

# Federal Contract Opportunities Update

Notices for June 8-14, 2020

This update contains summaries of procurement notices issued between June 8-14, 2020 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

## **F -- ENVIRONMENTAL COMPLIANCE & CONSERVATION SERVICES (ECCS MAIDIQ) (SRCSGT)**

**SOL:** W9124J-20-R-EE15

**DUE:** 061720

**NAICS:** 541620. This sources sought notice is issued as market research to evaluate the interest and capabilities of different economic segments of the environmental industry. No solicitation is available at this time. The desired services shall support a wide range of environmental compliance and conservation activities at various installations/locations throughout the contiguous United States and Puerto Rico, Hawaii, and Alaska. This performance-based multiple-award IDIQ contract will be available to support the broad spectrum of the Army's Environmental Compliance and Conservation Strategy. See the Draft PWS for a full description of services. RESPONSES ARE DUE BY 4:00 PM CT ON JUNE 17, 2020.

## **F -- PROJECT MANAGEMENT, ENVIRONMENTAL REMEDIATION SYSTEM OPERATION AND MAINTENANCE (O&M), MONITORING AND REPORTING FOR SE REGION AND DFSP VERONA (SRCSGT)**

**SOL:** SPE60320R5X06

**DUE:** 062620

**NAICS:** 562910. This sources sought is issued solely for informational planning purposes and market research under NAICS code 562910, small business size standard 750 employees. The Government is interested in responses from the following small business categories: small, small disadvantaged, 8(a), HUBZone, SDVOSB, and woman-owned small business concerns. DLA Energy is currently seeking small businesses that can provide environmental assessment, long-term management, and emergency response services for DLA Installation Management for Energy Environmental Division (DM-FEE). DM-FEE implements remedies as needed to protect human health and the environment. The goal of this effort is advancement of restoration sites to Site Closure in the most cost-effective manner. This notice is seeking capable businesses that are interested in performing site closures at the following Defense Fuel Supply Point (DFSP) and Fuel Logistics Center locations: DFSP Charleston, Fort Hood, DFSP Hunter, FLC Jacksonville, DFSP Tampa, and DFSP Verona. The Government anticipates one firm-fixed-price contract per location. Specific requirements will be provided in the Performance Work Statement (PWS), which will be published when the solicitation is issued. The solicitation for this requirement will be posted on BETA SAM under a different notice number. RESPONSES (5 pages max) ARE DUE BY 3:00 PM ET ON JUNE 26, 2020. DLA Energy is not seeking proposals at this time and will not accept unsolicited proposals.

## **Z -- REGION1\_ASBESTOS\_TESTING\_AND\_ABATEMENT (SOL)**

**SOL:** Region1\_Asbestos\_Testing\_and\_Abatement

**DUE:** 062620

**NAICS:** 562910. THIS PROCUREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 562910. FEMA Region 1 is issuing a formal RFP for asbestos testing and abatement at the Federal Regional Center (FRC) located in Maynard, Mass. This location contains areas where materials used in construction are unknown and might contain asbestos, while other areas are already known to contain asbestos; therefore, this mitigation project will be achieved in two phases requiring two estimates. Areas for testing in Phase 1 sampling and analysis include Room 204 - Old floor mastic under drop-floor; Room 209 - White material used on upper half of the walls; and Room 210 - White material used on upper half of the walls. Areas for Phase 2 abatement include Room 207 floor area; Room 209 lower half of wall covering; Room 210 lower half of wall covering; and any areas identified in Phase 1 as containing asbestos. Return walls to useable office space condition (i.e., sheet rock & paint). A MANDATORY site visit will be conducted at the FRC on Thursday, June 18, 2020, at 1:00 PM ET. Registration is required. The FRC is located at 63 Old Marlboro Road in Maynard, MA 01754. PROPOSALS ARE DUE BY 5:00 PM ET ON FRIDAY, JUNE 26, 2020.

#### **DECOMMISSIONING AND DISPOSAL (D&D) ACTIVITIES FOR THE SM-1A REACTOR FACILITY LOCATED AT FORT GREELY, AK (SRCSGT)**

**SOL:** W912DR20R0045

**DUE:** 070920

**NAICS:** 562910. This sources sought notice constitutes market research to enable the U.S. Army Corps of Engineers (USACE), Baltimore District (NAB) to evaluate the interest and capabilities of appropriate sources to meet its requirement for D&D of a reactor facility. The NAICS code is 562910 (Environmental Remediation Services), size standard 750 employees. The anticipated contract is estimated between \$150M and \$200M. Responses to this notice will be used for planning purposes for upcoming procurements. The requirement is for a broad range of planning, engineering design, construction, demolition, and support activities related to the decommissioning and disposal of the deactivated SM-1A Nuclear Power Plant and Reactor Facilities at Fort Greely, AK. SM-1A is currently co-located in the same building with Doyon Utilities. Services shall include, but are not limited to: planning, design, studies, reports, permits, investigations, process evaluations, facility evaluations, analysis, compliance, construction, demolition, decommissioning, disposal activities and required training. All Interested Offerors should respond to this survey via email. When a solicitation is issued, firms will be selected for negotiation based on demonstrated competence and qualifications for all of the required work. The Government is still evaluating the type of contract that might be issued. The contract type will likely include some Cost Reimbursable elements and possibly some firm-fixed-price elements. Responses to this notice shall be limited to 10 pages front and back in 11 point Times New Roman font. Interested parties who consider themselves qualified to perform the requirements are invited to respond to this sources sought notice. RESPONSES ARE DUE BY 11:00 AM ET ON JULY 9, 2020.

**Y -- ST. LOUIS RIVER AOC AZCON SLIP SEDIMENT REMEDIATION (SOL)**

**SOL:** W911XK20B0014

**DUE:** 071020

**NAICS:** 562910. THIS PROCUREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 562910. Contractor is to provide all work, materials, equipment, labor, supervision, management, and administration to construct a remedial cap in Azcon/Duluth Seaway Port Authority (DSPA) slip in the Duluth-Superior Harbor, St. Louis, MN. This slip has areas with sediment concentrations for contaminants of concern above the respective cleanup levels. Contractor is to mobilize to the site in Duluth-Superior Harbor and install a silt curtain; dredge the slip with a mechanical plant and treat sediment in scows at the slip with 5% Portland cement; transport to Erie Pier for offload into trucks; and dispose of at local landfill. Place a cap consisting of two layers, Layer A and Armor Stone. Place Layer A cap, which consists of dredged material from Duluth Anchorage Area navigation channel, and then place the Armor stone. Ongoing surveys by the Government will be done after each construction feature is installed to demobilize. Remedial footprint is approximately 2.8 acres. OFFERS ARE DUE BY 2:00 PM ET ON JULY 10, 2020.

**F -- PANARAD DISPOSAL (COMBINE)**

**SOL:** FA860120R0033

**DUE:** 071120

**NAICS:** 562211. THIS SOLICITATION IS 100% SET ASIDE FOR SMALL BUSINESS under NAICS code 562211, size standard \$41.5M. The Panasonic Panarad Thermoluminescent Dosimeter (TLD) Irradiator is a system that consists of a gamma radiation source (cesium-137), shielding material, a channel inside the shield in which to position and irradiate the TLD, a mechanism by which to move the TLD from its tray, an attenuator, a control panel, and safety interlocks. All components are inside a self-contained unit, constructed of sheet metal panels for safety. The radioactive source used in the irradiator systems meets special form encapsulation criteria and is permanently mounted inside a lead shield that completely surrounds the radioactive source. The AF organization that is possession of four of these irradiator systems no longer requires their use and wishes to have them either disposed of or recycled for future use. The performance period ends no later than 120 days after award date or 30 days after acceptance and certification of the contractor-submitted electronic invoice through Wide Area Workflow, whichever occurs earlier. A proposal will receive a rating of Technically Acceptable if it meets all of the requirements of the PWS including the following: 1. What is your planned method for the final disposition of the irradiator systems? i.e., disposal in a low-level radioactive waste disposal facility or recycled for future use? Describe plan. 2. Before award the contractor shall electronically submit a valid US NRC or current Agreement State license and any renewal documentation, if expired, to the Air Force Radioactive Recycling and Disposal office order to meet minimum government requirements and be eligible for award. PROPOSALS MUST BE RECEIVED BY 12:00 NOON ET ON JULY 11, 2020.

**F -- \$60M SMALL BUSINESS ENVIRONMENTAL CONSULTING SERVICES (ECS) MULTIPLE AWARD TASK ORDER CONTRACT (MATOC) UNDER THE MULTIPLE ENVIRONMENTAL GOVERNMENT ACQUISITION (MEGA) FOR OMAHA DISTRICT, NORTHWESTERN DIVISION (NWD) AND EXISTING CUSTOMERS (SOL)**

**SOL:** W9128F-20-R-0053

**DUE:** 071320

**NAICS:** 541620. THIS PROCUREMENT IS ISSUED AS A SMALL BUSINESS SET-ASIDE under NAICS Code 541620 for environmental consulting services in support of the USACE Northwestern Division, Omaha District and its existing customers. The intent is to award up to three IDIQ contracts under this multiple-award task-order contracts (MATOC) solicitation as

part of the USACE multiple environmental government acquisition (MEGA) strategy. Contracts will have a basic ordering period of three years plus one two-year option period or until the \$60 million contract limit is reached, whichever comes first. The contracts will support work for environmental compliance; DoD Sustainable Range Program; natural resource management; Environmental Support for Others Program; U.S. EPA; control of environmental contamination from pollutants, toxic substances, radioactive materials, and hazardous materials; restoration; natural, historical and cultural resource management; environmental stewardship; environmental sustainability; and all other environmental-related regulatory programs. There is no limit on the number of task orders that might be executed against the MATOC. The estimated maximum value for all orders issued against this MATOC is \$60M. OFFERS ARE DUE BY 2:00 PM CT ON JULY 13, 2020.

#### **R -- ENVIRONMENTAL REMEDIATION DREDGING OF TIDAL FLATS AND AN OUTFALL DRAINAGE CHANNEL STRATFORD ARMY ENGINE PLANT (SNOTE)**

**SOL:** NA

**DUE:** 071320

**NAICS:** 562910. The U.S. Army Corps of Engineers, New England District (CENAE) is issuing this Special Notice for Environmental Remediation Dredging of tidal flats and an outfall drainage channel in the Housatonic River adjacent to the Stratford Army Engine Plant, Stratford, Connecticut. NO SOLICITATION IS AVAILABLE AT THIS TIME. The purpose of this announcement is to solicit input from industry as to the construction means and methods as well as anticipated construction durations for the proposed work. The NAICS code is 562910 (750 employees). About 140,000 cubic yards (cy) of material needs to be removed from the tidal flats and an additional 8,000 cy from the drainage channel. Dredged material must be dewatered, solidified with cementitious materials for purposes of handling and stockpiling, and placed on site for future beneficial reuse. A small portion of this material requires off-site disposal at RCRA D (solid waste) and RCRA C/TSCA-approved landfills. Dredged material will require segregation during dredging. The tidal flats will require backfilling with sand material and restoration of roughly 2 acres of salt marsh. CENAE plans to award this project using a Design-Bid-Build model. The RFP will include (100%) design. Construction is expected to take 18 months, with in-water work beginning on or around July 1, 2021. RELEASE OF THE RFP IS ANTICIPATED IN OR AROUND NOVEMBER 2020. The present notice contains a list of questions for industry about this proposed project and its potential issues. RESPONSES ARE DUE BY 3:00 PM ET ON JULY 13, 2020.

#### **S -- HAZARDOUS WASTE DISPOSAL SERVICES / MCLB ALBANY, FT BENNING & MOODY AFB REGIONAL 8(A) (COMBINE)**

**SOL:** SP450020R0021

**DUE:** 071320

**NAICS:** 562211. THIS ACQUISITION IS RESTRICTED TO ELIGIBLE 8(A) PARTICIPANTS under NAICS code 562211, size standard \$41.5M. Work will consist of the removal, transportation, and disposal of government-generated hazardous and non-hazardous wastes located on military installations in and around Albany/Benning/Moody, Georgia. The contract is anticipated to have a 30-month base period from starting no later than 1 September 2020 and a 30-month option period. See Attachment 3 for a list of pickup locations. The Government intends to evaluate offers and award a contract without discussions with offerors. PROPOSALS ARE DUE BY 3:00 PM ET ON JULY 13, 2020.
