F -- DRAFT RFP- \$240M ENVIRONMENTAL REMEDIATION SERVICES (ERS) UNRESTRICTED (UNR) MATOC (SNOTE)

SOL: DRAFT RFP W9128F21R0033

DUE: 031221

NAICS: 562910. DRAFT RFP W9128F21R0033 is attached to the notice at beta.sam to describe a potential \$240M UNRESTRICTED IDIQ MATOC (multiple-award task-order contract) for environmental remediation services. The purpose of this announcement is solely to

promote early exchanges of information about a future acquisition. USACE Omaha District is requesting industry comments or concerns regarding the draft RFP. Response to this announcement is strictly voluntary and will not affect any firm or corporation's ability to submit an offer if and when a solicitation is released. A formal RFP under the same solicitation number will be released at a later date yet to be determined. Please submit any questions or comments via ProjNet as part of the Bidder inquiry via <https://www.projnet.org/projnet/> using Bidder Inquiry Key 46FS84-NIR9I3. The Government does not intend to respond to comments during this comment period although comments and concerns will be reviewed and considered in development of the final RFP. If and when a solicitation is released, another Bidder Inquiry Key will be established in which the Government will respond to Industry comments. Given that the Government anticipates releasing the solicitation on or about March 12, 2021, RESPONSES ARE DUE BEFORE 2:00 PM CT ON MARCH 12, 2021. SEE ALSO THE PRE-SOLICITATION NOTICE for the proposed contract at <https://beta.sam.gov/opp/c93c248ff9bf4602979404dc33f7356f/view>.

F -- SS/RFI: HAZARDOUS OR EXPLOSIVE MATERIAL DISPOSAL SERVICES (SRCSGT)

SOL: DEAV22421

DUE: 031221

NAICS: 562211. The Department of State (DOS), Division of Defensive Equipment and Armored Vehicles is seeking information as market research regarding disposal of hazardous or explosive material and U.S. companies capable of secure, safe, and verifiable ammunition disposal. DOS has a large inventory of ammunition and ordnance stored at a U.S. Government facility, including small-caliber ammunition, medium caliber ammunition, and grenades. These items are deemed by the storage facilities' experts as "unserviceable" for a variety of reasons, such as wet packaging, moldy packaging, damaged packaging, non-functioning, erratic functioning, and other reasons the items need to be removed from the inventory. Required qualifications (see the RFI at beta.sam for complete information) for such work include the following: (1) Contractor must own or have authorized access to a disposal facility that accepts or treats explosive hazardous wastes, as approved for this purpose by the California Department of Toxic Substances Control (DTSC). (2) Contractor must have an active valid registration from DTSC to transport hazardous waste in Virginia. (3) Before work can commence, Contractor must obtain an active valid permit from the Virginia Highway Patrol to transport explosive hazardous materials in Virginia and submit proof of such to the Department of State Project Representative. (4) Contractor must be an individual or firm currently licensed to do business in Virginia. (5) Contractor must have a business license or incorporation papers for their respective state showing that their company is in good standing in that state, if the Contractor's base of operation is located outside the State of Virginia. CAPABILITIES STATEMENTS ARE DUE BY 2:00 PM ET ON MARCH 12, 2021.

R -- R-MT - CF GANTRY CRANE ASBESTOS ABATEMENT (PRESOL)

SOL: 140R6021Q0017

NAICS: 562910. THIS PROCUREMENT WILL BE ADVERTISED AS A 100% SMALL BUSINESS SET ASIDE under NAICS code 562910, size standard \$22M. The Bureau of Reclamation anticipates awarding a Purchase Order for asbestos-jacketed conductor removal, asbestos-contaminated enclosure cleaning and asbestos-contaminated conduit cleaning. The ACMs are required to be removed by a licensed asbestos abatement contractor using appropriate asbestos abatement methods and procedures in accordance with applicable state and federal regulations. Work is located at the Canyon Ferry Dam and Powerplant approximately 17 miles east of Helena, Montana. Due to time constraints, it will be necessary to award and schedule this ACM abatement work prior to the gantry crane rehabilitation project (another pre-existing ongoing project) to ensure the abatement work does not interfere with other critical-path project milestones. The contract period for this purchase order is anticipated to be May 3, 2021, to May 3, 2022, with the on-site 5-day window for ACM abatement activities to be February 21-25, 2022. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR ABOUT MARCH 8, 2021, with responses tentatively scheduled for April 8, 2021.
