

Federal Contract Opportunities Update

Notices for May 18-24, 2020

This update contains summaries of procurement notices issued between May 18-24, 2020 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

99 -- LEAD & ASBESTOS REMEDIATION [SOURCES SOUGHT NOTICE FOR LEAD, CHROMIUM, AND ASBESTOS REMEDIATION] (SRCSGT)

SOL: 70Z08520RP3079500

DUE: 052720

NAICS: 562910. The U.S. Coast Guard is issuing a new sources sought to capture any market changes because of the time that has elapsed since the posting of the initial sources sought in March 2019. The USCG is interested in awarding an IDIQ multiple-award task-order contract (MATOC) for lead and asbestos remediation from USCG cutters and barges. All work will be performed at each vessel's homeport. The MATOC will contain a base year and four one-year option periods for a maximum of five years. It is the USCG's intention to award six contracts from the MATOC. Awardees of these contracts will be given a fair opportunity to compete against each other for task orders. For each year of this 5-year contract, the USCG anticipates competing among the awardees three to five remediation task orders and up to 20 assessment and/or sampling task orders. RESPONSES ARE DUE BY 4:00 PM ET ON MAY 27, 2020.

REGIONAL ASBESTOS TESTING AND REMOVAL (SRCSGT) SOL:ACQR5793501

DUE: 052820

NAICS: 562910. No solicitation is available at this time. The Naval Facilities Engineering Command (NAVFAC) Washington is performing this market research to aid in the development of its acquisition approach. NAVFAC Washington is seeking to identify potential SBA-certified small business concerns, woman-owned small businesses, service-disabled veteran-owned small businesses, HUBZone small businesses, and 8(a) small disadvantaged business firms with the capacity, experience and interest in providing regional asbestos test and removal services to be performed in the NAVFAC Washington's Area of Responsibility (AOR): Public Works Department Washington (PWD Washington), PWD South Potomac, PWD Patuxent River and outlying areas, PWD Annapolis and outlying areas, Resident Officer in Charge of Construction, Quantico, VA (ROICC Quantico), and PWD Bethesda. The requirement is to provide testing and removal services for asbestos, lead and mold. Contractor shall furnish all labor, supplies, materials, equipment, transportation, facilities, utilities, testing, inspections, permits, paperwork, notification, supervision and management (unless otherwise specified) required to provide services not limited to abatement, encapsulation, removal and disposal of asbestos-containing material, removal of lead paint, disposal of lead-containing material, remediation of mold, and incidental work. The NAICS code for this procurement is 561910 (Remediation Services), size standard \$22M. NAVFAC Washington is seeking potential sources for IDIQ-type non-recurring work with a performance period of one 12-month base and up to two 12-month options. THE COMPLETED QUESTIONNAIRE AND CAPABILITIES STATEMENT ARE DUE BY 11:00 AM ET ON THURSDAY, MAY 28, 2020.

ALASKA - SYSTEMS O&M AND REMEDIATION (SOL)

SOL: SPE603-20-R-0509

DUE: 062220

NAICS: 541620. THIS PROCUREMENT IS 100% SET ASIDE FOR SMALL BUSINESS under NAICS code 562910 size standards. Defense Logistics Agency-Energy (DLA-Energy) is issuing this RFP for performance of environmental remediation services in Alaska at Eielson AFB and former Defense Fuel Supply Point (DFSP) Whittier. The synopsis for this requirement was posted in FedBizOps under SPE603-18-R-5X22 in February 2020. The requirements for Eielson AFB include O&M of a remedial system at Moose Creek and environmental assessment and remediation services, including a pipeline that extends from the Flint Hills refinery in North Pole to Eielson AFB. The requirements for DFSP Whittier include groundwater sampling and O&M of the remediation system. Period of performance is a four-year base (Sep 1, 2020 to Aug 31, 2024). Best-value lowest price technically acceptable procedures will be used to evaluate offers. DLA-Energy will hold a telephonic pre-proposal conference on May 29, 2020, 10:00 AM Alaska time. To attend, register via email before 3:00 PM ET on May 27, 2020. PROPOSALS ARE DUE BY 1:00 PM ET ON JUNE 22, 2020.

F -- SAFE DRINKING WATER ACT (SDWA) COMPLIANCE SAMPLING & ANALYSIS (SRCSGT)

SOL: KAFBSDWA2020

DUE: 060220

NAICS: 541380. This Sources Sought Notice is issued as market research to identify potential sources capable of performing the desired services under NAICS code 541380, size standard \$16.5M. No solicitation is available at this time. Information received as a result of this notice will be used for planning purposes only. The 377 Mission Support Group Contracting Division (MSG/PK) at Kirtland AFB, NM, seeks sources with the capability and interest to provide laboratory services, including the furnishing of all materials, equipment, supplies, facilities, utilities, supervision, and quality control required for the analysis and reporting of results regarding samples collected by the Bioenvironmental Engineering Flight. Contractor shall also provide transportation, delivery, and pickup of water samples, as well as unused or prepared sample bottles and coolers provided to the Government. All interested respondents capable of providing the required services are invited to respond electronically with a statement of capabilities that demonstrates the ability to meet the requirements in the Performance Work Statement. The Air Force reserves the right to consider a small business set-aside for any subsequent acquisition based upon responses to this notice. CAPABILITIES STATEMENTS ARE DUE BY 3:00 PM MT ON JUNE 2, 2020.

F -- DRILLING IDIQ IN MASSACHUSETTS AND RHODE ISLAND (SOL)

SOL: 140G0120Q0137

DUE: 060520

NAICS: 213115. THIS RFQ IS SET ASIDE FOR SMALL BUSINESS under NAICS code 213115, size standard \$8M. The Department of the Interior, U.S. Geological Survey, New England Water Science Center has a requirement for drilling services, using both direct-push and auger methods, to collect aquifer sediment cores and install monitoring wells in coastal southeastern Massachusetts and Rhode Island. Direct-push and auger drilling are suitable drilling methods for much of this work because the aquifers or parts of aquifers of greatest interest are unconsolidated sandy deposits, depths of investigation are mostly less than 100 feet below land surface, and minimal use of drilling fluids (potable water) is strongly preferred. The work will be part of several studies by the USGS of the hydrogeology and groundwater resources in unconsolidated sandy glacial aquifers and associated alluvium. Because the location, scope, and timing of the studies are uncertain, one or more blanket purchase agreements (BPAs) will be used to obtain the services. The BPA period of performance will be 3 years or 5 years after date of award. OFFERS ARE DUE BY 4:30 PM ET ON JUNE 5, 2020. Monitor FedConnect for updates at

<https://www.fedconnect.net/FedConnect/?doc=140G0120Q0137&agency=DOI>.

F -- REMEDIATE ASBESTOS TILE (SOL)

SOL: 140P4320Q0024

DUE: 060520

NAICS: 562910. THIS PROCUREMENT IS A TOTAL SMALL BUSINESS SET-ASIDE under NAICS code 562910 (Remediation Services), size standard \$22M. The National Park Service desires to have the asbestos tile original to the Visitor Center, Saratoga National Historical Park, Stillwater, NY, properly removed and disposed of in accordance with New York State regulations. The amount of carpet is approximately 2,500 square feet. Quoters should measure during the site visit, or use scaled drawings to verify. Contractor will provide all necessary personnel and equipment for removal and disposal of all carpet tile and asbestos tile in areas called out on drawings. Contractor is responsible for the removal or relocation of all office furniture or other movable objects in the areas of work. Storage in other parts of the building is allowed. Contractor is responsible for the cleaning and preparation of sub floor. Contractor shall provide all necessary engineering controls and air monitoring during the work. Estimated Price Range: Between \$25,000 and \$50,000. OFFERS ARE DUE BY 12:00 NOON ET ON JUNE 5, 2020.

99 -- UTILITY SEGREGATION FOR THE SM-1A REACTOR FACILITY, FORT GREELY, ALASKA (SRCSGT)

SOL: W912DR20R0040

DUE: 061020

NAICS: 236220. The U.S. Army Corps of Engineers (USACE), Baltimore District (NAB) requests capability statements from any capable firm wishing to submit a capability statement for utility segregation for the SM-1A Reactor Facility located at Fort Greely, Alaska, NAICS code 236220 (Commercial and Institutional Building Construction), size standard \$39.5M. The anticipated contract duration will be for two years. USACE NAB has been tasked to solicit and award a firm-fixed-price construction contract for the project. Construction Magnitude is between \$10M and \$25M. By way of this sources sought notice, the USACE NAB intends to determine the extent of capable firms that are engaged in providing the services. The requirement is for a broad range of construction, demolition, post-engineering design work, and support activities related to the utility segregation of the deactivated SM-1A nuclear power plant and reactor facilities at Fort Greely, Alaska, and Doyon Utilities LLC's active plant equipment. The work requires utility segregation, construction, and demolition; hazardous waste and solid waste services, including characterization, packaging, transport and disposal in support of construction, utility segregation, and demolition; experience with large firm-fixed-price contracts and ability to handle multiple large tasks simultaneously while producing quality work within the required time and the project budget; past performance on contracts with government agencies and private industry; coordination of meetings, submissions and presentations to various local, federal, state and public stakeholders; and a wide range of other services and skill sets. CAPABILITIES STATEMENTS ARE DUE BY 11:00 AM ET ON JUNE 10, 2020. At this time, no solicitation, specifications, or drawings are available and no contract will be awarded as a result of this notice.

SOL: W911S620R0002

DUE: 062220

NAICS: 562112. The Department of the Army, Army Contracting Command, MICC Dugway Proving Ground (DPG) is issuing this sources sought synopsis as a means of conducting market research to identify parties having an interest in and the resources to support the requirement for environmental support for DPG. DPG is a remote site located about 90 miles southwest of Salt Lake City, Utah, and 40 highway miles over a mountain pass from the nearest town with services (Tooele, Utah). The Installation covers in excess of 800,000 acres, which sometimes requires the Contractor to function outdoors in isolated, high desert environments. Contractor shall operate at DPG's Central Hazardous Waste Storage Facility (CHWSF), provide related CHWSF and additional hazardous/non-regulated waste management functions, and provide regulatory compliance support for DPG Environmental Programs. These services are required to enable DPG to continue to operate under a Clean Air Act Title V Permit #4500003003 and as a State of Utah permitted hazardous waste storage facility as well as to comply with all applicable federal, state and Army requirements. Period of performance shall be a 30-day phase-in period; an 11-month base; and four 12-month option periods. Based on the responses to this notice, this requirement may be set aside for small businesses in full or in part. CAPABILITIES STATEMENTS ARE DUE BY 5:00 PM MT ON JUNE 22, 2020.

ENVIRONMENTAL SERVICES INDEFINITE DELIVERY INDEFINITE QUANTITY, SINGLE AWARD TASK ORDER CONTRACT (SRCSGT)

SOL: W9123620B5030

DUE: 062220

NAICS: 541620. This notice is posted as a market research tool to identify qualified and experienced firms interested and capable of performing the described work under NAICS code

541620 (Environmental Consulting Services). The Government also requests interested firms with other NAICS codes relevant to the required services to respond with that NAICS code and an explanation of how it could benefit the Government. The USACE Norfolk District is examining the feasibility and industry interest in executing an IDIQ single-award task-order contract (SATOC) to provide a full range of non-AE environmental services to customers of the Norfolk District. The primary performance location is Fort A.P. Hill, VA, plus alternate locations at Joint Base Langley-Eustis, VA, and Fort Lee, VA. The environmental services consist of environmental compliance, natural resources management, environmental restoration, environment conservation, pollution prevention, and real estate. Contractor shall furnish all materials, equipment, supplies, and personnel as required to perform environmental services. Period of performance is one base year and four option years. The contract maximum is anticipated to \$10M over the life of the agreement with a seed project award at the time of the IDIQ award. RESPONSES ARE DUE BY 2:00 PM ET ON JUNE 22, 2020.
