99 -- EMERGENCY HAZARDOUS MATERIALS INCIDENT RESPONSE (SRCSGT)

SOL: FA670321Q0004

DUE: 011321

NAICS: 562910. Via this sources sought, the 94th Contracting Flight, Dobbins ARB, Georgia, is conducting market research to identify potential firms that have the skills, experience, knowledge, and capabilities required to provide the personnel, equipment, tools, materials, vehicles, supervision, and other items and services necessary to respond to, mitigate, control, and clean up any environmental hazards caused by a spill, release, fire, or explosion of petroleum products (e.g., oil, aircraft fuel, diesel, gasoline, heating oil, etc.) and/or any environmental hazards caused by a spill, release of aqueous film-forming foam (AFFF), high-expansion foam from building foam suppression systems, and/or other HAZMAT as determined necessary by 94 MSG/CEV in accordance with the DRAFT performance work statement. Interested potential offerors are encouraged to review the DRAFT PWS and the Anticipated Response Scenario and provide comments and/or questions. The applicable NAICS code is 562910 (Remediation Services), small business size standard \$22M. Upon review of industry response to this notice, the Government will determine whether a set-aside acquisition is in the Government's best interest. RESPONSES ARE DUE BEFORE 3:00 PM ET ON JANUARY 13, 2021.

ASBESTOS ABATEMENT, HILL AFB UTAH (SOL)

SOL: FA8201-21-R-0004

DUE: 020821

NAICS: 562910. THIS IS A TOTAL SMALL BUSINESS SET-ASIDE. The Department of the Air Force, Hill AFB, Utah, intends to award a single IDIQ asbestos abatement contract to provide a streamlined means to complete sampling, and inspection removal activities for asbestos, lead-based paint, heavy metals, pigeon/rodent excrement, and other materials that might require abatement. The vast majority of the abatement projects will be at Hill AFB, with a small quantity of projects at Little Mountain, Utah Test and Training Range (UTTR), Dugway, Carter Creek, and other associated sites located in Utah and Pinedale, Wyoming. The Government estimates that the volume of work will be between \$500 and \$9,997,129.28 during a 5-year performance period. Task Orders may include removal and re-installation of hard walls, hard ceilings, sub-flooring, suspended drop-in ceiling systems, pipes, various insulation materials, acoustical ceilings, etc. Award of a firm-fixed-priced contract is anticipated. QUOTES ARE DUE BY 12:00 NOON MT ON FEBRUARY 8, 2021. No foreign contractors are permitted to participate at the prime contractor level.

A -- ENVIRONMENTAL SECURITY TECHNOLOGY CERTIFICATION PROGRAM (ESTCP) - ENVIRONMENTAL TECHNOLOGY DEMONSTRATIONS (SNOTE)

SOL: W912HQ21S0003

DUE: 030421

NAICS: 541715, 541330. BUSINESSES BOTH SMALL AND LARGE ARE ENCOURAGED TO RESPOND. ESTCP is interested in receiving pre-proposals for innovative technology demonstrations that address DoD environmental and installation energy requirements as candidates for funding. This notice constitutes a Broad Agency Announcement to declare ESTCP's intent to competitively fund demonstration projects as described in the Program Announcement at <https://www.serdp-estcp.org/Funding-Opportunities/ESTCP-Solicitations>. The 10 energy and environmental needs areas listed there include the following three: (1) Innovative Technology Transfer Approaches, particularly innovative approaches that clearly leverage new platforms and methodologies for reaching a broader audience; (2) Management of Impacted Groundwater, primarily innovative technologies and approaches for managing sites and the associated risks where contamination will persist for a significant period of time after an initial remedy is selected; and (3) Detection, Classification, Localization, and Remediation of Military Munitions in Underwater Environments. Applicants must submit a pre-proposal in accordance with the instructions on the website. The pre-proposal review step allows interested organizations to submit technology demonstrations for Government consideration without incurring the expense of a full proposal. Based upon the pre-proposal evaluation by ESTCP, each of the pre-proposal submitters will be notified as to whether ESTCP does or does not request submission of a full proposal. The NAICS codes are 541715 and 541330, small business size standard of 1000 employees and \$16.5M, respectively. PRE-PROPOSALS ARE DUE BY 2:00 PM ET ON MARCH 4, 2021.

MEGA SERVICE DISABLED VETERAN OWNED SMALL BUSINESS (SDVOSB) PRE-PLACE REMEDIAL ACTION CONTRACT (PRAC) (PRESOL)

SOL: W912DQ21R3001

NAICS: 562910. WHEN THE SOLICITATION IS ISSUED, IT WILL BE SET ASIDE FOR SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB) CONCERNS. This is a pre-solicitation synopsis for the pre-placed remedial action IDIQ multiple-award task-order contract (MATOC) with a target of five awardees. The maximum value for all orders issued

against the contract will be \$22.5M. Orders will be firm fixed price. The proposed contracts will support work assigned to the USACE Northwestern Division and EPA Region 2 for hazardous, toxic and radioactive waste remediation projects for both civilian and military agencies of the federal Government. Performance will include a wide range of remedial action services at hazardous and radiological waste sites. These efforts may include environmental removal actions, remedial actions, and related activities necessary to ensure complete and successful remediation. The majority of the work likely will be conducted within the USACE Northwestern Division footprint. A-E services under FAR Subpart 36.6 are not required. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR AFTER JANUARY 22, 2021.

MULTIPLE ENVIRONMENTAL GOVERNMENT ACQUISITION(MEGA) FORMERLY USED DEFENSE SITES (FUDS) MILITARY MUNITIONS RESPONSE PROGRAM (MMRP) MULTIPLE TASK ORDER AWARD (MATOC) SMALL BUSINESS SET-ASIDE (PRESOL)

SOL: W912PL21R0008

NAICS: 562910. THIS \$75M MATOC IDIQ WILL BE ISSUED AS A TOTAL SMALL BUSINESS SET-ASIDE. The MATOC period of performance shall be a five-year base period. Contract duration will not exceed five years from date of award. Task orders under this contract will be in support of the USACE Los Angeles District, primarily for the Formerly Used Defense Site Program throughout California, Nevada, Arizona, New Mexico, and Utah, but can be used for other environmental remediation projects. The first task order is expected to be for Borrego Springs in California. Firm-fixed-price Task Orders will be issued based on the requirements of the PWS at various known or suspected MMRP or HTRW sites. The acquisition will be awarded using the best value tradeoff method of source selection procedures, requesting written technical and price proposals to be submitted for evaluation. RELEASE OF THE SOLICITATION IS ANTICIPATED ON OR ABOUT FEBRUARY 8, 2021.
