

Federal Contract Opportunities Update

Notices for April 14-19, 2026

This update contains summaries of procurement notices issued between April 14-19, 2026 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

Z -- ASBESTOS ABATEMENT & INSTALL NEW FLOORING (ATHENS, GA) (COMBINE)

SOL: 1232SA26Q0459

DUE: May 7, 2026

NAICS: 562910. THIS IS A TOTAL SMALL BUSINESS SET-ASIDE. The U.S. Department of Agriculture, Agricultural Research Service, requires asbestos abatement at the U.S. National Poultry Research Center (USNPRC) in Athen, Georgia. USNPRC is designed to contain Bio-Safety Level (BSL) -2, BSL-3, ABSL-3, and BSL-3Ag animal agricultural research. Companies associated with services for the facility shall fully understand the construction types and maintenance methods associated with these facilities. The scope of work includes abating asbestos carpet and floor tiles in Building 1, Room 733C by installing polyurethane sheeting as critical barriers, establishing negative pressure containment, and using a HEPA vacuum cleaner at all times; all work will be performed by certified asbestos abatement supervisors and workers equipped with full personal protective equipment, and all removed asbestos will be double-bagged, labeled, and disposed of at a state-approved landfill. Additional requirements include installing new approved floor tiles, providing required samples to the site safety officer, and thoroughly cleaning the workspace. Contractors are encouraged to visit the site and be escorted by a government representative to confirm locations, dimensions, and conditions of the project before a bid is submitted. Due to the nature of this project, the contractor is required to schedule the work on the weekends with 24-hour prior notice. The period of performance will be 45 days from the Notice to Proceed. OFFERS ARE DUE BY 12:00 PM EDT ON MAY 7, 2026.

Z -- Z1DA--578-26-004: IDIQ ACM ABATEMENT BASE (SOL)

SOL: 36C25226B0020

DUE: May 11, 2026

NAICS: 562910. THIS IS A FULL AND OPEN COMPETITION. The U.S. Department of Veterans Affairs requires abatement services in Buildings 1 and 200 of the Edward Hines VA Hospital in Hines, Illinois. Multiple rooms within Building 1 are currently unoccupied and in need of abatement before they can be reoccupied. There is pipe insulation in the Stone Space of Building 200 that needs to be abated so repairs can be completed. The Scope of Work includes asbestos abatement, lead abatement, mold remediation, removal of all flooring, including non-ACM tile and carpeting. The contractor shall assume that demolition of ceilings and grid work will be necessary to access the above ceiling pipe insulation. The contractor is to assume they will have uninterrupted access to the Stone Space of Building 200. A pre-bid site visit is encouraged and should be coordinated with the COR seven calendar days prior to the requested date. OFFERS ARE DUE BY 12:00 PM CDT ON MAY 11, 2026.

J -- PRE-CON RISK ASSESSMENT, ASBESTOS AND WATER INTRUSION (COMBINE)

SOL: ACQ-IHS-2026-00033

DUE: May 20, 2026

NAICS: 562910. THIS IS A BUY INDIAN SET-ASIDE. The Indian Health Service requires a contractor to provide the Phoenix Indian Medical Center (PIMC) in Phoenix, Arizona, with support to comply with PIMC policies related to pre-construction risk assessment, asbestos safety, and water intrusion. The contractor shall support PIMC in meeting ICRA 2.0 requirements established by the American Society of Healthcare Engineers (ASHE) and provide additional construction labor as needed; deliver 24/7 rapid response services to address clean and contaminated water leaks in accordance with ANSI/IICRC S500-2021 standards; provide certified industrial hygiene services and recommendations for remediation of mold- and water-affected materials; and perform demolition and remediation of materials containing asbestos, lead, mold, or contaminated water while assisting with construction labor to restore affected areas. All technicians performing drying and remediation tasks must hold Applied Structural Drying Technician (ASD), Building Moisture Inspector (BMI), Commercial Drying Specialist (CDS), and/or Water Damage Restoration Technician (WRT) certifications through IICRC.org. All technicians performing asbestos abatement must hold appropriate Class II/III worker certifications. All work must be performed by subcontractors and technicians with experience in hospital occupancies. The contract period of performance shall consist of one base year and four option years. OFFERS ARE DUE BY 1:00 PM PDT ON MAY 20, 2026.
