SAFE HOMES RISK ASSESSMENT - GRAND ISLE, LA (SOL)

SOL: 70Z029-20-Q-P32009

DUE: Mar 20, 2020

NAICS: 541620. THIS ACQUISITION IS SMALL BUSINESS SET ASIDE under NAICS code 541620. The contract type will be a firm-fixed-price purchase order. Provide all professional services necessary to conduct a thorough risk assessment in accordance with EPA and HUD guidelines for 13 housing units in Grand Isle, LA (70358) for asbestos-containing materials (ACM), lead-based paint (LBP) and radon. The risk assessments must include an on-site investigation to determine the presence, type, severity, and location of LBP, ACM, and radon hazards (including lead hazards in paint, dust, and soil) in addition to providing suggested ways to control them. The risk assessments shall be legally performed only by a certified risk assessor. The risk assessment shall include the home interior and exterior areas out to the drip line of the home. A separate risk assessment shall similarly assess child play/high traffic areas. All samples will be collected following appropriate methods, documented using a chain of custody, and analyzed by appropriately accredited laboratories in accordance with federal/state requirements and industry standards. Total square footage for all units is roughly 7000 sq ft. OFFERS ARE DUE VIA EMAIL BY 3:30 PM CT ON MARCH 20, 2020.

SAFE HOMES RISK ASSESSMENT - PORT LAVACA, TX (COMBINE)

SOL: 70Z029-20-Q-P32010

SOL: Mar 20, 2020

NAICS: 541620. THIS ACQUISITION IS SMALL BUSINESS SET ASIDE. The NAICS code is 541620. The contract type will be a firm-fixed-price purchase order. The Government will award a contract resulting from this RFQ to the responsible offeror whose offer conforming to the RFQ is the Lowest Price Technically Acceptable (LPTA). The lowest price quote will be evaluated on technical acceptability. If it is found to be acceptable, an award will be made. If it is found to be unacceptable, the next lowest price will be evaluated. This process will continue until a technically acceptable offer is identified; not all offers will be evaluated. Provide all professional services necessary to conduct a thorough risk assessment in accordance with EPA and HUD guidelines for four housing units in Port Lavaca, Texas, for asbestos-containing materials (ACM), lead-based paint (LBP) and radon. The risk assessments must include an on-site investigation to determine the presence, type, severity, and location of LBP, ACM, and radon hazards (including lead hazards in paint, dust, and soil) in addition to providing suggested ways to control them. The risk assessments shall be legally performed only by a certified risk assessor. The risk assessment shall include the home interior and exterior areas out to the drip line of the home. A separate risk assessment shall similarly assess child play / high traffic areas. All samples will be collected following appropriate methods, documented using a chain of custody, and analyzed by appropriately accredited laboratories in accordance with federal/state requirements and industry standards. Period of Performance will be 1-10 April 2020. Total square footage for all units is roughly 2000 sq ft. QUOTES ARE DUE VIA EMAIL BY 3:30 PM CT ON MARCH 20, 2020.

CONTAMINATED SOIL REMOVAL - ASPEN WAY PARKING LOT, BAFB (COMBINE)

SOL: F1K3DA0045AW01

DUE: Mar 23, 2020

NAICS: 562910. THIS REQUIREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE, NAICS code 562910. The 460th Civil Engineer Squadron (460 CES) has a requirement to remove diesel-impacted soil and perform analytical sampling of native soil around the

excavated underground storage tank (UST) to confirm full removal of impacted soils discovered at the Aspen Way Parking Lot on Buckley Air Force Base (BAFB). Specifically, the project will require the contractor to provide all personnel, labor, equipment, and supplies necessary to remove and dispose of impacted soil, confirmation sampling and analysis of native soil (around the excavated soil), and stabilization of all disturbed soil at BAFB, as stated in the statement of work. Period of performance will be 6-24 April 2020. All work shall be performed in accordance with State of Colorado Petroleum Storage Tank Regulations and the OPS Remediation Program, Petroleum Program Guidelines, available at

<http://www.coworkforce.gov/petroleumguidance/#Release%20Response/Site%20Characterization/Site%20Characterization.htm>. The quantity of impacted soil is estimated as 50 cubic yards below tank. OFFERS ARE DUE BY 2:00 PM MT ON MARCH 23, 2020.

DRK - EMERGENCY SPILL RESPONSE (SOL)

SOL: W911KF-20-Q-0019

DUE: Apr 11, 2020

NAICS: 562112. THIS ACQUISITION IS UNRESTRICTED. The general scope of this contract involves the response to hazardous materials/waste spill/release on the Anniston Army Depot (ANAD) on an as-needed basis. The spill/release can vary from petroleum products to a variety of acids and bases. Time is of the essence. Contractor shall provide the described services 24 hours per day, 7 days per week. In the event ANAD personnel are on site the Contractor will augment ANAD personnel and equipment. Regardless of the time, nature, or quantity of the spill/release, Contractor shall respond with personnel that are knowledgeable and capable of any means necessary to mitigate the spill/release. This would include the donning of any level of Personal Protective Equipment (PPE). It would also include mitigation of drain lines and waterways should the release progress to Waters of the State. The spill/release may occur indoors

or outdoors. Cleanup of the spill/release will be 100% and will only be approved as complete by ANAD Environmental personnel. Once the contract is awarded, Contractor shall immediately complete the necessary paperwork and requirements to obtain badges for access to ANAD so to not incur any delays upon arrival. In addition, upon response to any spill/release at ANAD, Contractor shall respond with the appropriate spill response equipment, which may include but not be limited to a vacuum tanker owned and operated by the Contractor with a minimum capacity of 3000 gallons and capable of collecting liquids and solids, neutralizing agents for chemicals, the appropriate absorbent materials for acids, bases or petroleum products, as well as drain covers and containment equipment, and booms and other materials for spills/releases to land or water. Contractor shall respond with any and all materials and equipment necessary to completely mitigate a spill or release of any nature. Spills/Releases are not uniform or specific in nature. Each occurrence will be unique. For the purposes of providing an estimate for this requirement, prices should be based on an hourly rate to mitigate a spill of 500 gallons of sulfuric acid onto the ground. OFFERS ARE DUE BY OR BEFORE 10:00 AM CT ON APRIL 11, 2020.

F108--CONSTRUCTION - LONG BEACH VA - PROJECT #600-20-118 ASBESTOS ABATEMENT CONSTRUCTION (PRESOL)

SOL: 36C25820B0009

NAICS: 562910. When the solicitation is released, THIS REQUIREMENT WILL BE A SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB) SET-ASIDE for construction services to provide asbestos abatement services and polish and seal the concrete floors. All work shall be conducted at the Veterans Health Administration (VHA), Long Beach Healthcare System, 5901 East 7th Street, Long Beach, CA 90822. All work is to be performed in Building 1, rooms B-015 and B-016. This requirement is classified under construction as it calls for the alteration of real property. The VHA Long Beach Healthcare System (Station Code - 600) requires construction services to resolve an asbestos issue in a storage area shared by Logistics Service and Pharmacy Service. The overall footprint of the area is approximately 2,548 square feet. Numerous areas within the room have exposed asbestos that is noticeable due to absent floor tiles. Other areas of the room have battered floor tiles that show signs of exposed asbestos. Per the U.S. Department of Labor, OSHA, 1926.1101(c)(1), The employer shall ensure that no employee is exposed to an airborne concentration of asbestos in excess of 0.1 fiber per cubic centimeter of air as an 8-hour time-weighted average. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR ABOUT MARCH 20, 2020.

CALIFORNIA ENVIRONMENTAL SERVICES - DFSP NORWALK; DFSP OZOL; AND DFSP SAN PEDRO (PRESOL)

SOL: SPE60320R0515

NAICS: 562910. DLA-ENERGY ANTICIPATES ISSUING AN RFP ON UNRESTRICTED BASIS WITHIN 60 DAYS OF MARCH 9, 2020, under NAICS 562910. This notice is a follow-on to sources sought notice SPE60319R5X11. This pre-solicitation notice is for the upcoming solicitation for environmental remediation, environmental compliance, and environmental facility maintenance services at three California facilities: DFSP Norwalk, DFSP Ozol, and DFSP San Pedro. DLA Installation Management for Energy Environmental Division (DM-FEE) is responsible for funding, supporting and overseeing execution of DLA Energy's environmental requirements. DM-FEE implements remedies as needed to protect human health and the environment. Site closure is the primary goal of this effort while restoring and maintaining the facility in a cost-effective manner. Period of performance has a 4-year duration, September 1, 2020, through August 31, 2024, plus a 6-month extension provision, September 1, 2024, through February 28, 2025. The Government anticipates awarding three firm-fixed-price contracts, one for each location.
