURPOSES. The U.S. Army Corps of Engineers, South Atlantic Division, seeks responses from qualified small and large businesses interested in providing environmental remediation services for the FY26 Florida Central Optimized Remediation Contract at Avon Park Air Force Range and MacDill Air Force Base in Florida. Work will include investigation, design, construction, operation, maintenance, and optimization of remedial systems at Installation Restoration Program (IRP) and Military Munitions Response Program (MMRP) sites, performed under the regulatory oversight of the Florida Department of Environmental Protection and applicable federal environmental laws. The anticipated procurement may be a competitive, firm-fixed-price, indefinite-delivery contract with an estimated value of approximately \$20 million over a ten-year period, consisting of a five-year base period and a five-year option period. CAPABILITY STATEMENTS ARE DUE BY 3:00 PM CDT ON APRIL 6, 2026.
