

# Federal Contract Opportunities Update

Notices for February 24-March 1, 2020

This update contains summaries of procurement notices issued between February 24-March 1, 2020 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

## **HAZARDOUS WASTE TRANSPORTATION, TREATMENT AND DISPOSAL SERVICES (SRCSGT)**

**SOL:** PANNWD20P0000001815

**DUE:** Mar 6, 2020

**NAICS:** 562211. The U.S. Army Corps of Engineers, Portland District expects to solicit a firm-fixed-price IDIQ commercial services contract for hazardous waste transportation, treatment, and disposal services at the Bonneville, The Dalles, Willamette Valley, Rouge River, The U.S. Moorings and The John Day projects for a period of one base year plus four option years. This sources sought notice is for informational/market research purposes only to gain knowledge of interest, capabilities, and qualifications of the industry, including the small business community, under NAICS code 562211 (Hazardous Waste Treatment and Disposal), size standard \$41.5M. The result of this market research will contribute to determining the method of procurement. The successful offeror shall own or operate one or more of the following facilities: (1) A RCRA Part A/B permitted facility capable of the proper management, treatment and/or subsequent disposal of one or more liquid hazardous waste streams described in this contract. The contractor facility shall be in compliance with 40 CFR Part 270, the EPA administered hazardous waste permit program. (2) A used oil treatment and/or recycling facility capable of the proper management, treatment, and/or subsequent disposal of all non-hazardous used oils and oil-water mixtures as described in this Standard. The contractor facility shall be in full compliance with 40 CFR Part 279, the EPA administered used-oil management rules. RESPONSES ARE DUE VIA EMAIL BY 4:00 PM ET ON MARCH 6, 2020.

## **ASBESTOS ABATEMENT (SRCSGT)**

**SOL:** W52H1B002303DN

**DUE:** Mar 6, 2020

**NAICS:** 562910. Market research is being conducted by Army Contracting Command - Rock Island, Illinois, in anticipation of establishing Blanket Purchase Agreements for asbestos abatement at Rock Island Arsenal. The anticipated BPA will be for five years. The rough order of magnitude (ROM) will be place on each order. It is estimated that the cumulative annual ROM will not exceed \$100,000. Respondents shall include the following information: Verification of an active, valid State of Illinois asbestos license; CAGE code (or DUNS); small business status; data detailing that the vendor has provided this type of service previously; at least one brochure, catalog, or publication describing the services offered; references; and descriptions of projects of asbestos abatement in the State of Illinois within the last three years. RESPONSES ARE DUE BY 2:30 PM CT ON MARCH 6, 2020.

## **ENVIRONMENTAL BLANKET PURCHASE AGREEMENT (SOL)**

**SOL:** FA449720Q0016

**DUE:** Mar 9, 2020

**NAICS:** 562112. THIS RFQ IS ISSUED AS A SMALL BUSINESS SET-ASIDE under NAICS code 562112. The contractor, on an as-needed basis, shall provide Dover AFB, Delaware, with pickup of hazardous waste, non-hazardous waste, and regulated garbage generated on international flights. The contractor shall provide DAFB an expedited service option for excess garbage generated between routine pickups. The contractor shall provide labor for the cleanup of spills. Services to be provided in association with Immediate Spill Response: Contractor is required to provide up to 1,000 linear feet of boom at one time and install as necessary on surrounding waterways within 1 hour of notification. Submitted cost estimates shall include the specific price per linear foot of boom. Labor costs for delivery and implementation of boom are identical to those associated with the hazardous waste pickup section of statement of work. Environmental technicians will be implementing the boom. Contractor can perform limited immediate spill response other than installation of booms in the presence of labor to support DAFB efforts. The Government intends to award a firm-fixed-price (FFP) contract for this requirement. OFFERS ARE DUE BY 10:00 AM ET ON MONDAY, MARCH 9, 2020. The contractor shall deliver all services within 90 calendar days after receipt of Award. This performance period is mandatory.

#### **FORT BRAGG / CAMP LEJEUNE TRANSPORTATION AND DISPOSAL OF HAZARDOUS WASTE (SRCSGT)**

**SOL:** 20-BE-024

**DUE:** Mar 13, 2020

**NAICS:** 562211. The intent of this sources sought is to identify qualified small businesses -- specifically 8(a), HUBZone, woman-owned, and service-disabled veteran-owned small businesses -- for the transportation and disposal of RCRA hazardous waste, non-RCRA wastes, compressed gas cylinders, state-regulated waste, non-hazardous waste, and PCBs in Fort Bragg and Camp Lejeune, NC, and surrounding areas. The aim of this sources sought is to identify capable small business that can perform with limitations on subcontracting. The Class

Deviation 2019-O0003 to clause FAR 52.219-14 Limitations on Subcontracting, issued by the Office of the Secretary of Defense on 12-03-18, will have a significant impact on set-aside options for this requirement. With Class Deviation 2019-O0003, the Offeror/Contractor agrees to not pay more than 50% of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Contractors may be subject to a minimum \$500,000 fine if awarded a contract with this clause and don't meet the requirement. Based on our extensive history in procuring hazardous waste disposal services, DLA has identified the majority of RCRA treatment, storage, disposal facilities (TSDFs) in the industry as large businesses. Since waste disposal costs make up a large portion of the contract dollar value, there is a reasonable expectation that a small business would pay more than 50% of the cost of the contract to large businesses, given the lack of small business ownership of TSDFs. The Government intends to award a firm-fixed-price IDIQ services contract with a duration of one 30-month base period and one 30-month option period. No solicitation is available at this time. STATEMENTS OF INTEREST AND CAPABILITY MUST BE RECEIVED NO LATER THAN 3:30 PM ET ON MARCH 13, 2020.

### **S222--HAZARDOUS WASTE REMOVAL 36C252-20-AP-1534 PO: 585-C00074 (SOL)**

**SOL:** 36C25220Q0316

**DUE:** Mar 13, 2020

**NAICS:** 562112. THIS REQUIREMENT IS SET ASIDE 100% FOR SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB). Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform hazardous / non-hazardous waste pick-up and disposal service for the Oscar G Johnson VA Medical Center as defined in this Performance Work Statement. The Oscar G Johnson facility currently identifies as a small quantity generator as defined by 40 CFR Part 261 and must manage hazardous waste in accordance with the applicable regulations. Hazardous waste services includes inventorying, assigning waste codes, packaging, labeling, manifesting, transportation, and proper disposal of hazardous wastes generated at the facility. Contractor must have the resources and technical capability of classifying and identifying all waste streams generated at the facility. Period of performance shall be one base year of 12 months and four 12-month options. OFFERS ARE DUE BY 10:00 AM CT ON MARCH 9, 2020. ### **S222--WASTE DISPOSAL SERVICES (SOL)**

**SOL:** 36C24720Q0076

**DUE:** Mar 18, 2020

**NAICS:** 562112. THIS RFQ IS ISSUED AS A SERVICE-DISABLED VETERAN OWNED SMALL BUSINESS SET-ASIDE, NAICS code 562112, size standard \$38.5M. This acquisition is for waste disposal services for the Atlanta VA Health Care System (1670 Clairmont Road, Atlanta, GA 30033). The government anticipates awarding a firm-fixed-price base period (04-01-2020 thru 09-30-2020) and four option year renewal contract as result of the solicitation. Contractor shall provide services for the base period in 2020 of April 1 to September 30. Conditions and specific tasks are included in the contract and the statement of work. Contractor must comply with guidelines recommended under section 21.1 of the Waste Disposal Act and pertinent codes and ordinances of DeKalb County, Georgia, pertaining to disposal of waste in an incinerator or a land field. Contractor is responsible for providing a contingency plan identifying how they will ensure continuity of services in the event of inclement weather, driver absence, or equipment failure. Contractor will utilize landfills within the industry that transform waste to clean, renewable energy. OFFERS ARE DUE BY 1:00 PM ET ON MARCH 18, 2020.

## **MUNITIONS RESPONSE ACTIONS AT VIEQUES, PUERTO RICO (SRCSGT)**

**SOL:** N6247020R2004

**DUE:** Mar 26, 2020

**NAICS:** 562910. This Sources Sought Notice is being used as a market research tool to determine the availability and adequacy of potential qualified small business sources prior to determining the method of acquisition and issuance of a solicitation. All service-disabled veteran-owned small businesses (SDVOSB), veteran-owned small businesses (VOSB), economically disadvantaged woman-owned small businesses (EDWOSB), woman-owned small businesses (WOSB), SBA-certified small disadvantaged businesses, and all other small businesses are encouraged to respond. A HUBZone or an 8(a) small business must submit the SBA Certification Letter. NAVFAC Atlantic is seeking to identify potential sources with the capacity, experience, and interest in competing for a contract for a cost-plus-award-fee IDIQ contract for Munitions Response Actions in Vieques, Puerto Rico, and other sites in NAVFAC's area of responsibility or worldwide. The assigned NAICS code for this requirement is 562910 (Environmental Remediation Services), size standard 750 employees. If the solicitation is issued, the contract will consist of a base period and four one-year options totaling five years of performance. The anticipated total work to be issued over the life of the contract via task orders is estimated at \$95M. The successful contractor to any forthcoming solicitation shall provide all labor, management, supervision, tools, materials, and equipment necessary to perform the following services. The general scope of work includes but is not limited to conducting munitions response actions to allow lands and waters potentially impacted by munitions to be safely used for their planned purpose. The work includes Munitions Response Action services to be performed predominately at former Navy facilities on Vieques, Puerto Rico. Work may also be performed at other sites located within the area of responsibility of the Naval Facilities Engineering Command, including the continental United States, the Caribbean, Europe, Africa, Southwest Asia, Hawaii, Far East, Pacific, and other locations as required by the Government. The contractor may, on occasion, be required to perform multiple tasks worldwide for any U.S. Government agency. The munitions response actions may include investigations, removal actions, and remedial actions in terrestrial areas (on or beneath the land surface) and/or aquatic environments (marsh areas, surf zones, intertidal areas, ocean, lakes, or other underwater areas). The contractor shall perform services that include safely locating, identifying, recovering, evaluating, managing, and performing final disposition of munitions and other debris removed from the site as designated in individual task orders. The contractor will perform this work in accordance with the DoD Explosives Safety Board requirements, the Defense Environmental Restoration Program, CERCLA, the NCP, and compliance with other applicable laws and regulations. Projects are typically \$10M or more. Additionally, firms must have an accounting system that can adequately estimate and track cost (as determined to be adequate by Defense Contract Audit Agency for performance of government cost-type contracts). Interested sources should respond to all questions presented in the Sources Sought Capabilities Questionnaire provided as an attachment at beta.sam. Responses are due by 4:00 PM ET on Thursday, March 26, 2020.

## **GEOTECHNICAL DRILLING SERVICES IDIQ (SRCSGT)**

**SOL:** W911KB20R0032

**DUE:** Mar 30, 2020

**NAICS:** 238910. The U.S. Army Corps of Engineers Alaska District is conducting market research to facilitate determination of an acquisition strategy and to identify drilling services contractors with the capabilities to perform the following requirement. The Alaska District is contemplating an IDIQ contract with capacity of approximately \$1M over two years with a one-year option period (valued at \$500,000) as a single-award task-order contract (SATOC) to perform geotechnical drilling services in support of geotechnical investigations that providing information for projects within or near military installations throughout the State of Alaska. The purpose of the work is to determine the type, character, thickness, stratification of subsurface soil and rock materials, static groundwater conditions, presence of contamination, and geotechnical engineering properties of subsurface materials at the various sites. This information will subsequently be used by the Government to determine geotechnical and environmental design requirement for U.S. military and civil works projects. Task orders will be firm-fixed-price. The work to be performed under this contract includes the furnishing of all materials, labor, tools, equipment, supplies, fuel, vehicular

transportation, power, water, and all else necessary to complete geotechnical exploratory programs to include environmental site investigations involving hazardous, toxic, or radiological waste (HTRW) throughout Alaska. INTERESTED CONTRACTORS ARE ENCOURAGED TO RESPOND TO THIS ANNOUNCEMENT BY 2:00 PM ALASKA TIME ON MARCH 30, 2020.
