

Federal Contract Opportunities Update

Notices for July 27-August 2, 2020

This update contains summaries of procurement notices issued between July 27-August 2, 2020 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

F -- ENVIRONMENTAL MANAGEMENT - LOS ALAMOS REQUEST FOR QUOTE (SOL)

SOL: 89303420QEM000001

DUE: 080520

NAICS: 562211. DOE's Office of Environmental Management-Los Alamos is examining options for processing and disposing of Contact Handled-Transuranic/Greater than Class C (CH-TRU/GTCC) currently stored at a contractor's facility. The objective of this purchase order is for to support the planning of the tasks necessary that would support and enable the removal of the waste currently stored in the Federal Waste Facility. This purchase order is also for the purpose of having the Contractor take and/or support ancillary actions required under the Agreed Orders and support regulatory meetings, interpretation of requirements, and other ancillary activities regarding the CH-TRU or GTCC waste. This purchase order does not cover (1) storage of the waste nor (2) execution of the removal of waste from the federal waste facility (e.g., for processing and disposal). This RFQ will result in a firm-fixed-price purchase order to obtain administrative support for the transportation and storage of nuclear waste. OFFERS ARE DUE BY 6:00 PM CT ON AUGUST 5, 2020.

F999--ASBESTOS SURVEY NEEDED FOR NEW MEXICO VA HEALTH CARE SYSTEM (SOL)

SOL: 36C25820Q0292

DUE: 080620

NAICS: 541620. THIS ACQUISITION IS SET ASIDE 100% FOR SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESSES (SDVOSB) under NAICS code 541620. The purpose of the asbestos inspection at the New Mexico Veterans Affairs Health Care System facilities is to identify, map the location of, and assess the condition of all asbestos-containing materials (ACM) as well as determine the likelihood of exposures and potential risks. Contractor will conduct an asbestos inspection of the buildings (a table lists 16 specified locations) comprising a total area of approximately 139,598 square feet. Although not specified on the list, building exteriors are to be included in this requirement, not including roofs. The objectives of this project are to (1) Develop an up-to-date asbestos database based in Microsoft Excel that summarizes all positive ACM. Combine new data with the existing database. (2) Provide an Asbestos Report and Operation & Maintenance Plan. (3) Develop editable PDF drawings of asbestos samples and locations. (4) Label assessable thermal-system insulation and surfacing materials. OFFERS ARE DUE BY 3:00 PM PT ON AUGUST 6, 2020.

F -- SOURCES SOUGHT NOTICE / REQUEST FOR INFORMATION _U (SRCSGT)

SOL: 68HE0420R0035

DUE: 081020

NAICS: 562910. U.S. EPA Region 4 is issuing this request for information as a means of conducting market research to identify SBA-CERTIFIED 8(A) SMALL BUSINESS CONCERNS having an interest in and the resources to support this requirement for a full-service equipment maintenance, training, and logistics contractor for the regional hazardous materials response equipment. The details of this solicitation, including a draft Performance Work Statement, are available only on FedConnect at

<https://www.fedconnect.net/FedConnect/?doc=68HE0420R0035&agency=EPA>. The result of this market research will contribute to determining the method of procurement. The applicable NAICS code is 562910. It is the Government's intent to set the requirement aside for certified 8(a) small business concerns. Parties interested in the Emergency Response Training and Equipment Management (ERTEM) contract are invited to submit a capabilities statement in response to this notice. RESPONSES ARE DUE BY 5:00 PM ET ON AUGUST 10, 2020. Release of the solicitation is anticipated in October 2020.

F -- UNEXPLODED ORDNANCE (UXO) CLEARANCE AT FORT MCCOY, WI (SOL)

SOL: W911SA-21-Q-3008

DUE: 082720

NAICS: 562910. THIS SOLICITATION IS SET ASIDE FOR SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESSES (SDVOSB). The requirement is for UXO services at Fort McCoy, WI. To expand safe training area availability for its military training customer base, Fort McCoy requires an avenue to provide UXO clearance for land use. Contractor shall provide surface and subsurface operational range clearance to include explosive ordnance disposal and range scrap and residue inspection, certification, removal, and disposal in accordance with applicable DoD, DA, and Fort McCoy guidance. Majority of the locations have unimproved lands, high noise levels, extremes in weather conditions (temperatures, storms and rain), dust and dirt that require the following of established safety procedures and wearing of protective equipment, such as safety boots. Work sites are remote with limited if any permanent latrine facilities. A single firm-fixed-price IDIQ contract will be awarded for this acquisition. Period of performance is 1 February 2021 (or subsequent date) to 31 March 2022 with four one-year options and a 6-month option to extend services. A site visit will be held at 10:00 AM CT on Thursday, August 6, 2020, at 2954 W. 14th Street, Fort McCoy, WI 54656. Questions will not be answered at the site visit. All questions must be furnished to the Contract Specialist in writing by 10:00 AM CT on August 12, 2020, to ensure a timely response. OFFERS ARE DUE BY 10:00 AM CT ON AUGUST 27, 2020.

MEGA UR ARCHITECT-ENGINEER SERVICES MATOC (SNOTE)

SOL: W912DQ20R3014

DUE: 090120

NAICS: 541330. THIS REQUEST FOR SUBMITTAL OF SF330 PACKAGES IS UNRESTRICTED AND OPEN TO ALL BUSINESSES, regardless of size. The work will be located within EPA Region 2 and the NWD boundaries (including the USACE Kansas City, Omaha, and Seattle Districts), with the majority of the work in EPA Region 2. In support of this effort, the Government intends to award contracts to five firms that will share \$225M in total contract capacity. Due to the nature of the requirements, projects are typically completed in phases such as preliminary assessment, remedial investigation, feasibility study, design, engineering during construction, post-construction long-term operations or monitoring, and post-construction optimization or modifications to existing systems and remedies. The period of performance for each contract will include a base period of five years and a 2-year option period. Task orders will be issued as the need arises during the contract period. Task order assignments will be determined with consideration of each firms specialized experience and technical competence, professional qualifications, past performance, knowledge of locality, and capacity. These task orders may be awarded as either fixed-price or cost-plus-fixed-fee type orders. The maximum award of any task order shall not exceed \$20M. SF330 PACKAGES ARE DUE BY 2:00 PM CT ON SEPTEMBER 1, 2020.

Z -- Z - SITE R FACILITY INTEGRITY AND LIFE SAFETY (FILS PHASE 3) (PRESOL)

SOL: HQ003420R0027

NAICS: 562910. This pre-solicitation synopsis is for informational and market research purposes only. THIS REQUIREMENT WILL BE OPEN TO ALL RESPONSIBLE LARGE AND SMALL BUSINESS OFFERORS with the necessary capabilities, active SECRET FCL, access to necessary cleared personnel, and adequate bonding capacity to submit offers. This project is the third phase of a program to clean up Site R roof areas and cavities from asbestos contamination and make necessary repairs and improvements for Facility Integrity and Life Safety (FILS Phase 3). The first phase of this program is complete. The second phase is underway. The scope of work for this third phase is intended to pick up where the previous phases left off. Generally the work will include Site R wings A & B (a.k.a. "buildings") and some other areas that were left undone from the previous phases. The successful offeror must supply all design, engineering, labor, materials, supplies, equipment, and disposal needed to accomplish Statement of Work requirements. The estimated magnitude of construction is between \$10M and \$25M. The anticipated contract type is firm-fixed-price. Most work is priced on a lump-sum basis. The NAICS code that represents the majority of the work is 562910 (Remediation Services). Work of this nature and character can also be accomplished by NAICS code 236220 (Commercial and Institutional Building Construction) contractors with the necessary capabilities to manage remediation work and associated engineering, design, and construction. The project is located at a secure facility in Adams County, PA (Site R). Offerors must have an active SECRET FCL and the capability for SECRET information/material safeguarding at the time of proposal submission. RELEASE OF THE SOLICITATION IS ANTICIPATED IN EARLY AUGUST 2020 with proposals due 30 days later. A mandatory pre-proposal conference and site walk is planned approximately 1 week after solicitation release. Potential offerors must attend the pre-proposal conference and site walk to obtain the complete requirement package and associated controlled unclassified information necessary to prepare and submit the proposal. An award is anticipated on or before September 30, 2020, subject to availability of sufficient funds.

R -- WETLANDS AQUATIC RESOURCES TECHNICAL SUPPORT (PRESOL)

SOL: 68HERC20R0041

NAICS: 541620. When the solicitation is released, EPA INTENDS TO SET THIS ACTION ASIDE 100% FOR SMALL BUSINESSES (e.g., HUBZone, 8(a), woman-owned, small-disadvantaged, and/or service-disabled veteran-owned concerns). The applicable NAICS code is 541620 (Environmental Consulting Services), size standard \$16.5M. EPA is seeking technical expertise for the review of proposed activities requiring authorization under section 404 of the CWA. Common activities under review include transportation infrastructure development, residential and commercial developments, and mineral and coal mines and facilities. Based on the circumstances of the proposed project and impacts, review of these projects may focus on the identification of jurisdictional waters on site; direct impacts to aquatic resources; effects on the physical, chemical, and biological integrity of downstream waters; and/or secondary and cumulative environmental impacts. In addition to the review of specific project materials, EPA also has a role in advancing the science supporting the 404 program and assisting in efficient implementation of the 404 program. In this capacity, EPA may review, for example, permitting practices to better understand direct, secondary and cumulative impacts associated with categories of projects; or review the ecological condition of past mitigation projects. Such reviews may lead to the development of technical manuals, peer reviewed publications, training, and/or work with USACE to develop or revise regulations or guidance documents. EPA has need for support in the review process and/or development of technical

manuals, peer reviewed publications, trainings, and/or work with the Corps to develop or revise regulations or guidance documents. To support these project-specific and general policy reviews, EPA is seeking technical assessments of site hydrology, construction, development, mine design and operation, wastewater treatment practices, compensatory mitigation practices, and watershed condition and projected change in condition. EPA is also seeking site assessment expertise for field investigation and reporting for aquatic resource mapping, structural and functional characteristics, and relationships to other waters and ecological resources. EPA has need for support in evaluating project costs or other economic costs and benefits, and in the development and delivery of training on any of the aforementioned topics. An IDIQ single-award contract is anticipated with firm-fixed-price and time-and-materials task orders within an ordering period of 5 years (about 26,600 hours for the contract ordering period). Monitor FedConnect at

<https://www.fedconnect.net/FedConnect/?doc=68HERC20R0041&agency=EPA> for the solicitation and any updates. THE ANTICIPATED SOLICITATION RELEASE DATE IS ON OR ABOUT AUGUST 12, 2020, and the close date shall be approximately 30 days thereafter.
