Z -- LEAD REMEDIATION AT RANGE (COMBINE)

SOL: 70Z02920Q8S320700

DUE: 080320

NAICS: 562910. THIS IS A SMALL BUSINESS SET-ASIDE under NAICS code 562910, size standard \$20.5M. This solicitation will result in a firm-fixed-price Construction Order awarded to the offeror with the Lowest Price Technically Acceptable. USCG Sector Houston-Galveston has a requirement to purchase Galveston range lead remediation to include the following requirements: Remove all granulated rubber from bullet trap, separate rubber media from lead and any other materials, and return bullet trap to recommended manufacture operational specifications utilizing cleaned serviceable rubber previously removed for cleaning. Any additional rubber needed will be provided for onsite by USCG SFO Galveston Armory. Replace any ballistic rubber blocks in need of replacement (bottom of trap) and reinstall rubber curtains to manufacturer specifications. Rubber blocks (durabloc) will be provided by SFO Galveston from materials already on hand. Rubber curtains (Natural Gum Rubber 70A 1/8" thickness X 48" wide) will be provided by the contractor. About 400 linear feet is needed to cover trap, including the header. Inspect the trap and compare to the manufactures specification, give a detailed listing of any defects to GMC Nicholas Hallmark. Contractor must remove, contain, and dispose of all hazardous material from the site caused from the cleaning

of the bullet trap plus additional rubber blocks (durabloc) previously replaced due to degradation, approximately 20 in total if not placed back into the bullet trap. All lead removed must be turned in for recycling and will be applied to the moneys owed to the contractor. Based on previous year figures, removal of over 4000 pounds of lead from the bullet trap is anticipated. The trap must be operational no later than two weeks from the start date. A "Removal of Lead Shot Plan" must be submitted by the contractor and approved by the Coast Guard PRIOR to the award of a contract. Date and place of delivery and acceptance is on or before September 3, 2020. Principle place of performance: U.S Coast Guard Sector Field Office Galveston (Range) 3000 Fort Point Rd. Galveston, TX 77550. QUOTES ARE DUE BY 4:00 PM ET ON AUGUST 3, 2020.

F -- OTT STORY ENVIRONMENTAL REMEDIATION (SRCSGT)

SOL: PANGLR-20-P-0000-004213

DUE: 080420

NAICS: 562910. This Sources Sought is for planning and market research purposes only and is intended to contribute to determining the method of procurement and feasible set-aside opportunities. The NAICS code is 562910, small business size standard \$22M. The U.S. Army Corps of Engineers Detroit District contemplates soliciting this requirement as a Trade-Off Best-Value Source Selection. The U.S. Army Corps of Engineers Detroit District is seeking firms that have the capability to provide environmental remediation services construction to implement system upgrade recommendations for the Ott Story Superfund Site Operable Unit #2 Groundwater Remedy in Muskegon (Dalton Township), Michigan. The scope includes installation of three new and eight replacement extraction wells; installation of 33 rehabilitation wells to support blended chemical heat treatments; installation of above ground weatherproof enclosures for new extraction well piping and flow measurement equipment; upgrade and replacement of existing manifold piping and appurtenances in below-grade extraction well vaults; replacement of system flow meters; installation of pressure gauges; upgrade of emergency backup power generation and control for the well network; upgrade of controls infrastructure to allow remote monitoring of the expanded well network; and monitoring well maintenance, abandonment and installation to optimize the existing well network. This work is anticipated to be performed in two phases by means of a construction contract with a base and one option. Contractor must have recent (last 10 years) specialized experience and technical competence in performing the types of environmental remediation work described above. A Health and Safety Plan will be required as well as HAZWOPER training for personnel working at the site. RELEASE OF THE SOLICITATION IS ANTICIPATED AROUND JANUARY 2021. Estimated cost of construction is between \$5M and \$10M. Responses received to this notice shall be in summary format and shall not exceed five pages, including the Sources Sought Information Questionnaire attached to the beta.sam notice. RESPONSES ARE DUE BY 2:00 PM ET ON AUGUST 4, 2020.
