

# Federal Contract Opportunities Update

Notices for January 20-26, 2020

This update contains summaries of procurement notices issued between January 20-26, 2020 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

## **H999--HAZWASTE SAMPLING AND TESTING SERVICE - 554 (SRCSGT)**

**SOL:** 36C25920Q0150

**DUE:** Jan 28, 2020

**NAICS:** 541380. The Department of Veterans Affairs Network Contracting Office (NCO 19, Rocky Mountain Acquisition Center) is seeking information and sources to provide Hazmat Sampling and Testing Services at the Rocky Mountain Regional VAMC, 1700 N. Wheeling Street, Aurora CO 80045. The NAICS code is 541380 (Testing Laboratories), size standard \$15M. Firms responding should indicate whether they are, or are not, a small business, a socially and economically disadvantaged business, a veteran-owned small business, a service-disabled veteran-owned small business, or a woman-owned business. Because this is a request for information only, answers to questions will not be posted. If your organization can provide the required hazwaste sampling and testing services and is interested in this opportunity, please respond with a statement describing your capabilities. RESPONSES MUST BE RECEIVED BY 4:00 PM MT ON JANUARY 28, 2020.

## **B--WATER SAMPLING AND TESTING (COMBINE)**

**SOL:** 140A1120Q0013

**DUE:** Jan 29, 2020

**NAICS:** 541380. THIS REQUIREMENT IS AN INDIAN SMALL BUSINESS ECONOMIC ENTERPRISE (ISBEE) SET-ASIDE for water sampling and testing under NAICS 541380. The Bureau of Indian Affairs, Truxton Canon Agency, requires an Arizona-certified commercial drinking water laboratory to provide monthly testing and sampling of the Valentine Water Distribution System located in Valentine, Arizona. This opportunity comprises one base period (02/01/2020 to 09/30/2020) and four option years. See the details of the requirement on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=140A1120Q0013&agency=DOI>. QUOTATIONS MUST BE SUBMITTED VIA EMAIL BY 5:00 PM MT ON JANUARY 29, 2020.

## **USACE SACRAMENTO DISTRICT MEGA MATOC (PRESOL MOD)**

**SOL:** W91238-20-S-2078

**DUE:** Jan 31, 2020

**NAICS:** 562910. AN UNRESTRICTED ACQUISITION STRATEGY IS ANTICIPATED for the upcoming Multiple Environmental Government Acquisition (MEGA) Multiple-Award Task-Order Contract (MATOC) by the USACE Sacramento District (SPK). The MEGA will be awarded from the USACE acquisition plan approved several years ago. Sources sought/capability statement responses are NOT requested for this notice; however, interested parties are invited to provide comments on the DRAFT PWS attachments at beta.SAM. COMMENTS ON THE DRAFT ATTACHMENTS MUST BE RECEIVED BY 5:00 PM PT ON JANUARY 31, 2020. Please note the

posted documents are DRAFTS and are subject to change prior to release of the solicitation. This MATOC will be a firm-fixed-price contract under which project-specific task orders will be issued. The shared contract capacity for this 5-year MATOC, including all subsequent task orders issued, shall not exceed \$50M. A ProjNet entry for solicitation W91238-20-S-2078 will be created soon for inquiries and comments under the following bidder inquiry key: HRRHB4-QCKNXT. Please use this solicitation number and bidder inquiry key to submit questions via ProjNet. RELEASE OF THE SOLICITATION IS ANTICIPATED IN OR AROUND EARLY MARCH 2020. The work to be performed under this contract will be performed at Formerly Used Defense Sites (FUDS) located in California, Nevada, Arizona, New Mexico, and Utah. FUDS Fort Douglas (Utah) will be the seed task order at time of MEGA award. A site visit at Fort Douglas is tentatively planned for March 12, 2020.

### **ABERDEEN PROVING GROUNDS (APG) REMEDIATION SERVICES (SRCSGT)**

**SOL:** W912DY-20-R-0001

**DUE:** Feb 3, 2020

**NAICS:** 562910. The Government is seeking to identify qualified sources under NAICS code 562910 (Environmental Remediation), small business size standard 750 employees, for contaminated facilities remediation and demolition at Aberdeen Proving Grounds (APG), Maryland. Contractor is to provide a range of remediation and demolition services to assist the U.S. Army with the disposition of the U.S. Army Combat Capabilities Development Command Chemical Biological Center and U.S. Army Medical Research Institute of Chemical Defense real property at APG, in areas potentially affected by chemical and biological agents, agent breakdown products, asbestos-containing material, and other regulated material. The intent is to solicit and award a firm-fixed-price (C-Type) five-year contract, capacity not to exceed \$25M. This contract will be predominately services with incidental construction (abatement). An Industry Day focused on this APG requirement was conducted October 24, 2019, and files containing slides and an attendees list are provided as attachments at beta.SAM. Interested firms are invited to submit detailed responses to the Capabilities Questionnaire [See file named APG Sources Sought\_23 JAN 20.docx]. SUBMISSIONS MUST BE RECEIVED NO LATER THAN 2:00 PM CT ON MONDAY, FEBRUARY 3, 2020.

### **115 FW FUEL TANK CLEAN-UP (COMBINE)**

**SOL:** W50S9F-20-Q-0003

**DUE:** Feb 3 (site visit registration) and Feb 25, 2020 (quotes)

**NAICS:** 562910. THIS REQUEST FOR QUOTATION IS A TOTAL SMALL BUSINESS SET-ASIDE, NAICS code 562910, size standard 750 employees. During an inflight emergency, an F-16 aircraft attached to the 115th Fighter Wing jettisoned two wing fuel tanks. One of the wing tanks contained about 200 gallons of Jet-A fuel and burst upon impact on private property adjacent to the Volk Field Combat Readiness Training Center. Location details are annotated on the site map identified as Technical Exhibit 3 in the Performance Work Statement (PWS) attached at beta.SAM. The land the incident occurred on is a USDA-designated Grassland Reserve Program. There are no roads or access points to the land. Access to the sites requires access to land owned by multiple private citizens. The fuel tank debris was removed; however, the effort to clean up the fuel from the soil surrounding the impact site remains and will require cleanup and remediation. The site needs to be cleaned up and documented in accordance with Wisconsin regulations and guidance. Contractor shall provide all personnel, equipment, tools, materials, supervision, and quality control necessary, to perform environmental cleanup/remediation for Jet-A fuel release services, as defined in the PWS. The period of performance shall be one base year of 12 months. This effort is a high-priority requirement in support of the National Guard. Funds are not presently available to make award. If funds become available for award, and prices are deemed fair and reasonable, it is the Government's intent to make an award. A site visit will be conducted at Volk Field, 100 Independence Dr., Camp Douglas, WI 54618 at 8:45 AM CT on February 5, 2020. Information provided at this site visit, as well as answers to questions, shall not alter the terms and conditions of the solicitation. Interested parties must pre-register to attend prior to 3:00 pm

CT on February 3, 2020. QUOTES MUST BE RECEIVED NO LATER THAN 4:00 PM CT ON FEBRUARY 25, 2020.

### **ENVIRONMENTAL SAMPLING, ASSESSMENT, AND ANALYTICAL SERVICES (SRCSGT)**

**SOL:** W911XK20R0009

**DUE:** Feb 6, 2020

**NAICS:** 541620. This survey is for market research purposes only. The Government is issuing this Request for Information to determine a competitive basis for the procurement. The U.S. Army Corps of Engineers (USACE), Detroit District, anticipates a requirement for an IDIQ services contract for Environmental Sampling, Assessment and Analytical Services under NAICS code is 541620 (Environmental Consulting Services), small business size standard \$16.5M. Contractor shall furnish all personnel, equipment, and supplies to provide environmental sampling and analytical services for projects within the boundaries of the Great Lakes and Ohio River Division, USACE, which requires services for the characterization of soils, sediments, sludges, groundwaters, surface waters, tissues, oils, wastes, and other environmental sample types. Typically, projects involve the collection of samples at field sites and analyzing those samples to determine the concentrations of various pollutants. The USACE is concerned about these constituents at trace concentration levels. Concentrations of interest are those typical of ambient open water as well as standards and criteria for water and soil/sediment quality. In addition, samples are frequently required to undergo several predictive tests, including leaching tests and bioassays. Other environmental services work includes but is not limited to site assessments, invasive species treatments, and wetland delineations, and archeological or biological surveys (fish, wildlife, birds, and mollusks) may also be requested. RESPONSES ARE DUE BY 2:00 PM ET ON FEBRUARY 6, 2020.

### **HAZARDOUS WASTE REMOVAL, TRANSPORTATION, & DISPOSAL SERVICES - CORPUS CHRISTI (SRCSGT)**

**SOL:** SOURCES\_SOUGHT\_CORPUS\_CHRISTI

**DUE:** Feb 11, 2020

**NAICS:** 562211. The intent of this sources sought is to identify qualified small businesses, specifically 8(a), HUBZone, woman-owned, and service-disabled veteran-owned small businesses, for hazardous waste removal, transportation, and disposal services. This sources sought also seeks to identify any capable small business that can perform with limitations on subcontracting. The scope of work requires the transportation and disposal of RCRA hazardous wastes, non-RCRA wastes, compressed gas cylinders, state-regulated waste, non-hazardous waste, and PCBs in Corpus Christi, Texas, and surrounding areas. All services necessary for the collection, storage, processing, removal, transportation, final treatment and disposal of waste shall be in accordance with all local, state, DoD, Navy, and federal laws and regulations. The OSD-issued Class Deviation 2019-00003, Revision 1 (08JAN2019) will have a significant impact on set-aside options for this requirement in that the Offeror/Contractor agrees to not pay more than 50% of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Contractors may be subject to a minimum \$500,000 fine if awarded a contract with this clause and do not meet the requirement. DLA has identified the majority of RCRA TSDFs (Treatment, Storage, Disposal Facilities) in the industry as large businesses. All TSDFs used during the performance of this contract must be approved and listed on the Qualified Facilities List at <https://www.dla.mil/DispositionServices/Offers/Disposal/HazardousWaste/HazWasteDisposal/>. Given the lack of small business ownership of TSDFs and with disposal costs making up a large portion of the contract dollar value, there is a reasonable probability that a small business would pay more than 50% of the cost of the contract to large businesses. The Government intends to award a firm-fixed-price IDIQ services contract having one 30-month base period, followed by one 30-month option period. No solicitation is available at this time. If your firm would like to respond to this sources sought, but is unable to meet the limitations on subcontracting, please email a Notification of Interest (a capabilities package is not required). Interested firms must demonstrate their ability to perform the requested services

by submitting a brief capabilities package UNLESS your firm is capable of performing the requested services without the limitations on subcontracting; in that case, the capabilities package is not required. THE SUBMITTAL PACKAGE MUST BE RECEIVED BY 3:00 PM ET ON FEBRUARY 11, 2020. Late responses will not be accepted. Upon review of industry responses, the Government will determine whether a set-aside acquisition is in the Government's best interest.

#### **\$99M A-E FUELS LEAK DETECTION INDEFINITE DELIVERY CONTRACT (IDC) - UNRESTRICTED SET-ASIDE (COMBINE)**

**SOL:** W9128F20R0007

**DUE:** Feb 21, 2020

**NAICS:** 541330. THIS UNRESTRICTED PROCUREMENT IS BASED UPON THE SUBMITTAL AND REVIEW OF SF 330 PACKAGES to procure the highly specialized services required to provide A-E services in support of USACE in executing the Defense Logistics Agency-Energy (DLA-E) Fuels Leak Detection Program at locations worldwide [i.e., both within and outside the Continental United States]. One \$99M IDIQ single-award task-order contract (SATOC) may result from this announcement. The Government will compete the unrestricted SATOC for fuels system leak detection services at all locations under DLA responsibility. Selection of A-E firms is not based upon competitive bidding procedures, but rather upon the professional qualifications necessary for the performance of the required services. The Government will only enter into negotiations with the firm considered most highly qualified. The contract will be awarded for a term not to exceed a total of five years. Services to be performed include a wide variety of fuel facilities leak detection testing, engineering, and consulting activities. Questions must be received no later than 2:00 PM CT on February 10, 2020, to allow time for a response. SF 330 SUBMITTALS ARE DUE BY 2:00 PM CT ON FEBRUARY 21, 2020.

#### **CADDO ASBESTOS REMOVAL DM PROJECT (COMBINE)**

**SOL:** 140F0220R0018

**DUE:** Feb 24, 2020

**NAICS:** 562910. THIS REQUIREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE, NAICS code 562910, for asbestos removal. Contractor shall provide all labor, equipment, tools, materials, transportation, management, supervision, and other items and services necessary, and shall plan, schedule, coordinate, and assure effectiveness of all performance-based asbestos abatement services performed in Buildings 703-D and E at Caddo Lake National Wildlife Refuge, 15600 Hwy 134, Karnack, Texas 75661 (Harrison County). Items to be removed are as follows: (a) Floor tile and mastic - Hallways, Large and small rooms. (b) Textured sheetrock ceiling material - South mechanical room, 2 restrooms and 3 small rooms. (c) TSI pipe insulation/fitting - south mechanical room. (d) TSI tank insulation mastic - South and North mechanical rooms. (e) HVAC vibration Isolators (2) - south mechanical room. (f) Fire doors (6) - restrooms, water heater closet, and 3 small room doors. (g) Roof expansion joint cap - roof between D and E buildings. Work must be done in accordance with applicable state and federal regulatory requirements. Duration of work should take no more than 30 working days from date of mobilization. All details of this requirement are posted on FedConnect at <https://www.fedconnect.net/FedConnect/?doc=140F0220R0018&agency=DOI>. RESPONSES ARE DUE BY 9:00 AM MT ON FEBRUARY 24, 2020.

#### **UNEXPLODED ORDINANCE - UXO CLEARANCE (SOL)**

**SOL:** W911SA-20-Q-3045

**DUE:** Feb 27, 2020

**NAICS:** 562910. THIS REQUIREMENT IS A SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB) SET-ASIDE, NAICS code 562910. This requirement for unexploded ordinance services at Fort McCoy, WI, is for an IDIQ contract with a period of performance from May 1, 2020, (or subsequent date) to April 30, 2021, with four one-year option periods

and a six-month option to extend services. A site visit is scheduled for 10:00 AM CT on Wednesday, February 12, 2020, at 2954 W. 14th Street, Fort McCoy, WI 54656. Telephone, written, or electronic requests for hard copies of the solicitation documentation are discouraged. Vendors interested in this solicitation should use the search interface at beta.sam -- <https://beta.sam.gov/search?index=opp> -- to check for amendments and associated documents. [NOTE: Beta.sam assigns a new URL EVERY TIME a notice is updated, so any future changes will not be reflected at the URL given here. **\$176.25M SMALL BUSINESS PREPLACED REMEDIAL ACTION CONTRACT (PRAC) MULTIPLE AWARD TASK ORDER CONTRACT (MATOC) UNDER THE MULTIPLE ENVIRONMENTAL GOVERNMENT ACQUISITION (MEGA) FOR OMAHA DISTRICT, NORTHWESTERN DIVISION (NWD) AND EXISTING CUSTOMERS (PRESOL)**

**SOL:** W9128F20R0038

**NAICS:** 562910. WHEN THIS SOLICITATION IS RELEASED ON OR ABOUT FEBRUARY 14, 2020, THIS PROCUREMENT WILL BE ISSUED AS A TOTAL SMALL BUSINESS SET-ASIDE as a part of the U.S. Army Corps of Engineers (USACE) Multiple Environmental Government Acquisition (MEGA) strategy. The Omaha District intends to issue the solicitation for a Pre-placed Remedial Action Contract (PRAC) for Environmental Remediation Services (ERS) with Military Munitions Response Program (MMRP), as an IDIQ Multiple-Award Task-Order Contract (MATOC) for the Omaha District, Northwestern Division, and existing customers throughout the contiguous United States, including Alaska, Hawaii, and the U.S. Territories. Proposals will be due on or about March 20, 2020, depending upon the actual issue date of the solicitation. This solicitation will have a target of 10 contract awards, although that number may change. The estimated shared capacity of the MATOC is \$176.25M. Task orders awarded under this MATOC may be firm-fixed-price or cost-reimbursement. The NAICS code for this acquisition is 562910 (Environmental Remediation Services), size standard 750 employees. Evaluation of proposals will be performed on a best-value, trade-off basis. The DERP projects will include Installation Restoration Program (IRP) activities on active Army, Navy, and Air Force installations and on Formerly Used Defense Sites (FUDS). Other services will be related to requirements for RCRA; CERCLA; EPA's Emerging Contaminants Program; the NCP; and the MMRP. Contractors shall have the capability and experience to perform or provide a wide range of remedial action services at hazardous waste sites. These efforts may include environmental removal actions, remedial actions, and other remediation activities as well as related activities necessary to ensure complete and successful remediation. Supporting activities include, but are not limited to sampling and laboratory analysis of soil, groundwater, surface water, air, and sediments; monitoring well, extraction well, and injection well installation, monitoring, and maintenance; supporting facilities for construction; work plan preparation; construction completion reports, as-built drawings, operation and maintenance/repair of remedial systems; monitoring reports and other documents as needed; demolition; and public relations activities. Actions may address both regulated and non-regulated toxic substances and emerging contaminants. Copies of this solicitation are available by internet access only. All solicitation documents will be posted to bet.SAM.gov.
